

welcomes opportunities to increase diversity, equity, inclusion, and accessibility on its Federal advisory committees. EPA's Federal advisory committees have a workforce that reflects the diversity of the American people.

The Council consists of 32 members (including two Co-Chairpersons and two Vice-Chairpersons) appointed by EPA's Administrator. Members serve as non-Federal stakeholders who represent academia, business and industry; community-based organizations; non-governmental/environmental organizations; state and local governments; tribal governments and indigenous organizations, of which one member serves as a liaison to the National Tribal Caucus. Members are appointed for one (1); two (2) or three (3)-year terms with the possibility of reappointment for another term.

The NEJAC usually convenes 4 to 6 times a year, generally meeting face-to-face twice (2) a year in the Spring and the Fall and virtually for the remaining meetings. Additionally, members will be asked to participate in work groups to develop recommendations, advice letters, and reports to address specific policy issues. The average workload for members is approximately 20 to 25 hours per month, not including public meeting hours and with the expectation that the member will take part in two (2) or more workgroup activities. EPA provides reimbursement for travel and other incidental expenses associated with official Government business.

Nominations: Any interested person and/or organization may nominate qualified individuals for membership. Individuals are encouraged to self-nominate. The EPA values and welcomes opportunities to increase diversity, equity, inclusion and accessibility on its Federal advisory committees and is seeking to obtain nominations from all geographic locations of the United States of America. All nominations will be fully considered, but applicants need to be aware of the specific representation sought as outlined in the summary above. In addition, EPA is seeking nominees with knowledge in youth led or youth focused environmental organization; environmental measures; public health/health disparities; water infrastructure and other water concerns; farmworkers and pesticides; community sustainability and resiliency; green jobs and green infrastructure; land use and equitable development; and emerging inclusion of sub-populations such as the unhoused individuals, veterans, individuals in the criminal justice

system, etc. Other criteria used to evaluate nominees will include:

- the background and experience that would help members contribute to the diversity of perspectives on the committee (e.g., geographic, economic, social, cultural, educational background, professional affiliations, and other considerations),
- demonstrated experience with environmental justice and community sustainability issues at the national, state, or local level,
- excellent interpersonal and consensus-building skills,
- ability to volunteer time to attend meetings 4–6 times a year, participate in virtual and in-person meetings, volunteer time to take part in two (2) or more workgroup activities, attend listening sessions with the Administrator or other senior-level officials, develop policy recommendations to the Administrator, and prepare reports and advice letters, and
- willingness to commit time to the committee and demonstrated ability to work constructively and effectively on committees. The average workload for members is approximately 20 to 25 hours per month, not including public meeting hours and with the expectation that the member will take part in two (2) or more workgroup activities.

How to Submit Nominations: Any interested person or organization may nominate qualified persons to be considered for appointment to this advisory committee. Individuals are encouraged to self-nominate. Nominations will be submitted in electronic format following the template available at <https://www.epa.gov/environmentaljustice/nominations-nejac>. To be considered, all nominations should include:

- Current contact information for the nominee/applicant, including the nominee's/applicant's name, organization (and position within that organization), current business address, email address, telephone numbers and the stakeholder category position you are interested in.
- Brief Statement describing the nominee's/applicant's interest in serving on the NEJAC.
- Résumé and a short biography describing the professional and educational qualifications of the nominee, including a list of relevant activities, and any current or previous service on advisory committees.
- Brief statements describing experience as it relates to engaging affected communities, understanding environmental justice/relevant issues,

consensus building, communication skills and availability.

- Letter[s] of recommendation from a third party supporting the nomination. Letter[s] should describe how the nominee's experience and knowledge will bring value to the work of the NEJAC.

Dated: December 20, 2022.

Matthew Tejada,

Deputy Assistant Administrator for Office of Environmental Justice and External Civil Rights.

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; NSPS for Commercial and Industrial Solid Waste Incineration (CISWI) Units (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), NSPS for Commercial and Industrial Solid Waste Incineration (CISWI) Units (EPA ICR Number 1926.09, OMB Control Number 2060–0450), to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through January 31, 2023. Public comments were previously requested, via the **Federal Register**, on July 22, 2022 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An agency may neither conduct nor sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before January 26, 2023.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA–HQ–OAR–2022–0024, to: (1) EPA online using <https://www.regulations.gov/> (our preferred method), or by email to doCKET@epa.gov, or by mail to: EPA Docket Center, Environmental

Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave., NW, Washington, DC 20460; and (2) OMB's Office of Information and Regulatory Affairs using the interface at: <https://www.reginfo.gov/public/do/PRAMain>. Find this specific information collection by selecting "Currently under Review—Open for Public Comments" or by using the search function.

The EPA's policy is that all comments received will be included in the public docket without change, including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI), or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT:

Muntasir Ali, Sector Policies and Program Division (D243-05), Office of Air Quality Planning and Standards, U.S. Environmental Protection Agency, Research Triangle Park, North Carolina 27711; telephone number: (919) 541-0833; email address: ali.muntasir@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at either <https://www.regulations.gov>, or in person, at the EPA Docket Center, WJC West Building, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit: <http://www.epa.gov/dockets>.

Abstract: The New Source Performance Standards (NSPS) for the regulations published at 40 CFR part 60, subpart CCCC apply to either owners or operators of a combustion device used to combust commercial and industrial waste, and that meet either of the following two criteria: (1) began construction either on or after December 31, 1999; or (2) began either reconstruction or modification either on or after June 1, 2001. Commercial and industrial waste is a solid waste combusted in an enclosed device using controlled-flame combustion without energy recovery, which is a distinct operating unit of any commercial or industrial facility, including field-erected, modular, and custom-built incineration units operating with starved or excess air, or solid waste combusted in an air curtain incinerator without energy recovery that is a distinct operating unit of any commercial or industrial facility. In general, all NSPS standards require

initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance, and are required of all affected facilities subject to the NSPS.

Form Numbers: None.

Respondents/affected entities:

Owners and operators of CISWI units that are subject to the year 2000 standards.

Respondent's obligation to respond: Mandatory (40 CFR part 60, subpart CCCC).

Estimated number of respondents: 13 (total).

Frequency of response: Annually, semiannually.

Total estimated burden: 2,800 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$512,000 (per year), which includes \$176,000 in annualized capital/startup and/or operation & maintenance costs.

Changes in the Estimates: There is an adjustment decrease in the total estimated burden as currently identified in the OMB Inventory of Approved Burdens. This decrease in burden is not due to any program changes. Instead, the decrease is due to a decrease in the number of respondents to reflect facility closures. There is also a decrease in Capital/Startup and Operation and Maintenance costs due to a decrease in the number of sources.

Courtney Kerwin,

Director, Regulatory Support Division.

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OPPT-2016-0733; FRL-9948-02-OCSP]

Carbon Tetrachloride; Revision to Toxic Substances Control Act (TSCA) Risk Determination; Notice of Availability

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) is announcing the availability of the final revision to the risk determination for the carbon

tetrachloride risk evaluation issued under the Toxic Substances Control Act (TSCA). The revision to the carbon tetrachloride risk determination reflects the announced policy changes to ensure the public is protected from unreasonable risks from chemicals in a way that is supported by science and the law. EPA determined that carbon tetrachloride, as a whole chemical substance, presents an unreasonable risk of injury to health when evaluated under its conditions of use. In addition, this revised risk determination does not reflect an assumption that workers always appropriately wear personal protective equipment (PPE). EPA understands that there could be adequate occupational safety protections in place at certain workplace locations; however, not assuming use of PPE reflects EPA's recognition that unreasonable risk may exist for subpopulations of workers that may be highly exposed because they are not covered by Occupational Safety and Health Administration (OSHA) standards, or their employers are out of compliance with OSHA standards, or because many of OSHA's chemical-specific permissible exposure limits largely adopted in the 1970's are described by OSHA as being "outdated and inadequate for ensuring protection of worker health," or because EPA finds unreasonable risk for purposes of TSCA notwithstanding OSHA requirements. This revision supersedes the condition of use-specific no unreasonable risk determinations in the November 2020 Carbon Tetrachloride Risk Evaluation and withdraws the associated TSCA order included in the November 2020 Carbon Tetrachloride Risk Evaluation.

ADDRESSES: The docket for this action, identified by docket identification (ID) number EPA-HQ-OPPT-2016-0733, is available online at <https://www.regulations.gov> or in-person at the Office of Pollution Prevention and Toxics Docket (OPPT Docket), Environmental Protection Agency Docket Center (EPA/DC), West William Jefferson Clinton Bldg., Rm. 3334, 1301 Constitution Ave. NW, Washington, DC 20460-0001. The Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room is (202) 566-1744, and the telephone number for the OPPT Docket is (202) 566-0280. Additional instructions on visiting the docket, along with more information about dockets generally, is available at <https://www.epa.gov/dockets>.
