RIN 0694–XC084

**Notice of Request for Public Comments on Risks in the Semiconductor Supply Chain**

**AGENCY:** Bureau of Industry and Security, Office of Technology Evaluation, U.S. Department of Commerce.

**ACTION:** Notice of request for public comments.

**SUMMARY:** The Department of Commerce (“Department”) (Bureau of Industry (“BIS”)) led the 100-Day Supply Chain Review of semiconductors and advanced packaging that was mandated by Presidential Executive Order. On February 24, 2021, President Biden issued an Executive Order on “America’s Supply Chains,” which directs several federal agency actions to secure and strengthen America’s supply chains. This review, included in the White House Report “Building Resilient Supply Chains, Revitalizing American Manufacturing, and Fostering Broad-Based Growth”, identified numerous areas of supply chain vulnerabilities. The ongoing shortages in the semiconductor product supply chain are having an adverse impact on a wide range of industry sectors. With the goal of accelerating information flow across the various segments of the supply chain, identifying data gaps and bottlenecks in the supply chain, and potential inconsistent demand signals, the Department is seeking responses from interested parties (including domestic and foreign semiconductor design firms, semiconductor manufacturers, materials and equipment suppliers, as well as semiconductor intermediate and end-users) to the questions set forth in this notice.

**DATES:** The due date for filing comments is November 8, 2021.

**ADDRESSES:** *Submissions:* You may submit comments, identified by docket number BIS 2021–0036 or RIN 0694–XC084, through the *Federal eRulemaking Portal:* <http://www.regulations.gov>. To submit comments via <https://www.regulations.gov>, enter docket number BIS–2021–0036 on the home page and click “search.” The site will provide a search results page listing all documents associated with this docket. **SUPPLEMENTARY INFORMATION:**

**Background**

BIS led the Department’s 100 Day Supply Chain Review of semiconductors and advanced packaging that was mandated by Presidential Executive Order (E.O.) 14017. On February 24, 2021, President Biden issued E.O. 14017 on “America’s Supply Chains,” which directs several federal agency actions to secure and strengthen America’s supply chains.

This review, included in the White House Report “Building Resilient Supply Chains, Revitalizing American Manufacturing, and Fostering Broad-Based Growth” (available at: <https://www.whitehouse.gov/wp-content/uploads/2021/06/100-day-supply-chain-review-report.pdf>) (last accessed September 3, 2021), identified numerous areas of supply chain vulnerabilities. In addition to the longer-term goals such as strengthening the domestic semiconductor manufacturing ecosystem and promoting U.S. leadership, this report called upon the Department to partner with industry to facilitate information flow between semiconductor producers and suppliers and end-users to address the current semiconductor shortage. The ongoing shortage of semiconductor products is having an adverse impact on a wide range of industry sectors.

With the goal of facilitating the flow of information across the various segments of the supply chain, identifying data gaps and bottlenecks in the supply chain, and potential inconsistent demand signals, the Department is seeking responses from interested parties (including domestic and foreign semiconductor design firms, semiconductor and microelectronics manufacturers, materials and equipment suppliers, as well as semiconductor
