

shrimp (*Lepidurus packardii*), the Riverside fairy shrimp (*Streptocephalus wootoni*), and the San Diego fairy shrimp (*Branchinecta sandiegonensis*) in conjunction with surveys throughout the range of each species for the purpose of enhancing their survival.

Permit No. TE-101743.

Applicant: Daniel Edelstein, Novato, California.

The applicant requests a permit to take (capture and collect and sacrifice) the Conservancy fairy shrimp (*Branchinecta conservatio*), the longhorn fairy shrimp (*Branchinecta longiantenna*), the vernal pool tadpole shrimp (*Lepidurus packardii*), the Riverside fairy shrimp (*Streptocephalus wootoni*), and the San Diego fairy shrimp (*Branchinecta sandiegonensis*) in conjunction with surveys throughout the range of each species for the purpose of enhancing their survival.

Permit No. TE-108099.

Applicant: Jane Higginson, Lakeside, California.

The applicant requests a permit to take (survey by pursuit) the Quino checkerspot butterfly (*Euphydryas editha quino*) in conjunction with surveys throughout the range of the species for the purpose of enhancing its survival.

Permit No. TE-005956.

Applicant: U.S. Geological Survey Biological Resources Division, Western Fisheries Research Center, Reno, Nevada.

The permittee requests an amendment to take (harass by survey, capture, handle, and release) the Clover Valley speckled dace (*Rhinichthys osculus oligoporus*) in conjunction with population and distribution surveys throughout the range of the species for the purpose of enhancing its survival.

Permit No. TE-108093.

Applicant: Danielle Tannourji, San Diego, California.

The applicant requests a permit to take (capture and collect and sacrifice) the Conservancy fairy shrimp (*Branchinecta conservatio*), the longhorn fairy shrimp (*Branchinecta longiantenna*), the vernal pool tadpole shrimp (*Lepidurus packardii*), the Riverside fairy shrimp (*Streptocephalus wootoni*), and the San Diego fairy shrimp (*Branchinecta sandiegonensis*); and take (survey by pursuit) the Quino checkerspot butterfly (*Euphydryas editha quino*) in conjunction with surveys throughout the range of each species for the purpose of enhancing their survival.

Permit No. TE-108683.

Applicant: Austin J. Pearson, Coarsegold, California.

The applicant requests a permit to take (capture and collect and sacrifice) the Conservancy fairy shrimp (*Branchinecta conservatio*), the longhorn fairy shrimp (*Branchinecta longiantenna*), the vernal pool tadpole shrimp (*Lepidurus packardii*), the Riverside fairy shrimp (*Streptocephalus wootoni*), and the San Diego fairy shrimp (*Branchinecta sandiegonensis*) in conjunction with surveys throughout the range of each species for the purpose of enhancing their survival.

Permit No. TE-106344.

Applicant: The California Department of Parks and Recreation, Sacramento, California.

The applicant requests a permit to take (capture and collect and sacrifice) the Conservancy fairy shrimp (*Branchinecta conservatio*), the longhorn fairy shrimp (*Branchinecta longiantenna*), the vernal pool tadpole shrimp (*Lepidurus packardii*), the Riverside fairy shrimp (*Streptocephalus wootoni*), and the San Diego fairy shrimp (*Branchinecta sandiegonensis*) in conjunction with surveys throughout the range of each species for the purpose of enhancing their survival.

Permit No. TE-110382.

Applicant: Ava Rosales, Mission Viejo, California.

The applicant requests a permit to take (capture and collect and sacrifice) the Conservancy fairy shrimp (*Branchinecta conservatio*), the longhorn fairy shrimp (*Branchinecta longiantenna*), the vernal pool tadpole shrimp (*Lepidurus packardii*), the Riverside fairy shrimp (*Streptocephalus wootoni*), and the San Diego fairy shrimp (*Branchinecta sandiegonensis*) in conjunction with surveys throughout the range of each species for the purpose of enhancing their survival.

Permit No. TE-108681.

Applicant: Melissa M. Denena, San Jose, California.

The applicant requests a permit to take (capture and collect and sacrifice) the Conservancy fairy shrimp (*Branchinecta conservatio*), the longhorn fairy shrimp (*Branchinecta longiantenna*), the vernal pool tadpole shrimp (*Lepidurus packardii*), the Riverside fairy shrimp (*Streptocephalus wootoni*), and the San Diego fairy shrimp (*Branchinecta sandiegonensis*) in conjunction with surveys throughout the range of each species for the purpose of enhancing their survival.

Permit No. TE-110095.

Applicant: John H. Davis IV, San Luis Obispo, California.

The applicant requests a permit to take (capture and collect and sacrifice) the Conservancy fairy shrimp (*Branchinecta conservatio*), the longhorn fairy shrimp (*Branchinecta longiantenna*), the vernal pool tadpole shrimp (*Lepidurus packardii*), the Riverside fairy shrimp (*Streptocephalus wootoni*), and the San Diego fairy shrimp (*Branchinecta sandiegonensis*); and take (capture, relocate, and release) the Morro shoulderband snail (*Helminthoglypta walkeriana*) in conjunction with surveys and habitat enhancement activities throughout the range of each species for the purpose of enhancing their survival.

We solicit public review and comment on each of these recovery permit applications.

Dated: September 16, 2005.

Michael Fris,

Acting Manager, California/Nevada Operations Office, U.S. Fish and Wildlife Service.

Endangered Species Recovery Permit Applications

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of receipt of permit applications.

SUMMARY: The following applicants have applied for a survival enhancement permit to conduct certain activities with endangered species pursuant to section 10(a)(1)(A) of the Endangered Species Act (16 U.S.C. 1531 *et seq.*). The U.S. Fish and Wildlife Service ("we") solicits review and comment from the public, and from local, State, and Federal agencies on the following permit requests.

DATES: Comments on these permit applications must be received on or before November 14, 2005.

ADDRESSES: Written data or comments should be submitted to the U.S. Fish and Wildlife Service, Chief, Endangered Species, Ecological Services, 911 NE 11th Avenue, Portland, Oregon 97232-4181 (telephone: 503-231-2063; fax: 503-231-6243). Please refer to the respective permit number for each application when submitting comments. All comments received, including

names and addresses, will become part of the official administrative record and may be made available to the public.

FOR FURTHER INFORMATION CONTACT: Documents and other information submitted with these applications are available for review, subject to the requirements of the Privacy Act and Freedom of Information Act, by any party who submits a written request for a copy of such documents to the address above. Please refer to the respective permit number for each application when requesting copies of documents.

SUPPLEMENTARY INFORMATION:

Permit No. TE-108679.

Applicant: Oregon Department of Transportation, Salem, Oregon.

The applicant requests a permit to take (survey by pursuit, harass, and kill) the Fender's blue butterfly (*Icaricia icarioides fenderi*) in conjunction with surveys and habitat restoration activities in Polk, Benton, Yamhill, and Lane Counties, Oregon; and take (harass by survey and translocate) the Oregon chub (*Oregonichthys crameri*) in conjunction with habitat creation and maintenance activities throughout the range of the species in Oregon for the purpose of enhancing their survival.

Permit No. TE-108680.

Applicant: EcoAnalysts, Inc., Moscow, Idaho.

The applicant requests a permit to take (capture and collect and sacrifice) the Snake River physa (*Physa natracina*), the Bruneau Hot springsnail (*Pyrgulopsis bruneauensis*), and the Banbury Springs limpet (*Lanx* sp.) in conjunction with surveys and population studies throughout the range of each species in Idaho for the purpose of enhancing their survival.

We solicit public review and comment on each of these recovery permit applications.

Dated: September 20, 2005.

David J. Wesley,

Regional Director, Region 1, U.S. Fish and Wildlife Service.

BILLING CODE 4310-55-P

ACTION: Notice of availability.

SUMMARY: The U.S. Fish and Wildlife Service announces that a Revised Comprehensive Conservation Plan (Conservation Plan) and Environmental Impact Statement for the Alaska Peninsula and Becharof National Wildlife Refuge is available for review and comment. This Conservation Plan was prepared pursuant to the Alaska National Interest Lands Conservation Act, the National Wildlife Refuge System Administration Act of 1966, as amended by the National Wildlife Refuge System Improvement Act of 1997, and the National Environmental Policy Act of 1969. It describes how the Service intends to manage these refuges over the next 15 years.

DATES: Please submit comments on the Conservation Plan and Environmental Impact Statement on or before 30 days from the date of publication of this Notice.

ADDRESSES: The Conservation Plan is available on compact diskette or over the Internet. You may obtain a copy of the CD by writing: Peter Wikoff, Planning Team Leader, U.S. Fish and Wildlife Service, 1011 East Tudor Road, MS 231, Anchorage, AK 99503. You may access or download the Conservation Plan at <http://www.r7.fws.gov/nwr/planning/plans.htm>. Comments may be sent to the above address or to fw7_apb_planing@fws.gov.

FOR FURTHER INFORMATION CONTACT: Peter Wikoff, (907) 786-3837.

SUPPLEMENTARY INFORMATION: The Alaska National Interest Lands Conservation Act (ANILCA) requires a conservation plan for all refuges in Alaska. We developed this Conservation Plan consistent with § 304(g) of ANILCA and the National Wildlife Refuge System Administration Act of 1966, as amended by the National Wildlife Refuge System Improvement Act of 1997. The purpose in developing conservation plans is to provide refuge managers with a 15-year strategy for achieving refuge purposes and contributing toward the mission of the National Wildlife Refuge System, consistent with sound principles of fish and wildlife science, conservation, legal mandates, and Service policies. In addition to outlining broad management direction on conserving wildlife and their habitats, conservation plans identify wildlife-dependent recreational opportunities available to the public, including opportunities for hunting, fishing, wildlife observation and photography, and environmental education and interpretation. We review and update these plans in accordance

with planning direction in § 304(g) of ANILCA, the National Environmental Policy Act of 1969 (42 U.S.C. 4321-4370d), and Service planning policy.

Background: The Conservation Plan and Environmental Impact Statement is a revision of plans which were adopted in 1985 and 1987. It combines plans for the Becharof NWR and portions of the Alaska Peninsula and Alaska Maritime NWRs, which are managed jointly as the Alaska Peninsula and Becharof National Wildlife Refuges. This plan provides broad general direction for managing the Refuges for the next 15 years and contains the vision, goals, and objectives of the Refuges. Except for alternative ways of addressing the issues, this plan substantially follows the direction of the original plans. Traditional means of access and uses of the Refuges would be maintained under all alternatives.

The Alaska Peninsula and Becharof National Wildlife Refuges are comprised of the Becharof NWR, the Ugashik and Chignik Units of the Alaska Peninsula NWR, and the Seal Cape Unit of the Alaska Maritime NWR. The Refuges encompass approximately 4,240,000 acres along the Pacific side of the Alaska Peninsula starting about 10 miles south of the Refuge headquarters in King Salmon and extending for approximately 250 miles.

The Alaska Peninsula is a land of towering mountains, active volcanoes, broad valleys, fjords, tundra, and glacially formed lakes. From the coastal lowlands on the Bristol Bay side of the Refuges the land rises to steep glaciated mountains and volcanoes, then plunges to cliffs and sandy beaches on the Pacific side. The Bristol Bay side of the Refuges consists primarily of rolling moist to wet tundra, lakes, and wetlands. The snow-covered, heavily glaciated Aleutian Mountain Range bisects the Refuges with volcanic peaks rising to more than 8,200 feet. The Pacific coastline is rugged, with sea cliffs rising hundreds of feet from the water. Numerous streams and several large rivers originate within the Refuges.

The Becharof National Wildlife Refuge contains the 300,000-acre Becharof Lake, the second largest lake in Alaska, and the 503,000-acre Becharof Wilderness Area. Mt. Peulik, a 4,800-foot volcano with lava flows reaching to Becharof Lake is a prominent landmark.

The Alaska Peninsula National Wildlife Refuge contains the culturally and economically important Ugashik Lakes. The area around Mother Goose Lake provides important habitat for moose and a number of bird species. Volcanoes have been active in the recent past. Mt. Veniaminof, a stratovolcano
