

pools, hot tubs, whirlpools and fountains without fish. It is also registered to control growth of algae, bacteria, and fungi in recirculating cooling towers, industrial air washing systems, and as a materials preservative in metal cutting fluids. Organic Esters of Phosphoric Acid is used primarily as a fungicide and bacteriostat, with the main use site being a material preservative for carpet backings. Some other use sites include paint, textiles, vinyl products, polymeric laminates, and epoxy flooring and tile. EPA has determined that the data base to support reregistration is substantially complete and that products containing Diiodomethyl p-tolyl sulfone (Amical 48), Busan 77, and Organic Esters of Phosphoric Acid are eligible for reregistration, provided the risks are mitigated either in the manner described in the REDs or by another means that achieves equivalent risk reduction. Upon submission of any required product specific data under section 4(g)(2)(B) of FIFRA and any necessary changes to the registration and labeling (either to address concerns identified in the REDs or as a result of product specific data), EPA will make a final reregistration decision under section 4(g)(2)(C) of FIFRA for products containing Diiodomethyl p-tolyl sulfone (Amical 48), Busan 77, and Organic Esters of Phosphoric Acid.

EPA is applying the principles of public participation to all pesticides undergoing reregistration and tolerance reassessment. The Agency's Pesticide Tolerance Reassessment and Reregistration; Public Participation Process, published in the **Federal Register** on May 14, 2004, (69 FR 26819) (FRL-7357-9) explains that in conducting these programs, EPA is tailoring its public participation process to be commensurate with the level of risk, extent of use, complexity of issues, and degree of public concern associated with each pesticide. Due to its uses, risks, and other factors, Diiodomethyl p-tolyl sulfone (Amical 48), Busan 77, and Organic Esters of Phosphoric Acid were reviewed through the modified 4-Phase process. Through this process, EPA worked extensively with stakeholders and the public to reach the regulatory decisions for Diiodomethyl p-tolyl sulfone (Amical 48), Busan 77, and Organic Esters of Phosphoric Acid.

The reregistration program is being conducted under congressionally mandated time frames, and EPA recognizes the need both to make timely decisions and to involve the public. The Agency is issuing the Diiodomethyl p-tolyl sulfone (Amical 48), Busan 77, and Organic Esters of Phosphoric Acid REDs

for public comment. This comment period is intended to provide an additional opportunity for public input and a mechanism for initiating any necessary amendments to the RED. All comments should be submitted using the methods in **ADDRESSES**, and must be received by EPA on or before the closing date. These comments will become part of the Agency Dockets for Diiodomethyl p-tolyl sulfone (Amical 48), Busan 77, and Organic Esters of Phosphoric Acid. Comments received after the close of the comment period will be marked "late." EPA is not required to consider these late comments.

The Agency will carefully consider all comments received by the closing date and will provide a Response to Comments Memorandum in the Docket and regulations.gov. If any comment significantly affects the document, EPA also will publish an amendment to the RED in the **Federal Register**. In the absence of substantive comments requiring changes, the Diiodomethyl p-tolyl sulfone (Amical 48), Busan 77, and Organic Esters of Phosphoric Acid REDs will be implemented as it is now presented.

B. What is the Agency's Authority for Taking this Action?

Section 4(g)(2) of FIFRA, as amended, directs that, after submission of all data concerning a pesticide active ingredient, the Administrator shall determine whether pesticides containing such active ingredient are eligible for reregistration, before calling in product specific data on individual end-use products and either reregistering products or taking other "appropriate regulatory action."

Title: ARMIS Customer Satisfaction Report.

Report Number: ARMIS Report 43-06.

Type of Review: Extension of an existing collection.

Respondents: Businesses or other for-profit.

Number of Respondents and

Responses: 7 respondents; 7 responses.

Estimated Time per Response: 720 hours.

Frequency of Response: Annual reporting requirement.

Obligation to Respond: Voluntary. Statutory authority for this information collection is contained in 47 U.S.C. sections 11, 161, 219, and 220 of the Communications Act of 1934, as amended.

Total Annual Burden: 5,040 hours.

Total Annual Cost: None.

Privacy Act Impact Assessment: No impact.

Nature and Extent of Confidentiality: Ordinarily, questions of a sensitive nature are not involved in the ARMIS Customer Satisfaction Report. The Commission contends that areas in which detailed information is required are fully subject to regulation and the issue of data being regarded as sensitive will arise in special circumstances only. In such circumstances, the respondent is instructed on the appropriate procedures to follow to safeguard sensitive data. Any respondent who submits information to the Commission that they believe is confidential, may request confidential treatment of such information under 47 CFR 0.459 of the Commission's rules.

Needs and Uses: This collection is being submitted to the Office of Management and Budget (OMB) to extend the approval for an additional three years. In the Commission's Memorandum Opinion and Order and Notice of Proposed Rulemaking, FCC 08-203, released September 6, 2008, the Commission granted in significant part AT&T's petition for forbearance from

the ARMIS service quality and infrastructure reporting requirements, subject to certain conditions. In addition, the Commission determined that its conclusions underlying its forbearance decision for AT&T also hold true for the other carriers required to file ARMIS Reports 43-05, 43-06, 43-07, and 43-08. Subject to certain conditions, the Commission found that the criteria of section 10(a)(1) and (a)(2) are satisfied. Given the burdens associated with the data reporting, and in light of the commitments of the reporting carriers, and other continuing regulatory requirements, the Commission determined that forbearance to be in the public interest.

The Commission noted that the reporting carriers have committed to continue gathering customer satisfaction data and to file those data publicly, through ARMIS Report 43-06 filings for 24 months from the effective date of the Commission's order. Further, the Commission noted that this will ensure continuity with regard to the customer satisfaction data that the Commission has collected up to this point, and affords the Commission a reasonable period of time to consider whether to adopt industry-wide reporting requirements. The Commission therefore adopted that commitment as a condition of its forbearance. Finally, the Commission granted the same forbearance relief to any similarly situated carriers who made the same commitment, and made clear that the relief that the Commission granted is not otherwise conditional.

In the Notice of Proposed Rulemaking (NPRM) portion of the Commission's September 6, 2008 Order published in the **Federal Register** on October 15, 2008 (73 FR 60997), the Commission recognized the possibility that customer satisfaction data contained in ARMIS Report 43-06 might be useful to help them make informed choices in a competitive market, but only if available from the entire relevant industry. The Commission tentatively concluded that it should collect this type of information, and seek comments on specific information that the Commission could collect. The Commission also asked for comments on the appropriate mechanism for such data collection.

The information contained in the ARMIS Report 43-06 provides the necessary detail to enable this Commission to fulfill its regulatory responsibilities. Automated reporting of these data greatly enhances the Commission's ability to process and analyze the extensive amounts of data that are needed to administer its rules.

Automating and organizing data submitted to the Commission facilitate the timely and efficient analysis of revenue requirements, rate of return and price caps, and provide an improved basis for auditing and other oversight functions. It also enhances the Commission's ability to quantify the effects of policy proposals.

Federal Communications Commission.

Secretary.
