

total, 96 trips would occur under this EFP.

Participating vessels would be required to use A days-at-sea (DAS) and would be prohibited from fishing in areas outside of CA I or NLSCA during an experimental fishing trip. Therefore, granting these EFPs should not result in an increase in fishing mortality over what was analyzed for Amendment 13 to the FMP. This study would follow normal jig fishing practices. A total allowable catch (TAC) of 10.0 mt for GB cod would be established for the experimental fishery. If the GB cod TAC is reached, the experimental fishery would be terminated. All fish landed would be subject to trip limits and minimum size restrictions.

REMSA scientists would collect biological and environmental data during each trip conducted under this experimental fishery. The EFPs would contain a provision that the Administrator, Northeast Region, NMFS (Regional Administrator) has the authority to discontinue the proposed experimental fishery at any time, e.g., the Regional Administrator would terminate the EFP when the 10.0 mt TAC for GB cod is projected to be reached.

A draft EA has been prepared that analyzes the impacts of the proposed experimental fishery on the human environment. This draft EA concludes that the activities proposed to be conducted under the requested EFPs are consistent with the goals and objectives of the FMP, would not be detrimental to the well-being of any stocks of fish harvested, and would have no significant environmental impacts. The draft EA also concludes that the proposed experimental fishery would not be detrimental to Essential Fish Habitat, marine mammals, or protected species.

EFPs would be issued to up to seven vessels exempting them from the CA I and NLSCA restrictions of the FMP.

NMFS is particularly interested in receiving comments about granting the applicant access to the portion of CA I located within the U.S./Canada Management Area due to the hard TACs established by Amendment 13 to the FMP for GB cod, haddock and yellowtail flounder.

Regulations under the Magnuson-Stevens Fishery Conservation and Management Act require publication of this notification to provide interested parties the opportunity to comment on applications for proposed EFPs.
