Note: Each of the activities described in the table below, with the exception of the ABA Impact Baseline survey and consent appearing in last two rows, will take place within one calendar year so the annualized burden represents the total burden for the study. The ABA Impact Baseline survey for pre-apprentices and consent from administered by program staff represent annualized estimates for random assignment. We estimate these activities could cover up to three years.

¹ Hourly wage for program staff and partners reflects the May 2021 mean hourly wage estimate for “social and community service managers” as reported by the U.S. Department of Labor, Bureau of Labor Statistics, Occupational Employment and Wage Estimates, 2022, “May 2021 National Occupational Employment and Wage Estimates United States,” (accessed from the following website as of March 29, 2022: https://www.bls.gov/oes/current/oes_nat.htm. For apprentices and pre-apprentices the hourly wage listed is the minimum wage.

² Assumes each of the ABA grantees is surveyed.

³ This assumes that we survey roughly 3,000 apprentices and 3,000 pre-apprentices with a 33 percent response rate.

⁴ Assumes 5 focus groups (one per state) in study 1 and 4 focus groups in study 2. Assumes 10 participants per group.

⁵ Assumes 6 sites visited for study 2 and interview 4 program staff and 3 partners (including employers) per site.

⁶ Assumes 5 sites visited for study 1 and interview 4 grantee staff and 3 partners (other than employers) and 2 employers.

⁷ Assumes 5 sites visited for study 3 interviews with 4 grantee staff, 4 partners (including employers) and 3 customers.

⁸ Assumes 1,000 participants randomized every year.

⁹ The burden estimate for the program staff assumes they will help with collecting the baseline survey and consent form information from program participants. Assumes 40 staff assist in participant randomization every year, each serving 25 participants.

Acting Chief Evaluation Officer, U.S.
