Abstract: The LEMAS core survey, conducted every 3 to 4 years since 1987, is currently based on a nationally representative sample of approximately 3,500 general-purpose law enforcement agencies (LEAs). The 2024 LEMAS has been revised to remove questions to help reduce burden and increase clarity. The LEMAS survey has been used to produce national estimates for a wide range of topics, including LEA responsibilities, operating expenditures, job functions of sworn and civilian employees, officer salaries and special pay, demographic characteristics of officers, weapons policies, education and training requirements, special units, and community policing activities. BJS plans to publish this information in reports and reference it when responding to queries from the U.S. Congress, Executive Office of the

President, the U.S. Supreme Court, state officials, international organizations, researchers, students, the media, and others interested in criminal justice statistics.

Abstract: The Drug Enforcement Administration (DEA) is a federal law enforcement agency charged with enforcing the controlled substances laws and regulations of the United States. Its principal responsibilities include investigation and prosecution of major violators of controlled substances laws.

Because of the nature of DEA's mission, and its status as a law enforcement agency, past use of illegal drugs by potential employees presents special concerns, and therefore the agency evaluates a job applicant's illegal drug use and abuse during the application process. Executive Order 12564 is supported in the DEA Pre-Employment Drug Policy that a history of illegal drug use or abuse may be a disqualification for employment with DEA.

This new form notifies job applicants of the DEA Pre-Employment Drug Policy and asks them to acknowledge their understanding of those requirements to
