FOR FURTHER INFORMATION Ellen Brown may be reached by e-mail at DataClearance@FERC.gov, telephone at (202) 502-8663, and fax at (202) 273-0873.

SUPPLEMENTARY INFORMATION: The information collected under the requirements of FERC-555, "Records Retention Requirements" (OMB No. 1902-0098), is used by the Commission to carry out its responsibilities in implementing the statutory provisions of sections 301, 304 and 309 of the Federal Power Act (FPA) (16 U.S.C. 825, 825c and 825h), sections 8, 10 and 16 of the Natural Gas Act (NGA) (15 U.S.C. 717-717w), and section 20 of the Interstate Commerce Act (ICA, 49 U.S.C. 20).

The regulations for preservation of records establish retention periods, necessary guidelines, and requirements for retention of applicable records for the regulated public utilities, natural gas and oil pipeline companies subject to the Commission's jurisdiction. These records will be used by the regulated companies as the basis for their required rate filings and reports for the Commission. In addition, the records will be used by the Commission's audit staff during compliance reviews, by enforcement staff during investigations,

and for special analyses as deemed necessary by the Commission.

On January 8, 1999 the Commission issued AI99-2-000, an Accounting Issuance providing guidance on records storage media. Specifically, FERC gave each jurisdictional company the flexibility to select its own storage media. The storage media selected must have a life expectancy equal to the applicable record period unless the quality of the data transferred from one media to another with no loss of data would exceed the record period.

On January 27, 2000, FERC issued a final rule amending its records retention regulations for public utilities and licensees, and natural gas and oil pipeline companies. These changes included revising the general instructions, and shortening various records retention periods. The final rule's objective was to reduce or eliminate burdensome and unnecessary regulatory requirements.

It has been more than ten years since the issuance of the final rule and the accounting guidance, and, it is expected that jurisdictional companies have experienced more than sufficient time to implement these provisions. No additional changes have been made to the record retention requirements specified under FERC-555. The Commission implements these filing requirements in the Code of Federal Regulations (CFR) under 18 CFR Parts 125, 225, and 356.

Action: The Commission is requesting a three-year extension of the current expiration date, with no changes to the existing collection of data.

Burden Statement: In order to obtain a more accurate burden figure, Commission staff asked a small number of FERC-555 respondents to estimate the burden imposed by this data collection. The results show that the record retention requirements under FERC-555 were underestimated in the previous renewal of this information collection.¹ The following table portrays the updated burden estimate based on industry responses:

¹ The previous estimate reported average burden hours per response and total burden hours as 2,402 and 1,237,030 respectively (for the 515 respondents). Further, the previous estimate reported the average annual cost per respondent and total annual cost as \$141,045 and \$72,638,045 respectively.
