SUPPLEMENTARY INFORMATION: The Environment Chapter of the FTA includes obligations on each Party to ensure that its environmental laws and policies provide for and encourage high levels of environmental protection, effectively enforce its environmental laws, and provide opportunities for

public participation on matters related to the implementation of the chapter. In the Joint Statement, the governments of the United States and Morocco (1) recognize "the importance of protecting the environment while promoting sustainable development in concert with the expanded bilateral trade and investment ties accompanying the United States-Morocco Free Trade Agreement ('FTA') and (2) indicate their intent "to pursue efforts to enhance bilateral environmental cooperation. . . ." The governments express their intention to undertake cooperative environmental activities pursuant to the Joint Statement. In paragraph 5 of the Joint Statement, the governments establish the Working Group to coordinate and review environmental cooperation activities. As envisioned in the Joint Statement, the Working Group will endeavor to develop a Plan of Action, review and assess cooperative environmental activities pursuant to the Plan of Action, recommend ways to improve such cooperation, and undertake such other activities as may seem appropriate to the governments. The Plan of Action is a tool to establish goals, objectives, and areas for cooperation, including short-, medium-, and long-term bilateral and/or regional projects and activities. Through this notice, the United States is soliciting the views of the public with respect to the 2014-2017 Plan of Action.
