SUMMARY: The Ecosystem and Ocean Planning (EOP) Committee and Advisory Panel (AP) of the Mid-Atlantic Fishery Management Council (Council) will hold a joint meeting. See **SUPPLEMENTARY INFORMATION** for agenda details.

DATES: The meeting will be held on Thursday, February 24, 2022, from 1 p.m. through 2:30 p.m.

ADDRESSES: The meeting will take place over webinar with a telephone-only connection option. Details on how to connect to the webinar by computer and by telephone will be available at: www.mafmc.org.

Council address: Mid-Atlantic Fishery Management Council, 800 N State Street, Suite 201, Dover, DE 19901; telephone: (302) 674–2331; website: www.mafmc.org.

FOR FURTHER INFORMATION CONTACT: Christopher M. Moore, Ph.D., Executive Director, Mid-Atlantic Fishery Management Council, telephone: (302) 526–5255.

SUPPLEMENTARY INFORMATION: The purpose of this meeting is for the EOP Committee and AP to provide feedback and input on a research project the Council is collaborating on with a research team from Rutgers University. The project is developing forecast models to predict short-term (1–10 years) climate-induced distribution changes for four economically important Mid and South Atlantic managed species (summer flounder, spiny dogfish, Illex squid, and gray triggerfish). Short-term projections should provide for greater management utility and application since most management considerations and decisions operate at similar timescales. A forecast model has been completed for summer flounder and the research team will present on model development and initial/draft results and outputs. The EOP Committee and AP will provide feedback on the model outputs and their potential utility and offer input on future project direction and next steps.

A detailed agenda and background documents will be made available on the Council's website (www.mafmc.org) prior to the meeting.
