

requirements in the application package and reference these and other requirements in the *Applicable Regulations* section in this notice.

We reference the regulations outlining the terms and conditions of an award in the *Applicable Regulations* section in this notice and include these and other specific conditions in the GAN. The GAN also incorporates your approved application as part of your binding commitments under the Center grant.

3. *Reporting.* (a) At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive a multi-year award, you must submit an annual performance report that provides the most current performance and financial expenditure information as directed by the Secretary under 34 CFR 75.118. The Secretary may also require more frequent performance reports under 34 CFR 75.720(c). For specific requirements on reporting, please go to <http://www.ed.gov/fund/grant/apply/appforms/appforms.html>.

(b) In addition, the Center must submit to the Secretary the following reports:

(1) Monthly exception reports that describe—

(i) Any problems, delays, or adverse conditions that materially impair the ability of the Center to accomplish its purposes, along with an explanation of any action taken or contemplated to resolve the difficulties; and

(ii) Any favorable developments that will permit the Center to accomplish its purposes sooner, at less cost, or more effectively than projected.

(2) Semi-annual performance reports.

(3) During the first 10 months of the project, financial status reports within 30 days of the 90th day, 180th day, and 270th day of the project period.

(4) Three printed copies and one electronic copy (pdf) of all substantive reports and products.

(5) An interim evaluation report in the third year of the project period and a final evaluation report in the fifth year of the project period.

(6) An annual report on the GPRA measures identified in the *Performance Measures* section of this notice.

(c) The Center must annually prepare a report of the key research findings of the Center and submit copies of the report to the Secretary, the relevant committees of Congress, the Library of Congress, and each "eligible agency," as defined in section 3(12) of the Act.

4. *Performance Measures:* Under GPRA, Federal departments and agencies must clearly describe the goals and objectives of programs, identify

resources and actions needed to accomplish goals and objectives, develop a means of measuring progress made, and regularly report on achievement. One important source of program information on successes and lessons learned is the project evaluation conducted under individual grants. In evaluating the overall effectiveness of the Center, the Center must also be prepared to measure and report annually on the following measures of effectiveness:

a. The percentage of scientifically based research studies conducted by the Center that are of high relevance to career and technical education practices as determined by expert panels.

b. The percentage of products (e.g., instructional approaches, methods, programs, models, and strategies) disseminated to practitioners by the Center that are judged by expert panels to be of high quality.

c. The percentage of technical assistance services that are judged by target audiences to be of high usefulness to educational policy or practice.

What Information Is EPA Particularly Interested in?

Pursuant to section 3506(c)(2)(A) of the PRA, EPA specifically solicits comments and information to enable it to:

- (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;
- (ii) Evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- (iii) Enhance the quality, utility, and clarity of the information to be collected; and
- (iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. In particular, EPA is requesting comments from very small businesses (those that employ less than 25) on examples of specific additional efforts that EPA could make to reduce the paperwork burden for very small businesses affected by this collection.

What Should I Consider When I Prepare My Comments for EPA?

You may find the following suggestions helpful for preparing your comments:

1. Explain your views as clearly as possible and provide specific examples.
2. Describe any assumptions that you used.
3. Provide copies of any technical information and/or data you used that support your views.
4. If you estimate potential burden or costs, explain how you arrived at the estimate that you provide.
5. Offer alternative ways to improve the collection activity.
6. Make sure to submit your comments by the deadline identified under DATES.

7. To ensure proper receipt by EPA, be sure to identify the docket ID number assigned to this action in the subject line on the first page of your response. You may also provide the name, date, and **Federal Register** citation.

The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The ICR provides a detailed explanation of the Agency's estimate, which is only briefly summarized here:

Estimated total number of potential respondents: 8,170.

Frequency of response: On occasion.

Estimated total average number of responses for each respondent: 1.

Estimated total annual burden hours: 668,574 hours.

Estimated total annual costs: \$4,384,000. This includes an estimated burden cost of \$4,164,000 for labor, and an estimated cost of \$220,000 for capital investment and maintenance and operational costs.

What Is the Next Step in the Process for This ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.
