SUPPLEMENTARY INFORMATION:**Authority for This Rulemaking**

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would modify the VOR Federal airway route structure in the eastern United States to maintain the efficient flow of air traffic.

Availability and Summary of Documents for Incorporation by Reference

This document proposes to amend FAA Order JO 7400.11F, Airspace Designations and Reporting Points, dated August 10, 2021, and effective September 15, 2021. FAA Order JO 7400.11F is publicly available as listed in the **ADDRESSES** section of this proposed rule. FAA Order JO 7400.11F lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Proposal

The FAA is proposing an amendment to 14 CFR part 71 to amend VOR Federal airway V-10, and remove airways V-33, V-99, V-377, V-403, and V-405. The proposed route changes are described below.

V-10: V-10 consists of three parts extending from Pueblo, CO, to the intersection of the Bradford, IL 058° and the Joliet, IL 287° radials; from the intersection of the Chicago Heights, IL 358° and the Gipper, IL 271° radials to Litchfield, MI; and from Youngstown, OH, to Lancaster, PA. The FAA proposes to remove the segments from Youngstown, OH, to Lancaster, PA. These segments are no longer used by air traffic control (ATC) and no overlay is required.

V-33: V-33 extends from Harcum, VA, to Keating, PA. This action proposes to remove V-33 in its entirety. United States Area Navigation (RNAV) route T-291 is being extended to replace a segment of V-33, and T-307 will be

published as a partial overlay and replacement for V-33.

V-99: V-99 extends from LaGuardia, NY, to Hartford, CT. The FAA proposes to remove this route in its entirety. The route is no longer used by ATC and no overlay is required.

V-377: V-377 extends from Montebello, VA, to Harrisburg, PA. This action proposes to remove V-377 in its entirety. RNAV route T-299 will be amended as an overlay and replacement for V-377.

V-403: V-403 extends from Solberg, NJ, to the intersection of the Pottstown, PA 222° and the Baltimore, MD 034° radials. The FAA proposes to remove this route in its entirety. RNAV route T-443 will be published as an overlay and replacement for V-403.

V-405: V-405 extends from the intersection of the Pottstown, PA 222° and the Baltimore, MD 034° radials to Marthas Vinyard, MA. The FAA proposes to remove the route in its entirety. The route is no longer used by ATC and no overlay is required.

The full descriptions of the above routes are listed in the amendments to part 71 set forth below.

Domestic VOR Federal airways are published in paragraph 6010(a) of FAA Order JO 7400.11F, dated August 10, 2021, and effective September 15, 2021, which is incorporated by reference in 14 CFR 71.1. The VOR Federal airways listed in this document would be subsequently published and removed from FAA Order JO 7400.11.

FAA Order JO 7400.11, Airspace Designations and Reporting Points, is published yearly and effective on September 15.

Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under Department of Transportation (DOT) Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures” prior to any FAA final regulatory action.
