

interested parties with an opportunity to comment or request a public hearing regarding our preliminary finding that PPL is the successor-in-interest to PMP. We received no comments or requests for a public hearing from interested parties within the time period set forth in the *Initiation and Preliminary Results*.

Scope of the Order

The merchandise subject to the order is certain frozen warmwater shrimp.² The product is currently classified under the following Harmonized Tariff Schedule of the United States (HTSUS) item numbers: 0306.17.0003, 0306.17.0006, 0306.17.0009, 0306.17.0012, 0306.17.0015, 0306.17.0018, 0306.17.0021, 0306.17.0024, 0306.17.0027, 0306.17.0040, 1605.21.1030, and 1605.29.1010. Although the HTSUS numbers are provided for convenience and customs purposes, the written product description remains dispositive.

Final Results of Changed Circumstances Review

For the reasons stated in the *Initiation and Preliminary Results*, and because we received no comments from interested parties to the contrary, the Department continues to find that PPL is the successor-in-interest to PMP. As a result of this determination, we find that PPL should receive the cash deposit rate previously assigned to PMP, as a part of the Liberty Group of companies, in the most recently completed review of the antidumping duty order on shrimp from India.³ Consequently, the Department will instruct U.S. Customs and Border Protection to suspend liquidation of all shipments of subject merchandise produced and/or exported by PPL and entered, or withdrawn from warehouse, for consumption on or after the publication date of this notice in the **Federal Register** at 2.49 percent, which is the current antidumping duty cash deposit rate for PMP, as a part of the Liberty Group.⁴ This cash deposit requirement shall remain in effect until further notice.

We are issuing this determination and publishing these final results and notice in accordance with sections 751(b)(1) and 777(i)(1) and (2) of the Tariff Act of 1930, as amended, and 19 CFR 351.216 and 351.221(c)(3).

Frontseating Service Valves From the People's Republic of China; Final Results of Antidumping Duty Administrative Review; 2012-2013

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: On May 27, 2014, the Department of Commerce ("the Department") published the preliminary results of the administrative review of the antidumping duty on frontseating service valves from the People's Republic of China ("PRC").¹ The period of review ("POR") is April 1, 2012, through March 31, 2013. The review covers two exporters of subject merchandise, Zhejiang DunAn Hetian Metal Co., Ltd. ("DunAn") and Zhejiang Sanhua Co., Ltd. ("Sanhua"). The Department continues to find that DunAn did not have reviewable entries during the POR. Additionally, we find that Sanhua made no sales in the United States at prices below normal value ("NV"). Based on our analysis of the comments received, we made changes to our margin calculations for Sanhua. The final weighted-average dumping margin for this review is listed below in the section entitled "Final Results of the Review."

DATES: *Effective Date:* December 2, 2014.

FOR FURTHER INFORMATION CONTACT: Laurel LaCivita, AD/CVD Operations, Office III, Enforcement and Compliance, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482-4243.

Background

On May 27, 2014, the Department published the preliminary results of the subject administrative review of the order.² At that time, we invited

interested parties to comment on our preliminary results.

Subsequent to the *Preliminary Results*, the following events occurred. On June 2, 2014, Sanhua provided comments on new factual information contained in the *Preliminary Results*.³ On June 25, 2014, Sanhua requested a hearing.⁴ On June 26, 2014, Sanhua filed a case brief.⁵

On October 14, 2014, we rejected Sanhua's post-preliminary submissions referenced above.⁶ On the same date, the Department placed additional Bulgarian surrogate value ("SV") data on the record, and set the briefing and hearing schedule for the case.⁷ On October 25, 2014, Sanhua filed its case brief.⁸ Sanhua was the only party to file a case or rebuttal brief in this segment of the proceeding. Sanhua withdrew its hearing request on October 28, 2014.⁹ On August 13, 2014, we extended the deadline for completing the final results until November 24, 2014, in accordance with section 751(a)(3)(A) of the Tariff Act of 1930, as amended ("the Act").¹⁰

Scope of the Order

The merchandise covered by this order is frontseating service valves, assembled or unassembled, complete or incomplete, and certain parts thereof. Frontseating service valves are classified under subheading 8481.80.1095, and also have been classified under subheading 8415.90.80.85, of the

Harmonized Tariff Schedule of the United States ("HTSUS"). It is possible for frontseating service valves to be manufactured out of primary materials other than copper and brass, in which case they would be classified under HTSUS subheadings 8481.80.3040, 8481.80.3090, or 8481.80.5090. In addition, if unassembled or incomplete frontseating service valves are imported, the various parts or components would be classified under HTSUS subheadings 8481.90.1000, 8481.90.3000, or 8481.90.5000. The HTSUS subheadings are provided for convenience and customs purposes.¹¹ The written description is dispositive.

Final Determination of No Reviewable Entries

As noted in the *Preliminary Results*, we received a no-shipment certification from DunAn.¹² The company reported that it made no shipments of subject merchandise to the United States during the POR. U.S. Customs and Border Protection ("CBP") confirmed that it did not identify evidence of shipments from DunAn. Following publication of the *Preliminary Results*, we received no comments from interested parties regarding DunAn. As a consequence, and because the record contains no evidence to the contrary, we continue to find that DunAn did not make reviewable entries during the POR. Accordingly, consistent with the Department's refinement to its assessment practice in nonmarket economy ("NME") cases, the Department finds that it is appropriate not to rescind the review in these circumstances, but rather to complete the review with respect to DunAn and issue appropriate instructions to CBP based on the final results of the review.¹³

Analysis of Comments Received

All issues raised in the single case brief filed in this review are addressed in the Issues and Decision Memorandum. A list of the issues that parties raised and to which we

responded in the Issues and Decision Memorandum follows as an appendix to this notice. The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System ("ACCESS").¹⁴ ACCESS is available to registered users at <http://access.trade.gov> and in the Central Records Unit, room 7046 of the main Department of Commerce building. In addition, a complete version of the Issues and Decision Memorandum can be accessed directly on the internet at <http://www.trade.gov/enforcement/>. The signed Issues and Decision Memorandum and the electronic version of the Issues and Decision Memorandum are identical in content.

Changes Since the Preliminary Results

Based on an analysis of the comments received from interested parties and a review of the record, the Department has made the following changes in the margin calculation:

- We derived the SVs for all factors of production, with the exception of surrogate financial ratios, using Bulgaria as the surrogate country.¹⁵ Specifically, we made the following adjustments:
 - We based the SVs for direct materials and packing materials on Bulgarian import statistics recorded in the Global Trade Atlas ("GTA"). We made inflation adjustments, as appropriate;
 - We based the SV for electricity on data derived from the National Institute of Statistics (Bulgaria) Electricity Prices covering the POR. We valued water using the average water rates for industrial consumers reported by the Bulgarian State Energy Regulatory Commission for the POR.
 - We based the SV for direct, indirect and packing labor on the Chapter 6A, industry-specific ILO data for Bulgaria from 2007, for Sub-Classification 28, which is described as "Manufacture of Fabricated Metal Products, except Machinery and Equipment. We made adjustments for inflation as appropriate.

- We valued international freight using International freight price quotes from the Descartes Web site covering industrial plumbing supplies, valves, and valve parts, brass, iron, & copper, N.O.S., and valves and valve parts, N.O.S., available at <http://rates.descartes.com>.

- We valued brokerage and handling expenses and truck freight using information published in the World Bank's *Doing Business 2014, Economy Profile: Bulgaria*.

See Comment 1 of the accompanying Issues and Decision Memorandum.

- We revised the determination of the value-added tax ("VAT") adjustment as a percentage of entered value ("ENTVALUE"). See Comment 5 of the accompanying Issues and Decision Memorandum.

Final Results of the Review

As a result of this review, we determine that the following weighted-average dumping margin exists for the period April 1, 2012, through March 31, 2013:

| Exporter | Weighted-Average Margin (percentage) |
|--------------------------------|--------------------------------------|
| Zhejiang Sanhua Co., Ltd. | 0.00% |

Disclosure

We intend to disclose the calculations performed within five days of the date of publication of this notice to parties in this proceeding in accordance with 19 CFR 351.224(b).

Assessment Rates

The Department shall determine, and CBP shall assess, antidumping duties on all appropriate entries covered by this review pursuant to section 751(a)(2)(C) of the Act and 19 CFR 351.212(b).¹⁶ The final results of this review shall be the basis for the assessment of antidumping duties on entries of merchandise covered by the final results of this review. The Department intends to issue assessment instructions to CBP 15 days after the date of publication of these final results of review.

We will instruct CBP to assess antidumping duties on all appropriate entries covered by this review for each individual assessment rate calculated in the final results of this review that is above *de minimis* (i.e., at or above 0.50 percent). Pursuant to 19 CFR

¹¹ A full written description of the scope of the order is contained in the memorandum from Christian Marsh, Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations, to Paul Piquado, Assistant Secretary for Enforcement and Compliance, "Frontseating Service Valves from the People's Republic of China: Issues and Decision Memorandum for the Final Results of the 2012–2013 Administrative Review" ("Issues and Decision Memorandum"), which is hereby adopted by this notice and incorporated herein by reference.

The Web site location was changed from <http://iaaccess.trade.gov> to <http://access.trade.gov>. The Final Rule changing the references to the Regulations can be found at 79 FR 69046 (November 20, 2014)."

¹⁶ See *Antidumping Proceeding: Calculation of the Weighted-Average Dumping Margin and Assessment Rate in Certain Antidumping Duty Proceedings; Final Modification*, 77 FR 8103 (February 14, 2012).

351.106(c)(2), we will instruct CBP to liquidate without regard to antidumping duties any entries for which the assessment rate is *de minimis* (i.e., less than 0.50 percent).

The Department recently announced a refinement to its assessment practice in NME cases. Pursuant to this refinement in practice, for entries that were not reported in the U.S. sales databases submitted by companies individually examined during this review, the Department will instruct CBP to liquidate such entries at the NME-wide rate. In addition, if the Department determines that an exporter under review had no shipments of subject merchandise, any suspended entries that entered under that exporter's case number (i.e., at that exporter's rate) will be liquidated at the NME-wide rate. For a full discussion of this practice, see *NME Antidumping Proceedings*.

Cash Deposit Requirements

Because the antidumping duty order on frontseating service valves from the PRC has been revoked,¹⁷ the Department will not issue cash deposit instructions at the conclusion of this administrative review.

Notification to Importers

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of the antidumping duties occurred and the subsequent assessment of double antidumping duties.

Notification to Interested Parties

In accordance with 19 CFR 351.305(a)(3), this notice serves as a reminder to parties subject to administrative protective order ("APO") of their responsibility concerning the disposition of proprietary information disclosed under the APO. Timely written notification of the return or destruction of APO materials, or conversion to judicial protective order, is hereby requested. Failure to comply with the regulations and terms of an APO is a sanctionable violation.

These final results of review and notice are published in accordance with

sections 751(a)(1) and 777(i)(1) of the Act.

Dated: November 24, 2014.

Paul Piquado,

Assistant Secretary for Enforcement and Compliance.

Pacific Island Fisheries; Stock Assessment Review; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: NMFS will convene a meeting to review a draft 2014 stock assessment update for main Hawaiian (MHI) Deep 7 bottomfish.

DATES: The meeting will be held on Tuesday, December 9, through Friday, December 12, 2014, starting at 9 a.m. each day. The meeting will conclude each day at 4 p.m., or when business for the day has been completed. See **SUPPLEMENTARY INFORMATION** for the daily meeting agenda.

ADDRESSES: On Tuesday, December 9, and Wednesday, December 10, 2014, the meeting will be held at the NMFS Honolulu Service Center at Pier 38, 1129 N. Nimitz Hwy., Suite 220, Honolulu, HI 96817. On Thursday, December 11, and Friday, December 12, 2014, the meeting will be held at the University of Hawaii Campus Center, 2465 Campus Road, Honolulu, HI 96822.

FOR FURTHER INFORMATION CONTACT:

Gerard Dinardo, NMFS Pacific Islands Fisheries Science Center, telephone: (808) 725-5397.

SUPPLEMENTARY INFORMATION: The purpose of this meeting is to review a draft 2014 stock assessment update for MHI Deep 7 bottomfish, which uses up-to-date re-audited bottomfish catch and effort data from Hawaii state commercial catch reports for the years 1948-2013. This assessment update used the previous benchmark assessment data analysis, modeling, and stock projection approaches with improved CPUE standardization.

At this meeting, a team of reviewers provided by the Center for Independent Experts or CIE (www.ciereviews.org) will review the assessment methods, input data and parameters, including the adequacy of the model and model outputs, and suggest research priorities to improve understanding of essential population and fishery dynamics. We invite the public to attend this meeting to provide information and clarification if requested by the CIE reviewers.
