BILLING CODE 6717–01–P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP20–50–000; Docket No.
CP20–51–000]

Tennessee Gas Pipeline Company, LLC; Southern Natural Gas Company, LLC; Notice of Availability of the Draft Environmental Impact Statement for the Proposed Evangeline Pass Expansion Project

The staff of the Federal Energy
Regulatory Commission (FERC or
Commission) has prepared a draft
environmental impact statement (EIS)
for the Evangeline Pass Expansion
Project (Project), proposed by Tennessee
Gas Pipeline Company, LLC (Tennessee)
and Southern Natural Gas Company,
LLC (SNG) in the above-referenced
dockets.

Tennessee requests authorization to
construct and operate about 13 miles of
36-inch-diameter pipeline and a new
compressor station in St. Bernard and
Plaquemines Parishes, Louisiana. SNG
requests authorization to construct and
operate a new compressor station and
three new meter stations in Clarke and
Smith, Counties, Mississippi; and St.
Bernard Parish, Louisiana. The Project
would enable the transportation of up to
1,100,000 dekatherms per day of natural
gas to an interconnect with Venture
Global Gator Express, LLC's Gator
Express Pipeline to provide feed gas for
Venture Global Plaquemines LNG, LLC's
facility in Plaquemines Parish,
Louisiana.

The draft EIS responds to comments
that were received on the Commission's
August 24, 2020 Environmental
Assessment (EA), provides additional
discussion of climate change impacts in
the region, and discloses downstream
greenhouse gas emissions for the
Project. With the exception of climate
change impacts, the FERC staff
concludes that approval of the proposed
Project, with the mitigation measures
recommended in this EIS, would not
result in significant environmental
impacts. FERC staff continues to be
unable to determine significance with
regards to climate change impacts.

The draft EIS incorporates the above
referenced EA, which addressed the
potential environmental effects of the
construction and operation of the
following Project facilities:

Tennessee

- about 9 miles of 36-inch-diameter
looping pipeline in St. Bernard Parish,
Louisiana (Yscloskey Toca Lateral
Loop);
- about 4 miles of 36-inch-diameter
looping pipeline in Plaquemines Parish,
Louisiana (Grand Bayou Loop); and
- a new 23,470 horsepower
compressor station consisting of one
natural gas-fired Solar Turbines Titan
130 turbine driven compressor unit
along Tennessee's existing 500 line in
St. Bernard Parish, Louisiana
(Compressor Station 529);

SNG

- a new 22,220 hp compressor station
consisting of two natural gas-fired Solar
Taurus 70 turbines (11,110 hp each) in
Clarke County, Mississippi (Rose Hill
Compressor Station); and
- three new meter stations: Rose Hill
Receipt Meter Station in Clarke County,
Mississippi; Midcontinent Express
Pipeline Receipt Meter Station in Smith
County, Mississippi; and Toca Delivery
Meter Station in St. Bernard Parish,
Louisiana.

The Commission mailed a copy of the
*Notice of Availability of the Draft
Environmental Impact Statement for the
Evangeline Pass Expansion Project* to
federal, state, and local government
representatives and agencies; elected
officials; environmental and public
interest groups; Native American tribes;
potentially affected landowners and
other interested individuals and groups;
and newspapers and libraries in the
Project area. The draft EIS is only
available in electronic format. It may be
viewed and downloaded from the
FERC's website (www.ferc.gov), on the
natural gas environmental documents
page ([https://www.ferc.gov/industries-
data/natural-gas/environment/](https://www.ferc.gov/industries-data/natural-gas/environment/)

environmental-documents). In addition, the draft EIS may be accessed by using the eLibrary link on the FERC's website. Click on the eLibrary link (<https://elibrary.ferc.gov/eLibrary/search>) select "General Search" and enter the docket number in the "Docket Number" field (i.e., CP20–50–000 or CP20–51–000). Be sure you have selected an appropriate date range. For assistance, please contact FERC Online Support at FercOnlineSupport@ferc.gov or toll free at (866) 208–3676, or for TTY, contact (202) 502–8659.

The draft EIS is not a decision document. It presents Commission staff's independent analysis of the environmental issues for the Commission to consider when addressing the merits of all issues in this proceeding. Any person wishing to comment on the draft EIS may do so. Your comments should focus on draft EIS's disclosure and discussion of potential environmental effects, including climate impacts due to downstream greenhouse gas emissions, and measures to avoid or lessen environmental impacts. To ensure consideration of your comments on the proposal in the final EIS, it is important that the Commission receive your comments on or before 5:00pm Eastern Time on September 7, 2021.

For your convenience, there are three methods you can use to submit your comments to the Commission. The Commission encourages electronic filing of comments and has staff available to assist you at (866) 208–3676 or FercOnlineSupport@ferc.gov. Please carefully follow these instructions so that your comments are properly recorded.

(1) You can file your comments electronically using the eComment feature on the Commission's website (www.ferc.gov) under the link to FERC Online. This is an easy method for submitting brief, text-only comments on a project;

(2) You can file your comments electronically by using the eFiling feature on the Commission's website (www.ferc.gov) under the link to FERC Online. With eFiling, you can provide comments in a variety of formats by attaching them as a file with your submission. New eFiling users must first create an account by clicking on "eRegister." If you are filing a comment on a particular project, please select "Comment on a Filing" as the filing type; or

(3) You can file a paper copy of your comments by mailing them to the Commission. Be sure to reference the Project docket number (CP20–50–000 or CP20–51–000) on your letter.

Submissions sent via the U.S. Postal Service must be addressed to: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street NE, Room 1A, Washington, DC 20426. Submissions sent via any other carrier must be addressed to: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 12225 Wilkins Avenue, Rockville, Maryland 20852.

Any person seeking to become a party to the proceeding must file a motion to intervene pursuant to Rule 214 of the Commission's Rules of Practice and Procedures (18 CFR part 385.214). Motions to intervene are more fully described at <https://www.ferc.gov/ferc-online/ferc-online/how-guides>. Only intervenors have the right to seek rehearing or judicial review of the Commission's decision. The Commission grants affected landowners and others with environmental concerns intervenor status upon showing good cause by stating that they have a clear and direct interest in this proceeding which no other party can adequately represent. Simply filing environmental comments will not give you intervenor status, but you do not need intervenor status to have your comments considered.

Questions?

Additional information about the Project is available from the Commission's Office of External Affairs, at (866) 208–FERC, or on the FERC website (www.ferc.gov) using the eLibrary link. The eLibrary link also provides access to the texts of all formal documents issued by the Commission, such as orders, notices, and rulemakings.

In addition, the Commission offers a free service called eSubscription that allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. Go to <https://www.ferc.gov/ferc-online/overview> to register for eSubscription.
