NUCLEAR REGULATORY COMMISSION

Notice of Intent To Prepare a Draft Supplement to the Generic Environmental Impact Statement on Decommissioning of Nuclear Facilities and To Hold a Public Meeting for the Purpose of Scoping and To Solicit Public Input Into the Process

Notice is hereby given that the U. S. Nuclear Regulatory Commission (NRC, the Commission) intends to prepare a draft supplement to the Final Generic Environmental Impact Statement (GEIS) on Decommissioning of Nuclear

Facilities (NUREG–0586, August 1988) and to hold public scoping meetings for the purpose of soliciting comments. Although NUREG–0586 covered all NRC-licensed facilities, this supplement will address only the decommissioning of nuclear power reactors.

The NRC will hold a public scoping meeting on April 27, 2000, at the Radisson Hotel Lisle-Naperville (telephone: 630–505–1000), 3000 Warrenville Road, Lisle, Illinois 60532–3665, to present an overview of the proposed supplement to the GEIS and to accept public comment on its proposal. The public scoping meeting will begin at 7:00 p.m. and continue to 10:00 p.m.

The meeting will be transcribed and will include (1) A presentation by the NRC staff on the reasons for preparing a supplement to the GEIS and the environmental issues related to power reactor decommissioning to be addressed in the GEIS, and (2) the opportunity for interested government agencies, private organizations, and individuals to provide comments. Anyone wishing to attend or present oral comments at this meeting may preregister by contacting Mr. Dino C. Scaletti by telephone at 1–800–368–5642, extension 1104, or by Internet to the NRC at DGEIS@nrc.gov, 1 week prior to a specific meeting. Members of the public may also register to provide oral comments up to 15 minutes prior to the start of each meeting. Individual oral comments may be limited by the time available, depending on the number of persons who register. If special equipment or accommodations are needed to attend or present information at the public meeting, the need should be brought to Mr. Scaletti's attention no later than 1 week prior to a specific meeting, so that the NRC staff can determine whether the request can be accommodated.

Any interested party may submit comments related to the NRC's intent to supplement the GEIS for consideration by the NRC staff. To be certain of consideration, comments on the intent to prepare the supplement must be received by July 15, 2000. Comments received after the due date will be considered if it is practical to do so. At this time, comments are being sought only on the intent to prepare the supplement. The NRC staff currently projects issuance of the draft supplement for comment in early 2001. Comments on the draft supplement will be solicited at that time. Written comments should be sent to Chief, Rules and Directives Branch, Division of Administrative Services, Mail Stop T–6 D59, U.S. Nuclear Regulatory
