The information and data will also be used to respond to inquiries regarding the H-1B Grants program that come from the Executive branch,

Congress, the General Accounting Office, the media and others. To date, the DOL/ETA has awarded 129 grants under the H-1B Technical Skills Training Grants program.

The Department of Labor is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proposed performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

A copy of the proposed information collection request (ICR) may be obtained by contacting the office listed in the Addressee section of this notice.

Notes:

1. The estimate of hourly reporting burden per quarter for each grantee includes the time spent by the grantee to collect necessary information and to enter the information into ETA's EIMS.

2. Number of grantees varies during the course of the year. Some grants are completed and others will start during any given year. However, each grantee will be required to submit one progress report per quarter. The total number of reports submitted during a year thus varies depending on the number of operational grants in a particular year.

3. A final report is required once from each grantee. On average, the final report burden is estimated at 40 hours, including gathering of project statistics from existing data sources and writing and editing the report.

4. The total burden cost was based upon the median hourly wage for an Administrative Assistant/Executive Assistant using data for year 2001 (latest year for which data are available) from DOL's O*Net system.

Comments submitted in response to this notice will be submitted and/or included in the request for Office of Management and Budget approval of the information collection request; they will become a part of the public record.
