BILLING CODE 6712–01–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 679

[Docket No. 021122286–3036–02; I.D. 051403B]

Fisheries of the Economic Exclusive Zone Off Alaska; Deep-Water Species Fishery by Vessels Using Trawl Gear in the Gulf of Alaska

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and

Atmospheric Administration (NOAA), Commerce.

ACTION: Closure.

SUMMARY: NMFS is prohibiting directed fishing for species that comprise the deep-water species fishery by vessels using trawl gear in the Gulf of Alaska (GOA). This action is necessary because the second seasonal apportionment of the 2003 Pacific halibut bycatch allowance specified for the deep-water species fishery in the GOA has been reached.

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), May 16, 2003, through 1200 hrs, A.l.t., June 29, 2003.

FOR FURTHER INFORMATION CONTACT: Mary Furuness, 907–586–7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the GOA exclusive economic zone according to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The Pacific halibut bycatch allowance for the GOA trawl deep-water species fishery, which is defined at § 679.21(d)(3)(iii)(B), as established by the final 2003 harvest specifications for groundfish of the GOA (68 FR 9924, March 3, 2003) for the second season, the period April 1, 2003, through 1200 hrs, A.l.t., June 29, 2003, is 300 metric tons.

In accordance with § 679.21(d)(7)(i), the Administrator, Alaska Region, NMFS (Regional Administrator), has determined that the second seasonal apportionment of the 2003 Pacific halibut bycatch allowance specified for the trawl deep-water species fishery in the GOA has been reached.

Consequently, NMFS is prohibiting directed fishing for the deep-water species fishery by vessels using trawl gear in the GOA. The species and species groups that comprise the deep-water species fishery are: all rockfish of the genera *Sebastes* and *Sebastolobus*, deep water flatfish, rex sole, arrowtooth flounder, and sablefish.

Maximum retainable amounts may be found in the regulations at § 679.20(e) and (f).

Classification

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA (AA), finds good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(B) as such requirement is contrary to the public interest. This requirement is contrary to the public interest as it would delay the closure of the fishery, lead to exceeding the second seasonal apportionment of the 2003 Pacific halibut bycatch allowance, and therefore reduce the public's ability to use and enjoy the fishery resource.

The AA also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.

This action is required by § 679.20 and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: May 14, 2003.

Bruce C. Morehead,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.
