[Airspace Docket No. 00–ACE–25]

Establishment of Class D and Class E Airspace, and Amendment to Class E Airspace; Garden City, KS**AGENCY:** Federal Aviation Administration (FAA), DOT.**ACTION:** Notice of proposed rulemaking.

SUMMARY: This notice proposes to establish Class D airspace area, a Class E surface area extension and amend the Class E surface area from full time to part time status at Garden City Regional Airport, Garden City, KS. An Air Traffic Control Tower (ATCT) is being established at Garden City Regional Airport and surface areas are necessary to provide controlled airspace for the safe and efficient operation of aircraft operating into and out of the Garden City Regional Airport. This proposal would create controlled surface areas at Garden City Regional Airport. The intended effect of this rule is to provide Class D airspace area, a Class E surface area extension, and amend Class E surface area from full time to part time status.

DATES: Comments must be received on or before September 29, 2000.

ADDRESSES: Send comments on the proposal in triplicate to: Manager, Airspace Branch, Air Traffic Division, ACE–520, DOT Regional Headquarters Building, Federal Aviation Administration, Docket Number 00–ACE–25, 901 Locust, Kansas City, MO 64106.

The official docket may be examined in the Office of the Regional Counsel for the Central Region at the same address between 9 a.m. and 3 p.m., Monday through Friday, except Federal holidays.

An informal docket may also be examined during normal business hours in the office of the Manager, Airspace Branch, Air Traffic Division, at the address listed above.

Communications should identify the airspace docket number and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: “Comments to Airspace Docket No. 00–ACE–25.” The postcard will be date/time stamped and returned to the commenter. All communications received on or before the closing date for comments will be considered before taking action on the proposed rule. The proposal contained in this notice may be changed in light of comments received. The Proposal

The FAA is considering an amendment to 14 CFR part 71 to establish Class D airspace area, a Class E surface area extension and amend the Class E surface area from full time to part time status at Garden City Regional Airport, Garden City, KS. An ATCT is being established at Garden City Regional Airport and Class D and Class E surface areas are necessary for the safe and efficient operation of aircraft in the vicinity of the airport. The areas will be depicted on appropriate aeronautical charts thereby enabling pilots to circumnavigate the area or otherwise comply with IFR procedures. Class D

airspace areas designated for an airport that contain at least one primary airport around which the airspace is designated are published in paragraph 5000, Class E airspace areas designated as a surface area for an airport are published in paragraph 6002, and Class E airspace areas designated as an extension to Class D airspace areas are published in paragraph 6004 of FAA Order 7400.9G, dated September 10, 1999, and effective September 16, 1999, which is incorporated by reference in 14 CFR 71.1. The airspace designations listed in this document would be published subsequently in the Order.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this proposed regulation (1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing a limited approval and limited disapproval of a revision to the Ventura County Air Pollution Control District's (VCAPCD) portion of the California State Implementation Plan (SIP). This revision concerns volatile organic compound (VOC) emissions from surface cleaning and degreasing. We are proposing action on a local rule that regulates this emission source under the Clean Air Act as amended in 1990 (CAA or the Act). We are taking comments on this proposal and plan to follow with a final action.

DATES: Any comments must arrive by September 8, 2000.

ADDRESSES: Mail comments to Andy Steckel, Rulemaking Office Chief (AIR-4), U.S. Environmental Protection Agency, Region IX, 75 Hawthorne Street, San Francisco, CA 94105-3901.

I. The State's Submittal

A. What Rule Did the State Submit?

Table 1 lists the rule addressed by this proposal with the date that it was adopted by the local air agency and submitted by the California Air Resources Board (CARB).

TABLE 1.—SUBMITTED RULE

VCAPCD	74.6	Surface Cleaning and Degreasing	11/10/98	02/16/99

On April 23, 1999, this rule submittal was found to meet the completeness criteria in 40 CFR Part 51 Appendix V, which must be met before formal EPA review.

B. Are There Other Versions of This Rule?

We approved a version of Rule 74.6 into the SIP on December 13, 1994. The VCAPCD adopted a revision to the SIP-approved version on July 9, 1996 and CARB submitted it to us on October 18,

1996. While we can act on only the most recently submitted version, we have reviewed materials provided with the previous submittal.
