[Docket Number FRA-2020-0065]

Petition for Waiver of Compliance

Under part 211 of title 49 Code of Federal Regulations (CFR), this document provides the public notice that on August 3, 2020, BNSF Railway Company (BNSF) petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 218, Railroad Operating Practices. FRA assigned the petition Docket Number FRA-2020-0065.

Specifically, BNSF requests relief from certain blue signal protection requirements, 49 CFR 218.25, *Workers on a Main Track*, for workers engaged in fueling, performing locomotive daily inspections, and other routine operations on head-end locomotives at fuel pads situated on main lines. BNSF explains that blue signal protection would still be required at the rear end of a train if performing fueling, locomotive daily inspections, and work on locomotives in the distributed power remote consist.

BNSF states that adequate safety will be maintained by placing a blue signal

at the head end of the consist in a location readily visible to the locomotive engineer or whomever may be occupying the controlling locomotive. Protection at the rear end of the train will be supplied by railroad signals, which BNSF states will be sufficient, as there will be no railroad employees performing any inspections on the rolling equipment beyond the lead locomotive consist to the rear of the train.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov.

The summaries below describe the nature of the information collection requirements (ICRs) and the expected burden. The requirements are being submitted for clearance by OMB as required by the PRA.

Title: Metropolitan and Statewide and Non-Metropolitan Transportation Planning.

OMB Control Number: 2132–0529.

Type of Request: Renewal of a previously approved information collection.

Abstract: The FTA and Federal Highway Administration (FHWA) jointly carry out the federal mandate to improve urban and rural transportation. 49 U.S.C. 5303 and 5304 and 23 U.S.C. 134 and 135 authorize the use of federal funds to assist Metropolitan Planning

Organizations (MPOs), States, and local public bodies in developing transportation plans and programs to serve the transportation needs of urbanized areas over 50,000 in population and other areas of States outside of urbanized areas. The information collection activities involved in developing the Unified Planning Work Program (UPWP), the Metropolitan Transportation Plan, the Long-Range Statewide Transportation Plan, the Transportation Improvement Program (TIP), and the Statewide Transportation Improvement Program (STIP) are necessary to identify and evaluate the transportation issues and needs in each urbanized area and throughout every State. These products of the transportation planning process are essential elements in the reasonable planning and programming of federally funded transportation investments.

In addition to serving as a management tool for MPOs, the UPWP is used by both FTA and FHWA to monitor the transportation planning activities of MPOs. It also is needed to establish national out year budgets and regional program plans, develop policy on using funds, monitor State and local compliance with technical emphasis areas, respond to Congressional inquiries, prepare Congressional testimony, and ensure efficiency in the use and expenditure of Federal funds by determining that planning proposals are both reasonable and cost-effective.

49 U.S.C. 5303 and 23 U.S.C. 134 (j) require the development of TIPs for urbanized areas; STIPs are mandated by 49 U.S.C. 5304 and 23 U.S.C. 135(g) for an entire State. After approval by the Governor and MPO, metropolitan TIPs in attainment areas are to be incorporated directly into the STIP. For nonattainment areas, FTA/FHWA must make a conformity finding on the TIPs before including them in the STIP. The complete STIP is then jointly reviewed and approved or disapproved by FTA and FHWA. These conformity findings and approval actions constitute the determination that States are complying with the requirements of 23 U.S.C. 134 and 135 and 49 U.S.C. 5303 and 5304 as a condition of eligibility for federal-aid funding. Without these documents, approvals and findings, FTA and FHWA cannot provide capital and/or operating assistance.

Respondents: State Departments of Transportation and MPOs.

Estimated Annual Respondents: 456 respondents.

Estimated Total Annual Burden: 4,198,379 hours.

Frequency: Annual.

Nadine Pemberton,

Director Office of Management Planning.
