

through new experiments, samples or tests.

(d) Making the data and models publicly available will assist in determining whether analytical results are capable of being substantially reproduced.

(3) These guidelines do not alter the otherwise applicable standards and procedures for determining when and how information is disclosed. Thus, the objectivity standard does not override other compelling interests, such as privacy, trade secret, and other confidentiality protections.

d. "Integrity" refers to the security of information—protection of the information from unauthorized access or revision, to ensure that the information is not compromised through corruption or falsification.

e. "Information" means any communication or representation of knowledge such as facts or data, in any medium or form, including textual, numerical, graphic, cartographic, narrative, or audiovisual forms. This definition includes information that the Endowment disseminates from a web page, but does not include the provision of hyperlinks to information that others disseminate. This definition does not include opinions, where the Endowment's presentation makes it clear that what is being offered is an individual's opinion rather than fact or the Endowment's views.

f. "Government information" means information created, collected, processed, disseminated, or disposed of by or for the Federal Government.

g. "Information dissemination product" means any book, paper, map, machine-readable material, audiovisual production, or other documentary material, regardless of physical form or characteristic, an Endowment disseminates to the public. This definition includes any electronic document, CD-ROM, or web page.

h. "Dissemination" means Endowment initiated or sponsored distribution of information to the public in all media and formats. Dissemination does not include:

(1) distribution limited to government employees or Endowment contractors or grantees; intra-or inter-agency use or sharing of government information;

(2) responses to requests for Endowment records under the Freedom of Information Act, the Privacy Act, the Federal Advisory Committee Act or other similar law; or

(3) distribution limited to correspondence with individuals or persons, press releases, archival records, public filings, subpoenas or adjudicative processes.

i. "Influential" when used in the phrase "influential statistical information" means the Endowment expects that information in the form of analytical results will likely have an important effect on the development of domestic or international government or private sector policies or will likely have important consequences for specific technologies, substances, products, or firms.

j. "Capable of being substantially reproduced" means that independent reanalysis of the original or supporting data using the same methods would generate similar analytical results, subject to an acceptable degree of imprecision.

Dated: June 12, 2002.

For the National Endowment for the Arts.

Hope O'Keeffe,

Acting General Counsel.

NUCLEAR REGULATORY COMMISSION

Agency Information Collection Activities: Submission for the Office of Management and Budget (OMB) Review; Comment Request

AGENCY: U. S. Nuclear Regulatory Commission (NRC).

ACTION: Notice of the OMB review of information collection and solicitation of public comment.

SUMMARY: The NRC has recently submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35). The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

1. *Type of submission, new, revision, or extension:* Revision.

2. *The title of the information collection:* NRC Form 445, Request For Approval of Official Foreign Travel.

3. *The form number if applicable:* NRC Form 445.

4. *How often the collection is required:* On occasion.

5. *Who will be required or asked to report:* Non-Federal consultants, contractors and NRC invited travelers (i.e., non-NRC employees).

6. *An estimate of the number of responses:* 200.

7. *The estimated number of annual respondents:* 200.

8. *An estimate of the total number of hours needed annually to complete the requirement or request:* 200.

9. *An indication of whether Section 3507(d), Pub. L. 104-13 applies:* N/A.

10. *Abstract:* Form 445, "Request for Approval of Foreign Travel," is supplied by consultants, contractors, and NRC invited travelers who must travel to foreign countries in the course of conducting business for the NRC. In accordance with 48 CFR 20, "NRC Acquisition Regulation," contractors traveling to foreign countries are required to complete this form. The information requested includes the name of the Office Director/Regional Administrator recommending travel, approved by the Office Director,

Regional Administrator or Chairman, as appropriate, the traveler's identifying information, purpose of travel, a listing of the trip coordinators, other NRC travelers and contractors attending the same meeting, and a proposed itinerary.

A copy of the final supporting statement may be viewed free of charge at the NRC Public Document Room, One White Flint North, 11555 Rockville Pike, Room O-1 F23, Rockville, MD 20852. OMB clearance requests are available at the NRC worldwide web site: <http://www.nrc.gov/public-involve/doc-comment/omb/index.html>. The document will be available on the NRC home page site for 60 days after the signature date of this notice.

Comments and questions should be directed to the OMB reviewer listed below by July 18, 2002. Comments received after this date will be considered if it is practical to do so, but assurance of consideration cannot be given to comments received after this date. Bryon Allen, Office of Information and Regulatory Affairs (3150-0193), NEOB-10202, Office of Management and Budget, Washington, DC 20503.

Comments can also be submitted by telephone at (202) 395-3087.

The NRC Clearance Officer is Brenda Jo. Shelton, 301-415-7233.

Dated at Rockville, Maryland, this 12th day of June, 2002.

For the Nuclear Regulatory Commission.

Brenda Jo. Shelton,

NRC Clearance Officer, Office of the Chief Information Officer.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 71-0122; Approval No. 0122; EA-01-164]

In the Matter of J. L. Shepherd & Associates, San Fernando, CA; Confirmatory Order Relaxing Order (Effective Immediately)

I

J. L. Shepherd & Associates (JLS&A) was the holder of Quality Assurance (QA) Program Approval for Radioactive Material Packages No. 0122 (Approval No. 0122), issued by the U.S. Nuclear Regulatory Commission (NRC or Commission) pursuant to 10 CFR part 71, subpart H. QA activities authorized by Approval No. 0122 include: design, procurement, fabrication, assembly, testing, modification, maintenance, repair, and use of transportation packages subject to the provisions of 10 CFR part 71. Approval No. 0122 was

originally issued January 17, 1980. Based on JLS&A's failure to comply with 10 CFR part 71, QA Program Approval No. 0122 was withdrawn by the immediately effective NRC Order, dated July 3, 2001, (66 FR 36603, July 12, 2001).

II

The NRC issued the July 3, 2001, Order (July 2001 Order) because the NRC lacked confidence that JLS&A would implement the QA Program approved by the NRC in accordance with 10 CFR part 71, subpart H, in a manner that would assure the required preparation and use of transportation packages in full conformance with the terms and conditions of an NRC Certificate of Compliance (CoC) and with 10 CFR part 71.

Subsequent to the July 2001 Order, JLS&A requested interim relief on several occasions, from the July 2001 Order based on JLS&A's proposed Near-Term Corrective Action Plan, to allow shipments in U.S. Department of Transportation specification packaging designated as 20WC. Based on a showing of good cause, the NRC issued Confirmatory Orders, dated September 19, 2001, (66 FR 49708, September 28, 2001), December 13, 2001, (66 FR 67556, December 31, 2001), March 29, 2002, (67 FR 16457, April 5, 2002), and April 26, 2002, (67 FR 22462, May 3, 2002), which relaxed the July 2001 Order by granting interim relief to allow specific shipments to identified customers in 20WC packages in accordance with JLS&A's Near-Term Corrective Action Plan, provided JLS&A satisfactorily completed certain commitments.

III

By letters dated February 26, 2002, as supplemented March 13, 18, and 25, 2002, JLS&A requested authorization to make additional shipments to customers not approved by the September 19, 2001, Order. JLS&A proposes to use the Near-Term Corrective Action Plan specified in the September 19, 2001, Confirmatory Order. JLS&A committed to: (1) Inspect the 20WC package (both shield and overpack); (2) document the inspection in a separate report; (3) perform the shipping and inspection function only by trained personnel; and (4) have the Independent Auditor verify compliance of each shipment with the foregoing commitments and certify such compliance in the monthly reports to the NRC. NRC withheld a decision on this part of the JLS&A request until after a pre-decisional enforcement conference was held with JLS&A. This Order

represents NRC's final decision on JLS&A's February 26, 2002, request.

In addition, on May 23, 2002, JLS&A consented to issuance of this Confirmatory Order granting interim relief from the July 2001 Order subject to the foregoing commitments, as set forth in Section IV below, and agreed that this Confirmatory Order is to be effective upon issuance, and agreed to waive its right to a hearing on this action. Implementation of these commitments will provide assurance that sufficient resources will be applied to the QA program, and that the program will be conducted safely and in accordance with NRC requirements.

I find that JLS&A's commitments as set forth in Section IV are acceptable and necessary and conclude that with these commitments the public health and safety are reasonably assured. The NRC staff reviewed JLS&A's relief request and JLS&A's safety performance under the above mentioned relaxation Orders, to determine whether to grant the requested relief with assurances that public health and safety are maintained. Furthermore, the NRC staff has recommended that an extension of JLS&A's request is warranted. In view of the foregoing, I have determined that the public health and safety require that JLS&A's commitments be confirmed by this Confirmatory Order. Based on the above and JLS&A's consent, this Confirmatory Order is effective immediately upon issuance.

IV

Accordingly, pursuant to Sections 62, 81, 161b, 161i, 182 and 186 of the Atomic Energy Act of 1954, as amended, and the Commission's regulations in 10 CFR Section 2.202 and 10 CFR Parts 71 and 110, *It is hereby ordered, Effective Immediately*, that the July 3, 2001, *Order is relaxed to grant JLS&A Interim Relief, To Complete* shipments in 20WCs to or From Any Customer, *Until May 31, 2003, In Accordance with* JLS&A's Near-Term Corrective Action Plan, *Provided:*

1. JLS&A uses the implementing procedures for the 1995 QA program plan, as revised, and the Near-Term Corrective Action Plan to complete an inspection of the 20WC packages involved in the shipments. The inspection will confirm that the packages and associated procedures are in conformance with 49 CFR 178.362, "Specification 20WC wooden protective jacket." Each inspection will include, at a minimum, actual physical measurements, and visual inspections for damage, corrosion, or other potentially unacceptable conditions;
