

public concerns in an open forum setting.

ADDRESSES: Comments on this Environmental Assessment should be submitted in writing to: Mr. Douglas Faris, Superintendent, C&O Canal National Historical Park, 1850 Dual Highway, Suite 100, Hagerstown, Maryland, 21740. The Environmental Assessment will be available for public inspection Monday through Friday, 8 a.m. through 4 p.m. at the Great Falls Tavern, Great Falls Maryland; Georgetown Visitors Center, Washington, DC; CHOH Headquarters, 1850 Dual Highway, Suite 100, Hagerstown, MD; Great Falls Park Visitor Center, Great Falls Virginia; Clara Barton House, Glen Echo, MD; GWMP Headquarters, Turkey Run Park, McLean, VA; and at the following libraries: Little Falls Library, Bethesda, MD; Potomac Library, Potomac, MD; Palisades Library, Washington, DC; Dolley Madison Library, McLean, VA; Great Falls Library, Great Falls, VA; Fairfax City Regional Library, Fairfax, VA; Sterling Library, Sterling, VA; and Eastern Loudoun Library, Sterling, VA. The Environmental Assessment will also be made available in electronic format for downloading at the project Web site, <http://www.potomacinterceptor.com/whatsnew.html>.

SUPPLEMENTARY INFORMATION: The National Park Service proposes to permit the District of Columbia Water and Sewer Authority to construct four odor treatment units along the CHOH and the Clara Barton Parkway, and to construct two new comfort stations for the CHOH at Fletchers Boathouse (Site 1995) and at the Anglers Inn C&O Canal access area (Site 27). In addition, the CHOH plans to provide improvements to the parking areas at the Anglers Inn C&O Canal access area (Site 27). The objectives of the proposed actions include:

- Providing long-term control of odors in specific areas of the PI by a practical, reliable and effective means;
- Maintaining the integrity of the reinforced concrete sewer pipes by minimizing interference with the design function of the PI vent structures and PI sewer airflow dynamics thereby limiting the formation of corrosive conditions;
- Protect the public health with the adequate conveyance of wastewater in the PI system to the Blue Plains Advanced Wastewater Treatment Plant, by maintaining the satisfactory condition of the PI for many decades to come;
- Providing safe vehicular access to the Site 27 parking area, and to improve

the restroom facilities currently located at Site 27 and 1995 for the benefit of CHOH visitors.

All interested individuals, agencies, and organizations are urged to provide comments on the Environmental Assessment. The National Park Service, in making a final decision regarding this matter, will consider all comments received by the public comment period closing date.

FOR FURTHER INFORMATION CONTACT: Mr. Douglas Faris, (301) 714-2201.

Douglas D. Faris,
Superintendent, C&O Canal National Historical Park.

Decision Record and Finding of No Significant Impact (FONSI) for the Proposal To Reconstruct the Entrance Station at Great Falls Park, VA

AGENCY: National Park Service, Interior.

ACTION: Availability of the decision record and FONSI for the proposal to reconstruct the entrance station at Great Falls Park, Virginia.

SUMMARY: Pursuant to Council on Environmental Quality regulations and National Park Service policy, the National Park Service (NPS) announces the availability of the decision record and FONSI for the reconstruction of the entrance station at Great Falls Park, a unit of the George Washington Memorial Parkway (GWMP). The decision record and FONSI identifies Alternative C as the preferred and environmentally preferred alternative in the Environmental Assessment for the Great Falls Entrance Station Reconstruction. Under this alternative, the current one-story entrance station occupying approximately 100 square feet will be replaced by a one-story tall facility of approximately 240 square feet. The new entrance station will be constructed to meet all accessibility standards and include a restroom facility within the building for NPS employees who work in the entrance station. Traffic flow management patterns and procedures are expected to improve through an additional inbound lane located to the west of the new entrance station.

DATES: The Environmental Assessment, upon which the FONSI was made, was available for public comment from April 11-May 11, 2002. Two comments were

received, both in favor of the identified preferred alternative.

ADDRESSES: The decision record and FONSI will be available for public inspection Monday through Friday, 8 a.m. through 4 p.m. at the GWMP Headquarters, Turkey Run Park, McLean, Virginia.

FOR FURTHER INFORMATION CONTACT: Ms. Ann Brazinski (703) 289-2541.

SUPPLEMENTARY INFORMATION: The decision record and FONSI completes the Environmental Assessment process.

Audrey F. Calhoun,
Superintendent, George Washington Memorial Parkway.
