[Docket No. NHTSA-2004-17539; Notice 2]

Delphi Corporation, Grant of Petition for Decision of Inconsequential Noncompliance

Delphi Corporation (Delphi), has determined that at least one of the fittings on the ends of certain brake hose assemblies that it produced between January 2001 and February 2004 do not comply with S5.2.4 and S5.2.4.1 of 49 CFR 571.106, Federal Motor Vehicle Safety Standard (FMVSS) No. 106, "Brake hoses." Pursuant to 49 U.S.C. 30118(d) and 30120(h), Delphi has petitioned for a determination that this noncompliance is inconsequential to motor vehicle safety and has filed an appropriate report pursuant to 49 CFR part 573, "Defect and Noncompliance Reports." Notice of receipt of the petition was published, with a 30 day comment period, on April 20, 2004 in the **Federal Register** (69 FR 21186). NHTSA received no comments.

Delphi produced approximately 1534 aftermarket brake hose assemblies between January 2001 and February 2004 that did not have the manufacturer's logo embossed on the fitting. S5.2.4 requires that:

Each hydraulic brake hose assembly, except those sold as part of a motor vehicle, shall be labeled by means of a band around the brake hose assembly as specified in this paragraph or, at the option of the manufacturer, by means of labeling as specified in S5.2.4.1.

S5.2.4.1 states that:
