SUPPLEMENTARY INFORMATION: The Huron-Manistee National Forests' Old Growth Settlement Agreement Environmental Assessment Amendment proposes to: designate approximately 173,000 acres of old growth; manage old growth primarily by natural processes and where necessary perform old growth restoration activities; establish forest-wide aquatic and riparian standards and guidelines; and designate approximately 10,500 acres of semiprimitive areas in Loda Lake, Condon Lakes East, and Condon Lakes West. This proposal is a minor amendment to the Huron-Manistee National Forests' Land and Resource Management Plan. This is a non-significant amendment.

Public involvement was an important part of the decision-making process for this proposal. On June 10, 1999, the Forests started scoping with the mailing of letters to interested parties and a news release to the local newspapers. A public old growth meeting was held on August 17, 1999. An old growth update was mailed to interested publics on November 20, 2000. The Forests are notifying interested publics of the availability of the environmental

assessment. The Forest Service is an equal opportunity organization.

Dated: February 28, 2001.
