

with the Martinez Settlement and the Clark Court Order, as defined below; and who are also (2) SSI recipients, RSDI beneficiaries, SVB beneficiaries; or representative payees for SSI recipients, RSDI beneficiaries, or SVB beneficiaries.

Categories of Individuals

The individuals whose information is involved in this matching program are individuals who receive SSI, RSDI, or SVB benefits, or individuals serving as representative payees for SSI recipients, RSDI beneficiaries, or SVB beneficiaries.

Categories of Records

The Source Jurisdiction will provide specific data elements for individuals as specified in Attachment A. SSA Data Elements Matched:

a. *SSR/SVB and MBR*: Individual's SSN and payment status.

b. *Master Files of SSN Holders and SSN Applications*: Individual's name, date of birth, SSN, and gender.

c. *Master Representative Payee File*: Individual's SSN and status as a representative payee.

Alphident Use: The purpose of using the Alphident file under this agreement is to locate an individual's SSN by name search. SSA will use the Alphident file when the Source Jurisdiction either fails to provide an SSN or provides an incorrect SSN for the named individual. The Alphident file allows SSA to locate the SSN by utilizing electronic data systems currently available.

SSA matches the name and date of birth data received from the Source Jurisdiction against the Alphident file. If both sets of data match only one record in SSA's file, SSA assumes that the SSN associated with the matched name and date of birth belongs to the person named by the Source Jurisdiction. SSA then treats the individual whose SSN was generated through the Alphident search in the same manner as those individuals whose SSNs provided by the Source Jurisdiction matched SSA's records. If the name of an individual matches with a single SSN in SSA's records, SSA assumes that the SSN associated with the matching record belongs to the individual in the Source Jurisdiction's records, even if the date of birth does not match. SSA then considers this a matched item.

System(s) of Records: Source Jurisdiction Records

The Source Jurisdiction will identify individuals who are fleeing fugitive felons, probation violators, or parole violators in its records originating from various databases.

The Source Jurisdiction will prepare and disclose its records electronically

(e.g., Government to Government Services Online) with clear identification of the record source including the record source name and where record source obtained the information.

SSA System of Records—SSA will match the following systems of records with the incoming Source Jurisdiction records to determine individuals who receive SSI, RSDI, or SVB benefits, or individuals serving as representative payees for SSI recipients, RSDI beneficiaries, or SVB beneficiaries:

Authority for Conducting the Matching Program

This matching agreement between DoD/DMDC and SSA is executed pursuant to the Privacy Act of 1974, (5 U.S.C. 552a), as amended by the Computer Matching and Privacy Protection Act of 1988, and otherwise; and the Office of Management and Budget Final Guidance interpreting those Acts.

Public Law (Pub. L.) 98–369, Deficit Reduction Act of 1984, requires agencies administering certain federally-assisted benefit programs to use certain information to ensure proper distribution of benefit payments (98 Stat. 494).

Section 1631(e)(1)(B) of the Act (42 U.S.C. 1383(e)(1)(B)) requires verification of Supplemental Security Income eligibility and benefit amounts with independent or collateral sources. This section of the Act provides that the “Commissioner of Social Security shall, as may be necessary, request and utilize information available pursuant to section 6103(l)(7) of the Internal Revenue Code of 1986” for purposes of federally-administered supplementary payments of the type described in section 1616(a) of the Act (including payments pursuant to an agreement entered into under section 212(a) of Pub. Purpose(s)

This computer matching agreement (agreement) sets forth the terms, conditions, and safeguards under which the Department of Defense (DoD), Defense Manpower Data Center (DMDC) (DoD/DMDC) will disclose to the Social Security Administration (SSA) data that SSA will use to verify information

provided by applicants, beneficiaries, and recipients of Supplemental Security Income (SSI) payments and Special Veterans Benefits (SVB). The SSI and SVB recipient/beneficiary provides information about eligibility and entitlement factors (e.g., income, resources, living arrangements). SSA obtains additional information, as necessary, before making any determinations of eligibility, payments, entitlement or benefit amounts or adjustments thereto. Military retirement payments to SSI recipients and SVB beneficiaries include retired members, or their survivors, of the Uniformed Services, i.e., Army; Navy; Air Force; Marine Corps; Coast Guard; and Commissioned Corps of the National Oceanic and Atmospheric Administration. SSA will accomplish this task by computer matching with DoD/DMDC.
