

their rights to the petition to Ancore Corp., FDA published in the **Federal Register** of December 21, 2004, a document that amended 21 CFR 179.21 to provide for the use of sources of monoenergetic neutrons to inspect cargo containers that may contain food. Under this regulation, monoenergetic neutron sources producing neutrons at energies not less than 1 million electron volts

(MeV) but no greater than 14 MeV may be used for inspection of cargo containers that may contain food, providing that the neutron source bears a label stating the minimum and maximum energy of radiation emitted by the source. The regulation also requires that the label or accompanying labeling bear adequate directions for safe use and a statement that no food

shall be exposed to this radiation source so as to receive a dose in excess of 0.01 gray. FDA has determined that this information is needed to assure safe use of the source of radiation.

FDA estimates the total annual burden for this collection of information as follows:

TABLE 1.—ESTIMATED ANNUAL REPORTING BURDEN<sup>1</sup>

21 CFR Section	No. of Respondents	Annual Frequency per Response	Total Annual Responses	Hours per Response	Total Operating & Maintenance Costs	Total Hours
179.21(a)(5), (b)(1)(iv), and (b)(2)(v)	1	1	1	1	\$100	1

<sup>1</sup> There are no capital costs associated with this collection of information.

FDA estimates that the burden will be insignificant because the reporting requirement reflects customary business practice. Based on discussions with an industry representative, the burden hours estimated for this collection of information is 1 hour. The operating and maintenance cost associated with this collection is \$100 for preparation of labels.

## DEPARTMENT OF HEALTH AND HUMAN SERVICES

### Substance Abuse and Mental Health Services Administration

#### Current List of Laboratories Which Meet Minimum Standards To Engage in Urine Drug Testing for Federal Agencies

**AGENCY:** Substance Abuse and Mental Health Services Administration, HHS.

**ACTION:** Notice.

**SUMMARY:** The Department of Health and Human Services (HHS) notifies Federal agencies of the laboratories currently certified to meet the standards of Subpart C of the Mandatory Guidelines for Federal Workplace Drug Testing Programs (Mandatory Guidelines). The Mandatory Guidelines were first published in the **Federal Register** on April 11, 1988 (53 FR 11970), and subsequently revised in the **Federal Register** on June 9, 1994 (59 FR 29908), on September 30, 1997 (62 FR 51118), and on April 13, 2004 (69 FR 19644).

A notice listing all currently certified laboratories is published in the **Federal Register** during the first week of each month. If any laboratory's certification is suspended or revoked, the laboratory will be omitted from subsequent lists until such time as it is restored to full certification under the Mandatory Guidelines.

If any laboratory has withdrawn from the HHS National Laboratory Certification Program (NLCP) during the past month, it will be listed at the end, and will be omitted from the monthly listing thereafter.

This notice is also available on the Internet at <http://workplace.samhsa.gov> and <http://www.drugfreeworkplace.gov>.

**FOR FURTHER INFORMATION CONTACT:** Mrs. Giselle Hersch or Dr. Walter Vogl, Division of Workplace Programs, SAMHSA/CSAP, Room 2–1035, 1 Choke Cherry Road, Rockville, Maryland 20857; 240–276–2600 (voice), 240–276–2610 (fax).

**SUPPLEMENTARY INFORMATION:** The Mandatory Guidelines were developed in accordance with Executive Order 12564 and section 503 of Public Law 100–71. Subpart C of the Mandatory Guidelines, “Certification of Laboratories Engaged in Urine Drug Testing for Federal Agencies,” sets strict standards that laboratories must meet in order to conduct drug and specimen validity tests on urine specimens for Federal agencies. To become certified, an applicant laboratory must undergo three rounds of performance testing plus an on-site inspection. To maintain that certification, a laboratory must participate in a quarterly performance testing program plus undergo periodic, on-site inspections.

Laboratories which claim to be in the applicant stage of certification are not to

be considered as meeting the minimum requirements described in the HHS Mandatory Guidelines. A laboratory must have its letter of certification from HHS/SAMHSA (formerly: HHS/NIDA) which attests that it has met minimum standards.

In accordance with Subpart C of the Mandatory Guidelines dated April 13, 2004 (69 FR 19644), the following laboratories meet the minimum standards to conduct drug and specimen validity tests on urine specimens:

\* The Standards Council of Canada (SCC) voted to end its Laboratory Accreditation Program for Substance Abuse (LAPSA) effective May 12, 1998. Laboratories certified through that program were accredited to conduct forensic urine drug testing as required by U.S. Department of Transportation (DOT) regulations. As of that date, the certification of those accredited Canadian laboratories will continue under DOT authority. The responsibility for conducting quarterly performance testing plus periodic on-site inspections of those LAPSA-accredited laboratories was transferred to the U.S. HHS, with the HHS' NLCP contractor continuing to have an active role in the performance testing and laboratory inspection processes. Other Canadian laboratories wishing to be considered for the NLCP may apply directly to the NLCP contractor just as U.S. laboratories do.

Upon finding a Canadian laboratory to be qualified, HHS will recommend that DOT certify the laboratory (**Federal Register**, July 16, 1996) as meeting the minimum standards of the Mandatory

Guidelines published in the **Federal Register** on April 13, 2004 (69 FR 19644). After receiving DOT certification, the laboratory will be included in the monthly list of HHS certified laboratories and participate in the NLCP certification maintenance program.

### Substance Abuse and Mental Health Services Administration

#### Notice of SAMHSA's Ceasing Publication of Notices of Funding Availability (NOFAs) and Requests for Applications (RFAs) in the Federal Register

**SUMMARY:** Consistent with the Department of Health and Human Services management objectives, the Substance Abuse and Mental Health Services Administration (SAMHSA) announces a change in its practice of publishing notices of grant funding availability in the **Federal Register**. Rather than continue publishing NOFAs and RFAs in the **Federal Register**, SAMHSA will instead post notices of funding availability only on <http://www.Grants.gov> and <http://www.samhsa.gov>. Only single source or limited competition announcements will continue to be published in the **Federal Register**. This change will be effective January 3, 2005.

Applicants should be aware that all the necessary information to apply for grant funds will continue to be available at SAMHSA's two national clearinghouses: The National Clearinghouse for Alcohol and Drug

Information (NCADI)—1-800-729-6686—for substance abuse prevention or treatment grants; and the National Mental Health Information Center—1-800-789-CMHS (2647)—for mental health grants.

## DEPARTMENT OF HOMELAND SECURITY

### Federal Emergency Management Agency

#### Agency Information Collection Activities: Proposed Collection; Comment Request

**AGENCY:** Federal Emergency Management Agency, Emergency Preparedness and Response Directorate, U.S. Department of Homeland Security.

**ACTION:** Notice and request for comments.

**SUMMARY:** The Federal Emergency Management Agency, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed new information collections. In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3506(c)(2)(A)), this notice seeks comments concerning the need to collect program information from

stakeholders of the National Fire Programs (NFP), a part of the United States Fire Administration (USFA).

**SUPPLEMENTARY INFORMATION:** As an entity of the U.S. Department of Homeland Security/Federal Emergency Management Agency (FEMA), the mission of the USFA is to reduce life and economic losses due to fire and related hazards. The NFP, within the USFA, oversees the development of campaigns, products, services, curriculum and doctrine for leadership development training and educational courses. These programs are designed to increase the capacity and interoperability of the fire and emergency services on prevention, mitigation, and response to local emergencies and preparedness for consequences of day-to-day and larger scale disasters.

#### Collection of Information

*Title:* National Fire Programs (NFP) Stakeholders Interview.

*Type of Information Collection:* New collection.

*OMB Number:* 1660-NEW14.

*Form Numbers:* None.

*Abstract:* Consistent with performance-based management practices, the NFP is developing a comprehensive Strategic Business and Implementation Plan. This information collection will capture stakeholders' perspective critical to the NFP's ability to plan effectively and deliver demand-driven products and services. Data findings will be used to: (1) Support the development of the Strategic Business and Implementation Plan, and (2) set customer service standards.

*Affected Public:* State, local and Tribal governments, and Not-for-Profit Institutions.

*Estimated Total Annual Burden Hours:* 50 hours.

#### ANNUAL BURDEN HOURS

Project/activity (survey form(s), focus group, etc.)	Number of respondents	Frequency of responses	Burden hours per respondent	Annual responses	Total annual burden hours
	(A)	(B)	(C)	(AxB)	(AxBxC)
Stakeholders' Interviews .....	50	1	1	50	50
Total .....	50	1	1	50	50

*Estimated Cost:* \$23 per response/interview.

*Comments:* Written comments are solicited to (a) Evaluate whether the proposed data collection is necessary for the proper performance of the agency,

including whether the information shall have practical utility; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(c) enhance the quality, utility, and clarity of the information to be collected; and (d) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated,
