[Docket No. APHIS-2021-0034]

Notice of Decision To Authorize the Importation of Fresh Turmeric (*Curcuma longa*) Rhizome From Samoa Into the United States (Including Territories)

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice.

SUMMARY: We are advising the public of our decision to authorize the importation into the United States (including territories) of fresh turmeric (*Curcuma longa*) rhizome from Samoa. Based on the findings of a pest risk analysis, which we made available to the public for review and comment through a previous notice, we have determined that the application of one or more designated phytosanitary measures will be sufficient to mitigate the risks of introducing or disseminating plant pests or noxious weeds via the importation of fresh turmeric (*Curcuma longa*) rhizome from Samoa.

DATES: Imports may be authorized beginning September 27, 2022.

FOR FURTHER INFORMATION CONTACT: Mr. Marc Phillips, Senior Regulatory Policy Specialist, PPQ, APHIS, 4700 River Road, Unit 133, Riverdale, MD 20737-1231; (301) 851-2114; email: Marc.Phillips@usda.gov.

SUPPLEMENTARY INFORMATION:

Background

Under the regulations in "Subpart L-Fruits and Vegetables" (7 CFR 319.56-1 through 319.56-12, referred to below as the regulations), the Animal and Plant Health Inspection Service (APHIS) of the U.S. Department of Agriculture prohibits or restricts the importation of fruits and vegetables into the United

States from certain parts of the world to prevent plant pests from being introduced into and spread within the United States.

Section 319.56-4 of the regulations contains a performance-based process for approving the importation of commodities that, based on the findings of a pest risk analysis (PRA), can be safely imported subject to one or more of the designated phytosanitary measures listed in paragraph (b) of that section. Under that process, APHIS proposes to authorize the importation of a fruit or vegetable into the United States if, based on findings of a PRA, we determine that the measures can mitigate the plant pest risk associated with the importation of that fruit or vegetable. APHIS then publishes a notice in the **Federal Register** announcing the availability of the PRA that evaluates the risks associated with the importation of a particular fruit or vegetable. Following the close of the 60-day comment period, APHIS will issue a subsequent **Federal Register** notice announcing whether or not we will authorize the importation of the fruit or vegetable subject to the phytosanitary measures specified in the notice.

In accordance with that process, we published a notice¹ in the **Federal Register** on October 27, 2021 (86 FR 59360-59361, Docket No. APHIS-2021-0034), in which we announced the availability, for review and comment, of a PRA that evaluated the risks associated with the importation of fresh turmeric (*Curcuma longa*) rhizome from Samoa into the United States (including territories). The PRA consisted of a risk assessment identifying pests of quarantine significance that could follow the pathway of importation of fresh turmeric (*Curcuma longa*) rhizome from Samoa into the United States (including territories) and a risk management document (RMD) identifying phytosanitary measures to be applied to that commodity to mitigate the pest risk.

We solicited comments on the notice for 60 days ending on December 27, 2021. We received no comments by that date.

Therefore, in accordance with the regulations in § 319.56-4(c)(3)(iii), we are announcing our decision to authorize the importation into the United States (including territories) of fresh turmeric (*Curcuma longa*) rhizome from Samoa subject to the phytosanitary measures identified in the RMD that accompanied the initial notice.

¹ To view the notice and the supporting documents, go to www.regulations.gov. Enter APHIS-2021-0034 in the Search field.

These conditions will be listed in the Fruits and Vegetables Import Requirements database (FAVIR) (<https://epermits.aphis.usda.gov/manual>).² In addition to these specific measures, each shipment must be subject to the general requirements listed in § 319.56-3 that are applicable to the importation of all fruits and vegetables.

Paperwork Reduction Act

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), the recordkeeping and burden requirements associated with this action are included under the Office of Management and Budget control number 0579-0049.

E-Government Act Compliance

The Animal and Plant Health Inspection Service is committed to compliance with the E-Government Act to promote the use of the internet and other information technologies, to provide increased opportunities for citizen access to Government information and services, and for other purposes. For information pertinent to E-Government Act compliance related to this notice, please contact Mr. Joseph Moxey, APHIS' Paperwork Reduction Act Coordinator, at (301) 851-2483.

Congressional Review Act

Pursuant to the Congressional Review Act (5 U.S.C. 801 *et seq.*), the Office of Information and Regulatory Affairs designated this action as not a major rule, as defined by 5 U.S.C. 804(2).

Authority: 7 U.S.C. 1633, 7701-7772, and 7781-7786; 21 U.S.C. 136 and 136a; 7 CFR 2.22, 2.80, and 371.3.

Done in Washington, DC, this 22nd day of September 2022.

Anthony Shea,

Administrator, Animal and Plant Health Inspection Service.
