ACTION: Notice.

The Administrator, Foreign Agricultural Service (FAS), today accepted a petition, and began a review of a petition, for trade adjustment assistance by the North Carolina Commercial Flower Growers Association on behalf of cut lily producers in Georgia, North Carolina, South Carolina, and Virginia. The Administrator will determine within 40 days whether or not increasing imports of lilies contributed importantly to a greater than 15 percent decrease in cash receipts for lilies compared to the average of the 3 preceding marketing years. SUPPLEMENTARY INFORMATION

I. Abstract

The USPTO is required by Title 35 of the United States Code, including 35 U.S.C. 131, to examine applications for patents. The USPTO administers the patent statutes through various rules in Chapter 37 of the Code of Federal Regulations, including 37 CFR 1.16 through 1.84. The patent statutes and regulations require applicants to provide sufficient information to allow the USPTO to properly examine the application to determine whether it meets the criteria set forth in the patent statutes and regulations to be issued as a patent.

Most applications for patent, including new utility, design, and provisional applications, can be submitted to the USPTO on paper or through EFS-Web. EFS-Web is the USPTO's system for electronic filing of patent correspondence. EFS-Web is accessible via the Internet on the USPTO Web site. The system utilizes standard Web-based screens and prompts to enable users to submit patent documents in Portable Document Format (PDF) directly to the USPTO. The Legal Framework for EFS-Web, available at http://www.uspto.gov/patents/process/file/efs/guidance/New_legal_framework.jsp, provides a listing of patent applications and documents permitted to be filed via EFS-Web and patent applications and
