**SUMMARY:** This notice announces the availability of objections filed with respect to the establishment and increase of various pyraclostrobin tolerances under section 408 of the Federal Food, Drug, and Cosmetic Act (FFDCA). The objections were filed on June 5, 2006 by the Natural Resources Defense Council (NRDC). NRDC's objections assert that EPA unlawfully removed the additional 10X safety factor for the protection of infants and

children. you mail to EPA, mark the outside of the disk or CD ROM as CBI and then identify electronically within the disk or CD ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

##### II. Background

###### A. What Action is the Agency Taking?

On June 5, 2006, the NRDC filed objections to a final rule establishing several new pesticide tolerances and increasing several existing tolerances for pyraclostrobin. 71 FR 17014 (April 5, 2006). Pesticide tolerances are established under section 408 of the FFDCA, 21 USC 346a. The new tolerances were for bean, succulent, shelled; legume vegetables group, foliage, in crop group 7; mango (import); and papaya (import). Tolerances were increased for almond, hulls; pea and bean, dried shelled, except soybean, subgroup 6C; and strawberry.

NRDC's objections assert that EPA unlawfully removed the additional 10X safety factor for the protection of infants and children. Additionally NRDC claims that EPA's action was arbitrary

and capricious for failure to provide an inadequate explanation for its decision on the children's safety factor and because EPA never received information EPA deemed necessary to its review of the pesticide.

Because the issues raised by NRDC concern matters of great interest not just to NRDC but to growers, food distributors and processors, and pesticide manufacturers as well as members of the public, EPA believes it decision-making will be enhanced by obtaining the views of all affected parties. For that reason, EPA is publishing this notice of availability of NRDC's objections and requesting comment on the objections. The objections are available in the OPP Regulatory Public Docket under the docket for the tolerance rules in question: OPP-2004-0292. The OPP Regulatory Public Docket is physically located at the address included in the **ADDRESSES** section above. The dockets for these rulemakings are also available online in the Federal Government's electronic docket at [www.regulations.gov](http://www.regulations.gov).

###### B. What is the Agency's Authority for Taking this Action?

Under section 408(g)(2)(A) of the FFDCA, any person may file objections with EPA within 60 days of issuance of a final tolerance regulation, 21 U.S.C. 346a(g)(2). Such person may also request a public evidentiary hearing on the objections; however, NRDC has not requested such a hearing. Under EPA regulations, EPA must publish an order setting forth its determination on each of NRDC's objections, 40 CFR 178.37(a). Such order must contain EPA's reasons for its determination, 40 CFR 178.37(b). If based on the objections EPA determines that the tolerance regulation should be modified or revoked, EPA will publish by order any revisions to the regulation, 21 U.S.C. 346a(g)(2)(C); 40 CFR 178.35.
