

compressor facilities constituting the core of Cheyenne Plains' interstate pipeline system should be modified in concert with recent supply and market events that have combined to define an immediate need for a larger size pipeline system with a commensurate reduction in horsepower. Cheyenne Plains states that these amended facilities, when placed into service, will support the initial design capacity of 560,000 Dth per day for the 14 original shippers and, at the same time, will allow for future expansions of the system in an expeditious manner with a minimum of environmental impacts and minimal landowner impacts.

Any questions concerning this Petition to Amend Order may be directed to Robert T. Tomlinson, Director, Regulatory Affairs, Cheyenne Plains Gas Pipeline Company, LLC, P.O. Box 1087, Colorado Springs, Colorado, 80944, at (719) 520-3788 or fax (719) 667-7534; or to Judy A. Heineman, Vice President and General Counsel, Cheyenne Plains Gas Pipeline Company, LLC, P.O. Box 1087, Colorado Springs, Colorado, 80944, at (719) 520-4829 or fax (719) 520-4898.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should file with the Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10) by the comment date, below. A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's

rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Protests, comments and interventions may be filed electronically via the Internet in lieu of paper; *see*, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link. The Commission strongly encourages electronic filings.

If the Commission decides to set the application for a formal hearing before an Administrative Law Judge, the Commission will issue another notice describing that process. At the end of the Commission's review process, a final Commission order approving or denying a certificate will be issued.

Comment Date: February 17, 2004.
