The Cooperative State Research,
Education, and Extension Service
(CSREES) is revising part 3419 of title 7,
subtitle B, chapter XXXIV of the Code
of Federal Regulations which

implements the matching requirements
provided under section 1449 of the
National Agricultural Research,
Extension, and Teaching Policy Act of
1977 (NARETPA) for agricultural
research and extension formula funds
authorized for the 1890 land-grant
institutions including Tuskegee
University and West Virginia State
College. This revision is required due to
the statutory amendments of sections
7212 and 7213 of the Farm Security and
Rural Investment Act of 2002 (FSRIA),
Public Law 107-171. Section 7212 of
FSRIA revised the matching
requirements in section 1449 from 50
percent of the formula funds distributed
to each eligible institution in fiscal year
(FY) 2002 to 60 percent of the formula
funds distributed in FY 2003; 70 percent
in FY 2004; 80 percent in FY 2005; 90
percent in FY 2006; and 100 percent in
FY 2007 and thereafter. In addition, this
section provided the Secretary of
Agriculture with a new waiver authority
for the matching funds requirement
above the 50 percent level for any fiscal
year for an eligible institution of a State
if the Secretary determines that the State
will be unlikely to satisfy the matching
requirement. The Secretary's prior
waiver authority extended only to FY
2000 formula funds. The proposed rule
also implements section 753 of the
Agriculture, Rural Development, Food
and Drug Administration, and Related
Agencies Appropriations Act, 2002,
Pub. L. 107-76, to extend this regulation
to West Virginia State College.

Prior to FSRIA, section 3(d) of the
Hatch Act (7 U.S.C. 361c(d)) and section
3(e) of the Smith-Lever Act (7 U.S.C.
343(e)) subjected the 1862 land-grant
institutions in American Samoa, the
Commonwealth of Puerto Rico, Guam,
the Commonwealth of Northern
Marianas Islands, the Virgin Islands of
the United States, and the College of
Micronesia to the same matching
requirements as those applicable to an
eligible institution under section 1449
of NARETPA. In implementing these
Hatch Act and Smith-Lever Act
requirements, CSREES promulgated the
existing rule also to address the
matching requirements for the insular
area land-grant institutions. Section
7213 of FSRIA amended the Hatch Act
and Smith-Lever Act to no longer
subject the insular area land-grant
institutions to the NARETPA section
1449 matching requirements. Instead,
section 3(d) of the Hatch Act and
section 3(e) of the Smith-Lever Act
provide for the insular areas a 50
percent matching requirement of the
Federal formula funds beginning in
fiscal year 2003. Both Acts empower the

Secretary of Agriculture to waive these
matching requirements for any fiscal
year if the Secretary determines that the
government of the insular area is
unlikely to meet the requirement for
that fiscal year. Promulgation of the
insular area land-grant institution
matching requirements for Federal
formula funds will be done at a later
date and through a separate rulemaking.
The proposed revised part 3419 will
address only the matching requirements
for the 1890 land-grant institutions.

CSREES also proposes to clarify the
definition of "Qualifying Educational
Activities" by proposing that the
"Qualifying Educational Activities"
meet the definition of "Food and
Agricultural Sciences" under § 1404(8)
of NARETPA (7 U.S.C. 3103(8)) and the
definition of "Teaching and Education"
under section 1404(15) of NARETPA (7
U.S.C. 3103(15)). In addition, CSREES is
proposing that the word "approved" be
deleted in § 3419.6 "Use of matching
funds" as the use of this word has been
misleading. CSREES does not consider
and approve the types of "Qualifying
Educational Activities" used to meet the
matching requirements. It is the
responsibility of the eligible institution
to ensure that the "Qualifying Education
Activities" meet the definition of "Food
and Agricultural Sciences" and
"Teaching and Education." The
proposed rule also will remove the
outdated requirement in the current
§ 3419.3 for eligible institutions to
submit a 1999 report. The proposed rule
will revise § 3419.3 to address the
Secretary's new waiver authority
discussed above.

Classification

This proposed rule was reviewed
under Executive Order 12866 and was
determined to be nonsignificant. It will
not create a serious inconsistency or
otherwise interfere with an action
planned by another agency. It will not
materially alter the budgetary impact of
entitlement, grants, user fees, or loan
programs, or the rights and obligations
of the recipients thereof. It will not raise
novel legal or policy issues arising out
of legal mandates, the President's
priorities, or principles set forth in
Executive Order 12866. This proposed
rule will not have an annual effect on
the economy of \$100 million or more or
adversely affect in a material way the
economy, a sector of the economy,
productivity, competition, jobs, the
environment, public health or safety, or
State, local, or tribal governments or
communities.

Regulatory Flexibility Act

The Department certifies that this proposed rule will not have a significant impact on a substantial number of small entities as defined in the Regulatory Flexibility Act, Public Law No. 96-354 (5 U.S.C. 601 *et seq.*). Accordingly, a regulatory flexibility analysis is not required for this proposed rule.

Catalog of Federal Domestic Assistance

The programs affected by this proposed rule are listed in the Catalog of Federal Domestic Assistance under 10.205, Payments to the 1890 Land-Grant Institutions and Tuskegee University and West Virginia State College, and No. 10.500, Cooperative Extension Service.

Paperwork Reduction Act

In accordance with the Office of Management and Budget (OMB) regulations (5 CFR part 1320) which implement the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35), the information collection and recordkeeping requirements that will be imposed in the implementation of this proposed rule will be submitted to OMB for approval. These requirements would not become effective prior to OMB approval.

Title: Section 1449 Matching Funds Requirements for Research and Extension Activities at Eligible Institutions.

Summary: The purpose of this information collection is to implement the requirements of section 1449 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (NARETPA). This provision establishes the matching requirements for the 1890 land-grant institutions," including Tuskegee University and West Virginia State College. This information collection had previously been approved by OMB as No. 0524-0038 and expires on 04/30/2003. Section 7212 of the Farm Security and Rural Investment Act of 2002 (FSRIA) amended section 1449 of NARETPA. The existing information collection needs revision to reflect the amended requirements. In order to be in compliance with the Government Paperwork Elimination Act (44 U.S.C. 3504 note), CSREES will develop and implement an electronic option for submitting this information as soon as a robust eAuthentication solution is available. CSREES is expectant that this could occur by June 2004.

Need for the Information: This information is needed by CSREES to determine if the matching requirements under section 1449 of NARETPA have

been met by the 1890 land-grant institutions including Tuskegee University and West Virginia State College. CSREES intends to require the eligible institutions to complete Form CSREES-2103, "Section 1449 Matching Funds Requirement for Research and Extension Activities at Eligible Institutions," up to three times per year for research activities and three times per year for extension activities to provide information on the projected funds, the actual funds, and any revisions to the actual funds.

Respondents: Respondents will be the eighteen 1890 land-grant institutions, including Tuskegee University and West Virginia State College, which will provide information to USDA on the amount and source of non-Federal funds made available by the States to the eligible institutions for agricultural research, extension, and qualifying educational activities to meet the matching requirements of section 1449 of NARETPA.

Estimate of the Burden: The estimated burden on the respondents for Form CSREES-2103, "Section 1449 Matching Funds Requirement for Research and Extension Activities at Eligible Institutions" is 3.6 hours per response. This burden estimate is based on a small survey of eligible institutions who have experience completing the current Form CSREES-2103, "Section 1449 Matching Funds Requirement for Research and Extension Activities at Eligible Institutions."

Estimated Number of Respondents: 18.

Estimated Annual Number of Responses: 108.

Estimated Total Annual Burden on Respondents: 388.8 hours.

Frequency of Responses: Three times a year.

Comments: Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (b) the accuracy of the Agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the

collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology. Comments may be sent to: CSREES-USDA; Office of Extramural Programs; Policy and Program Liaison Staff; Mail Stop 2299; 1400 Independence Avenue, SW.; Washington, DC 20250-2299 by July 3, 2003, or to the Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20502.
