DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[Doc No. AMS–FGIS–20–0066]

United States Standards for Lentils

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Reopening of comment period.

SUMMARY: Notice is hereby given that the comment period for a notice for comment published in the **Federal Register** on September 29, 2020 is reopened. The publication invited comments on the revision to the method of interpretation for determining the special grade “Green,” as it pertains to the class “Lentils,” under the authority of the AMA.

DATES: The comment period for the proposed rule published on September 29, 2020 at 85 FR 60956 is reopened. Comments are due by December 23, 2020.

ADDRESSES: We invite you to submit written comments via the internet at <http://www.regulations.gov>. All comments should refer to the date and page number of this issue of the **Federal Register**. All comments submitted in response to the notice, including the identity of individuals or entities submitting comments, will be made available to the public on the internet via <http://www.regulations.gov>.

FOR FURTHER INFORMATION CONTACT: Loren Almond, USDA AMS; Telephone: (816) 891–0422; Email: Loren.L.Almond@usda.gov.

SUPPLEMENTARY INFORMATION: On September 29, 2020, AMS published a notice seeking comment on a proposal to amend the U.S. Standards for Lentils as well as the Pea and Lentil Inspection Handbook. The proposal would revise the special grade “Green,” as it pertains to the class “Lentils,” by revising the definition to state, “Clear seeded (green) lentils possessing a natural, uniformly

green color,” and must contain less than 0.5 percent mottled lentils in the appropriate portion size. The original 30-day comment period provided in the proposed rule closed on October 29, 2020. A stakeholder submitted a comment requesting an extension of the comment period. The Agricultural Marketing Service is reopening the public comment period for an additional 30 days to ensure that interested persons have sufficient time to review and comment on the notice for comment. The comment period is reopened for 30 days from the date of publication of this notice.

Authority: 7 U.S.C. 1621–1627.

Bruce Summers,

Administrator, Agricultural Marketing Service.

DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

November 18, 2020.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104–13. Comments are requested regarding; whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; the accuracy of the agency’s estimate of burden including the validity of the methodology and assumptions used; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by December 23, 2020 will be considered. Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/

[public/do/PRAMain](#). Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Animal and Plant Health Inspection Service

Title: Volunteer Service Agreements and Volunteer Service Time and Attendance Record.

OMB Control Number: 0579–New.

Summary of Collection: Section 1526 of the Agriculture and Food Act of 1981 [7 U.S.C. 2272] permits the Secretary of Agriculture to establish a program to use volunteers in carrying out programs of the United States Department of Agriculture (USDA).

The regulations in Title 5 Code of Federal Regulations (CFR), Administrative Personnel, Part 308, authorizes an Agency to establish programs designed to provide educationally related volunteer assignments for students.

APHIS will collection information using MRP forms, 126A, Student Service Agreement and Recordkeeping; MRP 126B, Nonstudent Volunteer Service Agreement; and MRP 126C, Volunteer Time and Attendance Record.

Need and Use of the Information: This information collection is necessary to: (a) Facilitate establishment of guidelines for acceptance of volunteer services under the above authorities; (b) make a determination of individuals’ eligibility and suitability to serve as a volunteer in the Marketing and Regulatory Programs (MRP), USDA; and (c) comply with the Office of Personnel Management (OPM) regulation to require documentation of volunteer service. If this information collection is not conducted, MRP would not be able to determine the individual’s eligibility and suitability to serve as a volunteer.

Description of Respondents: Individuals or households and businesses.

Number of Respondents: 86.

Frequency of Responses: Reporting;
On occasion; Quarterly.
Total Burden Hours: 151.

SUPPLEMENTARY INFORMATION:

Title: Standardizing Phytosanitary
Treatment Regulations: Approval of
Cold Treatment and Irradiation
Facilities; Cold Treatment Schedules;
and Establishment of Fumigation and
Cold Treatment Compliance
Agreements.

OMB Control Number: 0579-0450.

Type of Request: Revision to and
extension of approval of an information
collection.

Abstract: The United States
Department of Agriculture (USDA) is
responsible for preventing plant
diseases or insect pests from entering
the United States, preventing the spread
of pests and noxious weeds not widely
distributed into the United States, and
eradicating those imported pests when
eradication is feasible. The Plant
Protection Act (PPA, 7 U.S.C. 7701 *et
seq.*) authorizes the Department to carry
out this mission. Under the PPA, the
Animal and Plant Health Inspection
Service (APHIS) is authorized, among
other things, to regulate the importation
of plants, plant products, and other
articles to prevent the introduction of
plant pests into the United States.

The phytosanitary treatment
regulations contained in 7 CFR part 305
(referred to below as the regulations) set
out the general requirements for
performing treatments and certifying or
approving treatment facilities for fruits,
vegetables, and other articles to prevent
the introduction or dissemination of
plant pests or noxious weeds into or
throughout the United States.

The phytosanitary treatment
regulations establish generic criteria that
would allow for the approval of new
cold treatment and irradiation facilities;
cold treatment schedules; and
establishment of fumigation and cold
treatment compliance agreements.
These criteria also require additional
information collection activities. For
instance, APHIS requires the
establishment of compliance agreements
for those entities that operate fumigation
facilities. Also, APHIS requires
harmonized language concerning State

compliance with facility establishment
and parameters for the movement of
consignments from the port of entry or
points of origin in the United States to
the treatment facility in the irradiation
treatment regulations language in the
cold treatment regulations.

We are asking the Office of
Management and Budget (OMB) to
approve the use of these information
collection activities, as described, for an
additional 3 years.

The purpose of this notice is to solicit
comments from the public (as well as
affected agencies) concerning our
information collection. These comments
will help us:

(1) Evaluate whether the collection of
information is necessary for the proper
performance of the functions of the
Agency, including whether the
information will have practical utility;

(2) Evaluate the accuracy of our
estimate of the burden of the collection
of information, including the validity of
the methodology and assumptions used;

(3) Enhance the quality, utility, and
clarity of the information to be
collected; and

(4) Minimize the burden of the
collection of information on those who
are to respond, through use, as
appropriate, of automated, electronic,
mechanical, and other collection
technologies; e.g., permitting electronic
submission of responses.

Estimate of burden: The public
burden for this collection of information
is estimated to average 0.51 hours per
response.

Respondents: National plant
protection organizations, facility
operators, importers, and State
governments.

*Estimated annual number of
respondents:* 118.

*Estimated annual number of
responses per respondent:* 3.

*Estimated annual number of
responses:* 398.

*Estimated total annual burden on
respondents:* 203 hours. (Due to
averaging, the total annual burden hours
may not equal the product of the annual
number of responses multiplied by the
reporting burden per response.)

All responses to this notice will be
summarized and included in the request
for OMB approval. All comments will
also become a matter of public record.

Done in Washington, DC, this 17th day of
November 2020.

Michael Watson,

*Acting Administrator, Animal and Plant
Health Inspection Service.*
