SUPPLEMENTARY INFORMATION: The Distribution of Characteristics of the Insured Unemployed Report, Form ETA–203, is a once a month snapshot of the demographic composition of the claimant population. The information is based in each State on the universe or a sample of those who file a claim in the week containing the 19th of the month, which reflects unemployment experienced during the week containing the 12th. This corresponds with the Current Population Survey sample week used by the Bureau of Labor Statistics. Aggregate data is collected on the items gender, race/ethnic group, age, industry, and occupation. This report is the only source of current, consistent demographic information (age, race/ethnic, sex, occupation, industry) on the Unemployment Insurance (UI) claimant population. These characteristics identify important claimant cohorts for legislative, economic and social planning purposes, and evaluation of

the UI program on the Federal and State levels.

NUCLEAR REGULATORY COMMISSION

[Docket No. 50–133; NRC–2012–0288]

Environmental Assessment and Finding of No Significant Impact Related to Exemption From the Implementation Deadline for Certain New Emergency Preparedness Regulations for the Humboldt Bay Power Plant, Unit No. 3, License DPR–007, Eureka, CA

AGENCY: Nuclear Regulatory Commission.

ACTION: Environmental assessment and finding of no significant impact; issuance.

FOR FURTHER INFORMATION CONTACT: John Hickman, Division of Waste Management and Environmental Protection, Office of Federal and State Materials and Environmental Management Programs; U.S. Nuclear Regulatory Commission, Mail Stop: T8F5, Washington, DC 20555–00001; telephone: 301–415–3017; email: John.Hickman@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

The U.S. Nuclear Regulatory Commission (NRC) is considering a request dated June 19, 2012, by Pacific Gas and Electric Company (PG&E, the licensee) for a schedular exemption which would extend the date for implementing portions of the Final Rule for Enhancements to Emergency Preparedness Regulations (Final Rule) from June 20, 2012 to September 20, 2012.

This Environmental Assessment (EA) has been developed in accordance with the requirements of section 51.21 of Title 10 of the *Code of Federal Regulations* (10 CFR).

II. Environmental Assessment

Identification of Proposed Action

On July 2, 1976, Humboldt Bay Power Plant (HBPP) Unit 3 was shut down for annual refueling and to conduct seismic modifications. The unit was never restarted. In 1983, updated economic analyses indicated that restarting Unit 3 would probably not be cost-effective, and in June 1983, PG&E announced its intention to decommission the unit. On July 16, 1985, the NRC issued Amendment No. 19 to the HBPP Unit 3 Operating License to change the status to possess-but-not-operate (Agencywide Documents Access and Management System (ADAMS) Accession No. ML8507260045). In December of 2008, the transfer of spent fuel from the fuel storage pool to the dry-cask Independent Spent Fuel Storage Installation (ISFSI) was completed, and the decontamination and dismantlement phase of HBPP Unit 3 decommissioning commenced. Active decommissioning is currently underway.

The NRC issued the Final Rule in the **Federal Register** on November 23, 2011 (76 FR 72560). The Final Rule amends certain emergency preparedness (EP) requirements in the regulations. The amended requirements enhance the ability of licensees in preparing to take and taking certain EP and protective measures in the event of a radiological emergency; address, in part, security issues identified after the terrorist events of September 11, 2001; clarify regulations to effect consistent emergency plan implementation among licensees; and modify certain EP requirements to be more effective and efficient. Certain portions of the Final Rule are required to be implemented by June 20, 2012, while other portions of the Final Rule have later implementation dates. The PG&E is requesting the schedular exemption to allow sufficient time to evaluate the Final Rule and to implement provisions, as necessary. The proposed exemption would provide only temporary relief from the applicable regulation. Specifically, PG&E requests exemptions from meeting the implementation deadline for the following revised requirements:
