

IV. Request for Comments

Comments are invited on (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and costs) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection. They also will become a matter of public record.

Dated: November 5, 2002.

Madeleine Clayton,

Management Analyst, Office of the Chief Information Officer.

Certain Circular Welded Non-Alloy Steel Pipe from the Republic of Korea; Final Results of Changed Circumstances Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of Final Results of Changed Circumstances Antidumping Duty Administrative Review.

SUMMARY: On October 1, 2002, the Department of Commerce published a notice of preliminary results of its changed circumstances review on certain circular welded non-alloy steel pipe from Korea (see *Certain Circular Welded Non-Alloy Steel Pipe from the Republic of Korea; Preliminary Results of Changed Circumstances Review*, 67 FR 61578). We have now completed the review and determine Husteel Company, Ltd. to be the successor-in-interest to Shinho Steel Company, Ltd.

EFFECTIVE DATE: November 19, 2002.

FOR FURTHER INFORMATION CONTACT: Scott Holland, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW,

Washington, DC 20230; telephone (202) 482-1279.

SUPPLEMENTARY INFORMATION:

Applicable Statute

Unless otherwise indicated, all citations to the Tariff Act of 1930, as amended (the "Act"), are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Act by the Uruguay Round Agreements Act. In addition, unless otherwise indicated, all citations to the Department of Commerce's ("the Department") regulations are to 19 CFR Part 351 (2002).

Background:

On October 1, 2002, the Department published its preliminary results in the **Federal Register** (see *Certain Circular Welded Non-Alloy Steel Pipe from the Republic of Korea; Preliminary Results of Changed Circumstances Review*, 67 FR 61578) ("Preliminary Results"), preliminarily finding Husteel Company, Ltd. ("Husteel") to be the successor-in-interest to Shinho Steel Company, Ltd. ("Shinho"). We invited interested parties to comment on these preliminary findings. No comments were received from interested parties.

Scope of the Review

The merchandise subject to this review is circular welded non-alloy steel pipe and tube, of circular cross-section, not more than 406.4mm (16 inches) in outside diameter, regardless of wall thickness, surface finish (black, galvanized, or painted), or end finish (plain end, beveled end, threaded, or threaded and coupled). These pipes and tubes are generally known as standard pipes and tubes and are intended for the low-pressure conveyance of water, steam, natural gas, air, and other liquids and gases in plumbing and heating systems, air-conditioning units, automatic sprinkler systems, and other related uses. Standard pipe may also be used for light load-bearing applications, such as for fence tubing, and as structural pipe tubing used for framing and as support members for reconstruction or load-bearing purposes in the construction, shipbuilding, trucking, farm equipment, and other related industries. Unfinished conduit pipe is also included in this order.

All carbon-steel pipes and tubes within the physical description outlined above are included within the scope of this review except line pipe, oil country tubular goods, boiler tubing, mechanical tubing, pipe and tube hollows for redraws, finished scaffolding, and finished conduit. In accordance with the Department's *Final Negative*

Determination of Scope Inquiry on Certain Circular Welded Non-Alloy Steel Pipe and Tube from Brazil, the Republic of Korea, Mexico, and Venezuela, 61 FR 11608 (March 21, 1996), pipe certified to the API 5L line-pipe specification and pipe certified to both the API 5L line-pipe specifications and the less-stringent ASTM A-53 standard-pipe specifications, which falls within the physical parameters as outlined above, and entered as line pipe of a kind used for oil and gas pipelines is outside of the scope of the antidumping duty order.

Imports of these products are currently classifiable under the following *Harmonized Tariff Schedule* of the United States ("HTSUS") subheadings: 7306.30.10.00, 7306.30.50.25, 7306.30.50.32, 7306.30.50.40, 7306.30.50.55, 7306.30.50.85, and 7306.30.50.90. Although the HTSUS subheadings are provided for convenience and Customs Service purposes, our written description of the scope of this proceeding is dispositive.

Successorship and Final Results of Review

Because we received no comments on the preliminary results, for the reasons stated in the *Preliminary Results* and based on the facts on the record, we find Husteel to be the successor-in-interest to Shinho for antidumping duty cash deposit purposes.

Therefore, Husteel will be assigned the same cash deposit rate with respect to the subject merchandise as the predecessor company, Shinho (i.e., 2.99 percent) (see *Certain Circular Welded Non-Alloy Steel Pipe from the Republic of Korea; Amended Final Results of Antidumping Administrative Review*, 66 FR 28422 (May 23, 2001)). This cash deposit requirement will be effective upon publication of this notice of final results of changed circumstances review for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date. This cash deposit rate shall remain in effect until publication of the final results of the next administrative review involving Husteel.

This determination is issued and published in accordance with sections 751(b)(1) and 777(i)(1) of the Act and 19 CFR 351.221(c)(3).

Dated: November 12, 2002.

Richard Moreland,

Acting Assistant Secretary for Import Administration.

Glycine From the People's Republic of China: Notice of Extension of Time Limit for Preliminary Results of Antidumping Duty New Shipper Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: November 19, 2002.

FOR FURTHER INFORMATION CONTACT: Matthew Renkey or Scot Fullerton, Office of AD/CVD Enforcement VII, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington DC 20230; telephone: (202) 482-2312 or (202) 482-1386, respectively.

SUPPLEMENTARY INFORMATION:**The Applicable Statute**

Unless otherwise indicated, all citations are to the Tariff Act of 1930, as amended (the Act). In addition, unless otherwise indicated, all citations to the Department's regulations are to 19 CFR part 351 (2002).

Background

In accordance with 19 CFR § 351.214(b)(2), on March 29, 2002, the Department received the timely and properly filed request from Tianjin Tiancheng Pharmaceutical Co., Ltd. (TTPC), for a new shipper review of its exports of glycine. On May 17, 2002, the Department initiated a new shipper review of the antidumping duty order on glycine for the period of review of March 1, 2001 through February 28, 2002. (67 FR 36572)

Extension of Time Limit for Preliminary Results

Section 351.214(i)(1) of the Department's regulations requires the Department to issue preliminary results of a new shipper review within 180 days of the date of initiation. However, if the Secretary concludes that a new shipper review is extraordinarily complicated, the Secretary may extend the 180-day period to 300 days under section 351.214(i)(2) of the Department's regulations. Because of the complex nature of both TTPC's supplier relationships and its reported factors of production information, and the resultant need to gather additional information and conduct further analysis into these areas, we find this review to be extraordinarily complicated.

Accordingly, the Department is extending the time limit for the completion of the preliminary results to 300 days after the date of initiation, in accordance with section 751(a)(2)(B)(iv) of the Act and 351.214(i)(2) of the Department's regulations. The preliminary results will now be due on March 13, 2003. The final results will in turn be due 90 days after the date of issuance of the preliminary results, unless extended.

Dated: November 12, 2002.

Barbara E. Tillman,

Acting Deputy Assistant Secretary for Import Administration, Group III.

Certain Helical Spring Lock Washers From the People's Republic of China; Final Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of Final Results of Antidumping Administrative Duty Review.

SUMMARY: On July 10, 2002, the Department of Commerce published the preliminary results of the administrative review of the antidumping duty order on certain helical spring lock washers from the People's Republic of China. We gave interested parties an opportunity to comment. Based upon our analysis of the comments and information received, we have made changes to the margin calculations presented in the final results of the review. We find that helical spring lock washers from the People's Republic of China are not being sold in the United States below normal value by Hangzhou Spring Washer Company, Co. Ltd., also known as Zhejiang Wanxin Group Co., Ltd.

EFFECTIVE DATE: November 19, 2002.

FOR FURTHER INFORMATION CONTACT: Cynthia Thirumalai, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th and Constitution Avenue, N.W., Washington, D.C. 20230; telephone (202) 482-4087.

SUPPLEMENTARY INFORMATION:**The Applicable Statute**

Unless otherwise indicated, all citations to the Tariff Act of 1930, as

amended ("the Act"), are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Act by the Uruguay Round Agreements Act. In addition, unless otherwise indicated, all citations to the Department of Commerce's ("the Department") regulations are to 19 CFR Part 351 (2001).

Background

On July 10, 2002, the Department published in the **Federal Register** the preliminary results of its administrative review of helical spring lock washers ("HSLWs") from the People's Republic of China ("PRC") (*Certain Helical Spring Lock Washers from the People's Republic of China; Preliminary Results of Antidumping Duty Administrative Review*, 67 FR 45702 (July 10, 2002) ("Preliminary Results"). We received surrogate value information from the petitioner, Shakeproof Assembly Components Division of Illinois Tool Works Inc., on July 29, 2002. The petitioner submitted a case brief on August 8, 2002. Hangzhou Spring Washer Co., Ltd., also known as Zhejiang Wanxin Group Co., Ltd. ("Hangzhou"), the respondent, submitted case and rebuttal briefs on August 8, 2002 and August 13, 2002, respectively.

The Department determined that the petitioner's case brief contained new factual information and, on August 22, 2002, the Department formally requested the new factual information submitted by petitioner in its case brief. Hangzhou was asked to comment on the new information and it did so September 3, 2002.

The Department has completed the antidumping duty administrative review in accordance with section 751 of the Act.

Scope of Order

The products covered by this review are HSLWs of carbon steel, of carbon alloy steel, or of stainless steel, heat-treated or non-heat-treated, plated or non-plated, with ends that are off-line. HSLWs are designed to: (1) function as a spring to compensate for developed looseness between the component parts of a fastened assembly; (2) distribute the load over a larger area for screws or bolts; and, (3) provide a hardened bearing surface. The scope does not include internal or external tooth washers, nor does it include spring lock washers made of other metals, such as copper.

HSLWs subject to this review are currently classifiable under subheading 7318.21.0030 of the *Harmonized Tariff Schedule of the United States*
