[Project No. 7630-005]

#### Town of South Hill; Notice of Availability of Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission or FERC) regulations, 18 CFR part 380, Commission staff reviewed the Town of South Hill, Virginia's application for surrender of exemption from licensing for the Whittles Mill Dam Project No. 7630 and have prepared an Environmental Assessment (EA) for the proposed surrender. The Town of South Hill proposes to keep the dam, powerhouse, and associated facilities intact to serve as a historic landmark and remove other electrical and mechanical components. The impoundment would be maintained at the level of the dam, and the Town of South Hill would retain ownership and management responsibilities associated with the property. The project is located on the Meherrin River in the Town of South Hill in Mecklenburg County, Virginia. The project does not occupy federal lands.

The EA contains Commission staff's analysis of the potential environmental effects of surrendering the exemption, and concludes that the proposed amendment, with appropriate environmental protective measures, would not constitute a major federal action that would significantly affect the quality of the human environment.
