

hazardous waste program as an immediate final rule. The EPA did not make a proposal prior to the immediate final rule because we believe these actions are not controversial and do not expect comments that oppose them. We have explained the reasons for this codification and incorporation by reference in the preamble to the immediate final rule. Unless we get written comments which oppose this incorporation by reference during the comment period, the immediate final rule will become effective on the date it establishes, and we will not take further action on this proposal. If we get comments that oppose these actions, we will withdraw the immediate final rule and it will not take effect. We will then respond to public comments in a later final rule based on this proposal. You may not have another opportunity for comment. If you want to comment on this action, you must do so at this time.

DATES: Send written comments by November 28, 2008.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

50 CFR Part 17

[FWS-R8-ES-2008-0086; 92210-5008-3922-10-B2]

Endangered and Threatened Wildlife and Plants; 90-Day Finding on a Petition To List the Dusky Tree Vole (*Arborimus longicaudus silvicola*) as Threatened or Endangered

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of 90-day petition finding and initiation of status review.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), announce a 90-day finding on a petition to list the dusky tree vole (*Arborimus longicaudus silvicola*) in all of its range as threatened or endangered under the Endangered Species Act of 1973, as amended (Act). The petitioners also requested the Service to list either the north Oregon coast population of the red tree vole (*A. longicaudus*) as a Distinct Population Segment (DPS) or the red tree vole throughout all of its range because it is threatened or endangered in a significant portion of its range, if we

determined that the subspecies, *A. l. silvicola*, was not a valid taxon.

We find that the petition presents substantial scientific or commercial information indicating that listing the dusky tree vole as a subspecies may be warranted. Therefore, with the publication of this notice we are initiating a status review of the species, including the evaluation of the north Oregon coast population of red tree vole and the red tree vole throughout its range, and we will issue a 12-month finding on our determination as to whether the petitioned action is warranted. To ensure that the status review is comprehensive, we are soliciting scientific and commercial data and other information regarding this species. We will make a determination on critical habitat for this species if, and when, we initiate a listing action.

DATES: To allow us adequate time to conduct this review, we request that information you submit be received by us on or before December 29, 2008.

ADDRESSES: You may submit information by one of the following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the instructions for submitting comments.
- *U.S. mail or hand-delivery:* Public Comments Processing, Attn: FWS-R8-ES-2008-0086; Division of Policy and Directives Management; U.S. Fish and Wildlife Service; 4401 N. Fairfax Drive, Suite 222; Arlington, VA 22203.

We will not accept e-mail or faxes. We will post all information received on <http://www.regulations.gov>. This generally means that we will post any personal information you provide us (see the Information Solicited section below for more details).

FOR FURTHER INFORMATION CONTACT: Paul Henson, Project Leader, Oregon Fish and Wildlife Office, 2600 SE 98th Avenue, Portland, OR 97266; by telephone (503) 231-6179; or by facsimile (503) 231-6195. Persons who use a telecommunications device for the deaf (TTD) may call the Federal Information Relay Service (FIRS) at 800-877-8339.

SUPPLEMENTARY INFORMATION:

Information Solicited

When we make a finding that a petition presents substantial information indicating that listing a species may be warranted, we are required to promptly commence a review of the status of the species. To ensure that the status review is complete and based on the best available scientific and commercial information, we are soliciting
