I. Abstract

This request is for extension of a current information collection.

The Western Alaska Community Development Quota (CDQ) Program is an economic development program implemented under the Magnuson Stevens Fishery Conservation and Management Act, the Fishery Management Plan for the Groundfish Fishery of the Bering Sea and Aleutian Islands, and regulations at 50 CFR part 679. The purpose of the program is to provide western Alaska communities the opportunity to participate and invest in Bering Sea and Aleutian Islands Management Area fisheries, to support economic development in western Alaska, to alleviate poverty and provide economic and social benefits for residents of western Alaska, and to achieve sustainable and diversified local economies in western Alaska.

CDQ and prohibited species quota (PSQ) allocations are made to CDQ groups. However, in many cases the CDQ groups contract with existing fishing vessels and processors to harvest CDQ on their behalf. The CDQ group is responsible to monitor the catch of CDQ and PSQ by all vessels fishing under its Community Development Plan and to take the necessary action to prevent overages. National Marine Fisheries Service monitors the reported catch to assure that quotas are not being exceeded. Information is collected only through quota transfers in this collection.
