

requirements covered by 40 CFR part 761.

To meet its statutory obligations to regulate PCBs, EPA must obtain sufficient information to conclude that specified activities do not result in an unreasonable risk of injury to health or the environment. EPA uses the information collected under the 40 CFR part 761 requirements to ensure that PCBs are managed in an environmentally safe manner and that activities are being conducted in compliance with the PCB regulations. The information collected by these requirements will update the Agency's knowledge of ongoing PCB activities, ensure that individuals using or disposing of PCBs are held accountable for their activities, and demonstrate compliance with the PCB regulations. Specific uses of the information collected include determining the efficacy of a disposal technology; evaluating exemption requests and exclusion notices; targeting compliance inspections; and ensuring adequate storage capacity for PCB waste.

Responses to the collection of information are mandatory (*see* 40 CFR part 761). Respondents may claim all or part of a notice as CBI. EPA will disclose information that is covered by a CBI claim only to the extent permitted by, and in accordance with, the procedures in 40 CFR part 2.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register**, are listed in 40 CFR part 9 and included on the related collection instrument or form, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average about 1 hour per response. Burden means the total time, effort or financial resources expended by persons to generate, maintain, retain or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install and utilize technology and systems for the purposes of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of

information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Persons who currently possess PCB Items, PCB-contaminated equipment, or other PCB waste.

Frequency of Collection: On occasion.

Estimated No. of Respondents: 814,120.

Estimated Total Annual Burden on Respondents: 824,778 hours.

Estimated Total Annual Costs: \$23,005,750.

Changes in Burden Estimates: This request reflects an increase of 83,517 hours (from 741,261 hours to 824,778 hours) in the total estimated respondent burden from that currently in the OMB inventory. This increase is due to revisions to the total number of respondents. In some cases, the total number of respondents was based on number of facilities, in other cases, the total number of respondents was calculated by estimating the total number of pieces of equipment that respondents must monitor for a particular requirement. These burden changes were the result of new data gathered for this ICR renewal as well as a recent PCB regulatory analysis, estimate adjustments made for consistency with a recent Agency report, and updated Agency data regarding total numbers of regulated entities. The change in burden represents an adjustment.

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. The **Federal Register** document, required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on August 27, 2004 (69 FR 52664). EPA received one comment in response to that notice during the 60-day comment period and has addressed it in the ICR.

EPA has established a public docket for this ICR under Docket ID No. OPP-2004-0252, which is available for public viewing at the Public Information and Records Integrity Branch (PIRIB), Rm. 119, Crystal Mall #2, 1801 Bell St., Arlington, VA. This docket facility is open from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The docket telephone number is (703) 305-5805. An electronic version of the public docket is available through EPA Dockets (EDOCKET) at <http://www.epa.gov/edocket>. Use EDOCKET to submit or view public comments, access the index listing of the contents of the public docket, and to access those documents in the public docket that are available electronically. Once in the

system, select "search," then key in the docket ID number identified above.

Any comments related to this ICR should be submitted to EPA and OMB within 30 days of this notice. Please note, EPA's policy is that public comments, whether submitted electronically or on paper, will be made available for public viewing in EDOCKET as EPA receives them and without change, unless the comment contains copyrighted material, CBI, or other information whose public disclosure is restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in EDOCKET. The entire printed comment, including the copyrighted material, will be available in the public docket. Although identified as an item in the official docket, information claimed as CBI, or whose disclosure is otherwise restricted by statute, is not included in the official public docket, and will not be available for public viewing in EDOCKET. For further information about the electronic docket, see EPA's **Federal Register** notice describing the electronic docket at 67 FR 38102 (May 31, 2002), or go to <http://www.epa.gov/edocket>.

ICR Title: Application and Summary Report for an Emergency Exemption for Pesticides.

ICR Status: This is a request for extension of an existing approved collection that is currently scheduled to expire on November 30, 2004. EPA is asking OMB to approve this ICR for three years. Under OMB regulations at 5 CFR 1320.12(b)(2), the Agency may continue to conduct or sponsor the collection of information while the submission is pending at OMB.

Abstract: Section 18 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) authorizes EPA to grant emergency exemptions to State, U.S. Territorial and Federal agencies to allow an unregistered use of a pesticide for a limited time if EPA determines that emergency conditions exist, whether use of the pesticide under the exemption will be protective of human health and the environment, and to evaluate the effectiveness of the requested product in allaying the emergency. This data collection program is designed to provide EPA with necessary data to evaluate an application for a permit for the temporary shipment and use of a pesticide product for an unregistered use to mitigate an emergency situation and to evaluate the effectiveness of that product in allaying the emergency. State, U.S. Territorial, and Federal

agencies submit applications for section 18 emergency exemptions at their discretion in accordance with 40 CFR part 166. After EPA has granted a section 18 emergency exemption to a given government agency, the requesting agency must submit to EPA information related to any unexpected adverse effects resulting from the use of the pesticide and a report summarizing the results of the pesticide use. These government agencies must also maintain records for all treatments involving the first food use of a pesticide and make them available to EPA upon request.

Burden Statement: The annual "respondent" burden for this ICR is estimated to be 99 hours per response. According to the Paperwork Reduction Act, "burden" means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. For this collection, it is the time reading the regulations, planning the necessary data collection activities, conducting tests, analyzing data, generating reports and completing other required paperwork, and storing, filing, and maintaining the data. The agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control number for this information collection appear at the beginning and the end of this document. In addition OMB control numbers for EPA's regulations, after initial display in the final rule, are listed in 40 CFR part 9.

The following is a summary of the burden estimates taken from the ICR:

Respondents/affected entities: State Agency, U.S. Territory, or Federal Agency.

Estimated total number of potential respondents: 50.

Frequency of response: On occasion.

Estimated total/average number of responses for each respondent: 10.

Estimated total annual burden hours: 49,500.

Estimated total annual labor costs: \$2,683,000.

Changes in the ICR Since the Last Approval: The annual burden has decreased from 59,400 to 49,500 hours due to the drop in the overall number of section 18 emergency exemption applications filed annually, from 600 for the period 1998–2000 to approximately 500 for the period 2001–2003. The 9,900 hour decrease in annual burden reflects an adjustment to the estimated annual burden for this ICR.
