Title: 2024–2025 National School Foods Study.

OMB Control Number: 0584–NEW.

Summary of Collection: This new information collection request is for the 2024–2025 National School Foods Study, which consists of three components: School Nutrition and Meal Cost Study–II (SNMCS–II) (OMB Control Number 0584–0648, expired 9/30/2022), School Food Purchase Study (SFPS–IV) (OMB Control Number 0584–0471, expired 3/31/2012). Later, a reinstatement with changes of a previously approved collection was submitted for SFPS–IV but withdrawn on 6/11/2021, and an evaluation of the Fresh Fruit and Vegetable Program (FFVP) (OMB Control Number 0584–0556, expired 06/30/2013).

The school meal programs administered by the Food and Nutrition Service (FNS) of the United States Department of Agriculture (USDA) are a cornerstone of the nation's nutrition safety net for low-income children. The

2024–2025 National School Foods Study continues the long-standing commitment of FNS to periodically assess the NSLP and SBP as well as the FFVP. It will provide a comprehensive picture of these programs in SY 2024–2025.

The Healthy, Hunger-Free Kids Act of 2010 (HHFKA) mandated substantial changes to the nutrition standards for school meals. These changes were implemented beginning in SY 2012–2013. The goal of the updated standards was to increase the alignment of school meals with the Dietary Guidelines for Americans and current information about the nutrient requirements of school-age children (Institute of Medicine 2010). Key reforms stemming from this legislation included new, more stringent meal pattern and nutrient requirements for school meals, new offer-versus-serve rules, gradually increased prices for paid meals, and the introduction of standards for competitive foods, called the Smart Snacks in School nutrition standards.

Need and Use of the Information: The study will collect a broad range of data from nationally representative samples of public SFAs and their State Distributing Agencies (SDA), schools, students, and parents/guardians during SY 2024–2025 in the 48 contiguous States and DC. These data will provide needed information about how federally sponsored school meal programs are operating over the 10 years following implementation of major reforms, including new nutrition standards that went into effect in SY 2012–2013 and more recent changes that will be in effect during SY 2024–2025.

Food and Nutrition Service

Title: Report of Commodity Distribution for Disaster Relief (FNS–292A) And Report Of Disaster Supplemental Nutrition Assistance Program Benefit Issuance (FNS–292B).

OMB Control Number: 0584–0037.

Summary of Collection: State distributing agencies may release commodity or donated foods procured by the United States Department of Agriculture (USDA) to disaster organizations to provide nutritional assistance to disaster victims. Under the Code of Federal Regulations (CFR) at 7 CFR 250.69(f), a State distributing agency, including an Indian Tribal Organization (ITO) administering FNS programs, must submit its final FNS–292A to FNS within 45 days of terminating disaster operations, and under 7 CFR 250.19 (a)(b), must maintain a record of this form for three years.

State agencies may operate a Disaster Supplemental Nutrition Assistance Program (D–SNAP), a separate program

from the Supplemental Nutrition Assistance Program (SNAP) to address the temporary food needs of applicants in an affected area of a State that has received a Presidential declaration of Major Disaster with Individual Assistance. According to FNS's D-SNAP Guidance handbook, a State agency must submit its final FNS-292B to FNS within 45 days of terminating D-SNAP operations, and under 7 CFR 250.19 272.1(f), must maintain a record of this form for three years.

Report of Commodity Distribution for Disaster Relief: Form FNS-292A, *Report of Commodity Distribution for Disaster Relief*, is used by State distributing agencies and ITOs administering the Food Distribution Program on Indian Reservations (FDPIR). State distributing agencies and ITOs use this form to provide a summary report to FNS following termination of disaster commodity assistance and to request replacement of donated foods distributed during the disaster or situation of distress. State distributing agencies and ITOS must provide this form to FNS within 45 days following termination of the disaster assistance and maintain records of this form for three years.

Form FNS-292B, *Report of Disaster Supplemental Nutrition Assistance Benefit Issuance*, is used by State agencies that administer D-SNAP. This form is used by State agencies to report to FNS the number of households and persons certified for Disaster Supplemental Nutrition Assistance Program (D-SNAP) benefits as well as the value of benefits issued. If approved to operate D-SNAP by FNS, a State agency must submit this form to FNS within 45 days of terminating D-SNAP operations, and maintain records of this form for three years.

Retention and Custody of Records. Distributing agencies, recipient agencies, processors, and other entities must maintain records of agreements and contracts, reports, audits, and claim actions, funds obtained as an incident of donated food distribution, and other records specifically required in this part or in other Departmental regulations, as applicable. In addition, distributing agencies must keep a record of the value of donated foods each of its school food authorities receives, in accordance with § 250.58(e), and records to demonstrate compliance with the professional standards for distributing agency directors established in § 235.11(g) of this chapter. Specific recordkeeping requirements relating to the use of donated foods in contracts with food service management companies are included in § 250.54. Failure of the

distributing agency, recipient agency, processor, or other entity to comply with recordkeeping requirements must be considered prima facie evidence of improper distribution or loss of donated foods and may result in a claim against such party for the loss or misuse of donated foods, in accordance with § 250.16, or in other sanctions or corrective actions. Records relating to requirements for donated foods must be retained for a period of three years from the close of the fiscal or school year to which they pertain. However, records pertaining to claims or audits that remain unresolved in this period of time must be retained until such actions have been resolved.

Need and Use of the Information: The distributing agency must report to FNS the number and location of sites where donated foods are used in congregate meals or household distribution as these sites are established. The distributing agency must also report the types and amounts of donated foods from distributing or recipient agency storage facilities used in disaster assistance, utilizing form FNS-292A, *Report of Commodity Distribution for Disaster Relief*, which must be submitted electronically, within 45 days from the termination of disaster assistance. This form must also be used to request replacement of donated foods, in accordance with paragraph (g) of this section. The distributing agency must maintain records of reports and other information relating to disasters.

If the issuance of D-SNAP benefits has been approved, the distributing agency must ensure that the disaster organization obtains the information in § 250.69(d) from households receiving donated foods and reports such information to the distributing agency.
