DEPARTMENT OF AGRICULTURE

Natural Resources Conservation Service

Meadow Branch Watershed; Robeson County, NC

AGENCY: Natural Resources Conservation Service, USDA. **ACTION:** Notice a finding of no

significant impact.

SUMMARY: Pursuant to section 102(2)(C)(C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Guidelines (7 CFR part 650); the Natural Resources Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Meadow Branch Watershed, Robeson County, North Carolina.

FOR FURTHER INFORMATION CONTACT:

Mary T. Kollstedt, State Conservationist, Natural Resources Conservation Service, 4405 Bland Road, Suite 205, Raleigh, North Carolina 27609, telephone (919) 873–2101.

SUPPLEMENTARY INFORMATION: The environmental assessment of this federally assisted action indicates that the project will not cause significant local, regional, or national impacts on the environment. As a result of these findings, Mary Kollstedt, State Conservationist, has determined that the preparation and review of an environmental impact statement are not needed for this project.

Structural measures include 41,600 linear feet of channel excavation; 10,300 linear feet of channel clearing and snagging; 2,400 linear feet of channel maintenance/restoration; and 15 water control structures. This will reduce flood damages on 1,500 acres of cropland, for 10 limited resource farmers, and 140 homes. Water management will be provided for 611 acres of cropland.

The Notice of a Finding of No Significant Impact (FONSI) has been forwarded to the Environmental Protection Agency and to various federal, state, and local agencies and interested parties. A limited number of copies of the FONSI are available to fill single copy requests at the above address. Basic data developed during the environmental assessment are on file and may be reviewed by contacting Jacob Crandall, Acting Assistant State Conservationist for Water Resources at 4405 Bland Road, Suite 205, Raleigh, North Carolina 27609.

No administrative action on implementation of the proposal will be

taken until 30 days after the date of this publication in the **Federal Register**.

Dated: February 7, 2000.

Mary T. Kollstedt,

State Conservationist.

Rural Housing Service

Notice of Request for Extension of a Currently Approved Information Collection

AGENCY: Rural Housing Service, USDA. **ACTION:** Proposed collection; comments request.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the Rural Housing Service's (RHS) intention to request an extension for the currently approved information collection in support of our program for Complaints and Compensation for Construction Defects.

DATES: Comments on this notice must be received by April 17, 2000 to be assured

FOR FURTHER INFORMATION CONTACT:

of consideration.

Melissa Carter, Management Analyst, Single Family Housing Direct Loan Division, RHS, U.S. Department of Agriculture, STOP 0783, 1400 Independence Avenue, SW, Washington, DC 20250–0783, Telephone (202) 720–1478.

SUPPLEMENTARY INFORMATION:

Title: RD Instruction 1924–F, "Complaints and Compensation for Construction Defects."

OMB Number: 0575-0082.

Expiration Date of Approval: March 31, 2000.

Type of Request: Extension of a currently approved information collection.

Abstract: The Complaints and Compensation for Construction Defects program under Section 509C of Title V of the Housing Act of 1949, as amended, provides eligible persons who have structural defects with their Agency financed homes to correct these problems. Structural defects are defects in the dwelling, installation of a manufactured home, or a related facility or a deficiency in the site or site development which directly and significantly reduces the useful life, habitability, or integrity of the dwelling or unit. The defect may be due to faulty material, poor workmanship, or latent causes that existed when the dwelling or unit was constructed. The period in

which to place a claim for a defect is within 18 months after the date that financial assistance was granted. If the defect is determined to be structural and is covered by the builders/dealers-contractor's warranty, the contractor is expected to correct the defect. If the contractor cannot or will not correct the defect, the borrower may be compensated for having the defect corrected, under the Complaints and Compensation for Construction Defects program. Provision of this subpart do not apply to dwellings financed with guaranteed Section 502 loans.

Estimate of Burden: Public reporting for this collection of information is estimated to average .26 hours per response.

Respondents: Individuals or households.

Estimated Number of Respondents: 5,000.

Estimated Number of Responses per Respondent: 1.05.

Estimated Number of Responses: 5,250.

Estimated Total Annual Burden on Respondents: 1,350 hours.

Copies of this information collection can be obtained from Brigitte Sumter, Regulations and Paperwork Management Branch, at (202) 692–0042.

Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of RHS, including whether the information will have practical utility; (b) the accuracy of RHS's estimate of the burden of the proposed collection of information, including a variety of methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology. Comments may be sent to Brigitte Sumter, Regulations and Paperwork Management Branch, US Department of Agriculture, Rural Development, STOP 0743, 1400 Independence Avenue, SW, Washington, DC 20250-0743. All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Dated: February 4, 2000.

Rural Utilities Service

Freedom Power Station Plant, Notice of Finding of No Significant Impact

AGENCY: Rural Utilities Service, USDA. **ACTION:** Notice of Finding of No Significant Impact.

SUMMARY: Notice is hereby given that the Rural Utilities Service (RUS), pursuant to the National Environmental Policy Act of 1969, as amended, the Council on Environmental Quality Regulations (40 CFR Parts 1500-1508), and RUS Environmental Policies and Procedures (7 CFR Part 1794), has made a finding of No Significant Impact (FONSI) with respect to a project proposed by Southwestern Electric Cooperative, Inc., (SEC) of Greenville, Illinois. The proposed project consists of constructing a natural gas-fired simple cycle, combustion turbine power generation facility near Wright?s Corner in Fayette County, Illinois. The primary purpose of the facility is to meet SEC peak electrical load. The unit will have a peak capacity of 45 MW. The facility will be located on a 1.5 acre tract of land on the East Side of County Highway 4 approximately six miles north of the City of Elmo, Illinois. The power generated from the facility will be distributed through an existing transmission line owned and operated jointly by SEC and Ameren. No additional construction of the transmission facility will be required. Kansas-Nebraska Energy will provide natural gas fuel for the facility. The Kansas-Nebraska Energy gas pipeline is located about 50 feet from the plant site. RUS may provide financing assistance to SEC for the project.

RUS has concluded that the impacts from the proposed project would not be significant and that the proposed action is not a major federal action significantly affecting the quality of the human environment. Therefore, the preparation of an environmental impact statement is not necessary.

FOR FUTHER INFORMATION CONTACT: Nurul Islam, Environmental Protection Specialist, Rural Utilities Service, Engineering and Environmental Staff, Stop 1571, 1400 Independence Avenue, SW, Washington, DC 20250-1571, telephone: (202) 720-1414. His e-mail

address is nislam@rus.usda.gov. Information is also available from Mr. Joe Richardson, Business Development and Marketing Manager, SEC, 525 US Route 40, Greenville, Illinois 62246, telephone (618) 664-1025.

SUPPLEMENTARY INFORMATION: RUS, in accordance with its environmental policies and procedures, required that SEC prepare an Environmental Report (ER) reflecting the potential impacts of the proposed facilities. The ER, which includes input from Federal, State, and local agencies, has been reviewed and adopted as RUS?s Environmental Assessment (EA) for the project in accordance with 7 CFR 1794.41. RUS and SEC published notices of the availability of the EA and solicited public comments per 7 CFR 1794.42. No comments were received. Based on the EA, RUS has concluded that the proposed action will not have a significant effect to various resources, including important farmland, floodplains, wetlands, cultural resources, threatened and endangered species and their critical habitat, air and water quality, and noise. RUS has also determined that there would be no negative impacts of the proposed project on minority communities and lowincome communities as a result of the construction of the project.

Copies of the EA and FONSI can be reviewed at the headquarters of SEC and the RUS, at the addresses provided

above in this notice.

Dated: February 10, 2000.

DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

[Docket 3-2000]

Foreign-Trade Zone 148, Knoxville, TN; Application for Subzone Status, **Matsushita Electronic Components Corporation of America Plant** (Capacitors, Automotive Audio Speakers)

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the Industrial Development Board of Blount County, grantee of FTZ 148, requesting special-purpose subzone status for the electrolytic capacitor and automotive audio speaker manufacturing plant of Matsushita Electronic Components Corporation of America (ACOM) (a subsidiary of

Matsushita Electric Industrial Co., Ltd., of Japan), located in Knoxville, Tennessee. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR Part 400). It was formally filed on February

The ACOM plant (40 acres/370,000 sq.ft.) is located within the Forks of the River Park at 5105 South National Drive, Knoxville, Tennessee. The facility is used to produce aluminum electrolytic capacitors (HTSUS# 8532.22.0020-85), aluminum etched capacitor foil (7607.19.1000), and automotive audio speakers (8518.29.8000), for export and the domestic market. The production process involves design, assembly, testing, and warehousing. Components purchased from abroad (representing 10 to 100% of overall material value) include: adhesives (epoxide, phenolic), cone paper, cushions, dust caps, flexible wire, eyelets, gaskets, grille, magnets, plates, fasteners, nets, sub cones, supporters, dampers, terminals, tweeters, voice coils, cord assemblies, aluminum etched foil, ammonium adipate, electrolyte, aluminum cases and washers, terminal boards, vent plugs, vinyl sleeves, insulation boards, wax, adhesive tape, positive/negative leads, and separator paper (duty rate range: free—6.5%).

FTZ procedures would exempt ACOM from Customs duty payments on the foreign components used in export production. On its domestic sales, the company would be able to choose the duty rate that applies to finished aluminum electrolytic capacitors (duty free), aluminum etched capacitor foil (5.3%), and automotive audio speakers (4.9%) for the foreign inputs noted above. On ACOM's automotive original equipment sales, the motor vehicle duty rate (2.5%) would apply to the finished automotive audio speakers that are shipped in-bond to U.S. motor vehicle assembly plants with subzone status. The application indicates that subzone status would help improve the plant's international competitiveness.

In accordance with the Board's regulations, a member of the FTZ Staff has been designated examiner to investigate the application and report to

Public comment on the application is invited from interested parties. Submissions (original and three copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is April 17, 2000. Rebuttal comments in response to material submitted during the foregoing period
