Needs and Uses: Individuals who intend to become subscribers to a common carrier service use FCC Form 409 to apply for, to modify, and/or to renew their license(s) giving them authority to operate an airborne mobile radio telephone. In recent years, the number of respondents has declined dramatically.

OMB Control Number: 3060-0139.

Title: Application for Antenna Structure Registration.

Form Number: FCC 854 and FCC 854R.

Title: Section 76.946, Advertising of Rates.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Needs and Uses: Under 47 CFR 76.946 of FCC Rules, cable operators that advertise for basic service and cable programming service tiers are required to advertise rates that include all costs and fees. Cable systems that cover multiple franchise areas, having differing franchise fees or other

franchise costs, different channel line-ups, or different rate structures, may advertise a complete range of fees without specific identification of the rate for each individual area. In such circumstances, the operator may advertise a "fee plus" rate that indicates the core rate plus the range of possible additions, depending upon the particular location of the subscriber. This requirement is to make consumers aware of all fees associated with basic service and cable programming service tier rates.

Title: Associate WTB Call Signs and Antenna Registration Numbers with Licensee's FRN.

Form Number: FCC 606.

Type of Review: Revision to a currently approved collection.

Needs and Uses: Licensees use FCC Form 606 to associate their FCC Registration Number (FRN) with their Wireless Telecommunications Bureau call signs and antenna structure registration numbers. In addition, those antenna structure tenant licensees subject to the Anti-Drug Abuse Act of 1998 must use Form 606 to register their antenna structures. The form must be submitted before filing any subsequent applications associated with the existing license or antenna structure registration and prior to applying for an initial Wireless Telecommunications license or antenna structure registration. The Commission is revising FCC Form 606 and its instructions to remove information about the TIN registration requirements (including the title of the form) due to the implementation of the Commission Registration System (CORES) and to facilitate compliance with the Debt Collection Improvement Act of 1996 (DCIA).

OMB Control Number: 3060-0862.

Title: Handling Confidential Information, GC Docket No. 96-55.

Form Number: N/A.

Estimated Time per Response: 1 to 3 hours.

Total Annual Burden: 800 hours.

Total Annual Costs: \$23,000.

Needs and Uses: On August 4, 1998, the FCC released a *Report and Order, Examination of Current Policy Concerning the Treatment of Confidential Information Submitted to the Commission (R&O)* in GC Docket No. 96-55. The R&O included a Model Protective Order (MPO) that is used, when appropriate, to grant limited access to information that the Commission determines should not be routinely available for public inspection. The party granted access to the confidential information materials must keep a written record of all copies made and provide this record to the submitter of the confidential materials on request. The approach was adopted to facilitate the use of confidential materials under an MPO, instead of restricting access to materials. In addition, the FCC amended 47 CFR 0.459(b) to set forth the type of information that should be included when a party submits information to the Commission for which it seeks confidential treatment. This listing of the types of information to be submitted was adopted to provide guidance to the public for confidentiality requests.

Federal Communications Commission.

Acting Secretary.
