SUPPLEMENTARY INFORMATION:

I. Abstract

This is a request to renew OMB control number 2700-0092. This collection is required to ensure proper accounting of Federal funds and property provided under financial assistance awards (grants and cooperative agreements) per 2 CFR 200—Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. 2 CFR 200, Subparts A through F, applies to all NASA award recipients except for for-profit organizations. Only Subparts A through D of 2 CFR 200 apply to for-profit organizations. Reporting and recordkeeping are prescribed at 2 CFR part 1800—Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards. The requirements in 2 CFR part 1800 are applicable to awards that NASA issues to non-Federal entities, government, for-profit organization, and foreign organizations as allowed by 2 CFR 200.101, Applicability.

II. Methods of Collection

Grant and cooperative agreement proposals are submitted electronically through the NASA Solicitation and Proposal Integrated Review and Evaluation System (NSPIRES) or Grants.gov. The use of these systems reduces the need for proposers to submit multiple copies to the agency. Proposers may submit multiple proposals and notices of intent to different funding announcements

without registering in NSPIRES each time.

Basis of Estimate

Approximately 7000 NASA financial assistance awards are open at any one time. It is estimated that out of the 9,900 proposals received each year, NASA awards approximately 1,977 new awards. The period of performance for each financial assistance award is usually three to five years. Performance reports are filed annually, and historical records indicate that, on average, 1,625 changes to these reports are submitted annually. The total number of respondents is based on the average number of proposals that are received each year and the average number of active grants and cooperative agreements that are managed each year. The total number of hours spent on each task was estimated through historical records and experience of former recipients. Using past calculations, the total cost was estimated using the average salary (wages and benefits) for a GS-12 step 5.

III. Data

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[NOTICE: 22-101]

Name of Information Collection: NASA STEM Gateway (Universal Registration and Data Management System)

AGENCY: National Aeronautics and Space Administration (NASA).

ACTION: Notice of information collection—Extension of a currently approved collection.

SUMMARY: The National Aeronautics and Space Administration, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections.

DATES: Comments are due by January 30, 2023.

ADDRESSES: Written comments and recommendations for this information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain.

Find this particular information collection by selecting “Currently under 30-day Review-Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT:

Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to Bill Edwards-Bodmer, NASA Clearance Officer, NASA Headquarters, 300 E Street SW, JF0000, Washington, DC 20546, call 757-864-3292, or email b.edwards-bodmer@nasa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

Based on user feedback provided during the initial release of the NASA STEM Gateway (Universal Registration and Data Management System), NASA plans to develop updates/enhancements to improve information collected and the overall user experience in the NASA STEM Gateway. The NASA STEM Gateway (Universal Registration and Data Management System) is a

comprehensive tool designed to allow learners (*i.e.*, students, educators, and awardee principal investigators) to apply to NASA STEM engagement opportunities (*e.g.*, internships, fellowships, challenges, educator professional development, experiential learning activities, etc.) in a single location. NASA personnel manage the selection of applicants and implementation of engagement opportunities within the NASA STEM Gateway. The information collected will be used by the NASA Office of STEM Engagement (OSTEM) and other NASA offices to review applications for participation in NASA STEM engagement opportunities. The information is reviewed by OSTEM project and activity managers, as well as NASA mentors who would be hosting students. This information collection will consist of student-level data such as demographic information submitted as part of the application. In addition to supporting student selection, student-level data will enable NASA OSTEM to fulfill federally mandated reporting on its STEM engagement activities and report relevant demographic information as needed for Agency performance goals and success criteria (annual performance indicators).

II. Methods of Collection:

Online/Web-based.

III. Data
