The areas described aggregate 3,763 acres, more or less, in Fresno and San Benito Counties.

The BLM's petition has been approved by the Assistant Secretary for Land and Minerals Management. Therefore, the petition constitutes a withdrawal proposal of the Secretary of the Interior (43 CFR 2310.1-3(e)).

The purpose of the proposed withdrawal is to minimize impacts to human health and the environment from hazardous emissions of airborne asbestos fibers associated with mining activities on the 33,000-acre portion of the CCMA designated as the Serpentine Area of Critical and Environmental Concern (ACEC).

The use of a right-of-way, interagency agreement, or cooperative agreement would not adequately constrain non-discretionary uses that could irrevocably expose to excess lifetime cancer risks.

There are no suitable alternative sites for the requested withdrawal.

No water rights would be needed to fulfill the purpose of the requested withdrawal.

A preliminary review of mineral resources in the subject area determined

that no mineral leases are known to exist in the subject area and no known potential for commercial fossil fuel or geothermal energy minerals exists in the subject area. Asbestos, mercury, chromite, and magnesite are among the only locatable minerals of interest in the area, although none are expected to be commercially important commodities in the foreseeable future. Nevertheless, the KCAC mine, formerly owned and operated by Union Carbide, Corp., is still considered an active mining claim, even though asbestos production ceased after 2002. Other locatable minerals of interest, including precious gem-quality benitoite and semi-precious jadeite, continue to be mined intermittently on a small-scale in the subject area. Mining and production of these gem minerals has been occurring for decades on public and privately owned lands in the ACEC. This proposed withdrawal would be subject to valid existing rights and therefore would not prohibit future exploration or mining activities on valid pre-existing claims.

Until November 1, 2010, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing, by the date specified above, to the Field Manager, Hollister Field Office, BLM, 20 Hamilton Court, Hollister, California 95023.

Comments, including names and street addresses for respondents, will be available for public review at the BLM's Hollister Field Office, during regular business hours, 7:30 a.m. to 4 p.m., Monday through Friday, except holidays. Individual respondents may request confidentiality. Before including your address, telephone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so. All submissions from organization or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be made available for public inspection in their entirety.

Notice is hereby given that at least one public meeting will be held in connection with the proposed withdrawal. Upon determination of the time and place a notice will be published in the **Federal Register** and a local newspaper at least 30 days prior to

the scheduled date of the meetings. All interested persons who desire additional public meetings for the purpose of being heard on the proposed withdrawal must submit a written request to the Field Manager, Hollister Field Office, BLM, 20 Hamilton Court, Hollister, California 95023, no later than November 1, 2010.

The application will be processed in accordance with the regulations set forth in 43 CFR part 2300.

For a period of 2 years from August 3, 2010, the lands described in this notice will be segregated as specified above unless the application is denied or canceled or the withdrawal is approved prior to that date.

Licenses, permits, cooperative agreement, or discretionary land use authorizations of a temporary nature which will not significantly impact the values to be protected by the withdrawal may be allowed with the approval of the authorized officer of the BLM during the segregative period.

Authority: 43 CFR 2310.3-1(a).

Assistant Deputy State Director, Natural Resources (CA-930).
