(2) The alternate test procedure for the Signify basic models referenced in paragraph (1) of this Order is the test procedure for illuminated exit sign prescribed by DOE at 10 CFR part 431, subpart L, with the exception of the following instructions in place of 10 CFR 431.204(b): Determine the energy efficiency of each combination illuminated exit sign unit under test ("combination unit") by conducting the test procedure, as follows:

(i) Identify a unit of a non-combination illuminated exit sign ("non-combination unit") equivalent to the combination unit. A non-combination unit is equivalent only if it consists entirely of electricity-consuming components identical to all of those of the combination unit, but does not include any auxiliary features, and contains an electrically connected battery. The equivalent non-combination unit must also have the same manufacturer and number of faces as the combination unit.

(ii) Test the equivalent non-combination unit using the DOE test procedure at 10 CFR part 431, subpart L.

(iii) Assign the measured input power demand of the non-combination unit as the input power demand of the combination unit.

(3) *Representations.* Signify may not make representations about the energy use of the basic models listed in paragraph (1) of this Order for compliance, marketing, or other purposes unless the basic model has been tested in accordance with the provisions of paragraph (2) of this Order and such representations fairly disclose the results of such testing.

(4) This waiver shall remain in effect according to the provisions of 10 CFR 431.401.

(5) This waiver is issued on the condition that the statements, representations, and documents provided by Signify are valid. If Signify makes any modifications to the controls or configurations of a basic model referenced in paragraph (1) of this Order, the waiver will no longer be valid for that basic model and Signify will either be required to use the current Federal test method or submit a new application for a test procedure waiver. DOE may rescind or modify this waiver

at any time if it determines that the factual basis underlying the petition for waiver is incorrect, or the results from the alternate test procedure are unrepresentative of the basic models' true energy consumption characteristics. 10 CFR 431.401(k)(1). Likewise, Signify may request that DOE rescind or modify the waiver if Signify discovers an error in the information provided to DOE as part of its petition, determines that the waiver is no longer needed, or for other appropriate reasons. 10 CFR 431.401(k)(2).

(6) Signify remains obligated to fulfill the certification requirements set forth at 10 CFR part 429.

Signed in Washington, DC, on January 17, 2020.

Alexander N. Fitzsimmons,

Acting Deputy Assistant Secretary for Energy Efficiency Energy Efficiency and Renewable Energy.
