

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

The Exchange has not solicited, and does not intend to solicit, comments on this proposed rule change. The Exchange has not received any written comments from members or other interested parties.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not significantly affect the protection of investors or the public interest, does not impose any significant burden on competition, and, by its terms, does not become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A)⁸ of the Act and Rule 19b-4(f)(6)⁹ thereunder. The Exchange provided the Commission with written notice of its intent to file the proposed rule change, along with a brief description of the proposed rule change, at least five business days prior to the date of filing the proposed rule change.

At any time within 60 days of the filing of the proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

This proposed rule change is based on a filing previously submitted by Chicago Board Options Exchange, Incorporated ("CBOE") that was recently approved by the Commission.⁵

The purpose of the proposal is to expand the \$1 Strike Program in a limited fashion to allow Phlx to list new series in \$1 strike price intervals up to \$5 in LEAPS in up to 200 option classes on individual stocks.

Currently, under the \$1 Strike Program, the Exchange may not list LEAPS at \$1 strike price intervals for any class selected for the Program. The Exchange also is restricted from listing any series that would result in strike prices being \$0.50 apart, unless the series are part of the \$.50 Strike Program.⁶

Phlx believes that its proposal to allow limited listing of LEAPS in the Program is appropriate and will allow investors to establish option positions that are better tailored to meet their investment objectives, vis-à-vis credit risk, using deep out-of-the-money, long-term put options. These types of options are viewed as a viable, liquid alternative to over the counter-traded ("OTC") credit default swaps ("CDS"), because such options do not possess the negative characteristics associated with CDS, namely, lack of transparency, insufficient collateral requirements, and inefficient trade processing.

The Exchange notes that its proposal is limited in scope, as \$1 strikes in LEAPS may only be listed up to \$5 and in only up to 200 option classes. As is currently the case in the \$1 Strike Program, the Exchange would not list series with \$1.00 intervals within \$0.50 of an existing \$2.50 strike price in the same series.⁷ As a result, the Exchange

⁵ See Securities Exchange Act Release No. 60978 (November 10, 2009), 74 FR 59296 (November 17, 2009) (SR-CBOE-2009-068) (order approving proposed rule change to allow listing LEAPS in \$1 Strike Program).

⁶ Regarding the \$.50 Strike Program, see Commentary .05(a)(ii) to Rule 1012 and Securities Exchange Act Release No. 60694 (September 18, 2009), 74 FR 49048 (September 25, 2009) (SR-Phlx-2009-65) (notice of filing and order approving). The \$.50 Strike Program establishes strike price intervals of \$0.50 for options on stocks trading at or below \$3.00.

⁷ However, strike prices of \$2 and \$3 are permitted within \$0.50 of a \$2.50 strike price for

does not believe that this proposal will cause a significant increase in quote traffic.

Moreover, as the Commission is aware, the Exchange has adopted various quote mitigation strategies in an effort to lessen the growth rate of quotations. When it expanded the \$1 Strike Price Program several months ago the Exchange included a delisting policy that would be applicable with regard to this proposed expansion; the Exchange has likewise established a number of other delisting policies.⁸ The Exchange and other options exchanges amended the Options Listing Procedures Plan ("OLPP") in 2008 to impose a minimum volume threshold of 1,000 contracts national average daily volume ("ADV") per underlying class to qualify for an additional year of LEAP series.⁹ Most recently, the Exchange, along with the other options exchanges, amended the OLPP to adopt objective, exercise price range limitations applicable to equity option classes, options on Exchange Traded Funds ("ETFs") and options on trust issued receipts ("TIRs") (the "range limitation strategy").¹⁰ The Exchange has filed a rule change proposal to codify the range limitation strategy in its own rules.¹¹

classes also selected for the \$0.50 Strike Program. See proposed Commentary .05(a)(i)(C) to Rule 1012, which is similar in this respect to the current Commentary .05(a)(i)(B).

⁸ For the \$1 Strike Program delisting policy, see Securities Exchange Act Release No. 59590 (March 17, 2009), 74 FR 12412 (March 24, 2009) (SR-Phlx-2009-21) (notice of filing and immediate effectiveness). The \$1 Strike Program delisting policy includes a provision stating that the Exchange may grant member requests and add strikes and/or maintain strikes in series of options classes traded pursuant to the Program that are eligible for delisting. For other delisting policies proposed and implemented by the Exchange, see Securities Exchange Act Release Nos. 60249 (July 6, 2009), 74 FR 33506 (July 13, 2009) (SR-Phlx-2009-50) (notice of filing and immediate effectiveness regarding Quarterly Options Series program); 60156 (June 22, 2009), 74 FR 31077 (June 29, 2009, 2009) (SR-Phlx-2009-46) (notice of filing and immediate effectiveness regarding options on reduced value NASDAQ-100 index); 60840 (October 20, 2009), 74 FR 55593 (October 28, 2009) (SR-Phlx-2009-77) (order approving listing certain options at \$1 strike price intervals below \$200); and Commentary.11 to rule 1010 (low ADV delisting policy) and Securities Exchange Act Release No. 56881 (December 3, 2007), 72 FR 69276 (December 7, 2007) (SR-Phlx-2007-72) (notice of filing and immediate effectiveness regarding delisting securities underlying low ADV options).

⁹ See Securities Exchange Act Release No. 58630 (September 24, 2008), 73 FR 57166 (October 1, 2008) (File No. 4-443) (order approving Amendment No. 2 to OLPP).

¹⁰ See Securities Exchange Act Release No. 60531 (August 19, 2009), 74 FR 43173 (August 26, 2009) (File No 4-443) (order approving Amendment No. 3 to OLPP). Phlx's proposal to list \$1 strikes in LEAPs to \$5 would not be subject to the exercise price range limitations contained in new paragraph (3)(g)(ii) of the OLPP.

¹¹ See SR-Phlx-2009-103 (unpublished).

The Exchange believes that these price range limitations, in conjunction with the delisting policies in place at the Exchange,¹² will have a meaningful quote mitigation impact.

The margin requirements set forth in Rules 721 through 723 and the position and exercise requirements set forth in Rules 1001 and 1002, respectively, will continue to apply to these new series, and no changes are being proposed to those requirements by this rule change.

With regard to the impact on system capacity, the Exchange has analyzed its capacity and represents that it and the Options Price Reporting Authority ("OPRA") have the necessary systems capacity to handle the additional traffic that may be associated with the listing and trading of LEAPS in the \$1 Strike Program as proposed by this filing.

2. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act¹³ in general, and furthers the objectives of Section 6(b)(5) of the Act¹⁴ in particular, in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, and to remove impediments to and perfect the mechanisms of a free and open market and a national market system. The Exchange believes that the ability to list and trade LEAPS at \$1 strike price intervals will benefit investors by giving them more flexibility to more closely tailor their investment and hedging decisions.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act.

¹² See, for example, Securities Exchange Act Release Nos. 60249 (July 6, 2009), 74 FR 33506 (July 13, 2009) (SR-Phlx-2009-50) (notice of filing and immediate effectiveness regarding Quarterly Options Series program); 60156 (June 22, 2009), 74 FR 31077 (June 29, 2009, 2009) (SR-Phlx-2009-46) (notice of filing and immediate effectiveness regarding options on reduced value NASDAQ-100 index); 60840 (October 20, 2009), 74 FR 55593 (October 28, 2009) (SR-Phlx-2009-77) (order approving listing certain options at \$1 strike price intervals below \$200); and Commentary.11 to rule 1010 (low ADV delisting policy) and Securities Exchange Act Release No. 56881 (December 3, 2007), 72 FR 69276 (December 7, 2007) (SR-Phlx-2007-72) (notice of filing and immediate effectiveness regarding delisting securities underlying low ADV options).

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not: (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; or (iii) become operative for 30 days after the date of the filing, or such shorter time as the Commission may designate, if consistent with the protection of investors and the public interest, it has become effective pursuant to Section 19(b)(3)(A) of the Act¹⁵ and Rule 19b-4(f)(6) thereunder.¹⁶

The Exchange has requested that the Commission waive the 30-day operative delay. The Commission hereby grants that request.¹⁷ The Commission believes that waiver of the operative delay is consistent with the protection of investors and the public interest because it recently approved a proposal from CBOE which is nearly identical to the current proposal and on which no comments were received.¹⁸ Therefore, the proposal is operative upon filing.

At any time within 60 days of the filing of the proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

¹⁵ 15 U.S.C. 78s(b)(3)(A).

¹⁶ 17 CFR 240.19b-4(f)(6). In addition, Rule 19b-4(f)(6) requires a self-regulatory organization to give the Commission written notice of its intent to file the proposed rule change, along with a brief description and text of the proposed rule change, at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission. The Exchange has satisfied this requirement.

¹⁷ For purposes only of waiving the 30-day operative delay, the Commission has considered the proposed rule's impact on efficiency, competition, and capital formation. See 15 U.S.C. 78c(f).

¹⁸ See Exchange Act Release No. 60978 (November 10, 2009), 74 FR 59296 (November 17, 2009) (approving SR-CBOE-2009-68).
