The Board's Section of Environmental Analysis (SEA) conducted an environmental review of the proposed construction and alternatives to the proposal. An Environmental Assessment (EA), prepared by SEA, was issued for public review and comment on March 28, 2008. SEA then prepared a Post EA dated June 30, 2008. The Post EA considers all of the comments received on the EA, reflects SEA's further independent analysis, and sets forth SEA's final recommendations on alternatives and environmental mitigation.

After considering the entire record, including both the transportation aspects of the petition and the potential environmental issues, the Board is granting the requested exemption and authorizing the construction of the route designated as Alternative 2, subject to the environmental mitigation measures
