

(curriculum, orientation and wrap-up sessions, program meetings, and resource materials).

5. Institutional Capacity

Proposed personnel and institutional resources should be adequate and appropriate to achieve the program or project's goals. Coordinator responsible for curriculum, materials development and instruction should demonstrate relevant ESL/U.S. culture teaching experience and qualifications. Disability resource specialist(s) should have appropriate background and experience, and proposal must ensure that students with disabilities will be provided with adequate supports and reasonable accommodations.

6. Institution's Record/Ability

Proposals should demonstrate an institutional record of successful language/culture programs, including responsible fiscal management and full compliance with all reporting requirements for past Bureau grants as determined by Bureau Grant Staff. The Bureau will consider the past performance of prior recipients and the demonstrated potential of new applicants.

7. Project Evaluation

Proposals should include a plan to evaluate the program's success, both as the activities unfold and at the end of the program. A draft survey questionnaire, tests, or other techniques plus description of a methodology to use to link outcomes to original project objectives is recommended. Successful applicant will be expected to submit a final report after project is concluded.

8. Cost-effectiveness/Cost-sharing

The overhead and administrative components of the proposal, including salaries and honoraria, should be kept as low as possible. All other items should be necessary and appropriate. Proposals should maximize cost-sharing through other private sector support as well as institutional direct funding contributions.

Authority

Overall grant making authority for this program is contained in the Mutual Educational and Cultural Exchange Act of 1961, Public Law 87-256, as amended, also known as the Fulbright-Hays Act. The purpose of the Act is "to enable the Government of the United States to increase mutual understanding between the people of the United States and the people of other countries * * *; to strengthen the ties which unite us with other nations by demonstrating the

educational and cultural interests, developments, and achievements of the people of the United States and other nations * * * and thus to assist in the development of friendly, sympathetic and peaceful relations between the United States and the other countries of the world." The funding authority for the program above is provided through legislation appropriating funds annually for Department of State's exchange programs.

Notice

The terms and conditions published in this RFGP are binding and may not be modified by any Bureau representative. Explanatory information provided by the Bureau that contradicts published language will not be binding. Issuance of the RFP does not constitute an award commitment on the part of the Government. The Bureau reserves the right to reduce, revise, or increase proposal budgets in accordance with the needs of the program and the availability of funds. Awards made will be subject to periodic reporting and evaluation requirements.

Notification

Final awards cannot be made until funds have been appropriated by Congress, allocated and committed through internal Bureau procedures.

Dated: August 17, 2001.

Helena Kane Finn,

Acting Assistant Secretary for Educational and Cultural Affairs, Department of State.

Federal Aviation Administration

Advisory Circular; Compliance Criteria for 14 CFR 33.28, Aircraft Engines, Electrical and Electronic Engine Control Systems

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice of availability of advisory circular (AC) No. 33.28-1, Compliance Criteria for 14 CFR 33.28, Aircraft Engines, Electrical and Electronic Engine Control Systems.

SUMMARY: The Federal Aviation Administration (FAA) announces the availability of AC No. 33.28-1, Compliance Criteria for 14 CFR 33.28, Aircraft Engines, Electrical and Electronic Engine Control Systems.

DATES: The Engine and Propeller Directorate, Aircraft Certification Service, issued AC 33.28-1 on June 29, 2001.

FOR FURTHER INFORMATION CONTACT: Gary Horan, Engine and Propeller Standards Staff, ANE-110, 12 New England Executive Park, Burlington, MA 01803; telephone: (781) 238-7164; fax: (781) 238-7199; e-mail: gary.horan@faa.gov. The subject AC is available on the Internet at the following address: www.airweb.faa.gov/rgl.

SUPPLEMENTARY INFORMATION: The FAA published a notice in the **Federal Register** on January 26, 2000 (65 FR 4296) to announce the availability of the proposed AC and invite interested parties to comment. The FAA has carefully considered all comments received.

Background

This AC provides guidance material for methods of complying with § 33.28, Electrical and Electronic Control (EEC) Systems. Initially, EEC technology was primarily applied to engines designed for large transport aircraft applications; the certification practice and implementation of § 33.28 was oriented toward these applications. When the use of EEC technology was limited to a small group of manufacturers, the information and guidance provided in the rule itself was adequate. However, because the use of EEC controls has spread, the need for additional advisory material has become evident in several recent engine certification programs.
