

Paperwork Reduction Act

This rulemaking is not subject to the requirements of the Paperwork Reduction Act of 1995 (44 U.S.C. 301 *et seq.*) because it does not contain "collection of information" requirements as defined in 44 U.S.C. 3502(3). Accordingly, this interim final rule is not being submitted to the OMB for review under the Paperwork Reduction Act.

Congressional Review Act

The interim final rule being issued here is subject to the provisions of the Congressional Review Act provisions of the Small Business Regulatory Enforcement Fairness Act of 1996 (5 U.S.C. 801 *et seq.*) and will be transmitted to Congress and the Comptroller General for review. The interim final rule is not a "major rule" as that term is defined in 5 U.S.C. 804, because it does not result in (1) an annual effect on the economy of \$100 million or more; (2) a major increase in costs or prices for consumers, individual industries, or Federal, State, or local government agencies, or geographic regions; or (3) significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic and export markets.

Unfunded Mandates Reform Act

For purposes of the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4), the interim final rule does not include any Federal mandate that may result in expenditures by State, local, or tribal governments, or impose an annual burden exceeding \$100 million on the private sector.

Federalism Statement

Executive Order 13132 (August 4, 1999) outlines fundamental principles of federalism and requires Federal agencies to adhere to specific criteria in the process of their formulation and implementation of policies that have substantial direct effects on the States, the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. This interim final rule does not have federalism implications because it has no substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Section 514 of ERISA provides, with certain exceptions

specifically enumerated, that the provisions of Titles I and IV of ERISA supersede any and all laws of the States as they relate to any employee benefit plan covered under ERISA. The requirements implemented in the interim rule do not alter the fundamental provisions of the statute with respect to employee benefit plans, and as such would have no implications for the States or the relationship or distribution of power between the national government and the States.
