

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-43608; File No. SR-PCX-00-25]

Self-Regulatory Organizations; Notice of Filing of a Proposed Rule Change by the Pacific Exchange, Inc. and Amendment No. 1 Thereto Relating to the Archipelago Exchange

November 21, 2000.

Pursuant to Section 19(b)(1) under the Securities Exchange Act of 1934 ("Act")¹ and Rule 19b-4 thereunder,² notice is hereby given that on July 31, 2000, the Pacific Exchange, Inc. ("PCX" or "Exchange"), through its subsidiary PCX Equities, Inc. ("PCXE" or "Corporation") pursuant to delegated authority, filed with the Securities and Exchange Commission ("Commission" or "SEC") the proposed rule change as described in Items I, II and III below, which Items have been prepared by the PCXE. On November 9, 2000, the Exchange filed Amendment No. 1 to the proposal.³ The Commission is publishing this notice to solicit comments on the proposed rule change, as amended, from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The PCX, through its wholly-owned subsidiary PCXE, proposes to create a new electronic trading facility of the PCXE, called the Archipelago Exchange ("Arca"). The text of the proposed rule change has been posted to the Commission's web site, www.sec.gov, and is attached here (in blacklined version) as Appendix A.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the PCXE included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The PCXE has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

The PCXE proposes to establish rules for Arca, a new exchange facility, as that term is defined in Section 3(a)(2) of the Act.⁴ Arca, which is to be operated by Archipelago Exchange, L.L.C., would be an electronic securities communications and trading facility intended for the use of Equity Trading Permit ("ETP") Holders and their customers.⁵ Arca would provide automatic order execution capabilities in the equity securities listed or traded on the PCXE. It is the PCXE's intent to operate the Arca facility in the place of the PCXE's traditional floor trading environment and thus PCXE also proposes to eliminate the existing PCXE Rules related to floor trading.

1. Relationship of Archipelago Exchange, L.L.C., to PCX Equities, Inc.

The PCX and PCXE have entered into various agreements with Archipelago Holdings, L.L.C., under which Archipelago Exchange, L.L.C., a subsidiary of Archipelago Holdings, L.L.C., would operate Arca as a facility of the PCXE. Pursuant to these agreements, PCX and PCXE would maintain responsibility for all regulatory functions related to the facility and Archipelago Exchange, L.L.C., would be responsible for the business of the facility to the extent those activities are not inconsistent with the regulatory and oversight functions of PCX and PCXE.

The relationship between the PCX, PCXE, and the Archipelago entities is explained further in proposed PCXE Rule 14.3.⁶ Under proposed PCXE Rule 14.3(a), the books, records, premises, officers, directors, agents and employees of Archipelago Exchange, L.L.C., would be deemed to be the books, records, premises, officers, directors, agents and

employees of PCX and PCXE for purposes of, and subject to, oversight pursuant to the Act. The books and records of Archipelago Exchange, L.L.C., would be subject at all times to inspection and copying by the PCX, PCX Equities, and the SEC. In addition, proposed PCXE Rule 14.3(b) states that "[a]ll officers and directors of Archipelago Holdings, L.L.C., shall be deemed to be officers and directors of PCX and PCXE for purposes of and subject to oversight pursuant to the Securities Exchange Act." As set forth in proposed PCXE Rule 14.3(c), however, paragraphs (a) and (b) of proposed PCXE Rule 14.3 would not be deemed to create any rights or benefits for any person or entity other than the SEC.

2. Archipelago Exchange

The PCXE describes Arca, the proposed electronic trading venue, as a limit order book, characterized by price-time priority that would provide execution enhancements such as additional order types. Under the proposal, market makers would participate electronically in Arca to enhance liquidity in the book and could interact with order flow subject to automatic price improvement requirements. In addition, orders could be crossed on Arca subject to price improvement where the price and time priority of the limit order book is protected.

Arca is described in more detail in the following subsections. Specifically, subsection (a) describes who may access Arca. Subsection (b) discusses the registration requirements as well as the trading obligations of market makers and Odd Lot Dealers. Subsection (c) describes trading on Arca in detail, including a description of how orders are executed during Arca's three trading sessions. Finally, subsections (d) through (g) discusses the proposed rules regarding trade execution and reporting, clearance and settlement, Arca's interaction with OptiMark, and the limitation of liability with regard to Arca, respectively.

a. *Access to the Archipelago Exchange.* The PCXE would authorize any ETP Holder or Sponsored Participant (collectively, "Users")⁷ who meet certain enumerated requirements to obtain access to Arca. A "Sponsored Participant" is a person, such as an institutional investor, who has entered into a sponsorship arrangement with an

⁴ Under the Act the "term 'facility' when used with respect to an exchange includes its premises, tangible or intangible property whether on the premises or not, any right to the use of such premises or property or any service thereof for the purpose of effecting or reporting a transaction on an exchange (including, among other things, any system of communication to or from the exchange, by ticker or otherwise, maintained by or with the consent of the exchange), and any right of the exchange to the use of any property or service." See 15 U.S.C. 78c(a)(2).

⁵ See proposed PCXE Rule 1.1(e) (definition of "Archipelago Exchange").

⁶ In addition to proposed PCXE Rule 14.3, the PCXE proposes to clarify the Delegation Plan by adding the following language to proposed PCXE Rule 14.1(b): "and all officers, directors, employees, and agents of PCX Equities are officers, directors, employees, and agents of the PCX for purposes of the Act. The books and records of PCX Equities would be subject at all times to inspection and copying by the PCX."

⁷ See proposed PCXE Rule 1.1(oo) (definition of "User").

ETP Holder.⁸ The requirements for access are as follows: First, all Users—both ETP Holders and Sponsored Participants—would have to enter into a User Agreement⁹ with Archipelago Exchange, L.L.C., the operator of the Arca facility.¹⁰ Second, Sponsored Participants would have to enter into a sponsorship arrangement with a “Sponsoring ETP Holder,” which is defined as an ETP Holder that has been designated by a Sponsored Participant to execute, clear and settle transactions on Arca.¹¹ The sponsorship arrangement consists of three separate components. First, the Sponsored Participant would have to enter into and maintain a customer agreement with its Sponsoring ETP Holder, establishing a proper relationship and account through which the Participant may trade on Arca.¹²

Second, the Sponsored Participant and its Sponsoring ETP Holder would have to enter into a written agreement which incorporates the Sponsorship Provisions,¹³ which include the following:

(1) The Sponsoring ETP Holder acknowledges and agrees that: (i) All orders entered by its Sponsored Participant and any person acting on behalf of or in the name of such Sponsored Participant and any executions occurring as a result of such orders are binding in all respects on the Sponsoring ETP Holder and (ii) the Sponsoring ETP Holder is responsible for any and all actions taken by such Sponsored Participant and any person acting on behalf of or in the name of such Sponsored Participant.

(2) The Sponsored Participant agrees that it will comply with the PCXE Certificate of Incorporation, Bylaws, Rules and procedures with regard to its activity on Arca, as if the Sponsored Participant were an ETP Holder.

(3) The Sponsored Participant agrees that it will maintain, keep current and provide to the Sponsoring ETP Holder a list of its Authorized Traders who may obtain access to Arca on behalf of the Sponsored Participant(s).

(4) The Sponsored Participant agrees that it will familiarize its Authorized Traders with all of the Sponsored Participant's obligations under its Arca-related agreements and the PCXE Rules and will assure that they

receive appropriate training prior to any use or access to Arca.

(5) The Sponsored Participant agrees that it will not permit anyone other than Authorized Traders to use or obtain access to Arca.

(6) The Sponsored Participant agrees that it will take reasonable security precautions to prevent unauthorized use or access to Arca, including unauthorized entry of information into Arca, or the information and data made available therein. The Sponsored Participant understands and agrees that it is responsible for any and all orders, trades and other messages and instructions entered, transmitted or received under identifiers, passwords and security codes of Authorized Traders, and for the trading and other consequences thereof.

(7) The Sponsored Participant acknowledges its responsibility for establishing adequate procedures and controls that permit it to effectively monitor its employees, agents and customers' use of and access to Arca for compliance with the terms of the Sponsorship Provisions.

(8) The Sponsored Participant agrees that it will pay when due all amounts, if any, payable to the Sponsoring ETP Holder, Archipelago Exchange, L.L.C., PCXE, or any other third parties that arise from the Sponsored Participant's access to and use of Arca. Such amounts include, but are not limited to, applicable exchange and regulatory fees.¹⁴

Finally, the Sponsoring ETP Holder would have to provide PCXE with a “Notice of Consent,”¹⁵ which acknowledges the Sponsoring ETP Holder's its responsibility for the orders, executions and actions of its Sponsored Participant.¹⁶

As a further condition to access to Arca, each ETP Holder would have to maintain an up-to-date list of persons who could obtain access to Arca on behalf of the ETP Holder or the ETP Holder's Sponsored Participants, *i.e.*, Authorized Traders,¹⁷ and provide the list to the PCXE upon request. In addition, each ETP Holder would have to have reasonable procedures to ensure that all of its Authorized Traders maintain the physical security of Arca and otherwise comply with the PCXE Rules. If the PCXE determines that an Authorized Trader has caused an ETP Holder to violate the PCXE Rules, the PCXE may could direct the ETP Holder to suspend or withdraw the person's status as an Authorized Trader.¹⁸

b. Market Makers. The PCXE intends to replace its traditional floor specialists

with makers¹⁹ trading on Arca. Based on this change, the PCXE proposes to delete all existing PCXE Rules related to specialists and substitute rules related to market makers, as discussed in more detail below.²⁰ The registered market makers would be designated as dealer-specialists on the PCXE for all purposes under the Act.²¹

i. *Registration of Market Makers.* To act as a market maker on Arca, an ETP Holder would have to register as a market maker by filing a written application with the PCXE.²² In determining whether to approve a market maker application, the PCXE will would consider, among other things, the ETP Holder's capital operations, personnel, technical resources, and disciplinary history.²³ The applicant's registration would become effective upon receipt by the ETP Holder of notice of the PCXE's approval of the registration. If the application is disapproved, the applicant would have the opportunity to be heard upon the specific grounds of the denial under the provisions of Rule 10.13.²⁴

A market maker's registration could be suspended or terminated by the PCXE upon a determination of any substantial or continued failure by the market maker to engage in dealings in accordance with the market maker's obligations under proposed PCXE Rule 7.23, as discussed below.²⁵ In addition, a registered market maker could withdraw its registration by giving written notice to the PCXE. The withdrawal would become effective on the tenth business day following the PCXE's receipt of the notice. A market maker who fails to give a ten-day notice of withdrawal could be subject to formal disciplinary action pursuant to PCXE Rule 10. After a withdrawal, the ETP Holder shall would not be permitted to re-register as a market maker for a period of six months.²⁶

In addition to registering as a market maker generally, a market maker also would have to register in each security in which it wishes to make a market on Arca. To become registered in a security, a market maker would have to

¹¹ See proposed PCXE Rule 1.1(kk) (definition of “Sponsoring ETP Holder”). A Sponsoring ETP Holder must be either (i) a clearing firm with membership in a clearing agency registered with the Commission that maintains facilities through which transactions may be cleared or (ii) a correspondent firm with a clearing arrangement with any such clearing firm. *Id.*

file a security registration application form with the PCXE. In determining whether to approve or disapprove the market maker's registration in a security, the PCXE may consider: (1) The financial resources available to the market maker; (2) the market maker's experience, expertise and past performances in making markets, including the market maker's performance in other securities; (3) the market maker's operational capability; (4) the maintenance and enhancement of competition among market makers in each security in which it is registered; (5) the existence of satisfactory arrangements for clearing the market maker's transactions; and (6) the character of the market for the security (e.g., price, volatility, and relative liquidity). Registration in a security will become effective on the first business day following the PCXE's approval of the registration.²⁷

Under the proposal, PCXE could terminate a market maker's registration in a security if the market maker fails to enter quotations in the security within five business days after the market maker's registration in the security becomes effective.²⁸ Furthermore, PCXE could suspend or terminate the market maker's registration in a security or securities whenever, in the PCXE's judgment, the interests of a fair and orderly market are best served by such action.²⁹

In addition, a market maker could voluntarily terminate its registration in a security by providing PCXE with a one-day written notice. A market maker that failed to give advanced written notice of such termination could be subject to formal disciplinary action pursuant to PCXE Rule 10.³⁰ Finally, an ETP Holder could seek review of any action taken by the PCXE pursuant to proposed PCXE Rule 7.22 governing a market maker's registration in a security, including the denial of the application for, or the termination or suspension of, a market maker's registration in a security or securities, in accordance with PCXE Rule 10.³¹

ii. *Market Maker Authorized Traders.* Each market maker would have to apply in writing to the PCXE to register a "Market Maker Authorized Trader" or "MMAT,"³² which is an Authorized Trader that performs market making activities on behalf of his or her market

maker. An MMAT would have to be an officer, partner, employee or another associated person of a market maker, who is properly qualified to perform market making activities and has been trained and certified in the use of Arca.³³ Once registered, an MMAT could only submit orders for the account of its own market maker.³⁴ The PCXE may suspend or withdraw an MMAT's registration if the PCXE determines that: (1) The person has caused the market maker to fail to comply with the securities laws, rules and regulations or the Bylaws, Rules or procedures of the PCXE; (2) the person is not properly performing the responsibilities of an MMAT; (3) the person has failed to pass the Series 7 or to acquire the requisite certification and/or training, as necessary; or (4) PCXE believes it is in the interest of maintaining fair and orderly markets. If the PCXE suspended the registration of a person as an MMAT, the market maker could not allow the person to submit orders to Arca. In addition, PCXE would withdraw the registration of an MMAT upon the written request of the MMAT's market maker.³⁵

iii. *Obligations of Market Makers.* Market makers electronically engage in a course of dealings for their own account to enhance liquidity available to Arca and to assist in the maintenance, insofar as reasonably practicable, of fair and orderly markets. In addition, market makers may interact with directed order flow, subject to price improvement requirements and certain obligations and duties.

Specifically, market makers would have to satisfy the following responsibilities and duties during Core Trading Hours:³⁶ (1) maintain continuous, two-sided Q Orders, which are limit orders submitted to Arca by a market maker, in those securities in which the market maker is registered to

trade;³⁷ (2) maintain adequate minimum capital in accordance with PCXE Rule 4.1; (3) remain in Good Standing³⁸ with the PCXE; (4) inform PCXE of any material change in financial or operational condition or in personnel; (5) clear and settle transactions through the facilities of a registered clearing agency; and (6) enter and maintain a Cleanup Order in each security in which the market maker is registered as such for each Market Order Auction.³⁹ If the PCXE found any substantial or continued failure by a market maker to meet the above responsibilities and duties, the PCXE could subject the market maker to disciplinary action or suspension or revoke the market maker's registration in one or more securities. In accordance with PCXE Rule 10, an ETP Holder could seek review of actions taken by the PCXE pursuant to this Rule 7.23.⁴⁰

The market maker could apply to the PCXE to withdraw temporarily from its market maker status. This request would have to be based on a demonstrated legal or regulatory requirement that necessitates its temporary withdrawal. The PCXE would act promptly on the request and, if the request is granted, the PCXE could temporarily reassign the securities to another market maker.⁴¹

iv. *Odd Lot Dealers.* In addition to the market maker obligations discussed above, a market maker would have to become an Odd Lot Dealer⁴² for each security in which it is registered as a market maker.⁴³ Furthermore, a market maker could apply to register as an Odd Lot Dealer in any other security.

Any market maker could become registered as an Odd Lot Dealer in any security by filing an odd lot registration form with the PCXE. Registration as an Odd Lot Dealer becomes effective on the first business day following the PCXE's approval of the registration. In considering the approval of the registration of the market maker as an Odd Lot Dealer in a security, the PCXE would consider such factors as financial resources, capital operations, personnel, technical resources and disciplinary history. If the PCXE denies an application to become an Odd Lot Dealer in a security or securities, the

³³ See proposed PCXE Rule 7.21(b). Proposed Rule PCXE 7.21(b)(2) states that, "[t]o be eligible for registration as a MMAT, a person must successfully complete the General Securities Representative Examination (Series 7) and complete a training and certification program sponsored by the Corporation; provided, however, the requirement to complete the Series 7 Examination may be waived by the Corporation if the applicant MMAT has served as a dealer-specialist or market maker on a registered national securities exchange or association for at least two consecutive years within three years of the date of application." applicant could seek review of the decision in accordance with PCXE Rule 10.13.⁴⁴

Once registered, an Odd Lot Dealer is obligated to: (1) Maintain an Odd Lot Tracking Order, as described in proposed PCXE Rule 7.31(g), during each day in which the PCXE is open for business for each security in which the Odd Lot Dealer is registered as such;⁴⁵ and (2) register and maintain registration as an Odd Lot Dealer in a minimum of 100 securities if the Odd Lot Dealer registers as such in any security for which it is not registered as a market maker.⁴⁶

Under proposed PCXE Rule 7.25(d) an Odd Lot Dealer's registration in a security or securities could be suspended or terminated if: (1) The PCXE determines that the Odd Lot Dealer has substantially or continually failed to engage in dealings as required of an Odd Lot Dealer; or (2) if, in the PCXE's judgment, the interests of a fair and orderly market are best served by such action. An ETP Holder could seek review of any such termination or suspension in accordance with proposed PCXE Rule 10.⁴⁷

Finally, an Odd Lot Dealer could voluntarily terminate its registration as such in a security or securities by providing the PCXE with a one-day written notice of such termination. An Odd Lot Dealer that fails to give advance notice of termination to the PCXE could be subject to formal disciplinary action pursuant to proposed PCXE Rule 10.⁴⁸

v. Limitations on Dealings. Under the proposed rules, a market maker could: (1) Conduct an investment banking or public securities business; (2) function as a General Authorized Trader ("GAT"), *i.e.*, an Authorized Trader who performs only non-market making activities on behalf of an ETP Holder;⁴⁹ or (3) make markets in the options overlying the security in which it makes markets; (collectively, "Other Business Activities") or it could be affiliated with a broker-dealer that engages in Other Business Activities only if there is an Information Barrier (also commonly referred to as a Chinese Wall) between the market making activities and the Other Business Activities.⁵⁰

An Information Barrier is an organizational structure in which the

market making functions are conducted in a physical location separate from the locations in which the Other Business Activities are conducted in a manner that impedes the free flow of communications between MMATs and persons conducting the Other Business Activities. However, upon request and not on his or her own initiative, an MMAT performing the function of a market maker could furnish to persons at the same firm or an affiliated firm ("affiliated persons") the same sort of market information that the MMAT would make available to any other person in the normal course of its market making activity. The MMAT would have to provide such information to affiliated persons in the same manner that he or she would make such information available to a non-affiliated person.⁵¹

Procedures would have to be implemented to prevent the use of material non-public corporate or market information in the possession of persons on one side of the barrier from influencing the conduct of persons on the other side of the barrier. The procedures, at a minimum, would have to provide that (1) The MMAT performing the function of a market maker does not take advantage of knowledge of pending transactions, order flow information, corporate information, or recommendations arising from Other Business Activities; and (2) all information pertaining to the market maker's positions and trading activities is kept confidential and not made available to persons on the other side of the Information Barrier.⁵²

Although persons on one side of the barrier could not exercise influence or control over persons on the other side of the barrier, the following could occur: (1) The market making function and the Other Business Activities could be under common management as long as any general management oversight does not conflict with or compromise the market maker's responsibilities; (2) the same person or persons (the "Supervisor") could be responsible for the supervision of the market making and the GAT functions of the same firm or affiliated firms in order to monitor the overall risk exposure of the firm or affiliate firms. While the Supervisor could establish general trading parameters with respect to both market making and other proprietary trading other than on an order-specific basis, the Supervisor could not (1) act as either an MMAT or GAT; (2) provide to any GAT any information relating to market

making activity beyond the information that an MMAT would normally provide to any other person in the course of its market making activity; or (3) provide an MMAT with specific information regarding the firm's pending transactions or order flow arising out of its GAT activities.⁵³

An ETP Holder that intends to implement an Information Barrier would have to submit to the PCXE a written statement setting forth the following:

(1) The manner in which it intends to comply with the requirements of an Information Barrier (as discussed above) and the compliance and audit procedures it will implement to maintain the Barrier;

(2) The names and titles of the person(s) responsible for the maintenance and surveillance of the procedures;

(3) A commitment to provide the PCXE with such information and reports as the PCXE could request relating to its transactions;

(4) A commitment to take appropriate remedial action against any person violating this Rule or the ETP Holder's internal compliance and audit procedures and that it recognizes that the PCXE could take appropriate remedial action in the event of such a violation;

(5) Whether the ETP Holder or an affiliate intends to clear its proprietary trades, and, if so, the procedures established to ensure that information with respect to such clearing activities will not be used to compromise the Information Barrier (which procedures, at a minimum, would have to be the same as those used by the ETP Holder or the affiliate to clear for unaffiliated third parties). These procedures would have to provide that any information pertaining to market maker securities positions and trading activities, and information derived from any clearing and margin financing arrangements, could be made available only to those employees specifically authorized to have access to such information or to other employees in senior management positions who are involved in exercising general managerial oversight with respect to market making activity.

Furthermore, any margin financing arrangements would have to be sufficiently flexible so as not to limit the ability of any market maker to meet market making or other obligations under the PCXE Rules; and

(6) That it recognizes that any trading by a person while in possession of material, non-public information received as a result of the breach of the internal controls could be a violation of the Act, or the rules thereunder, or PCXE Rules.⁵⁴

After the submission of the written statement detailing the internal controls and compliance and audit procedures to PCXE, if the PCXE determines that the structure and procedures are acceptable, PCXE will inform the ETP Holder in writing of their acceptability. Absent a

finding that an ETP Holder's Information Barrier procedures are acceptable, a market maker could not conduct Other Business Activities.⁵⁵

Finally, an ETP Holder or an affiliate of the ETP Holder could clear the ETP Holder's market maker transactions if it establishes procedures to ensure that information with respect to clearing activities would not be used to compromise the Information Barrier. In this regard, the procedures would have to provide that any information pertaining to market maker securities positions and trading activities, and information derived from any clearing and margin financing arrangements, could be made available only to those employees (other than employees actually performing clearing and margin functions) specifically authorized to have access to such information or to other employees in senior management positions who are involved in exercising general managerial oversight with respect to the market making activity. Furthermore, any margin financing arrangements would have to be sufficiently flexible so as not to limit the ability of any market maker to meet market making or other obligations under the PCXE Rules.⁵⁶

c. *Trading on the Archipelago Exchange.* i. *Order Entry*—Users would enter into Arca the following standard types of orders: Market orders, limit orders, Day Orders, Good-Til-Canceled (GTC) Orders, Immediate-or-Cancel Orders, Stop Orders, Stop Limit Orders, Do Not Reduce, Do Not Increase, and Timed Orders.⁵⁷

In addition, Users could utilize Working Orders, which are defined to include "any order with a conditional or undisplayed price and/or size designated as a 'Working Order,'" including All-or-None, Discretionary, and Reserve Orders.⁵⁸ An All-or-None Order is a limit order which is to be executed in its entirety or not at all.⁵⁹ A Discretionary Order is an order to buy or sell a stated amount of a security at a specified, undisplayed price (the "discretionary price"), in addition to at a specified, displayed price ("displayed price").⁶⁰ For example, a User could submit a Discretionary Order to buy 5000 shares of XYZ at 20, with discretion to 20.25. In that case, the User represents a displayed price of 20, but the User is willing to buy the 5000 shares at a price up to the discretionary

price of 20.25. A Reserve Order is a limit order with a portion of the size displayed and with a reserve portion of the size ("reserve size") that is not displayed on the Arca book.⁶¹ For example, a User could submit a Reserve Order to buy 5000 shares of XYZ at 20 with a request that 1000 shares be displayed. Therefore, the 1000 shares are displayed and 4000 shares, as the reserve size, are not displayed.

Arca would also accept NOW Orders.⁶² A NOW Order is a Limited Price Order⁶³ that is to be executed in whole or in part on Arca, and the portion not so executed would be routed pursuant to Rule 7.37(d) only to one or more NOW Recipients for immediate execution as soon as the order is received by the NOW Recipient. Any portion not immediately executed by the NOW Recipient would be cancelled. If a NOW Order is not marketable when it is submitted to the PCXE, it would be cancelled. NOW Orders cannot be Directed Orders.⁶⁴ For the purposes of a NOW Order, a NOW Recipient means any exchange, ECN, or other broker-dealer (1) with which Arca maintains an electronic linkage, which includes ITS, and (2) which provides instantaneous responses to NOW Orders routed from Arca. The PCXE would designate from time to time those exchanges, ECNs, or other broker-dealers that qualify as NOW Recipients.⁶⁵ An Auction-Only Limit Order, which is a limit order that could be executed only during the Market Order Auction, would also be submitted to Arca.⁶⁷ In addition, Users could submit Primary Only Orders ("PO Orders") which are market orders, for exchange-listed securities only, that are to be routed as a market-on-open order to the primary market for participation in the primary market opening process. A PO Order would have to be entered before 6:28 a.m. (Pacific Time) and it would not be included in the Market Order Auction.

Furthermore, as discussed in more detail in other sections, Users could submit Tracking Orders, Odd Lot Tracking Orders, Directed Orders, Directed Fills, Q Orders, Fill-or-Return Orders, Fill-or-Return Plus Orders, PNP

Orders, Cross Orders and Cleanup Orders as well.⁶⁸

Finally, as a general matter, consistent with proposed PCXE Rules, ETP Holder Users of Arca could enter both proprietary orders and agency orders for the account of a customer. Proprietary orders entered into Arca are subject to the same display and execution processes as agency orders. An ETP Holder User that enters a proprietary order into Arca would mark the order with the appropriate designator to identify the order as proprietary.⁶⁹

ii. *Order Ranking and Display.* Arca would maintain an electronic file of orders, called the Arca Book, which contains all the User's orders in the four components, called Processes, of the Arca Book.⁷⁰ Specifically, the Arca Book contains the Directed Order, Display Order, Working Order, and Tracking Order Processes.⁷¹ Limited Price Orders of Users submitted to Arca (other than such orders as Directed Fills and Tracking Orders) would be ranked and maintained in the Display Order Process and/or Working Order Process of the Arca Book according to price-time priority, such that within each price level, all orders would be organized by the time of entry, as discussed in more detail below.

The displayed portion of orders are ranked in the Display Order Process. One category of orders—limit orders, with no other conditions—would be ranked in the Display Order Process based on the specified limit price and the time of original order entry. With regard to Reserve Orders, the displayed portion of Reserve Orders (not the reserve size) would be ranked in the Display Order Process at the specified limit price and the time of order entry. If the displayed portion of the Reserve Order is decremented in its entirety, the displayed portion of the Reserve Order would be refreshed for the displayed amount from the reserve portion and would be submitted and ranked at the specified limit price and the new time that the displayed portion of the order was refreshed. Finally, Discretionary Orders would be ranked in the Display Order Process based on the displayed price (not the discretionary price) and the time of order entry. If a Discretionary Order is decremented, it remains ranked based on the displayed price and the time of original order entry.

Only All-or-None Orders and the undisplayed portion of Reserve Orders and Discretionary Orders are ranked in the Working Order Process. The reserve portion of Reserve Orders would be ranked in the Working Order Process based on the specified limit price and the time of original order entry. After the displayed portion of a Reserve Order is refreshed from the reserve portion, the reserve portion remains ranked based on the original time of order entry, while the displayed portion is sent to the Display Order Process with a new time-stamp. Discretionary Orders would be ranked in the Working Order Process based on the displayed price and the time of original order entry. After a Discretionary Order is decremented, it remains ranked as described above. All-or-None Orders would be ranked in the Working Order Process based on the specified limit price and the time of order entry.

PCXE offers the following example to clarify how orders are ranked in the Display and Working Order Processes. Suppose that the following orders are submitted to Arca by Users:

10:00 a.m.—Order A—Limit order to buy 1000 XYZ at 20
 10:01 a.m.—Order B—Reserve Order to buy 5000 XYZ at 20 (show 1000)
 10:02 a.m.—Order C—Limit order to buy 500 XYZ at 20
 10:03 a.m.—Order D—Discretionary Order to buy 5000 XYZ at 20 (discretion to 20.25)
 10:04 a.m.—Order E—All-or-None to buy 1500 XYZ at 20
 10:05 a.m.—Order F—Q Order to buy 1000 XYZ at 20
 10:06 a.m.—Order G—Limit order to buy 700 XYZ at 20
 10:07 a.m.—Order H—Q Order to buy 500 XYZ at 20
 10:08 a.m.—Order I—Discretionary Order to buy 10,000 XYZ at 20 (discretion to 20.25)

Orders A–H would be ranked in the Arca Book as follows: In the Display Order Process, the orders would be ranked in the following order: (1) Order A; (2) Order B1 (the displayed 1000 shares of Order B); (3) Order C; (4) Order D1 (the displayed price of 20 for Order D); (5) Order F; (6) Order G; (7) Order H; and (8) Order I1 (the displayed price of 20 for Order I). In the Working Order Process, the orders would be ranked in the following order: (1) Order B2 (4000 shares of the reserve portion of Order B); (2) Order D2 (the discretionary price up to 20.25 for Order D); (3) Order E; and (4) Order I2 (the discretionary price up to 20.25 for Order I).

iii. *Order Display and Dissemination.* Arca would operate the Arca Book on an

open basis. All orders at all price levels in the Display Order Process of the Arca Book would be displayed to all Users on an anonymous basis. In addition, the same information would be made available to other interested parties.⁷² Furthermore, the best-ranked displayed order(s) to buy and sell in the Arca Book and the corresponding aggregate size of such orders associated with such prices would be collected and made available to quotation vendors for dissemination pursuant to the requirements of Rule 11Ac1-1⁷³ under the Act.⁷⁴

iv. *Order Execution.* Subject to the restrictions on short sales under Rule 10a-1 under the Exchange Act,⁷⁵ like-priced orders, bids and offers would be matched for execution by following Steps 1 through 5, as described below; provided, however, that for an execution to occur in any Order Process the price would have to be equal to or better than the NBBO,⁷⁶ unless Arca has routed orders to all away markets at the NBBO:

Step 1: Directed Order Process. The first step of the Arca execution algorithm is the Directed Order Process. Through this process, Users could direct an order to a market maker with whom they have a relationship and the market maker would execute the order. To access this process, the User would have to submit a Directed Order, which is a market or limit order to buy or sell which has been directed to a particular market maker by the User.⁷⁷ Any type of order other than a Directed Order would skip the Directed Order Process and immediately enter Step 2, the Display Order Process. The Directed Order Process is available only during Core Trading Hours.⁷⁸

In the Directed Order Process, the User's Directed Order would be executed against a Directed Fill, which is the order of the User's designated market maker. Specifically, any market maker could submit a standing instruction to Arca for the parameters of a Directed Fill, including, but not limited to, the size of the order, the Users that could send such market maker a Directed Order, the price improvement algorithm, and the period of time the instruction is effective. The market maker's Directed Fill described in the instruction would be generated only in response to a Directed Order

directed to such market maker. The Directed Fill is a limit order with a size that is equal to or less than the size of the Directed Order and a price that improves the BBO⁷⁹ by an automatically preset amount, which would have to be equal to or greater than the Minimum Price Improvement Increment,⁸⁰ pursuant to a price improvement algorithm; provided, however, that the Directed Fill would not be generated if the price is not equal to or better than the NBBO. In other words, a market maker may not execute against a Directed Order without improving the best price on the Arca Book. A market maker may modify the parameters of the instruction for a Directed Fill from time to time, as the PCXE permits.⁸¹

If a User submits a marketable⁸² Directed Order to Arca and the User's designated market maker has a standing instruction for a Directed Fill, the Directed Order would be executed against the Directed Fill of the designated market maker. If a User submits a marketable Directed Order and the User's designated market maker has not submitted an instruction for a Directed Fill, or if a User submits any order other than a marketable Directed Order, the Directed Order would enter the Display Order Process without interacting with any Directed Fills.⁸³

Step 2: Display Order Process. If an incoming marketable order has not been executed in its entirety in the Directed Order Process, any remaining part of the order would be routed to the Display Order Process, Step 2 of the execution algorithm.⁸⁴ In the Display Order Process, Arca would match an incoming marketable order against orders in the Display Order Process at the display price of the resident order for the total size available at that price or for the size of the incoming order, whichever is smaller. For the purposes of the Display Order Process, the size of an incoming Reserve Order includes the displayed and reserve size and the size of the portion of the Reserve Order resident in the Display Order Process is equal to its displayed size. If the incoming marketable order has not been executed in its entirety, the remaining part of the

order would be routed to the Working Order Process.⁸⁵

An incoming order that is not marketable would skip the Display Order Process and enter the Working Order Process to be executed against any Discretionary Orders at or better than the NBBO.⁸⁶

Step 3: Working Order Process. An incoming marketable order would be matched for execution against orders in the Working Order Process in the following manner: An incoming marketable order would be matched against orders within the Working Order Process in the order of their ranking, at the price of the displayed portion (or in the case of an All-or-None Order, at the limit price), for the total amount of stock available at that price or for the size of the incoming order, whichever is smaller. If the BBO is outside the NBBO and any Discretionary Orders within the Working Order Process have a discretionary price equal to or better than the NBBO, the incoming order would execute against such Discretionary Order(s) at the NBBO up to the size of the smaller of the two orders. If an incoming marketable order is a Discretionary Order or a Reserve Order and its prices overlap with the prices of a Discretionary Order(s) in the Working Order Process, then the orders would be executed at the display price of the order that was entered first up to the size of the smaller of the two orders. For the purposes of this subsection, the size of the incoming Reserve Order includes the displayed and reserve size. If the incoming marketable order has not been executed in its entirety, the remaining part of the order would be routed to the Tracking Order Process.⁸⁷

An incoming order that is not marketable would be matched for execution against orders in the Working Order Process in the following manner: The incoming order would be matched against any Discretionary Orders in the Working Order Process that have discretionary prices that would satisfy an otherwise displayable incoming Limited Price Order. The execution would occur at the limited price of the incoming order. If the incoming order is a Discretionary Order and its prices overlap with the prices of a Discretionary Order in the Working Order Process, then the orders would be executed at the discretionary price of the incoming order that would be the best price available for the order entered first. If any change in the NBBO or other available away trading interest would

cause a potential match between the away order and an order in the Working Order Process, a commitment to trade would be sent to that market center or market participant⁸⁸ pursuant to Step 5 below.⁸⁹

Step 4: Tracking Order Process.

During Core Trading Hours only, the fourth step of the execution algorithm is the Tracking Order Process. If an order has not been executed in its entirety in the Directed, Display, or Working Order Processes, Arca then would match and execute any remaining part of the order in the Tracking Order Process, unless the order or portion thereof was received from another market center or market participant, in which case it would be cancelled immediately.⁹⁰

If the unfilled order or portion of an order that enters the Tracking Order Process is a mixed lot or round lot order, Arca would match the order against any Tracking Orders.⁹¹ Any User could submit an instruction to Arca for the parameters of a Tracking Order at any time during the day, where such parameters include: (1) the maximum aggregate size, which is the aggregate size of all partial orders generated in the Tracking Order Process for a particular security that the User is willing to trade on that day; (2) the maximum tradeable size, which is the maximum size of any partial order generated in response to an order entering the Tracking Order Process that the User is willing to trade on that day; (3) the price in relation to the NBBO; and (4) the relevant security. Once a User has submitted an instruction for the parameters of the Tracking Order, the instruction would remain in effect until closing or until the User has traded its maximum aggregate size for that day, whichever comes first.⁹²

Users who have submitted an instruction for the parameters of a Tracking Order would be assigned trades on a price/time rotating basis, such that within each price level, trades would be assigned by the time the Users' instructions are received by Arca. Within each price level, the first User to send an instruction for a Tracking Order would be the first User to be assigned a trade in the rotation process. For each order that enters the Tracking Order Process, the Tracking Order Process

would rotate once through the Users in the rotation pattern. In each rotation, the User would be responsible for one trade up to the User's maximum tradeable size.

The order described in the User's Tracking Order instruction would be generated only if an unfilled round or mixed lot order enters the Tracking Order Process and it is such User's turn as determined by the Tracking Order Process rotation pattern.

Each partial order generated in a rotation is a limit order in which (1) the price is set at or better than the NBBO at the time the unfilled order enters the Tracking Order Process, based on the User's parameters; and (2) the size is (i) equal to the User's maximum tradeable size if the unfilled order is equal to or larger than the maximum tradeable size; or (ii) equal to the size of the unfilled order if the unfilled order is smaller than the maximum tradeable size. A User could modify the parameters of the instruction for the Tracking Order from time to time, as the PCXE permits.

After the order has been matched against any Tracking Orders, if the order has not been executed in its entirety and the remaining part of the order is an odd lot, the odd lot order would be executed in the Odd Lot Tracking Order Process, as described below. Otherwise the order would be routed pursuant to the final step of the execution algorithm.

If the unfilled order or portion of an order that enters the Tracking Order Process is an odd lot, Arca would match the order against any Odd Lot Tracking Orders⁹³ ("OLTOs"), using the same rotation process described above with regard to Tracking Orders.⁹⁴ An OLTO, which could only be submitted to Arca by a registered Odd Lot Dealer, is a Tracking Order in which: (1) the maximum aggregate size is unlimited; (2) the maximum tradeable size is 99 shares; (3) the price is set at the NBBO; (4) the security is one in which the Odd Lot Dealer is registered as such; and (5) the instruction would have to be in effect for the duration of Core Trading Hours. The order described in the instruction would be generated only if an unfilled odd lot market order enters the Odd Lot Tracking Order Process or an odd lot limit order causes a locked market as described in proposed PCXE Rule 7.56.

Whenever in the judgment of the PCXE, because of an influx of orders, a system malfunction, or other unusual conditions or circumstances, the interests of a fair and orderly market so

require, the PCXE could suspend the Tracking Order Process. If the PCXE suspends the Tracking Order Process, the Process would become operational again when the PCXE determines that the conditions supporting the suspension no longer exist.⁹⁵

Step 5: Routing. The fifth step of the Arca execution algorithm, which involves routing orders away to other market centers or market participants, is available only to those ETP Holders who have entered into a Routing Agreement. A Routing Agreement is an agreement between an ETP Holder and a broker-dealer affiliate of Archipelago Exchange, L.L.C., under which the broker-dealer affiliate agrees to act as agent for routing orders of the ETP Holder and the ETP Holder's Sponsored Participants to other market centers or broker-dealers for execution, whenever routing is required.⁹⁶

For those ETP Holders that are parties to a Routing Agreement and indicate that they wish the order to be routed away, if necessary, if the order has not been executed in its entirety pursuant to the other Order Processes, the order would be routed to another market center or market participant as follows:⁹⁷ Arca would route the order to another market center or market participant as a limit order priced at the quote published by the market center or market participant. Arca would attempt to match the part of the order that has not been routed away against then available trading interest in the Arca Book for an internal fill by following Steps 1 through 4 again.

Orders routed to other market centers or market participants would remain outside Arca for a prescribed time period during which such orders could be executed (in whole or in part) or declined. While an order remains outside Arca, it would have no time standing relative to other orders received from Users at the same price which could be executed against the Arca Book. Requests from Users to cancel their orders while the order is routed away to another market center or market participant and remains outside Arca would be processed, subject to applicable trading rules of the relevant market center or market participant.

In the event that a marketable order routed from Arca to another market center or market participant is not executed in its entirety at the other market center or market participant's quote (*i.e.*, all attempts to fill the order

are declined or timed-out), Arca would attempt to match the residual or declined market order against then available trading interest in the Arca Book for an internal fill by following Steps 1 through 4 above. Any remaining unmatched trading interest would be re-routed to another market center or market participant at the next available displayed price level.

When routing an order away to another market center, the PCXE would utilize such electronic intermarket linkages and order delivery facilities as could be approved by the Board of Directors from time to time, subject to such applicable requirements as could be agreed to with the relevant market center.

Under the proposal, if an ETP Holder has not entered into a Routing Agreement, the ETP Holder and its Sponsored Participants could submit to Arca only Fill-or-Return, Fill-or-Return Plus, or PNP Orders, which are orders that could not be routed outside of Arca.⁹⁸ Specifically, a Fill-or-Return Order is an order to buy or sell that is to be executed in whole or in part on the PCXE, and any portion not executed on the PCXE is to be cancelled, without routing the order to another market center or market participant.⁹⁹ Similarly, a Fill-or-Return Plus Order is a Fill-or-Return Order, except, in the event any portion of the order is not executed on the PCXE and would have to be cancelled, Arca, after canceling the unexecuted portion of the order, would send an administrative message to an ETP Holder designated by the order entry ETP Holder informing the designated ETP Holder that a portion of the order was cancelled.¹⁰⁰ A Post No Preference ("PNP") Order is a limit order to buy or sell that is to be executed in whole or in part on the PCXE, and the portion not so executed is to be ranked in the Arca Book, without routing any portion of the order to another market center. However, the PCXE would cancel a PNP Order that would lock or cross the NBBO.¹⁰¹ Therefore, if an order has not been executed in its entirety pursuant to the other Order Processes and it has been designated as a Fill-or-Return, Fill-or-Return Plus Order, or a PNP Order, the order would be cancelled at the routing step, without routing the order away from Arca.¹⁰²

Finally, if an order has not been executed in its entirety after following Steps 1—5, the order would be ranked in the Arca Book pursuant to Rule 7.36.¹⁰³

Examples. The following examples clarify the order execution process for the Arca Book. Assuming PCXE has the orders in the Arca Book as specified in the ranking example above (*see* Section 2(c)(ii)), suppose an incoming order, which is not a Directed Order and therefore bypasses the Directed Order Process, enters Arca:

Example 1. Suppose the incoming order is a market order to sell 1000 shares of XYZ. The market order would execute against Order A, filling both Order A and the incoming order for 1000 shares at the price of 20.

Example 2. Suppose the incoming order is a market order to sell 5000 shares of XYZ.

(1) The incoming order would execute against Order A, filling Order A and executing 1000 shares of the incoming order at 20.

(2) Next, 1000 shares of the incoming order would execute against the 1000 displayed shares of Order B1 at 20, without affecting the 4000 undisplayed shares of Order B2 in the Working Order Process.

(3) Third, the incoming order would execute against Order C, filling both Order C and executing 500 shares of the incoming order at 20.

(4) Finally, the remaining 2500 shares of the incoming order would execute against 2500 shares of D1 at 20, completing the incoming order.

Example 3. Suppose the incoming order is a market order to sell 25,200 shares of XYZ.

(1) The incoming order would execute against Orders A, B1, and C in the same manner as in Example 3.

(2) Then, the incoming order would execute against Order D1 for 5000 shares at 20, filling Order D.

(3) Next, the incoming order would execute against Order F for 1000 shares at 20, thereby filling Order F.

(4) The incoming order then would execute against Order G for 700 shares at 20, thereby filling Order G.

(5) Then, the incoming order would execute against Order H for 5000 shares at 20, thereby filling Order H.

(6) Then, the incoming order would execute against Order I1 for 10,000 shares at 20, thereby filling Order I.

(7) Then, because the incoming order has exhausted orders in the Display Order Process and has not been filled in its entirety, it enters the Working Order Process. First, the incoming order is

¹⁰¹ See proposed PCXE 7.31(w).

¹⁰² See proposed PCXE Rule 7.37(d)(1).

¹⁰³ See proposed PCXE Rule 7.37(e).

⁹⁶ See proposed PCXE Rule 1.1(gg) (definition of "Routing Agreement").

⁹⁷ See proposed PCXE Rule 7.37(d)(2).

executed against the 4000 shares of reserve size for Order B2. This fills the balance of Order B.

(8) The incoming order does not interact with Order D2 in the Working Order Process because Order D was filled in the Display Order Process.

(9) The incoming order then executes against the 1500 shares of Order E at 20, thereby filling both Order E and the incoming order.

Example 4. Suppose the incoming order is a market order to sell 25,300 shares of XYZ. The order would be executed as described in Example 3, paragraphs (1)–(9). The remaining 100 shares would be routed to the Tracking Order Process, where they would be executed against Tracking Order(s), if any.

Example 5. Suppose the incoming order is a market order to sell 25,250 shares of XYZ. The order would be executed as described in Example 3, paragraphs (1)–(9). The remaining 50 shares would be routed to the Tracking Order Process, where they would be executed against Odd Lot Tracking Order(s), if any.

v. *Crosses*. Arca permits the execution of a Cross Order, which is defined as a two-sided order with instructions to match the identified buy-side with the identified sell-side at a specified price (the “cross price”), subject to price improvement requirements described below.¹⁰⁴ A Cross Order would be executed as follows; provided, however, no Cross Orders would be matched at the cross price without interacting with any orders in the Arca Book unless the cross price improves the BBO by the Minimum Price Improvement Increment.¹⁰⁵

(1) If the cross price is equal to or better than the NBBO and is between the BBO, the orders could be crossed without interacting with any other orders.

(2) If the cross price is equal to or better than the NBBO and is at the BBO, the remainder of the Cross Order could be crossed, after any relevant portion is matched against any displayed orders with priority in the Arca Book.

(3) If the cross price is outside the NBBO and is between the BBO, the remainder of the Cross Order could be crossed, after the relevant portion is routed away to other markets for execution.

(4) If the cross price is outside the NBBO and is at the BBO, the remainder

of the Cross Order could be crossed, after any relevant portion is first routed away to other markets for execution and then any relevant portion is matched against any displayed orders with priority in the Arca Book.

(5) If the cross price is outside the NBBO and the BBO and the NBBO is better than the BBO, the relevant portion of the order first would be routed away to other markets for execution. Then, the Cross Order would be matched at the displayed price (if the Cross Order is smaller than block size¹⁰⁶) or at the cross price (if the Cross Order is of block size) against displayed orders with priority in the Arca Book. Then, the Cross Order would be matched at the price at which the Working Order is represented in the Book against all Working Orders with priority. Finally, any remainder of the Cross Order would be matched at the cross price.

(6) If the cross price is outside the NBBO and the BBO and the NBBO equals the BBO, then the Cross Order first would be matched at the displayed price (if the Cross Order is smaller than block size) or at the cross price (if the Cross Order is of block size) against displayed orders with priority in the Arca Book. Then, the Cross Order would be matched at the price at which the Working Order is represented in the Book against all Working Orders with priority. Then, the relevant portion of the order would be routed away to other markets for execution. Finally, any remainder of the Cross Order would be matched at the cross price.

vi. *Trading Sessions*. Arca would have three trading sessions each day the PCXE is open for business: the Opening Session, the Core Trading Session and the Late Trading Session. The Opening Session begins at 5:00 a.m. (Pacific Time) and concludes at the commencement of the Core Trading Session. The Opening Auction and the Market Order Auction¹⁰⁷ would occur during the Opening Session. The Core Trading Session begins for each security at 6:30 a.m. (Pacific Time) or at the conclusion of the Market Order Auction, whichever comes later, and concludes at 1:00 p.m. (Pacific Time). Finally, the Late Trading Session begins after the conclusion of the Core Trading Session and concludes at 5:00 p.m. (Pacific Time).¹⁰⁸

¹⁰⁶ For the purposes of a Cross Order, an order of block size would have the same meaning as set forth in proposed PCXE Rule 7.57 regarding ITS. See proposed PCXE Rule 7.31(s).

¹⁰⁷ For a discussion of the Opening Auction and the Market Order Auction, see Section 2(c)(vii).

¹⁰⁸ See proposed PCXE Rule 7.34(a).

During the Core Trading Session, market makers would be obligated to enter Q Orders in securities in which they are registered by the time Core Trading Hours begin. During the Opening Session and the Late Trading Session, market makers are not obligated to enter Q Orders in securities in which they are registered. Market makers are required to enter at least one Cleanup Order for all securities in which they are registered for each Market Order Auction.¹⁰⁹

Any Day Order entered into Arca could remain in effect for one or more consecutive trading sessions on a particular day. For each Day Order entered into Arca, the User would have to designate for which trading session(s) the order would remain in effect. Any GTC Order entered into Arca would remain in effect only during Core Trading Sessions, unless the User indicates that the GTC Order would remain in effect for the Opening and/or Late Trading Sessions.¹¹⁰

For each trading session, some order types are eligible to be executed and others are not eligible to be executed. During the Opening Session, orders eligible for the Display Order Process (other than Q Orders) and for the Working Order Process that have been designated as available for the Opening Session are eligible for entry into and execution on Arca. Stop Orders are not eligible for execution during the Opening Session. Users could enter market and Auction Only Limit Orders for inclusion in the Market Order Auction. Market orders and Auction Only Limit Orders are not eligible for execution during the Opening Session, except during the Market Order Auction. Neither the Directed Order Process nor the Tracking Order Process is available during the Opening Session. For the purposes of the Opening Session, market Directed Orders are eligible for execution in the Market Order Auction. NOW Orders are eligible for execution during the Opening Session; however, NOW Orders are not eligible for the Opening Auction or the Market Order Auction. PNP Orders are eligible for execution during the Opening Session.¹¹¹

During the Core Trading Session, market orders, Stop Orders, NOW Orders, PNP Orders and orders eligible for the Directed Order, Display Order, Working Order, and Tracking Order Processes are eligible for entry into and execution on Arca.¹¹²

¹⁰⁹ See proposed PCXE Rule 7.34(b).

¹¹⁰ See proposed PCXE Rule 7.34(c).

¹¹¹ See proposed PCXE Rule 7.34(d)(1).

¹¹² See proposed PCXE Rule 7.34(d)(2).

¹⁰⁴ See proposed PCXE Rule 7.31(s) (definition of a “Cross Order”).

¹⁰⁵ For a description of the Minimum Price Improvement Increment, see proposed PCXE Rule 7.6(a), Commentary .06.

During the Late Trading Session, orders eligible for the Display Order Process (other than Q Orders) and for the Working Order Process, including NOW Orders and PNP Orders, that have been designated as available for the Late Trading Session are eligible for entry into and execution on Arca. Market orders and Stop Orders are not eligible for execution during the Late Trading Session. The Directed Order Process and Tracking Order Process are not available during the Late Trading Session.¹¹³

Because Arca would operate the Opening and Late Trading Sessions outside of traditional trading hours, the PCXE requires certain customer disclosures.¹¹⁴ In particular, no ETP Holder could accept an order from a non-ETP Holder for execution in the Opening or Late Trading Session without disclosing to such non-ETP Holder that:

(1) Except for market orders eligible for execution during the Market Order Auction, Limited Price Orders are the only orders that are eligible for execution during the Opening and Late Trading Sessions;

(2) An order would have to be designated specifically for trading in the Opening and/or Late Trading Session to be eligible for trading in the Opening and/or Late Trading Session; and

(3) Extended hours trading involves material trading risks, including the possibility of lower liquidity, high volatility, changing prices, unlinked markets, an exaggerated effect from news announcements, wider spreads and any other relevant risk. The disclosures required pursuant to this paragraph could take the following form or such other form as provides substantially similar information:

1. *Risk of Lower Liquidity.* Liquidity refers to the ability of market participants to buy and sell securities. Generally, the more orders that are available in a market, the greater the liquidity. Liquidity is important because with greater liquidity it is easier for investors to buy or sell securities, and as a result, investors are more likely to pay or receive a competitive price for securities purchased or sold. There may be lower liquidity in extended hours trading as compared to regular market hours. As a result, your order may only be partially executed, or not at all.

2. *Risk of Higher Volatility.* Volatility refers to the changes in price that securities undergo when trading. Generally, the higher the volatility of a security, the greater its price swings. There may be greater volatility in

extended hours trading than in regular market hours. As a result, your order may only be partially executed, or not at all, or you may receive an inferior price in extended hours trading than you would during regular markets hours.

3. *Risk of Changing Prices.* The prices of securities traded in extended hours trading may not reflect the prices either at the end of regular market hours, or upon the opening of the next morning. As a result, you may receive an inferior price in extended hours trading than you would during regular market hours.

4. *Risk of Unlinked Markets.* Depending on the extended hours trading system or the time of day, the prices displayed on a particular extended hours system may not reflect the prices in other concurrently operating extended hours trading systems dealing in the same securities. Accordingly, you may receive an inferior price in one extended hours trading system than you would in another extended hours trading system.

5. *Risk of News Announcements.* Normally, issuers make news announcements that may affect the price of their securities after regular market hours. Similarly, important financial information is frequently announced outside of regular market hours. In extended hours trading, these announcements may occur during trading, and if combined with lower liquidity and higher volatility, may cause an exaggerated and unsustainable effect on the price of a security.

6. *Risk of Wider Spreads.* The spread refers to the difference in price between what you can buy a security for and what you can sell it for. Lower liquidity and higher volatility in extended hours trading may result in wider than normal spreads for a particular security.

Finally, trades on Arca executed and reported outside of the Core Trading Session would have to be designated as .T trades.¹¹⁵

vii. *Opening Session Auctions. Definitions.* Arca would operate two auctions during its Opening Session—the Opening Auction and the Market Order Auction. In preparation for a description of these two auctions, PCXE would define several new terms applicable to the auctions.

First, for the purposes of the Opening Auction and the Market Order Auction, PCXE proposes to define the term “Indicative Match Price” to mean “for each security” (1) the price at which the maximum volume of orders are executable; or (2) if there are two or more prices at which the maximum

volume of orders are executable, the price that is closest to the closing price of the previous trading day’s normal market hours, as determined by the Consolidated Tape.”¹¹⁶

In addition, the PCXE defines the term “Imbalance” as the number of buy or sell shares orders that can not be matched with other orders at the Indicative Match Price at any given time.¹¹⁷

Finally, the PCXE introduces the Cleanup Order for the Market Order Auction.¹¹⁸ Cleanup Orders (1) could be submitted only by Market makers; (2) would have to be submitted to Arca before 6:15 a.m. (Pacific Time) and remain in effect until the conclusion of the Market Order Auction; (3) would have to be 2500 shares in size; (4) would have to be entered as both buy or sell orders, provided, however, the Cleanup Order could be executed only on the side of the market opposite the Imbalance; (5) would be executed at the Indicative Match Price as of the time of the Market Order Auction; and (6) would be executed only if: (i) there was an Imbalance of eligible orders at the conclusion of the Market Order Auction, as provided in proposed PCXE Rule 7.35; and (ii) the Imbalance is less than or equal to aggregate size of all Cleanup Orders in the relevant security. If there is an Imbalance and Cleanup Orders would be executed, the market orders which make up the Imbalance would be divided equally among, and allocated to, all Market makers registered in the relevant security and executed against such market makers’ Cleanup Orders. If no Imbalance exists at the time of the Market Order Auction, all Cleanup Orders would be cancelled at that time.

*Order Entry and Cancellation Before the Opening Auction.*¹¹⁹ Users could submit any orders to Arca beginning at 4:30 a.m. (Pacific Time). Any such Limited Price Orders designated for the Opening Session would be queued until 5:00 a.m. (Pacific Time) at which time they would be eligible to be executed pursuant to the Opening Auction. Any such market orders would be queued until the Market Order Auction at which time they would be executed pursuant to the Market Order Auction.

Only Limited Priced Orders designated for the Opening Session would be eligible for the Opening Auction. Market orders entered before the Opening Auction would participate

¹¹⁶ See proposed PCXE Rule 1.1(r) (definition of “Indicative Match Price”).

¹¹⁷ See proposed PCXE Rule 1.1(q) (definition of “Imbalance”).

¹¹⁸ See proposed PCXE Rule 7.31(u) (definition of “Cleanup Order”).

¹¹⁹ See proposed PCXE Rule 7.35(a).

in the Market Order Auction. Limited Price Orders not designated for the Opening Session would become eligible for execution pursuant to Rule 7.37 at the commencement of the Core Trading Session.

Beginning at 4:30 a.m. (Pacific Time), and various times thereafter as determined from time to time by the PCXE, the Indicative Match Price of the Opening Auction, and any Imbalance associated therewith, would be published via electronic means as determined from time to time by the PCXE. Orders that are eligible for the Opening Auction could not be cancelled between 4:58 a.m. (Pacific Time) and the conclusion of the Opening Auction.

Opening Auction. At 5:00 a.m. (Pacific Time), Limited Price Orders designated for the Opening Session are matched and executed in the Opening Auction. The orders in the Opening Auction would be executed at the Indicative Match Price as of the time of the Opening Auction. Orders that are eligible for, but not executed in, the Opening Auction would become eligible for the Opening Session immediately upon conclusion of the Opening Auction.¹²⁰

For example, if the last .T sale is 50, Arca has a limit order to buy 1000 shares at 50.5 and a limit order to sell 1000 shares at 50.2, the opening execution would occur at 50.2 for 1000 shares. As another example, suppose the last .T sale is at 50 and Arca has (1) a limit order to buy 1500 shares at 50.5; (2) a limit order to sell 1000 shares at 50.25; and (3) a limit order to sell 300 at 50.5. The opening execution would occur at 50.5 for 1300 shares. The remaining 200 shares would be bid at 50.5 in the Opening Session.

*Market Order Auction.*¹²¹ Beginning at 5:00 a.m. (Pacific Time), and various times thereafter as determined from time to time by the PCXE, the Indicative Match Price of the Market Order Auction and the volume available to trade at such price, would be published via electronic means as determined from time to time by the PCXE. If such a price does not exist (*i.e.*, there is an Imbalance of market orders), Arca would indicate via electronic means that an Indicative Match Price does not exist. In addition, beginning at 5:00 a.m. (Pacific Time), and various times thereafter as determined from time to time by the PCXE, the market order Imbalance associated with the Market Order Auction, if any, would be published via electronic means as determined from time to time by the PCXE. If the

difference between the Indicative Match Price and the closing price of the previous trading day's normal market hours, as determined by the Consolidated Tape, is equal to or greater than a pre-determined amount, as determined from time to time by the PCXE, Arca would assign a "SIG" designator to such Indicative Match Price and publish such designator via electronic means as determined from time to time by the PCXE.

For example, suppose Arca has the following orders: (1) market order to buy 5000 shares; (2) Auction-Only Limit Order to sell 1000 at 50; (3) limit order to sell 1000 at 50.50; and (4) limit order to sell 500 at 50.75. Arca would publish an Indicative Match Price of 50.75, a volume of 2500 shares and a buy Imbalance of 2500 shares.

As another example, suppose Arca has the following orders: (1) market order to buy 3000 shares; (2) market order to sell 1000; (3) limit order to sell 1000 at 41.00; and (4) limit order to sell 1000 at 41.25. Arca would publish an Indicative Match Price of 41.25 and a volume of 3000 shares and would not publish an Imbalance.¹²²

Any Imbalance in the Market Order Auction could be reduced by new orders, entered on the side of the market opposite the Imbalance, pursuant to the following priority: (1) Market orders; (2) Limited Price Orders eligible for the Opening Session; (3) Limited Price Orders entered before 6:28 a.m. (Pacific Time); (4) Auction-Only Limit Orders; and (5) Cleanup Orders. Between 6:28 a.m. (Pacific Time) and the conclusion of the Market Order Auction, Limited Price Orders eligible for the Opening Session or the Core Trading Session could be cancelled, but market orders, Auction-Only Limit Orders and Cleanup Orders could not be cancelled. In addition, between 6:28 a.m. (Pacific Time) and the conclusion of the Market Order Auction, market orders and Auction-Only Limit Orders could not be entered on the same side as the Imbalance. Market orders and Auction-Only Limit Orders may could be entered on the opposite side of the Imbalance, however, any time before the Market Order Auction.¹²³

Arca would determine the price of the Market Order Auction as follows: If there is no Imbalance, orders would be executed in the Market Order Auction at the Indicative Match Price as of 6:30 a.m. (Pacific Time). If an Imbalance exists, or if an equilibrium exists between buy market orders and sell market orders, as many buy market

orders and sell market orders as possible would be matched, on a time priority basis, (1) at the midpoint of the NBBO at 6:30 a.m. (Pacific Time), in the case of exchange-listed securities for which the PCXE is not the primary market; or (2) at the midpoint of the NBBO at 6:30 a.m. (Pacific Time), in the case of Nasdaq securities, provided that the NBBO is not crossed; (3) at the midpoint of the first uncrossed NBBO after 6:30 a.m. (Pacific Time), in the case of Nasdaq securities in which the NBBO is crossed but the BBO is not crossed by the NBBO; (4) at the bid (offer) of the BBO that was crossed prior to 6:30 a.m. (Pacific Time), in the case of Nasdaq securities in which the BBO is crossed by a market participant; or (5) at the Indicative Match Price as of 6:30 a.m. (Pacific Time) in the case of those issues for which the PCXE is the primary market; if an equilibrium exists between buy and sell market orders, the match price would be the last Corporation sale price in the security regardless of the trading session, provided that, if the last Corporation sale price is inferior to the BBO, the match price would be the Corporation bid (offer). Such executions would be designated with a modifier to identify them as Market Order Auction trades. The market orders that are eligible for, but not executed in the Market Order Auction, would become eligible for execution in the Core Trading Session immediately upon conclusion of the Market Order Auction.¹²⁴

The following examples clarify how the Market Order Auction works:

Example 1. Suppose Arca has the following orders: (1) Market order to buy 5000; (2) Opening Session active limit order to buy 1000 at 50; (3) Opening Session active limit order to sell 1000 at 50.5; (4) Core Session limit order to sell 500 at 50.25; (5) Auction Only Limit order to sell 3000 at 50.5 and; (6) One Market maker Cleanup Order for 2500 shares. The Market Order Auction would occur at 50.5 with the market order being executed against orders in the following manner: (1) 1000 executed against the Opening Session Limit sell order; (2) 500 executed against the Core Session limit order; (3) 3000 executed against the Auction Only Limit Order; and (4) 500 executed against the Cleanup Order.

Example 2. Suppose Arca has the following orders: (1) Market order to buy 5000; (2) Market order to sell 5000; and (3) NBBO at 6:30 is 50 to 50.5. The Market Order Auction would occur at 50.25 with the market buy order being

¹²³ See proposed PCXE Rule 7.35(c)(2).

executed against the market sell order at the mid-point of the spread.

Example 3. Suppose Arca has the following orders: (1) Market order to buy 5000; (2) Market order to sell 5000; and (3) NBBO at 6:30: 50.6 bid quoted at 6:29 and 50.5 offer quoted at 6:15. The Market Order Auction would occur at 50.55 with the market buy order being executed against the market sell order at the price of the most recent quote.

Example 4. Suppose Arca has the following orders for Nasdaq securities: (1) Market order to buy 5000; (2) Market order to sell 5000; (3) Opening Session active limit order to sell 1000 at 50.5; and (4) NBBO at 6:30: 50.6 bid quoted at 6:29 and 50.5 offer quoted at 6:15 (Arca). The Market Order Auction would occur at 50.5 with the market buy order being executed against the market sell order at the price of the Arca quote that has been locked crossed.

Transition to Core Trading Session. Limited Price Orders entered before 6:28 a.m. (Pacific Time) would participate in the Market Order Auction. Limited Price Orders designated for the Core Trading Session entered after 6:28 a.m. (Pacific Time) would become eligible for execution at 6:30 a.m. (Pacific Time) or at the conclusion of the Market Order Auction, whichever is later. Market orders entered after 6:28 a.m. (Pacific Time) and before 6:30 a.m. (Pacific Time), which are eligible for either the Market Order Auction or the Core Trading Session, would become eligible for execution at 6:30 a.m. (Pacific Time) or at the conclusion of the Market Order Auction, whichever is later, unless otherwise provided in proposed Rule 7.350(c)(2)(C). Stop Orders entered before or during the Opening Session become eligible for execution at 6:30 a.m. (Pacific Time) or at the conclusion of the Market Order Auction, whichever is later.¹²⁵

viii. *Odd and Mixed Lots.* In addition to round lots, Users could also submit odd and mixed lots to Arca and, therefore, proposed PCXE Rule 7.38 describes the treatment of odd and mixed lots on Arca. All odd lot orders submitted by Users to Arca would have to be market orders or limit orders, where such orders are subject to no additional conditions. In other words, odd lot orders could not be Working Orders, Directed Orders, Directed Fills, Tracking Orders, or other similar orders. As an exception to this prohibition on conditional odd lot orders, Odd Lot Dealers could submit Odd Lot Tracking Orders. Mixed lot orders could be any order type supported by Arca.¹²⁶

Round lot, mixed lot, and odd lot orders are treated in the same manner in Arca, except in the Tracking Order Process. The Tracking Order Process treats odd lot orders in a different manner from mixed lot and round lot orders, as discussed above.¹²⁷

Finally, proposed PCXE Rule 7.38(c) states that the following actions related to odd lot orders would be considered conduct inconsistent with just and equitable principles: (1) combining odd lot orders given by different customers into a round lot order or orders unless specifically requested to do so by the customers giving the orders; (2) unbundling round lots for the purpose of entering odd lot limit orders in comparable amounts; (3) failing to aggregate odd lot orders into round lots when such orders are for the same account or for various accounts in which there is a common monetary interest; and (4) entering both buy and sell odd lot limit orders in the same stock before one of the orders is executed for the purpose of capturing the spread in the stock.¹²⁸

ix. *Miscellaneous Trading Rules.* A. *Trading Units and Differentials.* The PCXE proposes to reduce the unit of trading in stocks from the current 100 shares to 1 share.¹²⁹ The PCXE also proposes to establish the minimum price variation for equity securities traded on Arca as $\frac{1}{64}$ of \$1.00 for those securities that are quoted in fractions and \$0.01 for those equity securities that are quoted in decimals. However, at all times, the minimum price variation must would have to be consistent with the Decimalization Implementation Plan.¹³⁰ In addition, the PCXE proposes to make the Minimum Price Improvement Increment on Arca equal to \$0.01 or 10% of the spread, whichever is more.¹³¹

B. *Firm Orders and Quotes.* The proposed rules require that ETP Holders submit firm quotes and orders to Arca. Proposed PCXE Rule 7.17(a) states no ETP Holder could submit to the PCXE an order (including Q Orders) to buy from or sell to any person any security at a stated price and/or size unless such ETP Holder is prepared to, and, upon submission of an appropriate contra-side order, does, purchase or sell, as the case may be, at such price and/or size and under such conditions as are stated

at the time of submission of such order to buy or sell. Additionally, proposed PCXE Rule 7.17(b) requires that all bids and all offers be made in accordance with the provisions of Rule 11Ac1-1 under the Act,¹³² governing the dissemination of quotations for reported securities.

C. *Trading Halts and Suspensions.* The PCXE guidelines for trading halts and suspensions are set forth in proposed PCXE Rules 7.12 and 7.13. PCXE proposes to keep current PCXE Rule 7.47, entitled "Trading Halts Due to Extraordinary Market Volatility," renumbered as proposed PCXE Rule 7.12. In addition, proposed PCXE Rule 7.13 regarding trading suspensions states that, except as otherwise stated in the proposed rules, the Chair of the Board or the President, or the officer designee of the Chair or the President, would have the power to suspend trading in any and all securities traded on the PCXE whenever in his or her opinion such suspension would be in the public interest. No such action would continue longer than a period of two days, or as soon thereafter as a quorum of Directors can be assembled, unless the Board approves the continuation of such suspension.¹³³

D. *Clearly Erroneous Policy.* Given the change from a manual to an electronic trading environment, the PCXE proposes to adopt a rule regarding clearly erroneous submissions to Arca.¹³⁴ Proposed PCXE Rule 7.11 would allow an ETP Holder that receives an execution on an order that was submitted erroneously to the PCXE for its own or customer account to request that the PCXE review the transaction. Such a request for review could be made via telephone and in writing via facsimile or e-mail. The telephonic request should be submitted immediately and the written request should be submitted within fifteen (15) minutes of the time the trade in question was executed. Once the request has been received, an officer of the PCXE designated by the President would review the transaction under dispute and determine whether it is clearly erroneous, with a view toward maintaining a fair and orderly market and the protection of investors and the public interest. For the purposes of proposed PCXE Rule 7.11, the terms of a transaction executed on the PCXE are "clearly erroneous" when there is an obvious error in any term, such as price,

number of shares or other unit of trading, or identification of the security. Each party to the transaction would provide, on a timely basis, any supporting written information as could be reasonably requested by the designated officer to aid resolution of the matter.

Unless both parties (or party, in the case of a cross) to the disputed transaction agree to withdraw the initial written request for review, the transaction under dispute would be reviewed, and a determination would be rendered by the designated PCXE officer. If the officer determines that the transaction is not clearly erroneous, the officer would decline to take any action in connection with the completed trade. In the event that the officer determines that the transaction in dispute is clearly erroneous, the officer would declare the transaction null and void or modify one or more of the terms of the transaction to achieve an equitable rectification of the error that would place the parties in the same position, or as close as possible to the same position that they would have been in, had the error not occurred. The officer would promptly notify the parties of the determination reached and would issue a written resolution of the matter. The ETP Holder aggrieved by the officer's determination could appeal such determination in accordance with the provisions of proposed PCXE Rule 10.13.

In the event of any disruption or a malfunction in the use or operation of any electronic communications and trading facilities of the PCXE, the Chief Executive Officer or the President could declare a transaction arising out of the use or operation of such facilities during the period of such disruption or malfunction null and void or modify the terms of these transactions. Absent extraordinary circumstances, any such action of the Chief Executive Officer or President would be taken within thirty (30) minutes of detection of the erroneous transaction. Each ETP Holder involved in the transaction would be notified as soon as practicable, and the ETP Holder aggrieved by the action could appeal such action in accordance with the provisions of proposed PCXE Rule 10.13.

E. Trading Ahead of Customer Limit Orders. PCXE proposes to adopt a rule prohibiting ETP Holders from trading ahead of customer limit orders.¹³⁵ Proposed PCXE Rule 6.16 states that:

No ETP Holder may accept and hold an unexecuted limit order from its

customer (whether its own customer or a customer of another ETP Holder) and continue to trade on the Corporation the subject security for its own account at prices that would satisfy the customer's limit order, without executing that limit order; provided, however, that an ETP Holder may negotiate specific terms and conditions applicable to the acceptance of limit orders only with respect to limit orders that are:

(1) For institutional customer accounts, where such account is defined as the account of:

(A) A bank, savings and loan association, insurance company, or registered investment company;

(B) An investment adviser registered either with the Securities and Exchange Commission under Section 203 of the Investment Advisers Act of 1940¹³⁶ or with a state securities commission (or agency or office performing like functions); or

(C) Any other entity (whether a natural person, corporation, partnership, trust or otherwise) with total assets of at least \$50 million; or

(2) 10,000 shares or more, unless such orders are less than \$100,000 in value.

Proposed PCXE Rule 6.16 would not apply to a customer limit order if the limit order is marketable at the time it is received by the ETP Holder; provided, however, if the limit order were marketable when received and then becomes non-marketable, the limit order would be subject to the Rule's prohibitions. Nothing in proposed PCXE Rule 6.16 would require ETP Holders to accept limit orders from customers. For the purposes of proposed PCXE Rule 6.16 an ETP Holder that controls or is controlled by another ETP Holder would be considered a single entity, absent appropriate information barriers. Thus, if a customer's limit order is accepted by one affiliate and forwarded to another affiliate for execution, the firms would be considered a single entity.

d. Trade Execution and Reporting.

Under the proposal, executions occurring as a result of orders matched against the Arca Book would be reported by the PCXE to an appropriate consolidated transaction reporting system. Executions occurring as a result of orders routed away from Arca would be reported to an appropriate consolidated transaction reporting system by the relevant reporting market center. Arca would promptly notify Users of all executions of their orders as soon as the executions take place.¹³⁷

e. Clearance and Settlement Under the proposed rule for clearance and settlement, each ETP Holder would

have to be a clearing firm, clear transactions on the PCXE through a clearing firm, or clear transactions through an entity duly authorized by the PCXE.¹³⁸ Pursuant to proposed PCXE Rule 7.14, an ETP Holder would have to must give up the name of the clearing firm through whom each transaction on the PCXE would be cleared. If the identity of the clearing firm subsequently changed, the ETP Holder would have to report such change to the PCXE at least five (5) business days in advance.¹³⁹

Pursuant to proposed PCXE Rule 7.14, each clearing firm must would have to be admitted to the PCXE as an ETP Holder, by meeting the qualification requirements for becoming an ETP Holder. However, if a clearing firm becomes an ETP Holder for the sole purpose of acting as a clearing firm on the PCXE, the clearing firm would not have to pay the regular ETP Holder fee. As a general matter, the clearing firm would be responsible for the clearance of the transactions effected by each ETP Holder which gives up such clearing firm's name pursuant to a letter of authorization, letter of guarantee or other authorization given by such clearing firm to such ETP Holder, which authorization would be submitted to the PCXE.¹⁴⁰

Notwithstanding any other provisions contained in proposed PCXE the Rule 7.14 to the contrary, the Board could extend or postpone the time of the delivery of a transaction on the PCXE whenever, in its opinion, such action is called for by the public interest, by just and equitable principles of trade or by the need to meet unusual conditions. In such case, delivery would be effected at such time, place and manner as directed by the Board of Directors.¹⁴¹

The details of each transaction executed within Arca would be automatically processed for clearance and settlement on a locked-in basis. ETP Holders would not have to separately report their transactions to the PCXE for trade comparison purposes. All transactions effected by a Sponsored Participant would be cleared and settled, using the relevant Sponsoring ETP Holder's mnemonic or its clearing firm's mnemonic, as applicable.¹⁴²

f. Interaction with PCXE Application of the OptiMark System. The PCXE Application of the OptiMark System would continue to operate as it does now. In addition, however, the

information from the Arca Book, but not the orders themselves, would be submitted to OptiMark at relevant times during Core Trading Hours in the form of Arca Profiles.¹⁴³ Arca Profiles are defined as “the satisfaction profile generated by the OptiMark System from processing the Arca Book.”¹⁴⁴ Any Order generated from a Cycle representing matches involving Arca Profiles would be routed as an Immediate-or-Cancel Order to Arca for execution against the relevant Arca limit order. If the relevant limit order is no longer available on Arca, the Order generated from the Cycle would be automatically cancelled.¹⁴⁵

g. *Limitation of Liability.* The PCXE proposes to limit the liability of the PCXE, Archipelago Exchange, L.L.C., and their respective affiliates with regard to Arca.¹⁴⁶ Specifically, proposed PCXE Rule 7.42 states that:

Neither the PCXE, any affiliate of the PCXE, Archipelago Exchange, L.L.C., nor any affiliate of the Archipelago Exchange, L.L.C., would be liable to Users for any loss, damages, claim or expense:

(1) growing out of the use or enjoyment of Arca; or

(2) arising from or occasioned by any inaccuracy, error or delay in, or omission of or from the collection, calculation, compilation, maintenance, reporting or dissemination of any information derived from Arca, resulting either from any act or omission by the PCXE, any affiliate of the PCXE, Archipelago Exchange, L.L.C., or any affiliate of Archipelago Exchange, L.L.C., or from any act, condition or cause beyond the reasonable control of the PCXE, any affiliate of the PCXE, Archipelago Exchange, L.L.C., or any affiliate of Archipelago Exchange, L.L.C., including, but not limited to, flood, extraordinary weather conditions, earthquake or other acts of God, fire, war, insurrection, riot, labor dispute, accident, action of government, communications or power failure, or equipment or software malfunction.

In addition, proposed PCXE Rule 7.42(b) provides that “[e]ach ETP Holder expressly agrees, in consideration of the issuance of the ETP, to release and discharge the Corporation, any affiliate of the Corporation, Archipelago Exchange, L.L.C., and any affiliate of the Archipelago Exchange, L.L.C., and any officers, directors, employees and agents thereof, of and from all claims and

damages arising from their acceptance and use of Archipelago Exchange.”

Furthermore, proposed PCXE Rule 7.42(c) states that “[n]either the Corporation, any affiliate of the Corporation, Archipelago Exchange, L.L.C., nor any affiliate of the Archipelago Exchange, L.L.C., makes any express or implied warranties or conditions to Users as to results that any person or party may obtain from Archipelago Exchange for trading or for any other purpose, and all warranties of merchantability or fitness for a particular purpose or use, title, and non-infringement with respect to Arca are hereby disclaimed.”

3. *PCXE Membership Structure: Equity Trading Permits.* With the introduction of Arca, the PCXE intends to simplify its membership rules to reflect more accurately the change from a traditional floor trading environment. The PCXE would only have one category of members, as that term is defined in the Section 3 of the Act:¹⁴⁷ ETP Holders.¹⁴⁸ Any registered broker-dealer who wishes to be a member once Arca begins operation would have to must become an ETP Holder by purchasing an Equity Trading Permit (“ETP”) from the PCXE.¹⁴⁹ By becoming an ETP Holder, the registered broker-dealer may effect approved securities transactions on the PCXE’s two trading facilities, Arca and the PCXE Application of OptiMark. As is the case under the current PCXE Rules, an ETP Holder: (1) Must agree to be bound by the Certificate of Incorporation, Bylaws and Rules of the PCXE, and by all applicable rules and regulations of the SEC; (2) have no ownership or distribution rights in the PCXE; and (3) have limited voting rights to nominate two Directors to the PCXE’s Board of Directors and one Governor to the Board of Governors of the PCX Parent.

With the elimination of the trading floor and the introduction of remote electronic trading on the PCXE, two aspects of the current PCXE Rules relating to memberships become

obsolete. First, under the existing PCXE Rules, an ETP Firm must have a natural person, a Nominee, to act as its representative on the PCXE. Because an ETP Firm no longer needs a natural person to act on its behalf on the floor, the concept of a Nominee of the ETP Firm has been eliminated.¹⁵¹ Therefore, an ETP Firm would be re-designated as an ETP Holder.¹⁵² In addition, the definition of an ETP Holder would no longer be defined as a “natural person” or “Nominee,” but rather a “sole proprietorship, partnership, corporation, limited liability company or other organization” that has been issued an ETP.¹⁵³

Second, an important difference between an Equity Automated Systems Access Permits (“ASAP”) and an ETP today is that an ETP allows its holder to transact business on the floor of the PCXE, whereas the Equity ASAP does not.¹⁵⁴ Because the PCXE proposes to eliminate the floor, there will no longer be a need for two separate membership categories. Therefore, Equity ASAP Holders would be re-designated as ETP Holders and the rules related to Equity ASAP Holders would be deleted.¹⁵⁵

4. *Applicability of Existing PCXE Rules.* In addition to the new proposed rules set forth above, the PCXE proposes to delete the following existing PCXE Rules, which relate primarily to floor trading and specialists or are otherwise inapplicable to the new trading environment: PCXE Rule 1.1(g) (Floor Trader); PCXE Rule 1.1(o) (Non-Resident Organization); PCXE Rule 2.12(a); PCXE Rule 2.24 (Trading Floor Employees of ETP Firms); PCXE Rule 4.1(b–c) (Minimum Net Capital for Specialist Firms); PCXE Rule 4.2 (Specialist Post Capital); PCXE Rule 6.8 (Discretionary Transactions); PCXE Rule 6.16(b) (Miscellaneous Prohibitions); PCXE Rule 7.1(a)(6) (Freely Transferable Security); PCXE Rule 7.1(a)(8) (Local Security); PCXE Rule 7.1(a)(9) (Dually

¹⁵² PCXE proposes to delete PCXE Rule 1.1(m) (“ETP Firm”).

¹⁵³ Compare PCXE Rule 1.1(l) (“ETP Holder”) with proposed PCXE Rule 1.1(n) (“ETP Holder”).

¹⁵⁴ Compare PCXE Rule 1.1(i) (“Equity ASAP”) with proposed PCXE Rule 1.1(m) (“ETP”).

¹⁵⁵ PCXE proposes to delete the following Equity ASAP-related: PCXE Rule 1.1(i) (definition of “Equity ASAP”); PCXE Rule 1.1(j) (definition of “Equity ASAP Holder”) and Rule 2.16 (Terms and Conditions Relating to Equity ASAPs).

If the PCX member or Equity ASAP Holder fails to obtain an ETP prior to that date, the PCX member or Equity ASAP Holder will not be permitted to effect securities transactions on the PCXE’s Trading Facilities until such time as it does obtain an ETP).

Furthermore, minor conforming changes have been made throughout the existing PCXE Rules to conform the proposed rules to the new terminology associated with Arca. For example, PCXE we have deleted references to, among other things, Equity ASAP Holders, ETP Firms and the trading floor throughout the PCXE Rules. Finally, any other existing PCXE rules which have not been deleted or amended as specified remain in effect as they are currently.

The Exchange believes the proposed rule change is consistent with Section 6(b) of the Act,¹⁵⁶ in general, and furthers the objectives of Section 6(b)(5),¹⁵⁷ in particular, in that it is designed to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, and to remove impediments and perfect the mechanisms of a free and open market and to protect investors and the public interest.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. In fact, PCX and PCXE believe that the introduction of a fully electronic trading venue will serve to enhance competition.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments on the proposed rule change were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding, or (ii) as to which the self-regulatory organization consents, the Commission will—

- (A) by order approve such proposed rule change, or
- (B) institute proceedings to determine whether the proposed rule change should be disapproved.

IV. SEC's Solicitation of Comments

The PCX proposes that Arca become a facility of PCXE that would replace the PCX's traditional floor-based auction market for equity securities. The PCX's proposal presents several novel issues with respect to the operation of a national securities exchange. In addition to requesting comments concerning the overall proposal, the Commission requests comments addressed to the following specific items: (1) Discretionary Orders, (2) the minimum price improvement level, (3) customer order priority, and (4) the opening and late trading sessions.

First, the PCX's proposal would enable users to submit "Discretionary Orders" for execution on Arca. Proposed PCXE Rule 7.31(h)(2) defines a Discretionary Order as "an order to buy or sell a stated amount of a security at a specified, undisplayed price (the 'discretionary price'), in addition to at a specified, displayed price." For example, an incoming marketable limit order may be matched for execution against the displayed price of a Discretionary Order. An otherwise non-marketable incoming limit order, however, may trigger an execution

against a Discretionary Order at a price within the undisplayed, discretionary price range of the Discretionary Order. The PCX believes that Discretionary Orders will help replicate the dynamic of a traditional floor-based auction market, in particular the trading discretion of a floor broker.¹⁵⁸

The Commission notes that, pursuant to Rule 11Ac1-1 under the Act¹⁵⁹ (the "Quote Rule"), each responsible broker or dealer is required promptly to communicate to its exchange or association, pursuant to the procedures established by that exchange or association, its best bids, offers, and quotation sizes for any subject security. The Commission seeks general comments on the proposed availability of Discretionary Orders on Arca in the light of the Quote Rule. In addition, the Commission seeks specific comments on the following:

- What are the potential advantages or disadvantages of Discretionary Orders with regard to:
 - (a) price discovery;
 - (b) market transparency; and
 - (c) transaction costs for investors?
- Should a distinction be made between Discretionary Orders placed on behalf of public customers and Discretionary Orders placed by PCXE market makers trading for their own accounts?

Second, proposed PCXE Rule 7.6(a), Commentary .06, would establish a minimum price improvement increment of \$.01 or 10% of the spread, whichever is greater, with regard to the execution of Directed Orders¹⁶⁰ and Cross Orders.¹⁶¹ Accordingly, under the PCX's proposal, the minimum price improvement increment for Directed Orders and Cross Orders would not be less than \$.01. The Commission notes that, under the PCX's proposal, the minimum price variation for equity securities traded on Arca would be $\frac{1}{64}$ of \$1.00 for securities that are quoted in fractions, and \$.01 for equity securities that are quoted in decimals.¹⁶² The Commission seeks comment on whether the PCX's proposed minimum price

¹⁶⁰ See proposed PCXE Rules 7.31(i) (definition of "Directed Order") and (j) (definition of "Directed Fill"). The Commission notes that only executions of Directed Orders against Directed Fills would be subject to the minimum price improvement increment. See proposed PCXE Rule 7.37.

¹⁶¹ See proposed PCXE Rule 7.31(s) (definition of "Cross Order").

¹⁶² The proposed rule further specifies that the minimum price variation shall be consistent with the Decimal Implementation Plan. See proposed PCXE Rule 7.6(a), Commentary .05.

improvement interval that may be greater than the minimum price variation for internalized or otherwise preferred orders is appropriate.¹⁶³

Third, historically, securities exchanges have adopted rules that give priority to the agency orders of public customers over the proprietary trades of member firms, in recognition that traders on the floor of an exchange generally possess an informational advantage over public customers. Because the PCX seeks to establish Arca as a purely electronic facility that would not employ a trading floor, the PCX does not believe that its users would possess any informational advantage over public customers who submit agency orders for execution on the Arca Book. Accordingly, the Arca Book would not give precedence to agency orders over principal orders, but rather would rank orders based upon price/time priority.¹⁶⁴ The Commission seeks comment on the order execution priority of the Arca Book, including whether market makers' orders should have priority equal to orders of the same type placed by public customers.

Fourth, and finally, the PCX proposes to operate three distinct trading sessions: an opening session, a core trading session, and a late trading session. The opening session, which would begin at 5:00 a.m. (Pacific Time) and run until the start of the core trading session, would include an Opening Auction at the start of the opening session and a Market Order Auction that would begin at 6:30 a.m. (Pacific Time). The core trading session for each security would begin immediately after conclusion of the Market Order Auction for such security. The Commission seeks comments about the opening session, particularly the opening procedures and the transition from the opening session to the core trading session.

The PCX also proposes to operate a late trading session that would begin when the core trading session ends and conclude at 5:00 p.m. (Pacific Time), contingent upon arrangements with the Consolidated Tape Association. Currently, after-hours trading sessions for listed securities end at 3:30 p.m. (Pacific Time). The Commission invites comments about the PCX's proposed

late trading session, including the possible extension of the late trading session to 5:00 p.m. (Pacific Time).

The Commission invites interested persons to submit written data, views, and arguments concerning the proposed rule change, including whether it is consistent with the Act. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549-0609. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Room. Copies of such filing will also be available for inspection and copying at the principal office of the PCX. All submissions should refer to File No. SR-PCX-00-25 and should be submitted by January 5, 2001.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.¹⁶⁵

Margaret H. McFarland,

Deputy Secretary.

Commentary

.01 ETP [Firms] *Holders* Who Do Not Carry Customers' Accounts

An ETP Holder[, Equity ASAP Holder or ETP Firm] operating under paragraph (a)(2) of SEC Rule 15c3–1 shall file a written application with the Corporation for approval on a form prescribed by the Corporation.

.02 Trading in Gold and Silver Bullion:

(a) Where gold or silver bullion, which upon payment to the seller is within the ETP [Firm's] *Holder's* control in good deliverable form and covered by appropriate insurance, is purchased by customers under agreements wherein full payment is required and is made within seven business days after the date of purchase, or full payment is required and made within an extended or longer period of time as approved by the Corporation upon application, such purchases may be considered bona fide cash transactions which require no deduction from net worth in computing net capital. In all other purchases by customers of such gold or silver bullion, which liquidate to an equity, cash required, if any, to provide margin equal to 25% (10% if hedged by futures contracts in the same commodity) of the market value of the gold or silver bullion in each such customer's account in equity shall be deducted from net worth in computing net capital.

(b) If upon payment to the seller, gold or silver bullion purchased by customers and paid for by them is not within the ETP [Firm's] *Holder's* control in good deliverable form and covered by appropriate insurance, the market value of such gold or silver bullion shall be deducted from net worth in computing net capital so long as the ETP [Firm] *Holder* is accountable therefore. If upon payment to the seller, gold or silver bullion purchased for a proprietary account

is not within the ETP [Firm's] *Holder's* control in good deliverable form and covered by appropriate insurance, such gold or silver bullion shall be considered to have no market value for purposes of net capital.

(c) Definitions:

(1) "Within the ETP [Firm's] *Holder's* Control"

Gold or silver in bullion form, identified by serial number or otherwise, and subject to immediate disposition at the direction of the [member firm] *ETP Holder*.

Storage arrangements acceptable to insurance carriers will satisfy the Corporation provided the coverage complies with the "appropriate insurance" requirement discussed below. While the Corporation will not specify acceptable bullion depositories to [ETPs] *ETP Holders*, certain custodial requirements must be satisfied whenever gold or silver bullion is stored in outside depositories. The ETP [Firm] *Holder* shall satisfy itself that the depository will maintain physical possession or control of the bullion stored for its customers free of any lien or claim on such bullion other than that arising out of, and limited to the extent of, any margin transaction or other unpaid for transaction. Records shall be maintained to separately identify customer pledged gold and silver bullion subject to lien from that customer bullion not pledged and fully paid for. The ETP [Firm] *Holder* shall include as part of a written agreement with the depository such other protections as may be deemed necessary. ETP [Firms] *Holder's* considering the utilization of foreign depositories are cautioned to familiarize themselves with foreign laws on banking and bankruptcy to insure compliance with this paragraph, since these laws may differ significantly from those of the United States.

(2)—No change.

(3) "Appropriate Insurance"

All gold or silver under the control of an ETP [Firm] *Holder*, whether stored in a depository, in its own custody, in transit, or in any other location, within the ETP [Firm's] *Holder's* control, shall be covered by insurance of the ETP [Firm] *Holder*.

"Appropriate insurance" is defined to mean inclusion of gold and silver bullion as covered property under a broker's blanket bond as required by Rule 2, subject to the following additional criteria which specifically apply to gold and silver bullion wherever stored:

(A) That gold and silver stored meets the ETP [Firm's] *Holder's* insurance carrier's standards including specific identification so as to preclude non-coverage as an inventory loss;

(B) that gold and silver bullion be insured at full market value when in transit;

(C) that no dollar amount of gold and silver bullion stored in depository exceed the sum of the ETP [Firm's] (a) *Holder's* (i) insurance coverage and [(b)] (ii) excess net capital; and

(D) that the value of any bullion stored in a depository and in transit in excess of the sum of [(iii)(a)] (C)(i) and [(b)] (ii) is charged to net capital. (The ETP [Firm] *Holder* may, should it wish, avoid this capital charge by acquiring separate insurance to fully cover bullion exceeding the amount in the broker's

blanket bond.) ETP [Firms] *Holder's* shall file with the Corporation copies of letters from its insurance underwriters setting forth the extent of its coverage for bullion stored in its depositories.

(d) Further Customer Protections—To further ensure protection of customers of [member organizations, the Exchange] *ETP Holders*, the Corporation has established the following guidelines:

(1) Disclosure to Customer

The ETP [Firm] *Holder* shall fully disclose to its customer all relevant information pertaining to a transaction, including, but not limited to, names and locations of depositories, insurance coverage, charges incidental to storage, requirements and costs related to taking physical delivery of the bullion (e.g., possible need for assay), and applicable [Federal] *federal*, state or local laws or regulations (e.g., sales tax implications of the purchase). Communications to the public with regard to gold and silver shall state that SIPC coverage is not available. Due to the varying degrees of fineness, and the need for the customer to be informed as to the quality of bullion being purchased and its attendant variation in price, the fineness, weight, price per ounce, and any markup, commissions, fees, taxes or other costs shall be disclosed to the customer. Salesmen must convey to each customer the special risks and expenses involved in investing in gold and silver bullion. In particular, the customer must be given the opportunity to take delivery of the gold or silver and be informed whether or not the [member organization] *ETP Holder* will buy it back at a later date, and if so, on what basis.

(2) Sale or Saleback of Gold and Silver

All sales of gold and silver bullion shall be long, whether for customer or proprietary accounts.

Under no circumstances shall [a member organization] *an ETP Holder* release the proceeds of sale of gold or silver to a customer unless the customer's gold or silver has been assayed by an acceptable assayer (as defined above) or is in a form acceptable to such assayer. Gold or silver which is to be sold should be within an ETP [Firm's] *Holder's* control before it is sold, but in no event later than two business days after the trade date. An ETP [Firm] *Holder* may, however, submit a plan for review by the Corporation, the effect of which would allow a customer longer than two days to deliver the bullion within the ETP [Firm's] *Holder's* control on a "buy-back" transaction, where the customer is selling bullion originally purchased from that ETP [Firm] *Holder*.

(3)—No change.

(e) Cash Transactions—Purchases of gold or silver bullion in a customer's cash commodity account must be paid for as promptly as possible, but no later than the fifth business day after the date of purchase. A charge against capital will result if full payment has not been received by the seventh business day after purchase.

Although the amendment allows ETP [Firms] *Holder's* to request extensions of time for payments not received within seven business days, the Corporation does not anticipate granting any such extension except in rare cases.

Extension requests should be submitted in letter form, giving the full particulars of the transaction, the customer's name and ID number, the reason for the request, and any other pertinent data. The letter should be signed by an authorized individual or officer. These extension requests will be handled separately from securities extensions, but will, as mentioned above, be restrictly granted.

(f) Margin Transactions—Required margin shall be furnished within five business days after date of purchase or made within an extended or longer period of time as approved by the Corporation upon application.

Extension requests on margin transactions will be subject to the same requirements applicable to cash transactions.

(1) Initial Margin

For the [purchase] *purpose* of effecting new transactions, the margin required shall be an amount equivalent to the requirements stated below, or such greater amounts as the Corporation may from time to time require, with an minimum equity in the account of at least \$2,000, except that cash need not be deposited in excess of the cost of any new transaction.

Withdrawals of cash or spot commodities may be made, provided that after such withdrawal the equity in the account is at least the greater of \$2,000 or the amount required by the maintenance requirement stated below.

(2) Maintenance

Margin must be maintained in margin accounts of customers, including [members, Allied members, organization or nonmembers] *ETP Holders, Allied Persons thereof and non-ETP Holders* and shall be as follows:

(A) 25% of the market value of gold or silver spot commodities "long" in each customer's account, or

(B) 10% of the market value of the gold and silver spot commodities if "hedged by futures contracts" in the same commodity. Gold or silver bullion which is carried on margin for customers must be within the control of the [member organization] *ETP Holder*, in good deliverable form and covered by appropriate insurance.

(g) Records—ETP [Firms] *Holder's* shall make, keep current and preserve books and records on spot commodities as are required for securities.

(h) Conduct of Accounts—Rule 9 requires the diligent supervision of accounts. All information requirements or assessments applicable to other customers' accounts shall apply to customers effecting transactions in gold or silver bullion.

ETP [Firms] *Holder's* should give serious consideration to securing an adequate deposit before executing any customer orders for gold. This will serve to demonstrate the customer's ability to consummate the transaction as well as protecting the [member organization] *ETP Holder* from potential market fluctuations in the event of customer default. Upward variations in deposit may be advisable for new customers, or when the ETP [Firm] *Holder* anticipates unusual volatility in the price of gold.

Currently, international settlement of spot gold transactions take place on the second

business day following the order.

Accordingly, ETP [Firms] *Holders* will have to pay for or deliver gold on that second business day. In view of this fact, ETP [Firms] *Holders* are hereby put on notice that good business practice would in most instances, require substantial cash deposits in advance of all purchases of gold or silver.

(i) Business Plan—An ETP [Firm] *Holder* shall file with the Corporation a detailed business plan for approval by the Corporation prior to effecting any transactions in gold or silver bullion. Such a plan shall comply with the standards enunciated herein, and the ETP [Firm] *Holder* may utilize the below checklist in drafting its business plan.

(j) Gold and Silver Business Plan Checklist:

(1) Structure and Nature

(A) Will activities be processed through the ETP [Firm] *Holder* subsidiary, affiliate, holding company, or joint venture? Name the affiliate/subsidiary responsible for bullion business, if applicable.

(B)—No change.

(C) Will the organization position bullion for its own account and/or act as a [market maker] *Market Maker*?

(D)—(F)—No change.

(2) Legal Review

(A)—No change.

(B) Has the organization requested counsel to review the plan for compliance with other [Federal] *federal*, state or local applicable laws?

(C)—(10)—No change.

(3)—(10)—No change.

Commentary

01. Short Positions. ETP Holders[, Equity ASAP Holders, and ETP Firm] for which the Corporation is the designated examining authority ("DEA") are required to report "short" positions, including odd lots, in each stock or warrant listed or traded on the Corporation, and in each other stock or warrant not listed or traded on the Corporation (and not otherwise reported to another self-regulatory organization), using such automated format and methods as prescribed by the Corporation. Such reports must include customer and proprietary positions and must be made at such times and covering such time period as may be designated by the Corporation.

Every ETP Holder[, Equity ASAP Holder, and ETP Firm] for which the Corporation is not the DEA must report "short" positions to the self-regulatory organization that is the DEA for such ETP Holder[, Equity ASAP Holder or ETP Firm] if such DEA has a requirement for such reports. If the DEA does not have such a reporting requirement, then such ETP Holder[, Equity ASAP Holder or ETP Firm] must comply with the provisions of this Rule 4.5(e).

ETP [Holders, ETP Firms or Equity ASAP] Holders whose short positions have been properly reported to, and are carried by, a non-ETP [or non-Equity ASAP] clearing organization will be in compliance with this Rule 4.5(e) if adequate arrangements have been made for such clearing organization to report such positions to the Corporation or to another self-regulatory organization.

"Short" positions to be reported are those resulting from "short" sales as defined in SEC Rule 3b-3, but excluding positions resulting from sales specified in clauses (1), (6), (7), (8), (9) and (10) of paragraph (e) of SEC Rule 10a-1. Also to be excluded are "short" positions carried for other ETP Holders[, Equity ASAP Holders, and ETP Firms] reporting for themselves.

Only one report should be made for each stock or warrant in which there is a short position. If more than one account has a short position in the same stock or warrant, the combined aggregate should be reported.

The term "designated examining authority" means the self-regulatory organization that has been assigned responsibility for examining an ETP Holder[, Equity ASAP Holder, or ETP Firm] for

compliance with applicable financial responsibility rules.

.02 ETP Holders[, Equity ASAP Holders, and ETP Firms] for which the Corporation is the DEA need not report "short" positions to the Corporation as provided in Commentary .01 if such ETP Holder[, Equity ASAP Holder, or ETP Firm] has made arrangements, satisfactory to the Corporation, to report such positions to another self-regulatory organization.

Accelerated Reporting

Rule 4.6. Unless the Corporation determines otherwise, if any of the conditions described in this Section is applicable, an ETP Holder[, Equity ASAP Holder or ETP Firm] subject to the provisions of Rule 4.5 shall file with the Corporation on a monthly basis (or more frequently if the Corporation so determines) Part II or Part IIA of SEC Form X-17A-5, as appropriate, together with a schedule of proprietary securities and commodities, and related "haircuts", and any other supplementary schedules deemed appropriate by the Corporation. "exempted" securities made for an ETP Holder[, Equity ASAP Holder or ETP Firm,] or a non-ETP [or non-Equity ASAP] broker-dealer, or made for or with a bank, trust company, insurance company, investment trust or charitable or non-profit educational institution, no margin need be required and such net position need not be marked to market. However, where such net position is not marked to the market, an amount equal to the loss at the market in such position shall be considered as cash required to provide margin in the computation of the net capital of the ETP Holder[, Equity ASAP Holder or ETP Firm] under the Corporation's capital requirements.

(3) Joint Accounts in Which the Carrying Firm or a Partner or Stockholder Therein Has an Interest—in the case of a joint account carried by a firm, in which such firm, or any partner, ETP [Holder, Equity ASAP] Holder, Allied Person or stockholder (other than a holder of freely transferable stock only) of such ETP [Firm] *Holder* participate with others, the interest of each participant other than the carrying ETP [Firm] *Holder* shall be margined by each such participant pursuant to the provisions of this [rule] *Rule* as if such interest were in a separate account.

The amount of any deficiency between the amount deposited by the other participant, or participants, based upon their proportionate share of the haircut requirements of SEC Rule 15c3–1, shall be considered as a debit item in the computation of the net capital of ETP [Holder, Equity ASAP Holder or ETP Firm] *Holders* under the Corporation's capital requirements.

(6) Broker/Dealer Accounts

(A) An ETP Holder[, Equity ASAP Holder or ETP Firm] may carry the proprietary account of another broker-dealer that is registered with the Securities and Exchange Commission, upon a margin basis that is satisfactory to both parties, provided the requirements of Regulation T of the Board of Governors of the Federal Reserve System are adhered to and the account is not carried in a deficit equity condition. The amount of any deficiency between the equity maintained in

the account and the haircut requirements of SEC Rule 15c3-1 shall be deducted in computing the Net Capital of the ETP Holder[, Equity ASAP Holder or ETP Firm] under the Corporation's Capital Requirements.

(B) Joint Back Offices Arrangements. An arrangement may be established between two or more registered broker-dealers pursuant to Regulation T, Section 220.11 to form a joint back office ("JBO") arrangement for carrying and clearing, or carrying accounts of participating broker-dealers. (i) A carrying and clearing, or clearing ETP Holder[, Equity ASAP Holder or ETP Firm] must:

(a) maintain a minimum Tentative Net Capital of \$25 million as computed pursuant to SEC Rule 15c3-1, except that an ETP Holder[, Equity ASAP Holder or ETP Firm] whose primary business consists of the clearance of options market-maker accounts, may carry JBO accounts provided that it does not allow its Net Capital, as computed pursuant to SEC Rule 15c3-1, to fall below \$7 million for a period in excess of three consecutive business days. In addition, the ETP Holder[, Equity ASAP Holder or ETP Firm] must include in its ratio of gross options market maker deductions to Net Capital required by the provisions of SEC Rule 15c3-1, gross deductions for JBO participant accounts. Clearance of options market maker accounts shall be deemed to be a broker-dealer's primary business if a minimum of 60% of the aggregate deductions in the above ratio are options market maker deductions;

(b) maintain a written risk analysis methodology for assessing the amount of credit extended to participating broker-dealers which shall be made available to the Corporation upon request; and

(c) deduct from Net Capital haircut requirements pursuant to SEC Rule 15c3-1 in excess of the equity maintained in the amounts of participating broker-dealers.

(a) be a registered broker-dealer subject to the SEC's Net Capital Rule;

(b) maintain an ownership interest in the carrying/clearing ETP Holder[, Equity ASAP Holder or ETP Firm] pursuant to Regulation T, Section 220.11; and

When the minimum liquidating equity decreases below the \$1 million requirement, the participant must deposit an amount sufficient to eliminate this deficiency within 5 business days. If funds or securities sufficient to eliminate the deficiency are not received within 5 business days, the carrying organization must margin the account in accordance with the requirements prescribed for a customer in Regulation T.

(d) If at any time a clearing ETP Holder[, Equity ASAP Holder or ETP Firm] operating pursuant to subsection 6(b)(1)(a) above determines that its tentative net capital or that its net capital, respectively, has fallen

below the applicable requirements, such clearing ETP Holder[, Equity ASAP Holder or ETP Firm] must immediately notify the Corporation of such deficiency by telegraphic or facsimile notice; and such clearing ETP Holder[, Equity ASAP Holder or ETP Firm] will be subject to the prohibitions against withdrawal of equity capital set forth in SEC Rule 15c3-1(e) and to the prohibitions against reduction, prepayment, and repayment of subordination agreements set forth in paragraph (b)(1) of SEC Rule 15c3-1, as if such broker or dealer's net capital were below the minimum standards specified by each of these paragraphs.

(1) Active securities dealt in on a recognized exchange shall, for margin purposes, be valued at current market prices. Other securities shall be valued conservatively in the light of current market prices and the amount which might be realized upon liquidation. Substantial additional margin must be required in all cases where the securities carried are subject to unusually rapid or violent change in value, or do not have an active market on a recognized exchange, or where the amount carried is such that it cannot be liquidated promptly.

To qualify for margin value, securities shall be in negotiable form and, except for bearer securities, shall be registered in street name (firm name, or firm agent, or firm nominee or in process of being transferred to such) after constructive receipt thereof. A cash margin deficiency shall be treated as a debit item in the computation of [Net Capital] *net capital*.

(2) Puts, Calls Other Options, Currency Warrants, Currency Index Warrants and Stock Index Warrants.

(A)—No change.

(B) The issuance, guarantee or sale (other than a "long" sale) for a customer of a put or a call shall be considered as a security transaction subject to Rule 4.15(a). (D) The margin on any put, call, currency warrant, currency index warrant or stock index warrant issued, guaranteed or carried "short" in a customer's account shall be:

(i)—No change.

(ii) In the case of puts and calls listed or traded on a registered national securities exchange or a registered securities association and issued by a registered clearing corporation which [represent] *represents* options on GNMA obligations in the principal amount of \$100,000, 130% of the current market value of the option plus \$1,500, except that the margin required need not exceed \$5,000 plus the current market value of the option.

(iii)—No change.

(E)—No change.

(F) (1)–(3)—No change.

(4)—No change.

(G)—No change.

(H) "Long" and "Short" Positions in Securities and Options. (1)–(4)—No change.

(5) Bank Guarantee Letters—

No margin need be required in respect of a put option contract carried in a "short" position where the customer has delivered to the ETP Holder[, Equity ASAP Holder or ETP Firm] with which such position is maintained a letter of guarantee issued by a bank approved to issue escrow receipts under Rule 610 of the Rules of the Options Clearing Corporation, in form satisfactory to the Corporation, which certifies that such bank holds on deposit for the account of the customer cash in the full amount of the aggregate exercise price of such put option contract, and that such amount will be paid to the ETP Holder[, Equity ASAP Holder or ETP Firm] against delivery of the underlying security covered by such put option contract.

(6) No margin is required in respect of a warrant on a market index carried in a short position where the customer has delivered, promptly after the warrant has been sold short, to the ETP Holder[, Equity ASAP Holder or ETP Firm] with which such position is maintained, a Market Index Warrant Escrow Receipt in a form satisfactory to the Corporation, issued by a bank or trust company pursuant to specific authorization from the customer certifying that the issuer of the agreement holds for the account of the customer: (1) cash, (2) cash equivalents, (3) one or more qualified equity securities, or (4) a combination thereof; that such deposit has an aggregate market value, at the time the warrant has been sold short, or not less than 100% of the aggregate currency index value; and that the issuer will promptly pay the ETP Holder[, Equity ASAP Holder or ETP Firm] the exercise settlement amount in the event the account is assigned an exercise notice.

(7)—No change.

(I) When an ETP Holder[, Equity ASAP Holder or ETP Firm] issues or guarantees an option to receive or deliver securities for a customer, such option shall be margined as if it were a put or call.

(J) Option Specialists, Market Makers and Traders. Notwithstanding the other provisions of this sub-section (d)(2), an ETP Holder[, Equity ASAP Holder or ETP Firm] may clear and carry the listed option transactions of one or more registered specialists, registered market makers or registered traders in options (which registered traders are deemed specialists for all purposes under the Securities Exchange Act of 1934 pursuant to the rules of a national securities exchange) (hereafter referred to as "specialists(s)"), upon a "Good Faith" margin basis satisfactory to the concerned parties, provided the "Good Faith" margin requirement is not less than the Net Capital haircut deduction of the ETP Holder[, Equity ASAP Holder or ETP Firm] carrying the transaction pursuant to SEC Rule 15c3-1. In lieu of collecting the "Good Faith" margin requirement, a carrying ETP Holder[, Equity ASAP Holder or ETP Firm] may elect to deduct in computing its net capital the amount of any deficiency between the equity maintained in the account and the "Good Faith" margin required.

For purposes of the subsection (d)(2)(J), a permitted offset position means, in the case

of an option in which a specialist makes a market, a position in the underlying asset or other related assets, and in the case of other securities in which a specialist makes a market, a position in options overlying the securities in which a specialist makes a market. Accordingly, a specialist in options may establish, on a share-for-share basis, a long or short position in the securities underlying the options in which the specialist makes a market, and a specialist in securities other than options may purchase or write options overlying the securities in which the specialist makes a market, if the account holds the following permitted offset positions:

(i)-(ii)—No change.
 (iii)—No change.
 (iv)-(vi)—No change.
 (vii) a specified portfolio type as referred to in SEC Rule 15c3-1, including its appendices, or any applicable SEC staff interpretation or no-action position.

Permitted offset transactions must be effected for market making purposes such as hedging, risk reduction, rebalancing of positions, liquidation, or accommodation of customer orders, or other similar market making purposes.

For purposes of this paragraph (d)(2)(I), the term "in or at the money" means the current market price of the underlying security is not more than two standard exercise intervals below (with respect to a call option) or above (with respect to a put option) the exercise price of the option; [the term "in the money" means the current market price of the underlying asset or index is not below (with respect to a call option) or above (with respect to a put option) the exercise price of the option;] and, the term "overlying option" means a put option purchased or a call option written against a long position in an underlying asset; or a call option purchased or a put option written against a short position in an underlying asset.

Securities, including options, in such accounts shall be valued conservatively in the light of current market prices and the amount that might be realized upon liquidation. Substantial additional margin must be required or excess net capital maintained in all cases where the securities carried: (i) are subject to unusually rapid or violent [chances] changes in value including volatility in the expiration months of options, (ii) do not have an active market, or (iii) in one or more or all accounts, including proprietary accounts combined, are such that they cannot be liquidated promptly or represent undue concentration of risk in view of the carrying organization's net capital and its overall exposure to material loss.

(K)—No change.

(L) Exclusive designation—A customer may designate at the time an option order is entered which security position held in the account is to serve in lieu of the required margin, if such service is offered by the ETP Holder[, Equity ASAP Holder or ETP Firm]; or the customer may have a standing agreement with the ETP Holder[, Equity ASAP Holder or ETP Firm] as to the method to be used for determining on any given day which security position will be used in lieu of the margin to support an option

transaction. Any security held in the account that serves in lieu of the required margin for a short put or short call shall be unavailable to support any other option transaction in the account.

(M) Cash account transactions.—An ETP Holder[, Equity ASAP Holder or ETP Firm] may make option transactions in a customer's cash account, providing:

In connection with any net position resulting from contracts for a "when issued" security made for or with a non-ETP [or non-Equity ASAP] broker or dealer, no margin need be required, but such net position must be marked to the market.

In connection with any net position resulting from contracts for a "when issued" security made for an ETP Holder[, Equity ASAP Holder or ETP Firm] or for or with a bank, trust company, insurance company, investment trust, or charitable or non-profit educational institution, no margin need be required and such net position need not be marked to the market. However, where such net position is not marked to the market, an amount equal to the loss at the market in such position shall be considered as cash required to provide margin in the computation of the net capital of the ETP Holder[, Equity ASAP Holder or ETP Firm] under the Corporation's capital requirements.

(i)-(ii)—No change.

(4) Guaranteed Accounts—Any account guaranteed by another account may be consolidated with such other account and the required margin may be determined on the net position of both accounts, provided the guarantee is in writing and permits the ETP Holder[, Equity ASAP Holder or ETP Firm] carrying the account, without restriction, to use the money and securities in the guaranteeing account to carry the guaranteed account or to pay any deficit therein; and provided further that such guaranteeing account is not owned directly or indirectly by (a) a partner, ETP Holder, [Equity ASAP Holder, ETP Firm,] Allied Person thereof or any stockholder (other than a holder of freely transferable stock only) in the firm carrying such account or (b) an ETP Holder, [Equity ASAP Holder, ETP Firm,] a partner, Allied Person, or any stockholder (other than a holder of freely transferable stock only) therein having a definite arrangement for participating in the commissions earned on the guaranteed account. However, the

guarantee of a limited partner or of a holder of non-voting stock, if based upon his resources other than his capital contribution to or other than his interest in an ETP Holder[, Equity ASAP Holder or ETP Firm,] is not affected by the foregoing prohibition, and such a guarantee may be taken into consideration in computing margin in the guaranteed account.

(5)-(6)—No change.

(7) Practice of Meeting Margin Calls by Liquidation Prohibited—No ETP Holder[, Equity ASAP Holder, or ETP Firm] shall permit a customer to make a practice of effecting transactions requiring margin and then either deferring the furnishing of margin beyond the time when such transactions would ordinarily be settled or cleared, or meeting such demand for margin by the liquidation of the same or other commitments in his account.

(8) Free Riding in Cash Accounts Prohibited—No ETP Holder[, Equity ASAP Holder, or ETP Firm] shall permit a customer (other than a broker/dealer or bank, trust company, insurance company, investment trust, or charitable or non-profit educational institution) to make a practice, directly or indirectly, of effecting transactions in a cash account where the cost of securities purchased is met by the sale of the same securities. No ETP Holder[, Equity ASAP Holder or ETP Firm] shall permit such a customer to make a practice of selling securities which were purchased in a cash account at another broker-dealer and are not yet paid for. A customer shall not be deemed to be continuing this practice if for a period of 90 days (or less with the approval of the Corporation) no such transactions have taken place. Any ETP Holder[, Equity ASAP Holder or ETP Firm] or associated person who becomes aware of a possible misuse of material, non-public information must promptly notify the Corporation's Surveillance Department.

Commentary:

.01—No change.

.02 The terms “associated person” and “person associated with an ETP Holder[, Equity ASAP Holder or ETP Firm]” mean anyone who directly is engaged in the ETP Holder’s[, Equity ASAP Holder’s or ETP Firm’s] trading-related activities, including general partners, officers, directors, managers (or any person occupying a similar status or performing similar functions), any person directly or indirectly controlling, controlled by, or under common control with an ETP Holder[, Equity ASAP Holder or ETP Firm] or any employee of the ETP Holder[, Equity ASAP Holder or ETP Firm].

For the purposes of this Rule, the term “employee” includes every person who is compensated directly or indirectly by the ETP Holder[, Equity ASAP Holder or ETP Firm] for the solicitation or handling of business in securities, including individuals trading securities for the account of the ETP Holder[, Equity ASAP Holder or ETP Firm], whether such securities are dealt in on an exchange or are dealt over-the-counter.

.03 Rule 6.3 provides that, at a minimum, each ETP Holder, [Equity ASAP Holder or ETP Firm] establish, maintain, and enforce the following policies and procedures:

A. All associated persons must be advised in writing of the prohibition against the misuse of material, non-public information; and

B. All associated persons of the ETP Holder[, Equity ASAP Holder or ETP Firm] must sign attestations affirming their awareness of, and agreement to abide by the aforementioned prohibitions. These signed attestations must be maintained for at least three years, the first two years in an easily accessible place; and

C. Each ETP Holder[, Equity ASAP Holder or ETP Firm] must receive and retain copies of trade confirmations and monthly account statements for each account in which an associated person: has a direct or indirect financial interest or makes investment decisions. The activity in such brokerage accounts should be reviewed at least quarterly by the ETP Holder[, Equity ASAP Holder or ETP Firm] for the purpose of detecting the possible misuse of material, non-public information; and

D. All associated persons must disclose to the ETP Holder[, Equity ASAP Holder or ETP Firm] whether they, or any person in whose account they have a direct or indirect financial interest, or make investment decisions, are an officer, director or 10% shareholder in a company whose shares are publicly traded. Any transaction in the stock (or option thereon) of such company shall be reviewed to determine whether the transaction may have involved a misuse of material non-public information.

Maintenance of the foregoing policies and procedures will not, in all cases, satisfy the requirements and intent of Rule 6.3; the adequacy of each ETP Holder’s[, Equity ASAP Holder’s or ETP Firm’s] policies and procedures will depend upon the nature of such ETP Holder’s[, Equity ASAP Holder’s or ETP Firm’s] business.

Rumors

Rule 6.4. No ETP Holder[, Equity ASAP Holder or ETP Firm] or any participant therein shall circulate, in any manner, rumors of a character which might affect market conditions on the Corporation; provided, however, that this rule shall not prohibit discussion of unsubstantiated information when its source and unsubstantiated nature are disclosed.

Such reports, in form prescribed by the Corporation, shall be filed with the Corporation before any transaction is completed [on] through the facilities of the Corporation for such joint account.

The Corporation shall require weekly reports, in a form prescribed by the Corporation, to be filed with it with respect to every substantial joint account for buying or selling any specific security on the Corporation and with respect to every joint account which actively trades in any security on the Corporation in which any ETP Holder[, Equity ASAP Holder, or ETP Firm] or participant therein holds any interest or participation or of which such ETP Holder[, Equity ASAP Holder or ETP Firm] or participant therein has knowledge by reason of transactions executed by or through such ETP Holder[, Equity ASAP Holder, ETP Firm] or participant therein; provided, however, that this paragraph shall not apply to joint accounts specifically permitted by this Rule.

Commentary

.01—No change.

.02 Notwithstanding Commentary .01, [an ETP Holder may trade on the Floor at increments of 1/32 or 1/64] *the Corporation may allow trading at smaller increments in order to match bids and offers displayed by other markets for the purpose of preventing Intermarket Trading System trade-throughs.*

.03—No change.

.04 The minimum price variation for orders generated from Profiles designated for the midpoint pricing service by the OptiMark System will be the variation of the midpoint price between the highest published bid and the lowest published offer displayed on the Consolidated Quotation System. Any executions resulting from processing Profiles designated for midpoint pricing will be priced and reported in increments as small as 1/64th or, upon conversion to decimals, one-half of the minimum price variation.

.05 *The minimum price variation (“MPV”) for equity securities traded on the Archipelago Exchange shall be 1/64 of \$1.00 for those securities that are quoted in fractions and \$0.01 for those equity securities that are quoted in decimals; provided, however, at all times the MPV shall be consistent with the Decimalization Implementation Plan.*

[A report shall not be binding if an order was not actually executed but was in error reported to have been executed; however, an order which was executed, but in error reported as not executed, shall be binding. No ETP Holder, Equity ASAP Holder or ETP Firm shall assume or pay any part of the difference between the price at which an order is executed and the price at which it may have been erroneously reported.]*

[.01 Specialists and floor brokers are responsible for the satisfactory execution of orders accepted by them and] *Disagreements* [disagreements] with respect thereto shall be referred to the appropriate trading authority of the Corporation.

A dispute arising on bids, offers or sales if not settled by agreements between the parties interested, shall be settled by the Corporation.

Clearly Erroneous Policy

Rule 7.11(a). *Definition. For the purposes of this Rule, the terms of a transaction executed on the Corporation are “clearly erroneous” when there is an obvious error in any term, such as price, number of shares or other unit of trading, or identification of the security.*

(b) *Request for Corporation Review. An ETP Holder that receives an execution on an order that was submitted erroneously to the Corporation for its own or customer account may request that the Corporation review the transaction under this Rule. Such request for review shall be made via telephone and in writing via facsimile or e-mail. The telephone request should be submitted immediately and the written request should be submitted within fifteen (15) minutes of the time the trade in question was executed. Once the request has been received, an officer of the Corporation designated by the President shall*

review the transaction under dispute and determine whether it is clearly erroneous, with a view toward maintaining a fair and orderly market and the protection of investors and the public interest. Each party to the transaction shall provide, on a timely basis, any supporting written information as may be reasonably requested by the designated officer to aid resolution of the matter.

(c) *Review Procedures.* Unless both parties (or party, in the case of a cross) to the disputed transaction agree to withdraw the initial written request for review, the transaction under dispute shall be reviewed, and a determination shall be rendered by the designated Corporation officer. If the officer determines that the transaction is not clearly erroneous, the officer shall decline to take any action in connection with the completed trade. In the event that the officer determines that the transaction in dispute is clearly erroneous, the officer shall declare the transaction null and void or modify one or more of the terms of the transaction to achieve an equitable rectification of the error that would place the parties in the same position, or as close as possible to the same position that they would have been in, had the error not occurred. The officer shall promptly notify the parties of the determination reached and shall issue a written resolution of the matter. The ETP Holder aggrieved by the officer's determination may appeal such determination in accordance with the provisions of Rule 10.13.

(d) *System Disruption and Malfunctions.* In the event of any disruption or a malfunction in the use or operation of any electronic communications and trading facilities of the Corporation, the Chief Executive Officer or the President may declare a transaction arising out of the use or operation of such facilities during the period of such disruption or malfunction null and void or modify the terms of these transactions. Absent extraordinary circumstances, any such action of the Chief Executive Officer or President pursuant to this subsection (d) shall be taken within thirty (30) minutes of detection of the erroneous transaction. Each ETP Holder involved in the transaction shall be notified as soon as practicable, and the ETP Holder aggrieved by the action may appeal such action in accordance with the provisions of Rule 10.13.

Trading Halts Due to Extraordinary Market Volatility

Rule 7.12 [7.47] (a)–(c)—No change.

Commentary

.01–.02—No change.

.03 The reopening of trading following a trading halt under this Rule will be conducted pursuant to procedures adopted by the Corporation and communicated by notice to its ETP Holders[, Equity ASAP Holders, and ETP Firms].

.04 Nothing in this Rule should be construed to limit the ability of the Corporation to otherwise halt or suspend the trading in any stock or stocks traded on the

Corporation pursuant to any other Corporation Rule [rule] or policy.

Trading Suspensions

Rule 7.13. Except as otherwise stated in Rule 5.5, the Chair of the Board or the President, or the officer designee of the Chair or the President, shall have the power to suspend trading in any and all securities traded on the Corporation whenever in his or her opinion such suspension would be in the public interest. No such action shall continue longer than a period of two days, or as soon thereafter as a quorum of Directors can be assembled, unless the Board approves the continuation of such suspension.

Clearance and Settlement

Rule 7.14(a). Each ETP Holder shall either:

(1) Be a clearing firm;

(2) clear transactions on the Corporation through a clearing firm; or

(3) clear transactions through an entity duly authorized by the Corporation.

(b) An ETP Holder must give up the name of the clearing firm through which each transaction on the Corporation will be cleared. If there is a subsequent change in identity of the clearing firm through which the transaction on the Corporation will be cleared, the ETP Holder shall report such change to the Corporation at least five (5) business days in advance.

(c) Each clearing firm must be admitted to the Corporation as an ETP Holder by meeting the qualification requirements set forth above in Rule 2; provided, however, if the clearing firm has become an ETP Holder for the sole purpose of acting as a clearing firm on the Corporation, such clearing firm need not pay the regular ETP Holder fee. The clearing firm shall be responsible for the clearance of the transactions effected by each ETP Holder which gives up such clearing firm's name pursuant to a letter of authorization, letter of guarantee or other authorization given by such clearing firm to such ETP Holder, which authorization shall be submitted to the Corporation.

(d) Notwithstanding any other provisions contained in the Rule to the contrary, the Board may extend or postpone the time of the delivery of a transaction on the Corporation whenever in its opinion, such action is called for by the public interest, by just and equitable principles of trade or by the need to meet unusual conditions. In such case, delivery shall be effected at such time, place and manner as directed by the Board of Directors.

Stock Option Transactions

Rule 7.15[7.45](a). No *Market Maker* [specialist] nor his or her firm, nor any participant therein, shall, directly or indirectly, be interested in a pool dealing or trading in any security in which he or she is registered as a *Market Maker* [specialist].

(b) No *Market Maker* [specialist], nor his or her firm, nor any participant therein shall acquire, hold or grant, directly or indirectly, any interest in any option to buy or to sell or to receive or to deliver shares of any security in which he or she is registered as a *Market Maker* [specialist], unless such option is issued by the Options Clearing Corporation and is immediately reported to

the Corporation in accordance with such procedures as may be prescribed by the Corporation.

Short Sales

Rule 7.16 [7.40](a) (1) Except as provided in subsection (d) hereof, no ETP Holder[, Equity ASAP Holder, or ETP Firm] shall for his, her or its own account or for the account of any other person, effect [on] through the facilities of the Corporation a short sale of any security for which trades are reported pursuant to a consolidated transaction reporting system operated in accordance with a plan declared effective under the Securities Exchange Act Rule 11Aa3-1 [17a-15] (a "consolidated system") (A) below the price at which the last sale thereof, regular way, was reported in such consolidated system, or (B) at such price unless such price is above the next preceding different price at which a sale of such security, regular way, was reported in such consolidated system.

(2) Except as provided in subsection (d) hereof, no ETP Holder[, Equity ASAP Holder, or ETP Firm] shall for his, her or its own account, or for the account of any other person, effect [on] through the facilities of the Corporation a short sale of any security not covered by paragraph (1) of this subsection (A) below the price at which the last sale of such security, regular way, was effected [on] through the facilities of the Corporation, or (B) at such price unless such price is above the next preceding different price at which a sale of such security, regular way, was effected [on] through the facilities of the Corporation.

(3) Notwithstanding paragraph (1) of this subsection (a), the Board of Directors of the Corporation, in its discretion, may determine that it is necessary or appropriate in the public interest or for the protection of investors that short sales in any security for which trades are reported in a consolidated system be subject to the Rule [rule] set forth in paragraph (2) hereof. Following any such designation of any such security by the Board of Directors, compliance with the terms of paragraph (2) shall constitute compliance with this subsection (a).

(b) *Order Identification.* No ETP Holder[, Equity ASAP Holder, or ETP Firm] of the Corporation shall, by the use of any facility of the Corporation, execute any sell order unless such order is indicated as either "long" or "short".

(c) *Marking Orders.* No ETP Holder[, Equity ASAP Holder, or ETP Firm] of the Corporation shall mark a sell order "long" unless (1) the security to be delivered after sale is carried in the account for which the sale is to be effected, or (2) such ETP Holder[, Equity ASAP Holder, or ETP Firm] is informed that the seller owns the security ordered to be sold, and as soon as is possible without undue inconvenience or expense, will deliver the security owned to the account for which the sale is to be effected.

(d) *Exceptions.* The provisions of subsection (a) hereof shall not apply to:

(1) Any sale by any person, for an account in which he or she has an interest, if such person owns the security sold and intends to deliver such security as soon as possible without undue inconvenience or expense;

(2) Any ETP Holder[, Equity ASAP Holder, or ETP Firm] in respect of a sale, for an account in which it has no interest, pursuant to an order to sell which is marked "long";

(3) Any sale of a security for which trades are reported in a consolidated system (except a sale to a stabilizing bid complying with Securities Exchange Act Rule 104 [10b-7]) by a registered *market maker* [specialist] in such security for its own account (i) effected at a price equal to or above the last sale, regular way, reported for such security pursuant to an effective transaction reporting plan; or (ii) effected at a price equal to the most recent offer communicated for the security by such registered specialist pursuant to the Securities Exchange Act Rule 11Ac1-1 if such offer, when communicated, was equal to or above the last sale, regular way, reported for such security pursuant to an effective transaction reporting plan. This exemption shall not be available for a short sale of any security not covered by paragraph (a)(1) of this Rule 7.16 [7.40];

(4) Any sale by an *odd lot dealer registered with the Corporation for such security* [a specialist] to offset odd lot orders of customers;

(5) Any sale by an *odd lot dealer registered with the Corporation for such security* [a specialist] to liquidate a long position which is less than a round lot, provided such sale does not change the position of such *Market Maker* [specialist] by more than the unit of trading;

(6) Any sale of a security for which trades are not reported in a consolidated system (except a sale to a stabilizing bid complying with Securities Exchange Act Rule 104 [10b-7]) effected with the approval of the Corporation which is necessary to equalize the price of such security on the Corporation with the current price of such security on another national securities exchange which is the principal exchange market for such security;

(7) Any sale of a security for a special arbitrage account by a person who then owns another security by virtue of which he or she is, or presently will be, entitled to acquire an equivalent number of securities of the same class as the securities sold, provided such sale, or the purchase which such sale offsets, is effected for the bona fide purpose of profiting from a current difference between the price of the security sold and the security owned and that such right of acquisition was originally attached to or represented by another security or was issued to all the holders of any class of securities of the issuer;

(8) Any sales of a security on the Corporation effected for a special international arbitrage account for the bona fide purpose of profiting from a current difference between the price of such security on a securities market not within or subject to the jurisdiction of the United States and on the Corporation, provided the seller at the time of such sale knows or, by virtue of information currently received, has reasonable grounds to believe that an offer enabling him or her to cover such sale is then available to him in such foreign securities market and intends to accept such offer immediately;

[(9) Any sale of a security effected in accordance with a special offering plan declared effective by the Securities and Exchange Commission pursuant to paragraph (d) of Securities Exchange Act Rule 10b-2; or]

(9)[(10)] Any sale by an underwriter, or any member of a syndicate or group participating in the distribution of a security, in connection with an over-allotment of securities, or any lay-off sale by such a person in connection with a distribution of securities through rights [pursuant to Securities and Exchange Act Rule 10b-8] or a standby underwriting commitment.

(11) Any sale of a security for which trades are reported in a consolidated system (except a sale to a stabilizing bid complying with the Securities and Exchange Act Rule 104 [10b-7]) by any broker or dealer, for his or her own account or for the account of any other person, effected at a price equal to the most recent offer communicated by such broker or dealer pursuant to the Securities and Exchange Act Rule 11Ac1-1 in an amount less than or equal to the quotation size associated with such offer, if such offer, when communicated, was (A) above the price at which the last sale, regular way, for such security was reported pursuant to an effective transaction reporting plan; or (B) at such last sale price, if such last sale price is above the next preceding different price at which a sale of such security, regular way, was reported pursuant to an effective transaction reporting plan. This exemption shall not be available for a short sale of any security not covered by paragraph (a)(1) of this Rule 7.16 7.40.

For the purpose of paragraph (8) of this subsection (d) a depository receipt for a security shall be deemed to be the same security as the security represented by such receipt.

(e) Short Sales After "Ex" Date. In determining the price at which a short sale may be effected after a security goes ex-dividend, ex-rights or ex-any other distribution, all sales prices prior to "ex" date may be reduced by the value of such distribution.

(f) Covering Short Sales. No ETP Holder[, Equity ASAP Holder, or ETP Firm] of the Corporation shall lend, or arrange for the loan of any security for delivery to the broker for the purchaser after sale, or shall fail to deliver a security on the date delivery is due, if such ETP Holder[, Equity ASAP Holder, or ETP Firm] knows or has reasonable grounds to believe that the sale was effected, or will be effected, pursuant to an order marked "long" unless such ETP Holder[, Equity ASAP Holder, or ETP Firm] knows, or has been informed by the seller (i) that the security sold has been forwarded to the account for which the sale was effected, or (ii) that the seller owns the security sold, that it is then impracticable to deliver such security to such account and that delivery will be made as soon as is possible without undue inconvenience or expense. The provisions of this subsection (f) shall not apply to:

(1) The lending of a security by an [a] ETP Holder[, Equity ASAP Holder, or ETP Firm] through the medium of a loan to another ETP Holder[, Equity ASAP Holder, or ETP Firm]; or

(2) Any loan, or arrangement for the loan, of any security, or any failure to deliver any security if, prior to such loan, arrangement, or failure to deliver, the Corporation finds (A) that such sale resulted from a mistake made in good faith; (B) either that the condition of the market at the time the mistake was discovered was such that undue hardship would result from covering the transaction by a "purchase for cash" or that the mistake was made by the seller's broker and the sale was at a price permissible for a short sale under Rule 7.16 [7.40]; and (C) that due diligence was used to ascertain that the circumstances specified in clause (1) of Rule 7.16(c) [7.40(c)] existed or to obtain the information specified in clause (2) thereof.

Firm Orders and Quotes

Rule 7.17(a) *Orders at Stated Prices and Sizes.* No ETP Holder shall submit to the Corporation an order (including Q Orders) to buy from or sell to any person any security at a stated price and/or size unless such ETP Holder is prepared to, and, upon submission of an appropriate contra-side order, does, purchase or sell, as the case may be, at such price and/or size and under such conditions as are stated at the time of submission of such order to buy or sell.

(3) The Corporation may require a Market Maker to provide additional information the Corporation considers necessary to establish whether registration should be granted.

(4) The Corporation may grant a person conditional registration as a MMAT subject to any conditions it considers appropriate in the interests of maintaining a fair and orderly market.

Limitations on Dealings

Rule 7.26(a) General. A Market Maker on the Corporation may engage in Other Business Activities, or it may be affiliated with a broker-dealer that engages in Other Business Activities, only if there is an Information Barrier (also commonly referred to as "Chinese Wall") between the market making activities and the Other Business Activities. "Other Business Activities" mean:

(1) conducting an investment banking or public securities business;

(2) making markets in the options overlying the security in which it makes markets; or

(3) functioning as a GAT.

(b) *Information Barrier.* For the purposes of this rule, an Information Barrier is an organizational structure in which:

(1) The market making functions are conducted in a physical location separate from the locations in which the Other Business Activities are conducted, in a manner that effectively impedes the free flow of communications between MMATs, and persons conducting the Other Business Activities. However, upon request and not on his/her own initiative, a MMAT performing the function of a Market Maker may furnish to persons at the same firm or an affiliated firm ("affiliated persons"), the same sort of market information that the MMAT would make available in the normal course of its market making activity to any other person.

The MMAT must provide such information to affiliated persons in the same manner that he/she would make such information available to a non-affiliated person.

(2) There are procedures implemented to prevent the use of material non-public corporate or market information in the possession of persons on one side of the barrier from influencing the conduct of persons on the other side of the barrier. These procedures, at a minimum, must provide that:

(A) the MMAT performing the function of a Market Maker does not take advantage of knowledge of pending transactions, order flow information, corporate information or recommendations arising from the Other Business Activities; and

(B) all information pertaining to the Market Maker's positions and trading activities is kept confidential and not made available to persons on the other side of the Information Barrier.

(3) Persons on one side of the barrier may not exercise influence or control over persons on the other side of the barrier, provided that:

(A) the market making function and the Other Business Activities may be under common management as long as any general management oversight does not conflict with or compromise the Market Maker's responsibilities under the Rules of the Corporation; and

(B) the same person or persons (the "Supervisor") may be responsible for the supervision of the market making and the GAT functions of the same firm or affiliated firms in order to monitor the overall risk exposure of the firm or affiliated firms. While the Supervisor may establish general trading parameters with respect to both market making and other proprietary trading other than on an order-specific basis, the Supervisor may not:

(i) actually perform the function either of MMAT or GAT;

(ii) provide to any person performing the function of a GAT any information relating to market making activity beyond the information that a MMAT performing the function of a Market Maker may provide under subparagraph (b)(1), above; nor

(iii) provide a MMAT performing the function of Market Maker with specific information regarding the firm's pending transactions or order flow arising out of its GAT activities.

(c) *Documenting and Reporting of Information Barrier Procedures.* An ETP Holder implementing an Information Barrier pursuant to this Rule shall submit to the Corporation a written statement setting forth:

(1) The manner in which it intends to satisfy the conditions in paragraph (b) of this Rule, and the compliance and audit procedures it proposes to implement to ensure that the Information Barrier is maintained;

(2) The names and titles of the person or persons responsible for maintenance and surveillance of the procedures;

(3) A commitment to provide the Corporation with such information and reports as the Corporation may request relating to its transactions;

(4) A commitment to take appropriate remedial action against any person violating

this Rule or the ETP Holder's internal compliance and audit procedures adopted pursuant to subparagraph (c)(1) of this Rule, and that it recognizes that the Corporation may take appropriate remedial action, including (without limitation) reallocation of securities in which it serves as a Market Maker, in the event of such a violation;

(5) Whether the ETP Holder or an affiliate intends to clear its proprietary trades and, if so, the procedures established to ensure that information with respect to such clearing activities will not be used to compromise the ETP Holder's Information Barrier, which procedures, at a minimum, must be the same as those used by the ETP Holder or the affiliate to clear for unaffiliated third parties; and

(6) That it recognizes that any trading by a person while in possession of material, non-public information received as a result of the breach of the internal controls required under this Rule may be a violation of Rules 10b-5 and 14e-3 under the Exchange Act or on or more other provisions of the Exchange Act, the rules thereunder or the Rules of the Corporation, and that the Corporation intends to review carefully any such trading of which it becomes aware to determine whether a violation has occurred.

(d) *Approval of Information Barrier Procedures.* The written statement required by paragraph (c) of this Rule must detail the internal controls that the ETP Holder will implement to satisfy each of the conditions stated in that Rule, and the compliance and audit procedures proposed to implement and ensure that the controls are maintained. If the Corporation determines that the organizational structure and the compliance and audit procedures proposed by the ETP Holder are acceptable under this Rule, the Corporation shall so inform the ETP Holder, in writing. Absent the Corporation finding an ETP Holder's Information Barrier procedures acceptable, a Market Maker may not conduct Other Business Activities.

(e) *Clearing Arrangements.* Subparagraph (c)(5) permits an ETP Holder or an affiliate of the ETP Holder to clear the ETP Holder's Market Maker transactions if it establishes procedures to ensure that information with respect to such clearing activities will not be used to compromise the Information Barrier. In this regard:

(1) The procedures must provide that any information pertaining to Market Maker securities positions and trading activities, and information derived from any clearing and margin financing arrangements, may be made available only to those employees (other than employees actually performing clearing and margin functions) specifically authorized under this Rule to have access to such information or to other employees in senior management positions who are involved in exercising general managerial oversight with respect to the market making activity.

(2) Any margin financing arrangements must be sufficiently flexible so as not to limit the ability of any Market Maker to meet market making or other obligations under the Corporation's Rules.

(C) Sponsored ETP Holder shall comply with the PCXE Certificate of Incorporation, Bylaws, Rules and procedures with regard to the Archipelago Exchange and Sponsored Participant shall comply with PCXE Certificate of Incorporation, Bylaws, Rules and procedures with regard to the Archipelago Exchange, as if Sponsored Participant were an ETP Holder.

(D) Sponsored Participant shall maintain, keep current and provide to the Sponsoring ETP Holder a list of Authorized Traders who may obtain access to the Archipelago Exchange on behalf of the Sponsored Participant.

(E) Sponsored Participant shall familiarize its Authorized Traders with all of the Sponsored Participant's obligations under this Rule and will assure that they receive appropriate training prior to any use or access to the Archipelago Exchange.

(F) Sponsored Participant may not permit anyone other than Authorized Traders to use or obtain access to the Archipelago Exchange.

(G) Sponsored Participant shall take reasonable security precautions to prevent

unauthorized use of access to the Archipelago Exchange, including unauthorized entry of information into the Archipelago Exchange, or the information and data made available therein. (I) Sponsored Participant shall pay when due all amounts, if any, payable to Sponsoring ETP Holder, Archipelago Exchange, L.L.C., PCXE or any other third parties that arise from the Sponsored Participants access to and use of the Archipelago Exchange. Such amounts include, but are not limited to applicable exchange and regulatory fees.

(3) The Sponsoring ETP Holder must provide the Corporation with a Notice of Consent acknowledging its responsibility for the orders, executions and actions of its Sponsored Participant at issue.

Authorized Traders

Rule 7.30(a). An ETP Holder shall maintain a list of ATs who may obtain access to the Archipelago Exchange on behalf of the ETP Holder or the ETP Holder's Sponsored Participants. The ETP Holder shall update the list of ATs as necessary. ETP Holders must provide the list of ATs to the Corporation upon request.

(b) An ETP Holder must have reasonable procedures to ensure that all ATs comply with the trading Rules and procedures related to the Archipelago Exchange and all other Rules of the Corporation.

(c) An ETP Holder must suspend or withdraw a person's status as an AT if the Corporation has determined that the person has caused the ETP Holder to fail to comply with the Rules of the Corporation and the Corporation has directed the ETP Holder to suspend or withdraw the person's status as an AT.

(d) An ETP Holder must have reasonable procedures to ensure that the ATs maintain the physical security of the equipment for accessing the facilities of the Corporation to prevent the improper use of access to the systems, including unauthorized entry of information into the systems.

Orders and Modifiers

Rule 7.31.

(a) **Market Order.** An order to buy or sell a stated amount of a security that is to be executed at the best price obtainable when the order reaches the Corporation.

(b) **Limit Order.** An order to buy or sell a stated amount of a security at a specified price or better. A "marketable" limit order is a limit order to buy (sell) at or above (below) the consolidated best offer (bid) for the security.

(c) **Day Order.** An order to buy or sell which, if not executed, expires at the end of the day on which it was entered.

(d) **Good-Till-Canceled ("GTC") Order.** An order to buy or sell which remains in effect until it is executed or canceled. The Corporation will modify GTC Orders as appropriate in light of stock events (e.g., stock split or reverse split).

(e) **Immediate-or-Cancel Order.** A market or limit order that is to be executed in whole or in part as soon as such order is received, and the portion not so executed is to be treated as canceled.

(f) **Tracking Order.**

(1) Any User may submit an instruction to the Archipelago Exchange for the parameters of a Tracking Order at any time during the day. The parameters shall include:

(A) the maximum aggregate size, which is the aggregate size of all partial orders generated in the Tracking Order Process for a particular security that the User is willing to trade on that day;

(B) the maximum tradeable size, which is the maximum size of any partial order generated in response to an order entering the Tracking Order Process that the User is willing to trade on that day;

(C) the price in relation to the NBBO; and

(D) the relevant security.

(2) Once a User has submitted an instruction for the parameters of the Tracking Order, the instruction will remain in effect until closing or until the User has traded its maximum aggregate size for that day, whichever comes first.

(3) The Tracking Order Process rotation is as follows: Users who have submitted an instruction for the parameters of a Tracking Order will be assigned trades on a price/time rotating basis, such that within each price level, trades shall be assigned by the time the Users' instructions are received by the Archipelago Exchange. Within each price level, the first User to send an instruction for a Tracking Order will be the first User to be assigned a trade in the rotation process. For each order that enters the Tracking Order Process, the Tracking Order Process will rotate once through the Users in the rotation pattern. In each rotation, the User will be responsible for one trade up to the User's maximum tradeable size.

(4) The order described in the User's Tracking Order instruction will only be generated if:

(A) an unfilled round or mixed lot order enters the Tracking Order Process and

(B) it is such User's turn as determined by the Tracking Order Process rotation pattern.

(5) Each partial order generated in a rotation is a limit order in which:

(A) the price is set or better than the NBBO at the time the unfilled order enters the Tracking Order Process, based on the User's parameters; and

(B) the size is (i) equal to the User's maximum tradeable size if the unfilled order is equal to or larger than the maximum tradeable size; or (ii) equal to the size of the unfilled order if the unfilled order is smaller than the maximum tradeable size.

(6) A User may modify the parameters of the instruction for the Tracking Order from time to time, as the Corporation permits.

(7) Whenever in the judgment of the Corporation, because of an influx of orders, a system malfunction or other unusual conditions or circumstances, the interests of a fair and orderly market so require, the Corporation may suspend the Tracking Order Process. The Tracking Order Process shall resume when the Corporation determines that the conditions supporting the suspension no longer exist.

(g) Odd Lot Tracking Order.

(1) Only Odd Lot Dealers may submit an Odd Lot Tracking Order or "OLTO" to the Archipelago Exchange.

(2) An OLTO is a Tracking Order, as described in paragraph (f), in which:

(A) the maximum aggregate size is unlimited;

(B) the maximum tradeable size is 99 shares;

(C) the price is set at the NBBO; and

(D) the security is one in which the ODD Lot Dealer is registered as such; and

(E) the instruction must be in effect for the duration of Core Trading Hours; provided, however, the order described in the OLTO instruction will only be generated if

(1) an unfilled odd lot market order enters the Odd Lot Tracking Order Process pursuant to Rule 7.37(c); or

(2) an odd lot limit order causes a locked market as described in Rule 7.56.

(h) Working Order. Any order with a conditional or undisplayed price and/or size designated as a "Working Order" by the Corporation, including, without limitation:

(1) All-or-None Order. A limit order which is to be executed in its entirety or not at all.

(i) Directed Order. Any market or limit order to buy or sell which has been directed to a particular Market Maker by the User.

(j) Directed Fill. Any Market Maker may submit a standing instruction to the Archipelago Exchange for the parameters of a Directed Fill, including, but not limited to, the size of the order, the Users that may send such Market Maker a Directed Order, the price improvement algorithm and the period of time the instruction is effective. The Market Maker's Directed Fill described in the instruction will only be generated in response to a Directed Order directed to such Market Maker. The Directed Fill is a limit order with (1) a size that is equal to or less than the size of the Directed Order and (2) a price that improves the BBO by an automatically preset amount, which must be equal to or greater than the MPII, pursuant to a price improvement algorithm; provided, however, the Directed Fill will not be generated if the price is not equal to or better than the NBBO. A Market Maker may modify the parameters of the instruction for a Directed Fill from time to time, as the Corporation permits.

(k) Q Order. A limit order submitted to the Archipelago Exchange by a Market Maker. A Q Order may not be a Working Order.

(l) Stop Order. A Stop Order to buy becomes a market order when a transaction in the security occurs on the Corporation or on another national securities exchange or association at or above the stop price. A Stop Order to sell becomes a market order when a transaction in the security occurs on the Corporation or on another national securities exchange or association at or below the "stop" price. Stop Orders shall not have standing in any Order Process in the Arca Book and shall not be displayed.

(m) Stop Limit Order. A Stop Limit Order to buy becomes a limit order when a transaction in the security occurs on the Corporation or on another national securities exchange or association at or above the stop price. A Stop Limit Order to sell becomes a limit order when a transaction in the security occurs on the Corporation or on another national securities exchange or association at or below the stop price.

(n) Do Not Reduce. A limit order to buy, a Stop Order to sell or a Stop Limit Order to sell which is not to be reduced by the amount of an ordinary cash dividend on the ex-dividend date. A Do Not Reduce Order applies only to ordinary cash dividends; it should be reduced for other distributions such as when a stock goes "ex" a stock dividend or ex rights.

(o) Do Not Increase. A limit order to buy, a Stop Order to sell or a Stop Limit Order to sell which is not to be increased in shares on the ex-date as a result of a stock dividend or stock distribution.

(p) Fill-or-Return. An order to buy or sell that is to be executed in whole or in part on the Corporation, and the portion not so executed is to be cancelled, without routing the order to another market center or market participant.

(q) Timed Order. An order to buy or sell which is to remain in effect from and/or until a specified time, after which such order or the portion thereof not executed is to be treated as cancelled.

(r) Fill-or-Return Plus. An order to buy or sell that is to be executed in whole or in part on the Corporation, and the portion not so executed is to be cancelled, without routing the order to another market center or market participant. In the event any portion of the order is not executed on the Corporation and must be cancelled, the Archipelago Exchange, after canceling the unexecuted portion of the order, shall send an administrative message to an ETP Holder designated by the order entry ETP Holder informing the designated ETP Holder that portion of the order was cancelled.

(s) Cross Order. A two-sided order with instructions to match the identified buy-side with the identified sell-side at a specified price (the "cross price"). For the purposes of this Rule 7.31(s), an order of block size shall have the same meaning as set forth in Rule 7.57. A Cross Order will be executed as follows; provided, however, no Cross Orders shall be matched at the cross price without interacting with any orders in the Arca Book unless the cross price improves the BBO by the MPII:

(l) If the cross price is equal to or better than the NBBO.

(A) and the cross price is between the BBO, the Cross Order shall be matched at the cross price without interacting with any orders in the Arca Book.

(B) and the cross price is at the BBO.

(i) first, the Cross Order shall be matched at the displayed price, against all pre-existing displayed orders in the Display Order Process of the Arca Book with priority according to Rule 7.36; and

(ii) then, any remainder of the Cross Order shall be matched at the cross price.

(2) If the cross price is outside the NBBO,

(A) and the cross price is between the BBO,

(i) first, the portion of the Cross Order that may be executed in another market shall be routed away for execution pursuant to Section 5 of Rule 7; and

(ii) then, the remainder of the Cross Order shall be matched at the cross price without interacting with any orders in the Arca Book.

(B) and the cross price is at the BBO,

(i) first, the portion of the Cross Order that may be executed in another market shall be routed away for execution pursuant to Section 5 of Rule 7;

(ii) then, the Cross Order shall be matched, at the displayed price, against all pre-existing displayed orders in the Display Order Process of the Arca Book with priority according to Rule 7.36; and

(iii) then, any remainder of the Cross Order shall be matched at the cross price.

(C) and the cross price is outside the BBO,

(i) and the NBBO is better than the BBO,

(l) first, the portion of the Cross Order that may be executed in another market shall be routed away for execution pursuant to Section 5 of Rule 7;

(2) then, the Cross Order shall be matched,

(a) at the displayed price (if the Cross Order is smaller than block size) or at the cross price (if the Cross Order is of block size), against all pre-existing orders in the Display Order Process of the Arca Book with priority according to Rule 7.36; and

(b) at the price at which the Working Order is represented in the Arca Book, against all pre-existing orders in the Working Order Process of the Arca Book with priority according to Rule 7.36.

The Cross Order shall be matched against any displayed and/or Working Order at a better price level before being matched to any displayed and/or Working Order at the next best price level.

(2) then, the portion of the Cross Order that may be executed in another market shall be routed away for execution pursuant to Section 5 of Rule 7;

(3) then, any remainder of the Cross Order shall be matched at the cross price.

(t) Auction-Only Limit Order. A limit order that is to be executed only during the Market Order Auction.

(u) Cleanup Order.

(1) Only Market Makers may submit Cleanup Orders to the Archipelago Exchange.

(2) Cleanup Orders must be submitted to the Archipelago Exchange before 6:15 a.m. (Pacific Time) and remain in effect until the conclusion of the Market Order Auction.

(3) Cleanup Orders must be 2500 shares in size.

(4) Cleanup Orders must be entered as both buy or sell orders, provided, however, the Cleanup Order may only be executed on the side of the market opposite the Imbalance.

(5) Cleanup Orders will be executed at the Indicative Match Price as of the time of the Market Order Auction.

(6) Cleanup Orders will only be executed if:

(A) There is an Imbalance of Market Orders at the conclusion of the Market Order Auction, as provided in Rule 7.35; and

(B) The Imbalance is less than or equal to aggregate size of all Cleanup Orders in the relevant security.

(7) If there is an Imbalance and Cleanup Orders will be executed based on the criteria in paragraph (6), the market orders which make up the Imbalance will be divided equally among, and allocated to, all Market Makers registered in the relevant security and executed against such Market Makers' Cleanup Orders.

(8) If no Imbalance exists at the time of the Market Order Auction, all Cleanup Orders shall be cancelled at that time.

(v) NOW Order. A Limited Price Order that is to be executed in whole or in part on the Corporation, and the portion not so executed shall be routed pursuant to Rule 7.37(d) only to one or more NOW Recipients for immediate execution as soon as the order is received by the NOW Recipient. NOW Orders may not be Directed Orders.

(w) PNP Order (Post No Preference). A limit order to buy or sell that is to be executed in whole or in part on the Corporation, and the portion not so executed is to be ranked in the Arca Book, without routing any portion of the order to another market center; provided, however, the Corporation shall cancel a PNP Order that would lock or cross the NBBO.

(x) Primary Only Order (PO Order). For exchange-listed securities only, a market order that is to be routed as a market-on-open order to the primary market for participation in the primary market opening process. A PO Order must be entered before 6:28 a.m. (Pacific Time) and it will not be included in the Market Order Auction.

Order Entry

Rule 7.32. Users may enter into the Archipelago Exchange the types of orders listed in Rule 7.31; provided, however, no User may enter an order other than a Fill-or-Return, Fill-or-Return Plus or PNP Order unless the User or the User's Sponsoring ETP Holder has entered into a Routing Agreement.

ETP Holder Users

Rule 7.33. Consistent with Rules of the Corporation, ETP Holder Users of the Archipelago Exchange may enter proprietary orders and agency orders for the account of a customer. Proprietary orders accepted by the Archipelago Exchange from ETP Holder Users are subject to the same display and execution processes as agency orders. An ETP Holder User that enters a proprietary order into the Archipelago Exchange shall

mark the order with the appropriate designator to identify the order as proprietary.

Trading Sessions

Rule 7.34(a) Sessions. The Archipelago Exchange shall have three trading sessions each day the Corporation is open for business:

(1) Opening Session. The Opening Session shall begin at 5:00:00 a.m. (Pacific Time) and conclude at the commencement of the Core Trading Session. The Opening Auction and the Market Order Auction shall occur during the Opening Session.

(2) Core Trading Session. The Core Trading Session shall begin for each security at 6:30:00 a.m. (Pacific Time) or at the conclusion of the Market Order Auction, whichever comes later, and conclude at 1:00:00 p.m. (Pacific Time).

(3) Late Trading Session. The Late Trading Session shall begin following the conclusion of the Core Trading Session and conclude at 5:00:00 p.m. (Pacific Time).

(b) Market Maker Obligations. During the Core Trading Session, Market Makers will be obligated to enter Q Orders in securities in which they are registered in accordance with Rule 7.23 by the time Core Trading Hours begin. During the Opening Session and the Late Trading Session, Market Makers are not obligated to enter Q Orders in securities in which they are registered. Market Makers are required to enter at least one Cleanup Order for all securities in which they are registered for each Market Order Auction.

(c) Order Designation. Any Day Order entered into the Archipelago Exchange may remain in effect for one or more consecutive trading sessions on a particular day. For each Day Order entered into the Archipelago Exchange, the User must designate for which trading session(s) the order will remain in effect. Any GTC Order entered into the Archipelago Exchange will remain in effect only during Core Trading Sessions, unless the User indicates that the GTC Order will remain in effect for the Opening and/or Late Trading Sessions.

(d) Orders Permitted in Each Session.

(1) During the Opening Session:

(A) Orders eligible for the Display Order Process (other than Q Orders) and for the Working Order Process that have been designated as available for the Opening Session are eligible for entry into and execution on the Archipelago Exchange.

(B) Stop Orders are not eligible for execution during the Opening Session.

(C) Users may enter market and Auction-Only Limit Orders for inclusion in the Market Order Auction. Market orders and Auction-Only Limit Orders are not eligible for execution during the Opening Session, except during the Market Order Auction.

(D) Neither the Directed Order Process nor the Tracking Order Process is available during the Opening Session. For the purposes of the Opening Session, market Directed Orders are included in the Market Order Auction.

(E) NOW Orders are eligible for execution during the Opening Session, provided, however, NOW Orders are not eligible for the Opening Auction or the Market Order Auction.

(F) PNP Orders are eligible for execution during the Opening Session.

(2) During the Core Trading Session, market orders, Stop Orders, NOW Orders, PNP Orders and orders eligible for the Directed Order, Display Order, Working Order and Tracking Order Processes are eligible for entry into and execution on the Archipelago Exchange.

(3) During the Late Trading Session:

(A) Orders eligible for the Display Order Process (other than Q Orders) and for the Working Order Process, including NOW Orders and PNP Orders, that have been designated as available for the Late Trading Session are eligible for entry into and execution on the Archipelago Exchange.

(B) Market orders and Stop Orders are not eligible for execution during the Late Trading Session.

(C) The Directed Order and Tracking Order Processes are not available during the Late Trading Session.

(e) Customer Disclosures. No ETP Holder may accept an order from a non-ETP Holder for execution in the Opening or Late Trading Session without disclosing to such non-ETP Holder that:

(1) except for market orders eligible for execution during the Market Order Auction, Limited Price Orders are the only orders that are eligible for execution during the Opening and Late Trading Sessions;

(2) an order must be designated specifically for trading in the Opening and/or Late Trading Session to be eligible for trading in the Opening and/or Late Trading Session; and

(3) extended hours trading involves material trading risks, including the possibility of lower liquidity, high volatility, changing prices, unlinked markets, an exaggerated effect from news announcements, wider spreads and any other relevant risk.

The disclosures required pursuant to this subparagraph (e)(3) may take the following form or such other form as provides substantially similar information:

1. Risk of Lower Liquidity. Liquidity refers to the ability of market participants to buy and sell securities. Generally, the more orders that are available in a market, the greater the liquidity. Liquidity is important because with greater liquidity it is easier for investors to buy or sell securities, and as a result, investors are more likely to pay or receive a competitive price of securities purchased or sold. There may be lower liquidity in extended hours trading as compared to regular market hours. As a result, your order may only be partially executed, or not at all.

2. Risk of Higher Volatility. Volatility refers to the changes in price that securities undergo when trading. Generally, the higher the volatility of a security, the greater its price swings. There may be greater volatility in extended hours trading than in regular market hours. As a result, your order may only be partially executed, or not at all, or you may receive an inferior price in extended hours trading than you would during regular markets hours.

3. Risk of Changing Prices. The prices of securities traded in extended hours trading may not reflect the prices either at the end

of regular market hours, or upon the opening of the next morning. As a result, you may receive an inferior price in extended hours trading than you would during regular market hours.

4. *Risk of Unlinked Markets.* Depending on the extended hours trading system or the time of day, the prices displayed on a particular extended hours system may not reflect the prices in other concurrently operating extended hours trading systems dealing in the same securities. Accordingly, you may receive an inferior price in one extended hours trading system than you would in another extended hours trading system.

5. *Risk of New Announcements.* Normally, issues make news announcements that may affect the price of securities after regular market hours. Similarly important financial information is frequently announced outside of regular market hours. In extended hours trading, these announcements may occur during trading, and if combined with lower liquidity and higher volatility, may cause an exaggerated and unsustainable effect on the price of a security.

6. *Risk of Wider Spreads.* The spread refers to the difference in price between what you can buy a security for and what you can sell it for. Lower liquidity and higher volatility in extended hours trading may result in wider than normal spreads for a particular security.

(f) Trades on the Archipelago Exchange executed and reported outside of the Core Trading Session shall be designated as .T trades.

Opening Session Auctions

Rule 7.35(a) Order Entry and Cancellation Before Opening Auction

(1) Users may submit any orders to the Archipelago Exchange beginnings at 4:30 am (Pacific Time). Any such Limited Price Orders designated for the Opening Session will be queued until 5:00 am (Pacific Time) at which time they will be eligible to be executed pursuant to paragraph (b) of this Rule. Any such market orders will be queued until the Market Order Auction at which time they will be executed pursuant to paragraph (c) of this Rule.

(2) Only limited priced orders designated for the Opening Session will be eligible for the Opening Auction. Market orders entered before the Opening Auction will participate in the Market Order Auction. Limited Price Orders not designated for the Opening Session will become eligible for execution pursuant to Rule 7.37 at the commencement of the Core Trading Session.

(3) Beginning at 4:30 am (Pacific Time), and various times thereafter as determined from time to time by the Corporation, the Indicative Match Price of the Opening Auction, and any Imbalance associated therewith, shall be published via electronic means as determined from time to time by the Corporation.

(4) Orders that are eligible for the Opening Auction may not be cancelled between 4:58 am (Pacific Time) and the conclusion of the Opening Auction.

(b) Opening Auction.

(1) At 5:00 am (Pacific Time), Limited Price Orders designated for the Opening Session

are matched and executed in the Opening Auction.

(3) Orders that are eligible for, but not executed in, the Opening Match shall become eligible for the Opening Session immediately upon conclusion of the Opening Auction.

(c) Market Order Auction.

(1) Publication of Indicative Match Price and Imbalances

(A) Beginning at 5:00 am (Pacific Time), and various times thereafter as determined from time to time by the Corporation, the Indicative Match Price of the Market Order Auction and the volume available to trade at such price, shall be published via electronic means as determined from time to time by the Corporation. If such a price does not exist (i.e., there is an Imbalance of market orders), the Archipelago Exchange shall indicate via electronic means that an Indicative Match Price does not exist.

(B) Beginning at 5:00 am (Pacific Time), and various times thereafter as determined from time to time by the Corporation, the market order Imbalance associated with the Market Order Auction, if any, shall be published via electronic means as determined from time to time by the Corporation.

(C) If the difference between the Indicative Match Price and the closing price of the price of the previous trading day's normal market hours, as determined by the Consolidated Tape, is equal to or greater than a pre-determined amount, as determined from time to time by the Corporation, the Archipelago Exchange will assign a "SIG" designator to such Indicative Match Price and publish such designator via electronic means as determined from time to time by the Corporation.

Example: (1) Market order to buy 5000 shares;

(2) Auction-Only Limit Order to sell 1000 at 50;

(3) Limit order to sell 1000 at 50.50; and

(4) Limit order to sell 500 at 50.75.

The Archipelago Exchange will publish an Indicative Match Price of 50.75, a volume of 2500 shares and a buy Imbalance of 2500 shares.

Example: (1) Market order to buy 3000 shares;

(2) Market order to sell 1000;

(3) Limit order to sell 1000 at 41.00; and

(4) Limit order to sell 1000 at 41.25.

The Archipelago Exchange will publish an Indicative Match price of 41.25 and a volume of 3000 shares and will not publish an Imbalance.

(2) Reduction of Imbalances

(A) Any Imbalance in the Market Order Auction may be reduced by new orders, entered on the side of the market opposite the Imbalance, pursuant to the following priority:

(i) Market orders;

(ii) Limited Price Orders eligible for the Opening Session;

(iii) Limited Price Orders entered before 6:28 am (Pacific Time);

(iv) Auction-Only Limit Orders; and

(v) Cleanup Orders.

(B) Between 6:28 am (Pacific Time) and the conclusion of the Market Order Auction, Limited Price Orders eligible for the Opening Session or the Core Trading Session may be cancelled, but market orders, Auction-Only Limit Orders and Cleanup Orders may not be cancelled.

(C) Between 6:28 am (Pacific Time) and the conclusion of the Market Order Auction, market orders and Auction-Only Limit Orders may not be entered on the same side as the Imbalance. Market orders and Auction-Only Limit Orders may be entered on the opposite side of the Imbalance, however, any time before the Market Order Auction.

(3) Determination of Market Order Auction Price

(A) If there is no Imbalance, orders will be executed in the Market Order Auction at the Indicative Match Price as of 6:30 am (Pacific Time).

(B) If an Imbalance exists, or if an equilibrium exists between buy market orders and sell market orders, as many buy market orders and sell market orders as possible shall be matched, on a time priority basis,

(i) at the midpoint of the NBBO at 6:30 am (Pacific Time), in the case of exchange-listed securities for which the Corporation is not the primary market; or

(ii) at the midpoint of the NBBO at 6:30 am (Pacific Time), in the case of Nasdaq-listed securities, provided that the NBBO is not crossed; or

(iii) at the midpoint of the first uncrossed NBBO after 6:30 am (Pacific Time), in the case of Nasdaq securities in which the NBBO is crossed but the BBO is not crossed by the NBBO; or

(iv) at the bid (offer) of the BBO that was crossed prior to 6:30 am (Pacific Time), in the case of Nasdaq securities in which the BBO is crossed by a market participant; or

(v) at the indicative Match Price as of 6:30 am (Pacific Time) in the case of those issues for which the Corporation is the primary market. If equilibrium exists between buy and sell market orders, the match price shall be the last Corporation sale price in the security regardless of the trading session, provided that, if the last Corporation sale price is inferior to the BBO, the match price shall be the Corporation bid (offer).

Such executions shall be designated with a modifier to identify them as Market Order Auction trades. The market orders that are eligible for, but not executed in the Market Order Auction, shall become eligible for execution in the Core Trading Session immediately upon conclusion of the Market Order Auction.

(d) Reserved.

(e) Transition to Core Trading Session.

(1) Limited Price Orders entered before 6:28 am (Pacific Time) shall participate in the Market Order Auction. Limited Price Orders designated for the Core Trading Session entered after 6:28 am (Pacific Time) shall become eligible for execution at 6:30 am (Pacific Time) or at the conclusion of the Market Order Auction, whichever is later.

(2) Market orders entered after 6:28 am (Pacific Time) and before 6:30 am (Pacific Time), which are eligible for either the Market Order Auction or the Core Trading

Session, shall become eligible for execution at 6:30 am (Pacific Time) or at the conclusion of the Market Order Auction, whichever is later, unless otherwise provided in Rule 7.30(c)(2)(C).

(3) Stop Orders entered before or during the Opening Session become eligible for execution at 6:30 am (Pacific Time) or at the conclusion of the Market Order Auction, whichever is later.

Order Ranking and Display

Rule 7.36. The Archipelago Exchange shall display to Users and other market participants all non-marketable limit orders in the Display Order Process. The Archipelago Exchange will also disseminate current consolidated quotations/last sale information, and such other market information as may be made available from time to time pursuant to agreement between the Corporation and other market centers.

(a) Ranking. Orders of Users shall be ranked and maintained in the Display Order Process and/or Working Order Process of the Arca Book according to price-time priority, such that within each price level, all orders shall be organized by the time of entry in the following manner.

(1) Display Order Process. Within the Display Order Process:

(A) Limit orders, with no other conditions, shall be ranked based on the specified limit price and the time of original order entry.

(B) The displayed portion of Reserve Orders (not the reserve size) shall be ranked at the specified limit price and the time of order entry. If the displayed portion of the Reserve Order is decremented in its entirety, the displayed portion of the Reserve Order shall be refreshed for the displayed amount from the reserve portion and shall be submitted and ranked at the specified limit price and the new time that the displayed portion of the order was refreshed.

(C) Discretionary Orders shall be ranked based on the displayed price (not the discretionary price) and the time of order entry. If a Discretionary Order is decremented, it remains ranked based on the displayed price and the time of original order entry.

(2) Working Order Process. Within the Working Order Process:

(A) The reserve portion of Reserve Orders shall be ranked based on the specified limit price and the time of original order entry. After the displayed portion of a Reserve Order is refreshed from the reserve portion, the reserve portion remains ranked based on the original time of order entry, while the displayed portion is sent to the Display Order Process with a new time-stamp.

(B) Discretionary Orders shall be ranked based on the displayed price and the time of original order entry. After a Discretionary Order is decremented, it remains ranked as described above.

(C) All-or-None Orders shall be ranked based on the specified limit price and the time of order entry.

(b) Display. All Orders at all price levels in the Display Order Process of the Arca Book shall be displayed to all Users and other market participants on an anonymous basis.

(c) Dissemination. The best-ranked displayed order(s) to buy and the best ranked

displayed order(s) to sell in the Arca Book and the aggregate displayed size of such orders associated with such prices shall be collected and made available to quotation vendors for dissemination pursuant to the requirements of Rule 11Ac1-1 under the Exchange Act.

Order Execution

Rule 7.37. Subject to the restrictions on short sales under Rule 10a-1 under the Exchange Act, like-priced orders, bids and offers shall be matched for execution by following Steps 1 through 5 in this Rule; provided, however, for an execution to occur on any Order Process, the price must be equal to or better than the NBBO, unless the Archipelago Exchange has routed orders to all away markets at the NBBO.

(a) Step 1: Directed Order Process. During Core Trading Hours only, orders may be matched and executed in the Directed Order Process as follows:

(1) If a User submits a marketable Directed Order to the Archipelago Exchange and the User's designated Market Maker has a standing instruction for a Directed Fill to the Archipelago Exchange, the Directed Order shall be executed against the Directed Fill of the designated Market Maker.

(2) If a User submits a marketable Directed Order to the Archipelago Exchange and the User's designated Market Maker has not submitted an instruction for a Directed Fill, the Directed Order shall enter the Display Order Process, as described in subsection (b) of this Rule.

(3) If a User submits any order other than a marketable Directed Order to the Archipelago Exchange, the User's order immediately shall enter the Display Order Process, as described in subsection (b) of this Rule, without interacting with any Directed Fills.

(b) If an incoming marketable order has not been executed in its entirety pursuant to paragraph (a) of this Rule, any remaining part of the order shall be routed to the Display Order Process.

(1) Step 2: Display Order Process.

(A) An incoming marketable order shall first attempt to be matched for execution against orders in the Display Order Process at the display price of the resident order for the total amount of stock available at that price or for the size of the incoming order, whichever is smaller. For the purposes of this subsection, the size of an incoming Reserve Order includes the displayed and reserve size and the size of the portion of the Reserve Order resident in the Display Order Process is equal to its displayed size. If the incoming marketable order has not been executed in its entirety, the remaining part of the order shall be routed to the Working Order Process.

(B) An incoming order that is not marketable shall enter the Working Order Process to be executed against any Discretionary Orders at or better than the NBBO.

(2) Step 3: Working Order Process.

(A) An incoming marketable order shall be matched for execution against orders in the Working Order Process in the following manner:

(i) An incoming marketable order shall be matched against orders within the Working

Order Process in the order of their ranking, at the price of the displayed portion (or in the case of an All-or-None Order, at the limit price), for the total amount of stock available at that price or for the size of the incoming order, whichever is smaller.

(ii) If the BBO is outside the NBBO and any Discretionary Order(s) within the Working Order Process have a discretionary price equal to or better than the NBBO, the incoming order shall execute against such Discretionary Order(s) at the NBBO up to the size of the smaller of the two orders.

(iii) If an incoming marketable order is a Discretionary Order or a Reserve Order and its prices overlap with the prices of a Discretionary Orders in the Working Order Process, then the orders will be executed at the display price of the order that was entered first up to the size of the smaller of the two orders. For the purposes of this subsection, the size of the incoming Reserved order includes the displayed and reserve size.

(iv) If the incoming marketable order has not been executed in its entirety, the remaining part of the order shall be routed to the Tracking Order Process.

(B) An incoming order is not marketable shall be matched for execution against orders in the Working Order Process in the following manner:

(i) The incoming order shall be matched against any Discretionary Orders in the Working Order Process that have discretionary prices that would satisfy an otherwise displayable incoming Limited Price Order. The execution shall occur at the limited price of the incoming order.

(ii) If the incoming order is a Discretionary Order and its prices overlap with the prices of a Discretionary Order in the Working Order Process, then the orders will be executed at the discretionary price of the incoming order that would be the best price available for the order entered first.

(C) If any change in the NBBO or other available away trading interest would cause a potential match between the away order and an order in the Working Order Process, a commitment to trade shall be sent to that market center or market participant pursuant to Step 5 below.

(c) Step 4: Tracking Order Process. During Core Trading Hours only, orders may be matched and executed in the Tracking Order Process as follows: If an order has not been executed in its entirety pursuant to paragraphs (a) and (b) of this Rule, the Archipelago Exchange shall match and execute any remaining part of the order in the Tracking Order Process in the following manner; provided, however, any portion of an order received from another market center or market participant shall be cancelled immediately:

(1) If the unfilled order is a mixed lot or round lot order, the order shall be matched against any Tracking Orders pursuant to the rotation pattern described in Rule 7.31(f)(3) for immediate execution thereafter. After the order has been matched against any Tracking Orders, if the order has not been executed in its entirety and the remaining part of the order is an odd lot, the odd lot order shall be executed in the Odd Lot Tracking Order Process, as described in paragraph (2).

(2) If the unfilled order is an odd lot, the order shall be matched in the Odd Lot Tracking Order Process against any OLTOS pursuant to the rotation pattern described in Rule 7.31(f)(3) for immediate execution thereafter.

(d) *Step 5: Routing Away.*

(1) If an order has not been executed in its entirety pursuant to paragraphs (a) through (c) of this Rule and it has been designated as a Fill-or-Return, Fill-or-Return Plus Order or PNP Order, the Order shall be cancelled, without routing the order to another market center or market participant.

(2) If an order has not been executed in its entirety pursuant to paragraphs (a) through (c) of this Rule and it has not been designated as a Fill-or-Return, Fill-or-Return Plus Order or PNP Order, the order shall be routed for execution as follows:

(A) The order shall be routed, either in its entirety or as component orders, to another market center or market participant as a limit order priced at the quote published by the market center or market participant.

(B) The Archipelago Exchange shall attempt to match the part of the order that has not been routed away against then available trading interest in the Archipelago Exchange for an internal fill by following Steps 1 through 4 as set forth in paragraphs (a) through (c) above.

(C) Orders routed to other market centers or market participants shall remain outside the Archipelago Exchange for a prescribed time period during which they may be executed (in whole or in part) or declined. While an order remains outside the Archipelago Exchange, it shall have no time standing, relative to other orders received from Users at the same price which may be executed against the Arca Book. Requests from Users to cancel their orders while the order is routed away to another market center or market participant and remains outside the Archipelago Exchange shall be processed, subject to the applicable trading rules of the relevant market center or market participant.

(D) In the event that a marketable order routed from the Archipelago Exchange to another market center or market participant is not executed in its entirety at the other market center or market participant's quote (i.e., all attempts at the fill are declined or timed-out), the Archipelago Exchange shall attempt to match the residual or declined market order against then available trading interest in the Archipelago Exchange for an internal fill by following Steps 1 through 4 as set forth in paragraphs (a) through (c) above. Any remaining unmatched trading interest shall be rerouted to another market center or market participant at the next available displayed price level pursuant to this paragraph (d)(2) above.

(E) When routing an order in an Eligible Security away to another market center, the Corporation shall utilize such electronic intermarket linkages and order delivery facilities as may be approved by the Board of Directors from time to time, subject to such applicable requirements as may be agreed to with the relevant market center.

(e) If an order has not been executed in its entirety after following Steps 1–5, the order

shall be ranked in the Arca Book pursuant to Rule 7.36.

Odd and Mixed Lots

Rule 7.38(a) Order Types.

(1) *Odd Lots.* All odd lot orders submitted by Users to the Archipelago Exchange must be market orders or limit orders, where such orders are subject to no additional conditions (e.g., odd lot orders may not be Working Orders, Directed Orders, Directed Fills, Tracking Orders, etc.), provided, however, Odd Lot Dealers may submit OLTOS.

(2) *Mixed Lots.* Mixed lot orders submitted by Users to the Archipelago Exchange may be any order type supported by the Archipelago Exchange.

(b) *Ranking and Execution.* Round lot, mixed lot and odd lot orders are treated in the same manner in the Archipelago Exchange; provided, however, the Tracking Order Process treats odd lot orders in a different manner from mixed lot and round lot orders.

(c) *Prohibitions.* It shall be considered conduct inconsistent with just equitable principle for ETP Holders to engage in the following actions:

(1) Combining odd lot orders given by different customers into a round lot order or orders unless specifically requested to do so by the customers giving the orders;

(2) Unbundling round lots for the purpose of entering odd lot limit orders in comparable amounts;

(3) Failing to aggregate odd lot orders into round lots when such orders are for the same account or for various accounts in which there is a common monetary interest; and

(4) Entering both buy and sell odd lot limit orders in the same stock before one of the orders is executed for the purpose of capturing the spread in the stock.

Interaction with PCXE Application of the OptiMark System

Rule 7.39(a) The information from the Arca Book (including Working Orders), but not the orders themselves, shall be submitted to the PCXE Application at all relevant times during Core Trading Hours, as set forth in Rule 7.47.

(b) The Archipelago Exchange may receive Immediate-or-Cancel Orders from the PCXE Application as set forth in Rule 7.48. Such Immediate-or-Cancel Orders shall be treated as a User order once submitted to the Archipelago Exchange.

Trade Execution and Reporting

Rule 7.40. Executions occurring as a result of orders matched against the Arca Book shall be reported by the Corporation to an appropriate consolidate transaction reporting system. Executions occurring as a result of orders routed away from the Archipelago Exchange shall be reported to an appropriate consolidated transaction reporting system by the relevant reporting market center. The Archipelago Exchange shall promptly notify Users of all executions of their orders as soon as executions take place.

Clearance and Settlement

Rule 7.41. The details of each transaction executed within the Archipelago Exchange shall be automatically processed for

clearance and settlement on a locked-in basis. ETP Holders need not separately report their transactions to the Corporation for trade comparison purposes. All transactions effected by a Sponsored Participant shall be cleared and settle, using the relevant Sponsoring ETP Holder's mnemonic (or its clearing firm's mnemonic as applicable).

Limitation of Liability

Rule 7.42(a). Neither the Corporation, any affiliate of the Corporation, Archipelago Exchange, L.L.C., nor any affiliate of the Archipelago Exchange, L.L.C., shall be liable to Users for any loss, damages, claim or expense:

(1) growing out of the use or enjoyment of the Archipelago Exchange; or

(2) arising from or occasioned by any inaccuracy, error or delay in, or omission of or from the collection, calculation, compilation, maintenance, reporting or dissemination of any information derived from the Archipelago Exchange, resulting either from any act or omission by the Corporation, any affiliate of the Corporation, Archipelago Exchange, L.L.C., or any affiliate of Archipelago Exchange, L.L.C., or from any act condition or cause beyond the reasonable control of the Corporation, any affiliate of the Corporation, Archipelago Exchange, L.L.C., or any affiliate of Archipelago Exchange, L.L.C., including, but not limited to, flood, extraordinary weather conditions, earthquake or other acts of God, fire, war, insurrection, labor dispute, accident, action of government, communications or power failure, or equipment or software malfunction.

(b) Each ETP Holder expressly agrees, in consideration of the issuance of the ETP, to release and discharge the Corporation, any affiliate of the Corporation, Archipelago Exchange, L.L.C., and any affiliate of the Archipelago Exchange, L.L.C., and any officers, directors, employees and agents thereof, of and from all claims and damages arising from their acceptance and use of the Archipelago Exchange.

(c) Neither the Corporation, any affiliate of the Corporation, Archipelago Exchange, L.L.C., nor any affiliate of the Archipelago Exchange, L.L.C., makes any express or implied warranties or conditions to Users as to results that any person or party may obtain from the Archipelago Exchange for trading or for any other purpose, and all warranties of merchantability or fitness for a particular purpose or use, title, and non-infringement with respect to the Archipelago Exchange are hereby disclaimed.

(c)—No change.

Commentary

.01. For the purpose of this Rule [rule], a profile for the proprietary account of an ETP Holder[, Equity ASAP Holder, or ETP Firm] (other than for a *Market Maker* [specialist or floor broker]) will be deemed "principle exempt" and therefore receive the priority treatment of agency profiles but only when such person does not hold or have knowledge that his or her firm or any participant therein holds or has knowledge of a customer's profile or order at the same price or better. If the ETP Holder[, ETP Firm or Equity ASAP Holder] holds or has knowledge of such customer profile or order,

the ETP Holder[, ETP Firm or Equity ASAP Holder] will be deemed non-exempt and must designate any proprietary profile as "principal non-exempt."

.02. After screening for price and standing, the matching algorithm will rank the following categories of profiles and order types for time priority purposes:

(1) *Arca Profiles* [PCX Book—limit orders from the PCX limit order book];

(2) Agency—other public customer profiles, non-ETP [or non-Equity ASAP] profiles, and "principal-exempt" proprietary profiles entered directly into OptiMark;

(3) Principal—proprietary profiles submitted by *Market Makers* [specialists and floor brokers], and "non-exempt" ETP Holders[, Equity ASAP Holders, and ETP Firms] [(all three) considered "principal non-exempt"]; and

(4) [Consolidated Quote System ("CQS") profiles.

(d) Frequency. Cycles respecting an Eligible Security shall be scheduled at one or more specified times throughout the trading day after the opening of the market in that security and prior to the closing of the market. The maximum frequency with which Cycles may take place throughout the trading day shall be 90 seconds, while the minimum shall be once a day. The exact frequency of Cycles as to any given *Corporation* [PCX] Security shall be determined by OptiMark Services, Inc., based on the general characteristics of the security, the robustness of the associated Profile flow over a period and the current level of interest expressed by Users, and may be subsequently altered in response to subsequent developments in the above-stated market circumstances. Any change in the frequency of Cycles will be effective upon three days' notice to the User in advance; *provided, however, that at all relevant times, the Corporation finds any such scheduling of Cycles to be commensurate with the demand for the PCXE Application among ETP Holders[, Equity ASAP Holders or ETP Firms] and their customers and also consistent with the safeguards in place to ensure system capacity and integrity.*

Order Execution and Reporting

Rule 7.48(a) [7.74]—No change.

(b) *Notwithstanding paragraph (a) of this Rule, any Order generated from a Cycle representing matches involving Arca Profiles shall be routed to the Archipelago Exchange for execution against the relevant the Archipelago Exchange limit order as an Immediate-or-Cancel Order. If the relevant Archipelago Exchange limit order is no longer available, the Order generated from the Cycle shall be automatically canceled.*

Hours of Operation

Rule 7.49 [7.75]. The PCXE Application will be available for execution of Orders and routing of ITS commitments during the regular trading hours.

Errors

Rule 7.50 [7.76]. Whenever a User discovers an error in a transaction resulting from the PCXE Application, such error may be corrected in accordance with the rules of the applicable market center and clearing

arrangement through which the transaction is executed and settled.

Trading Suspension and Halts

Rule 7.51 [7.77]. In the event of a suspension in trading of an Eligible Security pursuant to Rule 7.12 [7.46(b)], the Corporation shall suspend the related trading activities respecting that security through the PCXE Application. In addition, the trading activities through the PCXE Application respecting all Eligible Securities shall halt whenever the President or, in the President's absence, Chief Operating Officer or other PCXE Officer(s) as the President may designate, determines that market conditions warrant such a halt. The Corporation may suspend the trading activities through the PCXE Application relating to one or more Eligible Securities at any other time upon consultation with OptiMark Technologies, Inc., if deemed necessary and proper to preserve system capacity and integrity.

Limitation of Liability

Rule 7.52 [7.78](a). Limitation of Liability. Neither the Corporation, any affiliate, nor any operator, licensor or administrator of the OptiMark System shall have any liability to Users or Designated Brokers for any loss, damages, claim or expense arising from or occasioned by any inaccuracy, error or delay in, or omission of or from:

(1) the PCXE Application of the OptiMark System or
(2) the collection, calculation, compilation, maintenance, reporting or dissemination of any information derived from the PCXE Application or the OptiMark System, resulting either from any act or omission by the Corporation or any affiliate, or any operator, licensor or administrator of the OptiMark System or from any act, condition or cause beyond the reasonable control of the Corporation or any affiliate, or any operator, licensor or administrator of the OptiMark System, including, but not limited to, flood, extraordinary weather conditions, earthquake or other acts of God, fire, war, insurrection, riot, labor dispute, accident, action of government, communications or power failure, or equipment of software malfunction.

(b) Neither the Corporation, any affiliate, nor any operator, licensor or administrator of the OptiMark System makes any express or implied warranties or conditions to Users or Designated Brokers as to results that any person or party may obtain from the PCXE Application for trading or for any other purpose, and all warranties of merchantability or fitness for a particular purpose or use, title, and non-infringement with respect to the PCXE Application are hereby disclaimed.

Section 5 [9]. Intermarket Trading System Plan

Definitions

Rule 7.55 [7.66](a). Definitions. Whenever and wherever used herein, unless the context requires otherwise, the following terms shall be deemed to have the meanings indicated:

(1)–(4)—No change.

(5) The term “Pre-Opening Application” shall mean the application of the System which permits a market maker in one participating market, who wishes to open his or her market in an Eligible Listed Security, to obtain from other market makers registered in that security in other participating markets, any pre-opening interests such other market makers might decide to disclose as set forth in the Plan.

(6)–(10)—No change.

[(11)—Deleted.]

Intermarket Trading System Application

(b) Provisions of the Plan. The Corporation has agreed to comply to the best of its ability, and, absent reasonable justification or excuse, to enforce compliance by its ETP Holders, [Equality ASAP Holders and ETP Firms,] with the provisions of the Plan. In this connection, the following shall apply:

Intermarket Trading System (ITS)

(1) All transactions effected through ITS shall be on a “regular way” basis. Each transaction effected through ITS shall be cleared and settled through a clearing agency registered with the Securities and Exchange Commission which maintains facilities through which ITS transactions may be compared and settled and which agrees to supply each participating market center with data reasonably requested in order to permit such market center to enforce compliance by its members [ETP Holders, Equity ASAP Holders and ETP Firms] with the provisions of the Act, the rules and regulations thereunder, and the rules of such market center.

(2) Any “commitment to trade”, which is transmitted by an ETP Holder [or ETP Firm], *via the facilities of the Corporation*, to another participating market center through ITS, shall be firm and irrevocable for the period of time applicable to such commitment. All such commitments to trade shall:

(A) specify the security which is the subject of the commitment; [.]

(B) designate the commitment as either a commitment to buy or a commitment to sell; [.]

(C) specify the amount of the security to be bought or sold, which amount shall be for one unit of trading or any multiple thereof; [.]

(D) specify the price at or below which the security is to be bought or the price at or above which the security is to be sold, or specify that the commitment is a commitment to trade “at the market;” [.]

(E) designate the commitment “short” or “short exempt” whenever it is a commitment to sell which, if it should result in an execution in the market of the receiving market center, would result in a short sale to which the provisions of paragraph (a) of Rule 10a–1 under the Act would apply; *and* [.]

(F)—No change.

(3) No change.

(4) The ETP Holder [or ETP Firm on the Floor] who made the bid or offer which is sought by a commitment to trade received [on the Floor] through ITS shall accept such commitment to trade, *via the facilities of the Corporation*, up to the amount of the bid or offer if the bid or offer is still available [on

the Floor] when the commitment to trade is received by such ETP Holder [or ETP Firm], *via the facilities of the Corporation*, unless acceptance is precluded by the *Rules* [rules] of the Corporation. In the event that the bid or offer which is sought by a commitment to trade is no longer available *through the facilities of the Corporation* [on the Floor] when the commitment is received, but a new bid or offer is available *through the facilities of the Corporation* [on the Floor] which would enable the commitment to trade to be executed at a price which is more favorable than the price specified in such commitment, then the ETP Holder [or ETP firm] who [has] made *the* [such new] bid or offer shall accept, *via the facilities of the Corporation*, such commitment at the price, and up to the amount of, *the new* [his] bid or offer, unless acceptance is precluded by the *Rules* [rules] of the Corporation.

(5) Any ETP Holder [or ETP Firm] who receives, *via the facilities of the Corporation*, a commitment to trade through ITS from another market center and who intends to reject that commitment shall notify, *via the facilities of the Corporation*, the market center from which the commitment was sent of such rejection as promptly as possible.

(6) Any commitment to trade received [on the Floor] through ITS and any execution thereof and any commitment to trade issued by an ETP Holder [or ETP Firm], *via the facilities of the Corporation*, through ITS shall be subject to such *Rules* [rules] as the Corporation may from time to time determine.

Pre-Opening Application

(7) The provisions of subparagraph (1) above shall also be applicable to any transaction effected through the Pre-Opening Application. The Pre-Opening Application applies in two instances. First, it applies whenever a market maker in any Participant market [Market], in arranging an opening transaction in his or her market in a System security, anticipates that the opening transaction will be at a price that represents a change from the security's “previous day's consolidated closing price” at more than the “applicable price change.” Second, it applies whenever an “indication of interest” (i.e., an anticipated opening price range) is sent to the CTA Plan Processor as required or permitted by the CTA Plan or a Participant market's rules.

(8) Openings

(A) [(i)] Notification Requirements

(i) [(A)] Applicable Price Change

(1) Initial Notification—Whenever a *Market Maker* [specialist], in arranging an opening transaction *through the facilities of* [on] the Corporation in any Eligible Listed Security, anticipates that the opening transaction [on] through the facilities of the Corporation will be at a price that represents a change from the security's previous day's consolidated closing price of more than the “applicable price change” (as defined below), he or she, *via the facilities of the Corporation*, shall notify the other Participant markets of the situation by sending a “pre-opening notification” through the System. Thereafter, the *Market Maker* [specialist] shall not open the security in his or her market until not less than three minutes after *the* [his]

transmission of the pre-opening notification.
The “applicable price changes” are:

Security	Consolidated closing price	Applicable price change (more than)
Network A	Under \$1510 or 1/8 point
	\$15 or over*25 or 1/4 point
Network B	Under \$510 or 1/8 point
	\$5 or over*25 or 1/4 point

—A pre-opening notification shall:

- (A) be designated as a pre-opening notification (“IND”);
(B) identify the participant market (“P”), the *Market Maker* [specialist] and the security (“XYZ”); and
(C) indicate the “applicable price range” by being formatted as a standardized pre-opening administrative message as follows:

IND P/XYZ (RANGE)

The price range shall not exceed the “applicable price range” shown below:

Network A	Under \$5050 or 1/2 point
	\$50 or over*	1 point or, for stocks trading in decimals, 1.00
Network B	Under \$1050 or 1/2 point
	\$10 or over*	1 point or, for stocks trading in decimals, 1.00

The price range also shall not straddle the previous day's consolidated closing price, although it may include it as an endpoint (e.g., a .10–.60 or 1/8–5/8 price range would be permissible if the previous day's consolidated closing price were .10 or .60 or 1/8 or 5/8, but not if the closing price were .25, or .40 or .50 or 1/4, or 3/8 or 1/2).

* If the previous day's consolidated closing price of a Network A Eligible Security exceeded \$100 and the security does not underlie an individual stock option contract listed and currently trading on a national securities exchange, the “applicable price range” is two dollars.

* If the previous day's consolidated closing price of a Network B Eligible Security exceeded \$75 and the security is not a Portfolio Depository Receipt, Index Fund Share, or Trust Issued Receipt, or does not underlie an individual stock option contract listed and currently trading on a national securities exchange, the “applicable price range” is two dollars.

(2) Subsequent Notifications—If, after sending a pre-opening notification, the situation in a *Market Maker's* [specialist's] market changes, he or she may have to issue, *via the facilities of the Corporation*, a subsequent pre-opening notification. The three situations requiring subsequent pre-opening notifications are described below. Subsequent pre-opening notifications shall be standardized pre-opening administrative messages. After sending a subsequent notification, the *Market Maker* [specialist] shall wait either (A) one minute or (B) until the balance of the original three-minute waiting period expires whichever is longer, before opening his or her market (i.e., if more than one minute of the initial waiting period has not yet expired at the time the subsequent notification is sent, the *Market Maker* [specialist] must wait for the rest of the period to pass before opening his or her market).

(I) Increase or Decrease in Applicable Price Range—Where, prior to the *Market Maker's* [specialist's] opening of his or her market in the security, his or her anticipated opening price shifts so that it (1) is outside of the price range specified in his or her pre-opening notification but (2) still represents a change from the previous day's consolidated closing price of more than the applicable price change, he or she shall issue, *via the facilities of the Corporation*, a replacement preopening notification (an “additional” notification) through the System before opening his or her market in the security. An additional notification contains the same kind of information as is required in an original preopening notification.

(II) [I.] Shift to Within Applicable Price Change Parameter—

(a) The *Market Maker* [specialist] shall, by issuing, *via the facilities of the Corporation*, a “cancellation” notification through the

System, notify the Participant market(s) of the receiving market maker(s) prior to opening the security if the price at which he or she anticipates opening his or her market shifts so that it (1) is outside of the price range specified in his or her pre-opening notification but (2) does not represent a change from the previous day's consolidated closing price of more than the applicable price change.

(b) Notwithstanding the preceding sentence, in situations where the price range in an initial or additional notification includes price variations equal to or less than the applicable price change parameters, the “cancellation” notification signifies that the anticipated opening price: (1) may or may not be outside of the price range specified in the pre-opening notification and (2) does not represent a change from the previous day's consolidated closing price of more than the applicable price change. ***

(III) Participation as Principal Precluded (“Second Look”)—If a responding market maker who has shown in his or her pre-opening response interest as principal at a price better than the anticipated opening price would be precluded from participation as principal in the opening transaction (e.g., his or her responding principal interest is to sell at a price 1/8 or more below the opening price established by paired agency orders), the *Market Maker* [specialist] shall send, *via*

*** Example: CTA close at 30. Pre-Opening Notification sent with any one of the following price ranges 30—1/2; 30 1/8—5/8; or 30 1/4—3/4. It is then determined that the stock will open at 29 3/4 or 7/8. Under paragraph (II)(a), the *Market Maker* [specialist] “shall” send, *via the facilities of the Corporation*, cancellation notification. If it is subsequently determined that stock will open at 30, 30 1/8, or 30 1/4, the *Market Maker* [specialist] need not reindicate stock, *via the facilities of the Corporation*, pursuant to paragraph (II)(b).

the facilities of the Corporation, a “second look” notification through the System notifying such responding market maker of the price and size at which he or she could participate as principal (i.e., in the parenthetical example above, the total amount of the security that he or she would have to sell at the 1/8 better price to permit the opening transaction to occur at that price).

(ii)[(B)] Tape Indications—If the CTA Plan or the Corporation's *Rules* [rules] require or permit that an “indication of interest” (i.e., an anticipated opening price range) in a security be furnished to the consolidated last sale reporting system prior to the opening of trading, or reopening of trading following a halt or suspension in trading in one or more Eligible Listed Securities, then the furnishing of an indication of interest, in such situations shall, without any other additional action required of the *Market Maker* [specialist], (1) initiate the Pre-Opening process, and, (2) if applicable, substitute for and satisfy the requirements of paragraphs (8)(A)(i)(1), (8)(A)(i)(2)(I) and (8)(A)(i)(2)(II) [(8)(i)(A)(1), (8)(i)(A)(2)(I) and (8)(i)(A)(2)(II)]. (While the furnishing of an indication of interest to the consolidated last sale reporting system satisfies the notification requirements of this Rule [rule], a *Market Maker* [a specialist] should also transmit, *via the facilities of the Corporation*, the indication through the System in the format of a standardized pre-opening administrative message.) In any such situation the *Market Maker* [specialist] shall not open or reopen the security until not less than three minutes after the [his] transmission of the opening or reopening indication of interest. For the purpose of paragraphs (8)(B)(i), (8)(B)(iii), (8)(A)(i)(2)(III), (8)(B)(iv), (8)(B)(v), (8)(C) and (8)(A)(ii) [(8)(i)(A), 8(ii)(C), 8(i)(A)(2)(III), 8(i)(D), 8(ii)(E), 8(iii) and 8(i)(B)] “pre-opening

notification" includes an indication of interest furnished to the consolidated last sale reporting service.

(B)(ii) Pre-Opening Responses

(i) [Decision on Opening Transaction—Subject to paragraph 8(B)(ii) [(8)(ii)(B)]. If a *Market Maker* [specialist] who has issued, *via the facilities of the Corporation*, a pre-opening notification receives, *via the facilities of the Corporation*, "pre-opening responses" through the System containing "obligation to trade" from market makers in other Participant markets ("responding market makers"), he or she shall combine those obligations with orders he or she already holds in the security and, on the basis of this aggregated information, decide upon the opening transaction in the security. If the *Market Maker* [specialist] has received, *via the facilities of the Corporation*, more than one pre-opening response from a Participant market, he or she shall include in such combination only those obligations to trade from such Participant market as are specified in the most recent response whether or not the most recent response expressly cancels the preceding response(s). An original or revised response, *via the facilities*, received after the *Market Maker* [specialist] has affected his or her opening transaction shall be to no effect.

(ii)(B) Pre-Opening Responses from Open Markets—A *Market Maker*, *via the facilities of the Corporation*, [specialist] must accept only those pre-opening responses sent to the Corporation by market makers in other Participant markets prior to the opening of the [ir] market[s] for trading in the security.¹ Following a halt or suspension in trading on the Corporation, a *Market Maker*, *via the facilities of the Corporation*, [specialist] must accept only those pre-opening responses sent by market makers to the Corporation from other Participant markets that halted trading in the security contemporaneously with the Corporation and that had not resumed trading in the security at the time the pre-opening response is sent.

In the event that one or more market makers from Participant markets that have already opened trading in a security or, with respect to a halt or suspension in trading, either did not halt trading in a security contemporaneously with the Corporation, or has already resumed trading in a security, respond to a pre-opening notification in that security, the *Market Maker* [specialist] need not, but may in his or her discretion, accept, *via the facilities of the Corporation*, such responses for the purpose of inclusion in the opening or reopening transaction. In the event that a Participant market opens or with respect to a halt or suspension in trading, resumes trading in a security subsequent to a market maker in that Participant market sending a pre-opening response but prior to the opening or reopening transaction on the Corporation, the market maker who sent the pre-opening response to the Corporation must confirm the pre-opening response by

sending an administrative message through the System stating that the response remains valid: if the market maker fails to so confirm the pre-opening response, the *Market Maker* [specialist] need not, but may in his or her discretion, accept, *via the facilities of the Corporation*, the original response for the purpose of inclusion in the opening or reopening transaction.

(iii)(C) Allocation of Imbalances—Whenever pre-opening responses from one or more responding market makers include obligations to take or supply as principal more than 50 percent of the opening imbalance, the *Market Maker* [specialist] may take or supply as principal 50 percent of the imbalance at the opening price, rounded up or down as may be necessary to avoid the allocation of odd lots. In any such case, where the pre-opening response is from more than one responding market maker, the *Market Maker* [specialist] shall allocate the remaining imbalance (which may be greater than 50 percent if the *Market Maker* [specialist] elects to take or supply less than 50 percent of the imbalance) among them in proportion to the amount each obligated himself or herself to take or supply as principal at the opening price in his or her pre-opening response, rounded up or down as may be necessary to avoid the allocation of odd lots. For the purpose of this paragraph 8(B)(iii) [(8)(ii)(C)], multiple responding market makers in the same Eligible Listed Security in the same Participant market shall be deemed to be a single responding market maker.

(iv)(D) Treatment of Obligations to Trade—In receiving a pre-opening response *via the facilities of the Corporation*, a *Market Maker* [specialist], *via the facilities of the Corporation*, shall accord to any obligation to trade as agent included in the response the same treatment as he or she would to an order entrusted to him or her as agent on the Corporation [Exchange] at the same time such obligation was received.

(v)(E) Responses Increasing the Imbalance—A *Market Maker* [specialist] shall not reject, *via the facilities of the Corporation*, a pre-opening response that has the effect of further increasing the existing imbalance for that reason alone.

(C)(iii) Reports of Participation—Promptly following the opening in any security as to which a *Market Maker*, *via the facilities of the Corporation*, [an Exchange specialist] issued pre-opening notification, the *Market Maker*, *via the facilities of the Corporation*, [specialist] shall report to each Participant responsible for a market in which one or more responding market makers are located (A) the amount of the security purchased and/or sold, if any, by the responding market maker(s) in the opening transaction and the price thereof or (B) if the responding market maker's response(s) included agency or principal interest at the opening price that did not participate in the opening transaction, the fact that such interest did not so participate.

(9) Opening in Other Participating Markets

(A)(i) Pre-Opening Responses—Subject to paragraph 9(B) [(9)(ii)], whenever a *Market Maker*, *via the facilities of the Corporation*, [specialist] who has received a pre-opening

notification as provided in the ITS Plan in any Eligible Listed Security as to which he or she is registered as a *Market Maker* [specialist] wishes to participate in the opening of that security in the Participant market from which the pre-opening notification was issued, he or she may do so by sending, *via the facilities of the Corporation*, obligations to trade through the System to such Participant market in a pre-opening response. A pre-opening response shall:

(i)(A) be designated as a pre-opening response ("RES")

(ii)(B) Identify the Participant market P, the *Market Maker* [specialist] and the security ("XYZ"), and

(iii)(C) Show the *Market Maker's* [specialist's] interest (if any), both as principal for his or her own account ("P") and as agent for orders left with him or her ("A"), at each price level within the price-range indicated in the pre-opening notification (e.g., 40³/₈, reflected on a netted share basis by being formatted as a standardized pre-opening administrative message as follow: RES/P/XYZ BUY A—P 40³/₈)

The response may also show market orders separately.

(B)(ii) Response When the Corporation is Open—Notwithstanding paragraph (9)(A) [(9)(i)], a *Market Maker* [specialist] who has received *via the facilities of the Corporation*, a pre-opening notification in any Eligible Listed Security in which he or she is registered as a *Market Maker* [specialist] should not send, *via the facilities of the Corporation*, a pre-opening response to the originator of such notification if (i) [(A)] the market for trading in the security is open on the Corporation or (ii) [(B)] the Participant market from which the notification emanated had declared a halt or suspension in trading in such security, and the Corporation either had not halted trading in the security reasonably contemporaneously with the Participant Market or had resumed trading during the halt or suspension in trading.

(C)(iii) Revised Responses—a *Market Maker* [specialist] may cancel or modify his or her pre-opening response by sending through the System, *via the facilities of the Corporation*, a revised response that cancels the obligations to trade contained in this original responses and, if a modification is desired, that substitutes new obligations to trade stating the *Market Maker's* [specialist's] aggregate interest (i.e., his or her interest reflected in the original response plus any additional interest and/or minus any withdrawn interest) at each price level. Each succeeding response, even if it fails to expressly cancel its predecessor response, shall supersede the predecessor response in its entirety. Any revised response shall be to no effect if received in the Participant market from which the pre-opening notification was issued after the security has opened in such Participant market.

(D)(iv) Sole Means of Pre-Opening Routing—Once a pre-opening notification as to any security is received *through the facilities of* [on] the Corporation, the one or more *Market Makers* [specialists] in such security shall submit, *via the facilities of the*

¹ For purposes of this section, the market in a security is opened (or reopened) with either a trade or a quotation, if trades are being reported to the Consolidated Tape and quotes are being disseminated on the Consolidated Quotation System.

Corporation, any obligations to trade that security as principal for his, *her* or their own accounts to the Participant market from which the pre-opening notification was issued only through the Pre-Opening Application and shall not send orders to trade that security for his, *her* or their own accounts to such Participant market for participation at the opening in that market by any other means. The foregoing sentence shall have no application to orders sent to that market by the *Market Makers, via the facilities of the Corporation, [specialists(s)]* prior to the issuance of a pre-opening notification.

(E) Use of System before Opening or Reopening—No ETP Holder[, Equity ASAP Holder or ETP Firm] where acting as principal or agent, shall send, *via the facilities of the Corporation*, an obligation to trade, commitment to trade or order in any security in the Participant market (or prior to the resumption of trading in the security in the Participant market following the initiation of a halt or suspension in trading in the security until a pre-opening notification in the security has been issued from the other Participant market, or, if no pre-opening notification is required, until the market in the security has opened in such other Participant market.

(F)[(iv)] Duration of Obligations to Trade—Responses to pre-opening notifications shall be voluntary, but each obligation to trade that at a *Market Maker [specialist]* includes, *via the facilities of the Corporation*, in any pre-opening response, or in any modification of a pre-opening response, shall remain binding on him or *her*, and on any person for whom he or *she* is acting, until the security has opened in the Participant market from which the pre-opening notification was issued or until a cancellation or modification of such obligation has been received in such *Participant [participant]* market, and any such modification shall itself be binding on the *Market Maker [specialist]* or such person until a subsequent cancellation or modification thereof has been received in such Participant market. The preceding sentence applies to obligations to trade even if included in pre-opening responses contravening paragraph (8)(B) [(8)(ii)].

Commentary

01. No ETP Holder[, Equity ASAP Holder or ETP Firm] shall buy against a commitment to sell designated as “short” which is received *through [on]* the facilities of the Corporation if the resulting transaction would violate the short selling rules.

02. Any purchase or sale against a commitment to trade received *through [on]* the facilities of the Corporation shall be effected in accordance with the *Rules [rules]* applicable to the making of bids, offers and transactions on the *facilities of the Corporation [facility]*.

03. For the purposes of this *Rule [rule]*, the market in a security is opened (or reopened) with either a trade or quotation, if trades are being reported to the Consolidated Tape and quotes are being disseminated to the Consolidated Quotation System.

ITS “Trade-Throughs” and “Locked Markets”

Rule 7.56 [7.67](a). Definitions.

(1) An “*Exchange trade-through*,” as that term is used in this Rule, occurs whenever an ETP Holder [or ETP Firm] initiates the purchase of an Eligible Listed Security *through the facilities of [on]* the Corporation at a price which is higher than the price at which the security is being offered (or initiates the sale of such a security *through the facilities of [on]* the Corporation at a price which is lower than the price at which the security is being bid for) at the time of the purchase (or sale) in another ITS participating market center as reflected by the bid (offer) then being displayed [on the Floor] from such other market center. The ETP Holder [or ETP Firm] described in the foregoing sentence is referred to in this Rule as the ETP Holder [or ETP Firm] who initiated a trade-through.

(2)—No change.

(3) A “third participating market center trade-through,” as that term is used in this Rule, occurs whenever an ETP Holder [or ETP Firm on the Corporation] initiates the purchase of an Eligible Listed Security by sending a commitment, *via the facilities of the Corporation*, to trade through the System and such commitment results in an execution at a price which is higher than the price at which the security is being offered (or initiates the sale of such a security by sending, *via the facilities of the Corporation*, a commitment to trade through the System and such commitment results in an execution at a price which is lower than the price at which the security is being bid for) at the time of purchase (or sale) in another ITS participating market center, as reflected by the offer (bid) then being displayed through the facilities of the Corporation. The ETP Holder [member] described in the foregoing sentence is referred to in this Rule as the “ETP Holder [or ETP Firm] who initiated a third participating market center trade-through.”

(4) A “trade-through,” as that term is used in this Rule, means either an *Exchange trade-through [on the facilities of the Corporation]* or a third participating market center trade-through.

(b) Trade Throughs.

When purchasing or selling, either as principal or agent, any Eligible Listed Security *through the facilities of [on]* the Corporation or by issuing, *via the facilities of the Corporation*, a commitment to trade through the System, ETP Holders[, Equity ASAP Holder or ETP Firms] should avoid initiated a trade-through unless the provisions of paragraphs (b)(3) below are applicable.

(2)(A) Except as provided in paragraph (b)(3) below, if a trade-through occurs and a complaint thereof is received by the Corporation through the System from the party whose bid or offer was traded-through (“the aggrieved party”), then:

(i) In the case of an *Exchange trade-through [on through the facilities of the Corporation]* only, if the ETP Holder[or ETP Firm] who initiated the trade-through and the party on the contra side of the transaction each initiated the transaction [while on] through

the facilities of the Corporation for his or *her* own account or any account in which he or *she* has an interest, the transaction shall be deemed void and a cancellation therefore shall be reported through the consolidated last sale reporting system;

(ii) Except as provided in paragraph (b)(2)(A)(i) above, (a) the ETP Holder [or ETP Firm] who initiated the trade-through shall satisfy, or cause to be satisfied the bid or offer traded-through in its entirety either at the price of such bid or offer, or, at the price that caused the trade-through (as determined in accordance with paragraph (b)(2)(B) below) or, (b) if he or *she* elects not to do so (and, in the case of an third participating market center trade-through he or *she* obtains the agreement of the contra party within the ITS participating market center that received the commitment that caused that trade-through), then the price of the transaction which constituted the trade-through shall be corrected to a price at which a trade-through would not have occurred and the price correction shall be reported through the consolidated last sale reporting system.

(B) The price at which the bid or offer traded-through shall be satisfied pursuant to clause (a) of paragraph (b)(2)(A)(ii) shall be the price of such bid or offer except if:

(i) the transaction that constituted the trade-through was of “block size” but did not constitute a “block trade” (as those terms are defined in Rule 7.57 [7.68]); and

(ii) the ETP Holder [or ETP Firm] who initiated the trade-through did not make every reasonable effort to satisfy or cause to be satisfied, through the System, the bid or offer traded-through at its price and in its entirety within two (2) minutes from the time the report of this transaction that constituted the trade-through was disseminated over the high speed line of the consolidated last sale report system. In the case of such exception, the price at which the bid or offer traded-through shall be satisfied shall be the price that caused the trade-through.

Whenever paragraph (b)(2)(A)(ii) applies, if the ETP Holder [or ETP Firm] who initiated the trade-through, or the party (or the broker/dealer within another ITS participating market center) on the contra side of the transaction was, of if both such parties were executing (in whole or in part) orders that originated from off *the facilities of the Corporation or off the Floor of the other [their] respective market centers [Floor]*, each such order to portion thereof that was executed in the transaction that constituted the trade-through (whether such order or portion thereof was executed by the party who initiated the trade-through or by the member or a broker/dealer within another ITS participating market center on the contra side of the transaction) shall receive the price that caused the trade-through or the price at which the bid or offer traded-through was satisfied, if it was satisfied, pursuant to clause (a) of paragraph (b)(2)(A)(ii) or the adjusted price, if there was an adjustment, pursuant to clause (b) of paragraph (b)(2)(A)(ii), whichever price is most beneficial to the order or portion. Resulting money differences shall be the liability of the party who initiated the trade through.

(3) The provisions of paragraph (b)(2) above shall not apply under the following conditions:

(A)–(C)—No change.

(D) the trade-through occurred during a period when, with respect to the Eligible Listed Security which was the subject of the trade-through, ETP Holders [and ETP Firms of the Corporation] were relieved of their obligations under paragraph (c)(2) of Rule 11Ac1-1 pursuant to the “unusual market” exception of paragraph (b)(3) of Rule 11Ac1-1; provided, however, that, unless the provisions of this paragraph (b)(3) (other than those of this proviso) apply, during any such period ETP Holders [and ETP Firms] shall make every reasonable effort to avoid trading-through any bid or offer displayed on the Floor from another ITS participating market center whose members are not relieved of their obligations under said paragraph (c)(2) with respect to such bid or offer;

(E)–(G)—No change.

(c) Complaints and Responses to Complaints.

(1) When a trade-through complaint is received by the Corporation, it shall be the duty of the ETP Holder [or ETP Firm] who initiated the trade-through to respond as promptly as practicable to the aggrieved party. Such a response shall notify the aggrieved party either:

(A)–(B)—No change.

(2)—No change.

(A)—No change.

(B) the loss proximately caused by the trade-through that would have been suffered by the aggrieved party had he *or she* purchased or sold the security subject to the trade-through so as to mitigate his *or her* loss and had such purchase or sale been effected at the “loss basis price.”

For purposes of this paragraph, the “loss basis price” shall be the price of the next transaction, as reported by the high speed line of the consolidated last sale reporting system, in the security in question, after one hour has lapsed from the time the complaint is received by the Corporation (or, if the complaint is so received within the last hour of trading on the Corporation on any day, then the price of the opening transaction in such security being displayed through the facilities of [on] the Corporation on the next day on which the Corporation trades that security).

(3) Any ETP Holder [or ETP Firm] who is an aggrieved party may at any time, at his *or her* discretion, take steps to establish and mitigate any loss he *or she* might incur as a result of the trade-through. He *or she* shall give prompt notice to the other *market* [exchange] center of any such action.

(4) If a complaint of a purported trade-through is received by the Corporation and the complained-of transaction resulted from an ETP Holder's [or ETP Firm's] execution [on] through the facilities of the Corporation of a commitment to trade received from another ITS participating market center, the ETP Holder [or ETP Firm] should, if circumstances permit, make reasonable efforts to notify the complaining party as promptly as practicable following receipt of the complaint, (A) that the transaction was not initiated [on] through the facilities of the

Corporation and (B) of the identity of the ITS participating market center that originated the commitment. Neither compliance nor non-compliance with the preceding sentence shall be the basis for any liability of the ETP Holder [or ETP Firm] for any loss associated with the complained-of transaction.

(5) If a transaction that resulted from *the* [an] ETP Holder's [or ETP Firm's] execution [on] through the facilities of the Corporation of a commitment to trade constitutes a trade-through under the rules of the originating ITS participating market center, then:

(A) if the broker/dealer on such market center who initiated the transaction requests that the ETP Holder [or ETP Firm] correct the price of such transaction in accordance with the counterpart in such market center's trade-through rule to paragraph (b)(2)(A)(ii)(b) of this Rule, the ETP Holder [or ETP Firm] may, but need not, acquiesce and so correct the price; and

(B) paragraph (b)(2)(C) of this *Rule* [rule] shall apply as if the ETP Holder [or ETP Firm] were a contra party within the meaning of that paragraph.

(d) *Locked Markets*.

(1) Except as provided in paragraph (d)(2) below, an ETP Holder [or ETP Firm] who makes a bid for an Eligible Listed Security [on] through the facilities of the Corporation and, in so doing, causes a locked market with another ITS participating market center, and the Corporation receives a complaint through the *System* [system] from the market center whose offer was locked, the ETP Holder [or ETP Firm] responsible for the locking shall, as specified in the complaint, either promptly (A) send, *via the facilities of the Corporation*, a commitment to trade to such other market center seeking the offer he *or she* has equalled or exceeded, which commitment shall be for either the number of shares he *or she* has bid for or the number of shares offered on the other market center, whichever is less; or (B) “unlock” (i.e., adjust his *or her* locking bid so as not to cause a locked market). If the complaint specifies “unlock”, he *or she* may nevertheless ship instead. The same principle shall apply to an ETP Holder [or ETP Firm] who makes an offer for an Eligible Listed Security *through the facilities of* [on] the Corporation and causes a locked market with another ITS participating market center.

(2) The provisions of paragraph (d)(1) above shall not apply when:

(A)—No change.

(B) the ETP Holder [or ETP Firm] who caused a locked market makes every reasonable effort to comply with paragraph (d)(1) above, but is unable to comply because of a system/equipment failure or malfunction;

(C)—No change.

(D) the locked market occurred at a time when, with respect to the Eligible Listed Security which was the subject of the locked market, ETP Holders [or ETP Firms either] on [through the facilities of] the Corporation or *members* in the ITS participating market center in which the aggrieved member is located were relieved of their obligations under paragraph (c)(2) of Rule 11Ac1-1 pursuant to the “unusual market” exception of paragraph (b)(3) of Rule 11Ac1-1; or

(E)—No change.

(F) the locking bid or offer no longer prevails [on the Floor] at the time the complaint is received [on the Floor]. This exemption is not intended to discourage a locking member from electing to send a commitment if the complaint requests him *or her* to do so.

Commentary

Block Trade Policy

Rule 7.57[7.68](a). Definitions.

(1) A “block trade,” as that term is used in this Rule, means a trade *executed* [on] through the facilities of the Corporation that:

(A)–(B)—No change.

(C) involves either:

(i) a cross of block size (where the *ETP Holder* [member] represents all of one side of the transaction and all or a portion of the other side); or

(ii) any other transaction of block size (i.e., in which the ETP Holder [or ETP Firm] represents an order of block size on one side of the transaction only) that is not the result of an execution at the current bid or offer on the Corporation.

Contemporaneous transactions at the same price filling an order or orders then or theretofore represented *through the facilities of* [on] the Corporation by an ETP Holder [or ETP Firm] (including transactions resulting from commitments to trade sent, *via the facilities of the Corporation*, by the ETP Holder [or ETP Firm] pursuant to paragraph (b) below) shall be deemed to constitute a single transaction for the purpose of this definition.

(2) A “current bid or offer on the Corporation,” as that term is used in paragraph (a)(1)(c)(ii) above, means the price of the current quotation on the facilities of the Corporation established independently of the order to buy or sell that is represented by the ETP Holder [or ETP Firm].

(3) A “bid or offer displayed from another ITS participating market center” (or any derivative phrase), as that term is used in this Rule, means the current quotation from another ITS participating market center displayed *through the facilities* [on the Floor] of the Corporation as required by the ITS Plan, and does not include “away-from-the-market” limit orders or other interests that may be represented in such other ITS participating market center.

(b) Obligation to Send Commitments.

Unless one or more of the conditions described in paragraph (c) below exist, *the* ETP Holder [or ETP Firm] representing the block-size order(s) shall at the time of execution of a block trade send, or cause to be sent, *via the facilities of the Corporation*, through ITS to each other ITS participating

market center displaying a bid (offer) superior to the execution price, a commitment to trade at the execution price and for the number of shares displayed with that market center's better-priced bid (offer).

(c) Inapplicability. Paragraph (b) above shall not apply under the following conditions:

(1)—No change.

(2) the ETP Holder [or ETP Firm] representing the block-size order(s) made every reasonable effort to satisfy through ITS a better-priced bid or offer displayed by another ITS participating market center but was unable to because of a systems/equipment failure or malfunction;

(3)—No change.

(4) the block was executed during a period when, with respect to the Eligible Listed Security that was the subject of the block trade, ETP Holders [on of the Corporation] were relieved of their obligations under paragraph (c)(2) of Rule 11Ac1-1 pursuant to the "unusual market" exception of paragraph (b)(3) of Rule 11Ac1-1; provided, however, that, unless one of the conditions of this paragraph (c) (other than that of this subparagraph (4)) applies, an ETP Holder [or ETP Firms] shall nevertheless make every reasonable effort during any such period to satisfy through ITS, *via the facilities of the Corporation*, any better-priced bid or offer displayed *through the facilities of* [on] the Corporation from another ITS participating market center whose members are not so relieved of their obligations with respect to such bid or offer under paragraph (c)(2) of Rule 11Ac1-1;

(5)—No change.

(6) the better-priced bid or offer had caused a "locked market," as that term is defined in Rule 7.56[7.67], in the Eligible Listed Security that was the subject of the block trade.

Commentary

.01 A transaction not subject to this Rule may be subject to the trade-through provisions of Rule 7.56[7.67]. An ETP Holder or ETP Firm who makes a bid or offer *through the facilities of* [on] the Corporation otherwise than in connection with a block trade may be subject to the locked market provisions of Rule 7.56[7.67].

Section 7. Special Offerings

Approval

Rule 7.63E[7.79](a). The Corporation may, subject to the following conditions and provisions, permit a "Special Offering" as defined hereinafter, to be made through the facilities of the Corporation, provided that the Corporation shall have determined that the regular market on the *facilities* [Floor] of

the Corporation cannot, within a reasonable time and at a reasonable price or prices, absorb the particular block of stock which is to be the subject of such Special Offering. In making such determination the following factors may be taken into consideration:

(1) Price range and the volume of transactions in such stock on the *facilities* [Floor] of the Corporation during the preceding month;

(2) Attempts which have been made to dispose of the stock in the regular market on the *facilities* [Floor] of the Corporation;

(3) The existing condition of the *Arca Book* [specialist's book] with respect to such stock;

(4) The apparent past and current interest in such stock in such regular market on the *facilities of the Corporation* [Floor]; and

(5)—No change.

Except in special circumstances a "Special Offering" will not be permitted unless the offering involves at least 1,000 shares of stock or shares having an aggregate market value of \$25,000, whichever is greater.

Definition—Price—Special Commission

(b) A Special Offering is defined as an offering (designated as a fixed price offering) by one or more ETP Holders[, Equity ASAP Holders, or ETP Firms] acting for his, *her* or their own account or for the account of one or more other persons, for the sale of a block of stock dealt in on the Corporation, through the facilities of the Corporation, at a price not in excess of the last sale of such stock or the current offer of such stock, in the regular market on the *facilities* [Floor] of the Corporation, whichever is the lower; but not lower than the current bid for such stock in such market, unless otherwise specifically permitted by the Corporation, whereby the offeror may agree to pay a special commission to such ETP Holders[, Equity ASAP Holders, or ETP Firms] as may accept all or any part of such Offering for the account of his, *her* or their customers.

(c) Conditions. No Special Offering, as provided by this *Rule* [rule], shall be made unless all of the following conditions are satisfied:

(1) Stabilizing. The person for whose account such Special offering is to be made shall at the time of such offering be the owner of the entire block of stock so to be offered, except that, for the purpose of stabilizing, there also may be sold for such person's account, or for the account of any ETP Holder[, Equity ASAP Holder or ETP Firm] offering the block of stock on his *or her* behalf as part of the Special Offering, an amount not to exceed 10% of the shares owned and originally offered in the Special Offering by such person.

(2) All to be Offered within Reasonable Time. The person for whose account such Special Offering is to be made shall include within the Offering all of the security which he *or her* then intends to offer within a reasonable time; and there shall be furnished to the Corporation before the Offering is made a written statement by the offeror to that effect, or a written statement by his *or her* broker stating that the broker has been so advised by the offeror.

(3)—No change.

(4) Agreement by Offeror. The person for whose account such Special Offering is made

shall agree that during the period such offering is open he *or her* will not offer in the regular market on the *facilities* [floor] of the Corporation any shares of the stock which is the subject of such Special Offering, unless the prior permission of the Corporation is first obtained.

(5) No Special Commission Member, Etc. No ETP Holder[, Equity ASAP Holder, or ETP Firm] shall directly or indirectly receive any part of the special commission referred to in Section 1(b) in connection with any purchase for his, *her* or its own account or the account of any participant therein or for the account of any other ETP Holder[, Equity ASAP Holder, or ETP Firm] or any participant therein, made pursuant to a Special Offering, except that an ETP Holder[, Equity ASAP Holder, or ETP Firm] may accept and retain such special commission for his, *her* or its own account in respect of securities purchased as principal for the bona fide purpose of distribution, even though such firm has been unable to distribute the securities.

(6)–(7)—No change.

(8) Allotments. The offeror may, at the time of the announcement of a Special Offering, allot on a firm basis to ETP Holder[, Equity ASAP Holder, or ETP Firms] engaged in the distributing business not more than 50% of the securities involved in the offering. When buying orders in a Special Offering exceed the amount of the offering, the remainder of the offered securities will be allocated in reasonably proportionate amounts.

(d)—No change.

(e) Information on Tape. The terms of a Special Offering shall be printed on the tape before it is effective, with statement, if such be the fact, that stabilizing transaction have been effected or are contemplated and that it is intended to over allot shares as permitted by Rule 7.63(c)(1) [7.79(c)(1)]. Transactions effected pursuant to a Special Offering shall when feasible be printed currently on the tape, and the tape shall show the gross price and the special commission in a legend such as “SPOFF 100 XYZ 40 COM .50 or 1/2,” as well as the number of orders involved in such transaction where more than one order is involved; and after the close of the market, any unprinted remainder of such transactions executed during the day shall be so printed. When the offering is terminated, an announcement to that effect shall be printed on the tape; and when the intention to stabilize is terminated, such fact shall be announced on the tape together with a statement that stabilizing transactions have been effected, if such be the fact.

(f)–(g)—No change.

(h)(1) Confirmations. An ETP Holder[, Equity ASAP Holder, or ETP Firm] effecting for the account of a customer, a purchase pursuant to a Special Offering, shall confirm such transaction to such customer at the offering price and shall not charge to or collect from such customer any commission on account of such transaction.

The confirmation by an ETP Holder[, Equity ASAP Holder, or ETP Firm] to a buyer or seller in a Special Offering shall state in full the terms and conditions of the Special Offering. The confirmation to a buyer shall state at least:

(A)–(B)—No change.

(C) That the seller is to pay a special commission to the ETP Holder[, Equity ASAP Holder, or ETP Firm], if such be the fact;

(D)–(E)—No change.

(F) The nature of the ETP Holder[, Equity ASAP Holder, or ETP Firm] interest in the special offering, if any, other than its interest as a recipient of the special commission.

(2) Soliciting Orders. An ETP Holder[, Equity ASAP Holder, or ETP Firm] soliciting purchase orders for execution pursuant to a Special Offering shall advise the person so solicited of the terms and conditions of such Offering before effecting any transaction for such person pursuant thereto. Such disclosure shall include at least the items described in paragraphs (A) to (F) of Rule 7.63(h)(1) [(a) to (f) of Rule 7.79(h)(1)].

(3) More Advantageous Price. An ETP Holder[, Equity ASAP Holder, or ETP Firm]

(A)–(B)—No change.

(C) Proposing, pursuant to discretionary authority from a customer, to effect a purchase of stock which is the subject of a Special Offering then in effect, shall, before executing any such order or effecting any such purchase pursuant to such Special Offering make a bona fide attempt to execute such order or to effect such purchase in the regular market on the *facilities* [Floor] of the Corporation at a price more advantageous to the customer than the gross offering price under the Special Offering.

(i) Size of Offering. Rule 7.63(a) [7.79(a)] places a general limitation on the size of Special Offerings, except in special circumstances. Such an exception might be a Special Offering of a stock designated as an “inactive” stock.

(j) Preliminary Information Required. The broker for the offeror will be required to furnish the following information to the Corporation, prior to the announcement of the Special Offering on the tape:

(1)–(7)—No change.

(8) Description of efforts to dispose of the security *through the facilities* [in the auction market on the Floor] of the Corporation.

(9) Written assurance of the offeror, or the broker upon advice from the offeror, that the shares contained in the Offering are all of the security which he *or she* then intends to offer within a reasonable time, as required in Rule 7.63(c)(2) [7.79(c)(2)]

(10)–(11)—No change.

(12) Statement as to whether the offeror or his *or her* agent intends, for the purpose of stabilizing, to sell stock in the Special Offering in excess of that owned and included in the original offer as permitted to Rule 7.63(c)(1) [7.79(c)(1)].

(13)—No change.

The foregoing information should be given to the Corporation as soon as possible in advance of the time it is proposed to make the Special Offering. Announcement will not be made on the tape of the Special Offering (and the Special Offering thus cannot become effective) until the Corporation has the requisite information and has approved it.

(k) Ownership. The offeror in a Special Offering must be the owner of the entire block of stock offered for sale, except for the purpose of stabilizing as permitted by Rule 7.63(c)(1) [7.79(c)(1)].

(l)—No change.

(m) Other Offers. It should be noted that under Rule 7.63(c)(4) [7.79(c)(4)], an offeror may not, while his *or her* Special Offering is open, offer any shares of the same stock in the regular *trading through the facilities* [auction market] without prior permission of the Corporation.

(n) Orders After Close. Orders accumulated after the close shall be completed on the *facilities* [Floor] of the Corporation at the opening of the next market session.

(o) Special Offering Transactions.

[Purchases in Special Offerings shall be completed on the Floor of the Corporation at the Post or Posts where the stock is traded.] The handling of the order on either the purchase or the offering side may be entrusted to a *Market Maker* [Floor broker or specialist] in the same manner as in the case of regular orders. In connection with a special Offering, the broker for the buyer is acting in an agency capacity and the agency obligation to buy at the most advantageous price to the customer shall be observed.

(p)—No change.

(q) Odd Lot Stop Orders. Transactions effected pursuant to Special Offerings shall not elect Stop Orders or open odd lot orders for execution in the regular [auction] market.

(r) Confirmations. Confirmation need not be on a specially prepared form but must show clearly in type no smaller than 8-point that the purchase was part of a Special Offering; that no commission is to be charged to the customer; that the seller is to pay a special commission to the ETP Holder[, Equity ASAP Holder, or ETP Firm], if such be the fact; the amount of such special commission; the information printed on the tape regarding stabilizing transactions or the intention to stabilize; and the nature of ETP Holder's[, Equity ASAP Holder's, or ETP Firm's] interest in the Special Offering, if any, other than its interest as a recipient of the special commission.

Confirmations used by the broker for the seller similarly need not be on a specially prepared form, but must show clearly in type no smaller than 8-point that the sale is part of a Special Offering of * * * shares of * * * stock at * * * per share less * * * special commission, and, separately, the selling commission charged by the broker for the seller.

(s)—No change.

Section 8 [12]. Exchange Distributions

Rule 7.64 [7.80](a). Definition. An important feature of an Exchange Distribution is that an ETP Holder[, Equity ASAP Holder, or ETP Firm] may now pay compensation to its registered representatives for soliciting others to purchase *through the facilities* [in the regular auction market on the Floor] of the Corporation a security admitted to dealing which is the subject of an approved Exchange Distribution. Or it may on its own behalf or on behalf of a customer make an arrangement to pay a special commission, as mutually agreed, for distributing the security to one or more *ETP Holders* [members firms], who may in turn give special compensation to their registered representatives for purchases they have solicited in connection with the distribution.

Under an Exchange Distribution, purchase orders may be grouped from time to time, as they are received, and sent to the *facilities of the Corporation* [Floor] together with an order to sell an equal amount and "crossed" under the rules of the Corporation.

(b) Similar to Special Offering. An Exchange Distribution is somewhat similar to a Special Offering in the following respects:

(1)—No change.

(2) Approval will be given only when it is determined that the regular market on the *facilities* [Floor] could not, within a reasonable time and at a reasonable price or prices, otherwise absorb the block of securities;

(3)—No change.

(4) All transactions will take place on the facilities of the Corporation [(but unlike a Special Offering, will be done in the regular auction market)];

(5) Only ETP Holders[, Equity ASAP Holders, or ETP Firms] are eligible for participation in the solicitation of purchase orders and in the special commission, if any, paid by the offeror on purchases resulting from such solicitation;

(6) The person for whose account the distribution is to be made shall, at the time of the distribution, be the owner of the entire block of the security to be so distributed, and shall include within the distribution all of the security which he *or she* then intends to offer within a reasonable time;

(7) Each ETP Holder[, Equity ASAP Holder, or ETP Firm] soliciting purchase orders in connection with an Exchange Distribution must advise the person being solicited, before effecting any transaction for such person pursuant thereto, that the securities being offered are part of a specified number of shares being offered in an Exchange Distribution and that he *or she* is receiving a special commission from the seller or his *or her* broker, if that is the case.

(c) Differences from Special Offering. An Exchange Distribution differs from a Special Offering in that:

(1) It is effected in the regular [auction] market and not at a fixed price;

(2)–(3)—No change.

(4) During the period when the distribution is being made, neither the person for whose account the distribution is being made nor the ETP Holders, [Equity ASAP Holders, or ETP Firms] who are parties to the distribution, shall bid for or purchase any of the securities for an account in which the ETP Holder, [, Equity ASAP Holder, or the ETP Firm] has a direct or indirect interest;

(5) No ETP Holder[, Equity ASAP Holder, or ETP Firm] who is connected in any way with an Exchange Distribution may, with respect to such distribution, (A) effect stabilizing transactions, (B) effect short sales, (C) make firm allotments, (D) accept over-subscriptions.

(d) Procedure. To effect an "Exchange Distribution" of a block of a security admitted to dealing on the Corporation, an ETP Holder[, Equity ASAP Holder, or ETP Firm] for his, *her* or its own account, or the account of a customer, may

(1) Make an arrangement with one or more other ETP Holders[, Equity ASAP Holders, or ETP Firms] under which

(A) The ETP Holders[, Equity ASAP Holders, or ETP Firms], with whom the arrangement is made, solicit others to purchase such security;

(B) The selling ETP Holder[, Equity ASAP Holder, or ETP Firm] may pay to the ETP Holders[, Equity ASAP Holders, or ETP Firms], whom the arrangement is made, a special commission which is mutually agreeable; and

(C) ETP Holders[, Equity ASAP Holders, or ETP Firms], with whom the arrangement is made, may pay a special commission to their registered representatives; and/or

(2) Pay a special commission to his, *her* or its registered representatives for soliciting others to purchase such security.

(E) Approval Required. An "Exchange Distribution" may be made only with the prior approval of the Corporation. Such a Distribution shall not be approved unless the Corporation shall have determined that the regular market on the *facilities* [Floor] of the Corporation cannot, within a reasonable time and at a reasonable price or prices, otherwise absorb the block of securities which is to be the subject of the "Exchange Distribution." In making such determination, the following factors may be taken into consideration:

(1) Price range and the volume of transactions in such security on the *facilities* [Floor] of the Corporation during the preceding month;

(2) Attempts which have been made to dispose of the security on the *facilities* [Floor] of the Corporation;

(3) The existing conditions of the *Arca Book* [specialist's book and Floor quotations] with respect to such security;

(4) The apparent past and current interest in such security on the *facilities* [Floor]; and

(5)—No change.

(f) Conditions. No "Exchange Distribution" shall be made unless all of the following conditions are satisfied:

(1)—No change.

(2) The person for whose account the Distribution is to be made shall include within the Distribution all of the security which he *or she* then intends to offer within a reasonable time; and there shall be furnished to the Corporation, before the Distribution is made, a written statement by the offeror to the effect or a written statement by his *or her* broker stating that the broker has been so advised by the offeror;

(3) The person for whose account the Distribution is made shall agree that during the period the Distribution is being made he *or she* will not bid for or purchase any of the security for any account in which he *or she* has a direct or indirect interest;

(4) The ETP Holders[, Equity ASAP Holders, or ETP Firms] who are parties to the arrangement for the Distribution shall not, during the period the Distribution is being made, bid for or purchase any of the security for an account in which they have a direct or indirect interest;

(5) No ETP Holder[, Equity ASAP Holder, or ETP Firm] shall be granted approval to effect an "Exchange Distribution" of a block of a security for an account in which he *or she* has a direct or indirect interest if he *or she* is registered as a *Market Maker* [specialist] in such security, unless the

Corporation has determined that such *Market Maker* [specialist] has been unable, within a reasonable period of time, to dispose of the block of the security in the ordinary course of his *or her* dealings as a *Market Maker* [specialist]. Such approval shall stipulate that the *Market Maker* [specialist] may not deal directly with the public but must make an arrangement with one or more other ETP Holders[, Equity ASAP Holders, or ETP Firms] to solicit others to purchase the security, and pay, if any, a special commission to such other ETP Holders[, Equity ASAP Holders, or ETP Firm] as provided under Section 1(a) of this *Rule* [rule];

(6) Each ETP Holder[, Equity ASAP Holder, or ETP Firm] soliciting purchase orders for execution in the Distribution shall advise the person so solicited, before effecting any transaction for such person pursuant thereto, that the securities being offered are part of a specified number of shares or bonds being offered in an "Exchange Distribution," and that he *or she* or it

(A) is acting for the seller and will receive a special commission from the seller or his *or her* broker if that is the case, or is acting as a principal; and

(B) is charging the buying customer a commission, if any, or is making the sale at a net amount, whichever the case may be.

(7) No "short" sale may be made in connection with the Distribution except that securities may be borrowed to make delivery where the person owns the securities sold and intends to deliver such securities as soon as possible without undue inconvenience or expense.

The conditions set forth in (2)(3) and (4) above shall not apply

(A) To transactions effected on the Corporation, for the purpose of maintaining a fair and orderly market, by an ETP Holder [a member] in a security in which he *or she* is registered as a *Market Maker* [specialist] and which is the subject of an Exchange Distribution for an account in which he *or she* has an interest, except that, when such Distribution is in effect, he *or she* shall not bid for or purchase such stock [on] through the facilities of the Corporation for an account in which he *or she* has an interest:

(i) at a price above the preceding sale, or

(ii) at a price above the next preceding sale,

or

(B) To transactions effected by an ETP Holder[, Equity ASAP Holder or ETP Firm] on the Corporation in less than the unit of trading for the purpose of purchasing odd lots offered to him *or her* in a security in which he *or she* is registered as a *Market Maker* [specialist] and which is the subject of an Exchange Distribution in which he *or she* has an interest.

The conditions set forth in (3) and (4) above shall not apply to purchases necessitated solely in connection with "crossing" orders pursuant to the Distribution.

(g) Execution. In effecting an "Exchange Distribution" the orders for the purchase of the securities being distributed must be sent to the *facilities of the Corporation* [Floor] together with an order to sell an equal amount to be "crossed" in accordance with

the *Rules* [rules] applicable to the crossing of orders on the *facilities* [Floor], and such transactions shall be printed on the ticker tape.

(h) Reports. The ETP Holder[, Equity ASAP Holder, or ETP Firm] selling securities in an "Exchange Distribution" shall report to the Corporation all transactions in such securities effected by him, *her* or it for any account in which the seller had a director indirect interest, commencing with the time arrangements for the Distribution were made and ending with the time the Distribution was completed.

Commentary

.01 In the case of a margin account carried by an ETP Holder[, Equity ASAP Holder or ETP Firm] for a non-ETP [or non-Equity ASAP] corporation, definite knowledge should be had to the effect that the non-ETP [or non-Equity ASAP] corporation has the right under its charter and by-laws to engage in margin transactions for its own account and that the persons from whom orders and instructions are accepted have been duly authorized by the corporation to act on its behalf. It is advisable in each such case for the carrying firm to have in its possession a copy of the corporate charter, by-laws and authorizations. Where it is not possible to obtain such documents, an Allied Person in the ETP [Firm or Equity ASAP] Holder carrying the account should prepare and sign a memorandum for its files indicating the basis upon which he or she believes that the corporation may properly engage in margin transactions and that the persons acting for the corporation have been duly authorized to do so.

In the case of a cash account carried for a non-ETP [or non-Equity ASAP] corporation, the ETP [Firm or Equity ASAP] Holder should assure itself through a general partner or an officer who is a holder of voting stock that persons entering orders and issuing instructions with respect to the account do so upon the proper authority.

.02 When an agency account is carried by an ETP [Firm or Equity ASAP] Holder its files should contain the name of the principal for whom the agent is acting and written evidence of the agent's authority.

.03 When Estate and Trustee accounts are involved an ETP [Firm or Equity ASAP] Holder should obtain counsel's advice as to the documents which should be obtained.

Employee Accounts

Rule 9.3(a). No ETP Holder[, Equity ASAP Holder, or ETP Firm] shall, without the prior consent of the employer, make:

Duplicate reports and statements shall be sent promptly to the employer.

(2) A margin transaction or carry a margin account in securities or in commodities in which an employee of a bank, trust company,

savings institution, insurance company or any individual or firm engaged in the business of dealing in securities, is directly or indirectly interested.

This [rule] Rule applies to all employees of insurance companies regardless of whether they are compensated on a salary or commission basis. However, it is not considered applicable to independent insurance agents.

A person who is clearly designated by the charter or by-laws of a bank, trust company, insurance company, etc., as an officer of such institution is not considered an "employee" for the purpose of this Rule.

ETP Holder and Allied Person Accounts

Rule 9.3(b). No ETP Holder[, Equity ASAP Holder or ETP Firm] shall carry an account for [an] another ETP Holder[, Equity ASAP Holder,] or Allied Person of another ETP Holder[, Equity ASAP Holder or ETP Firm] without the prior written consent of another person who is an ETP Holder[, Equity ASAP Holder,] or Allied Person of such other firm.

Proxies Voting

Rule 9.4. No ETP Holder[, Equity ASAP Holder, or ETP Firm] shall sign or give a proxy to vote any stock registered in the name or under control of such ETP Holder[, Equity ASAP Holder, or ETP Firm] unless (a) the ETP Holder[, Equity ASAP Holder, or firm] is the actual owner thereof, (b) pursuant to the written instructions of such actual owner, or (c) pursuant to the rules of another national securities exchange to which he or she or his or her firm is responsible.

An ETP Holder[, Equity ASAP Holder, or ETP Firm] or Allied Person

of the carrying ETP [Firm or Equity ASAP] Holder shall approve and initial each discretionary order entered by an employee of such ETP [Firm or Equity ASAP] Holder of another ETP [Firm or Equity ASAP] Holder on the day the order is entered. Rule 9.7(a). An agreement between an ETP Holder[, Equity ASAP Holder, or ETP Firm] and a customer authorizing the ETP Holder[, Equity ASAP Holder, or ETP Firm] to pledge securities carried for the account of a customer or to lend such securities does not justify pledging or loaning more of such securities than is fair and reasonable in view of the indebtedness of said customer to said ETP Holder[, Equity ASAP Holder, or ETP Firm].

Use of Customer Securities

Rule 9.7(b). The improper use of customer fully-paid and excess margin securities is inconsistent with just and equitable principles of trade, and no form of general agreement between an ETP Holder[, Equity ASAP Holder, or ETP Firm] and a customer shall warrant the use or lending of such securities by the ETP Holder[, Equity ASAP Holder, or ETP Firm].

Customer Protection—Reserves and Custody of Securities

Confirmations

Rule 9.11. No ETP Holder[, Equity ASAP Holder or ETP Firm] shall address confirmations, statements or other communications to a non-ETP [or non-Equity ASAP] customer in care of a person holding power of attorney over the customers' account unless either (a) the customer has instructed the ETP Holder[, Equity ASAP Holder or ETP Firm] in writing to send such confirmations, statements or other communications in care of such person, or (b) duplicate copies are sent to the customer at some other address designated in writing by him *or her*, or at the address of any ETP Holder[, Equity ASAP Holder or ETP Firm,] or in care of a partner or employee of any firm.

Commentary

.01 "Ex parte communication" means an oral or written communication made without notice to all parties, i.e., the Corporation's Regulatory Staff and the Subjects of investigations or Respondents in disciplinary proceedings. A written communication is ex parte unless a copy has been previously or simultaneously delivered to all interested parties. An oral communication is ex parte unless it is made in the presence of all interested parties except those who, on adequate prior notice, declined to be present.

.02 A disciplinary proceeding will be considered to be pending from the date that a Complaint has been issued pursuant to Rule 10.4 until the proceeding, including any appeals, becomes final.

Complaints

Rule 10.4(a). The Chief Regulatory Officer and his or her delegate(s) have the authority to determine whether there is probable cause for finding that a violation within the

disciplinary jurisdiction of the Corporation has occurred and if further proceedings are warranted. If the Regulatory Staff, on behalf of the Corporation, ("the Complainant") determines that further proceedings are warranted, [the] *then* the Corporation will initiate a formal disciplinary action by preparing a statement of charges ("the Complaint") against any ETP Holder, [ETP Firm, Equity ASAP Holder,] or associated person of an ETP [Firm or Equity ASAP] Holder alleged to have committed a violation ("the Respondent") specifying the acts in which the Respondent is alleged to have engaged in, or which the Respondent is alleged to have omitted, and alleging the specific provisions of the Bylaws, Rules, policies or procedures of the Corporation, or the rules, regulations and procedures promulgated under the Securities Exchange Act of 1934, of which such acts or omissions are alleged to be in violation.

Review

Rule 10.8(a)—No change.

(b) The Board Appeals Committee may appoint a Board Appeals Committee Panel ("Appeals Panel") to conduct reviews of disciplinary proceedings, or may decide to conduct review proceedings on its own. The composition of the Appeals Panel will be determined by the Board Appeals Committee in accordance with Rule 3.3. The body conducting the review, either the Board Appeals Committee itself or the Appeals

Panel, is referred to herein as "the Review Board." Unless the Review Board shall decide to open the record for the introduction of new evidence or to hear argument, such review shall be based solely upon the record and the written exceptions filed by the parties. The standard of review shall be de novo. Based upon such review, the Review Board may affirm, reverse or modify in whole or in part, the decision of the Conduct Panel. Such modification may include an increase or decrease of the sanction. The decision of the Review Board shall be in writing and, shall become fifteen (15) calendar days after notifying the parties; provided, however, that if a request for review of such determination is filed pursuant to Rule 10.8(c) or Rule 10.8(d) below, the penalty shall be stayed pending the outcome of that review.

Each Review Board member shall be required to disclose to the Board Appeals Committee any circumstances which might preclude such Review Board member from rendering an objective and impartial determination. Prior to the commencement of the first hearing session, the Board Appeals Committee may remove a Review Board member who discloses such information. The Board Appeals Committee shall also inform the parties of any information disclosed pursuant to this section, if the Review Board member who disclosed the information is not removed.

In the event that any Review Board member, after the commencement of the Review, but prior to the rendition of the decision, should become disqualified, resign, die, refuse or be unable to perform or discharge his or her duties, the Board Appeals Committee, upon such proof as they deem satisfactory, shall either (a) appoint a new member to the Review Board to replace such member; or (b) direct that the review proceed without the substitution of a new member.

The notification submitted by the Corporation shall state the specific grounds for the action taken by the Corporation, and shall notify the party of the party's right to make an oral presentation or to have the matter reviewed on the papers alone. The application shall contain: (1) An identification of the Corporation action over which the review is being requested; (2) the reason(s) why the applicant disagrees with such action; and (3) the relief sought. In addition, the application shall indicate whether the applicant desires to make an oral presentation, in which event it shall be considered a "request for a hearing," or to proceed only upon the existing and/or any additional documents or materials, in which event it shall be considered a "request for a review on the papers." Hereinafter, the terms "hearing" and "review on the papers" shall be referred to jointly as the "Proceeding(s)."

(c)—No change.

(d) Procedure Following Application for Hearing and/or Review on the Papers.

However, notwithstanding the foregoing, in the event that the Conduct Panel determines that the ETP Holder, [ETP Firm, Equity ASAP Holder,] or associated person of an ETP [Firm or Equity ASAP] Holder has violated one or more Rules of the Corporation, as alleged, and the sole disciplinary sanction imposed by the Conduct Panel for such rule violation(s) is a fine which is less than the total fine initially imposed by the Regulatory Staff for the subject violation(s), the Conduct Panel shall have the discretion to waive the imposition of a forum fee.

In issuing a Floor Citation, the Trading Official shall:

(1) Apprise the person cited of the alleged violation;
