SUPPLEMENTARY INFORMATION:

History

On January 3, 2003, a notice
proposing to amend part 71 of the
Federal Aviation Regulations (14 CFR
part 71) by establishing Class E airspace
extending upward from 700 feet above
the surface within a 6-mile radius of
Ridgely Airpark, Ridgely, MD was
published in the **Federal Register** (68
FR 328-329). Interested parties were
invited to participate in this rulemaking
proceeding by submitting written
comments on the proposal to the FAA
on or before February 3, 2003. No
comments to the proposal were
received. The rule is adopted as
proposed.

The coordinates for this airspace
docket are based on North American
Datum 83. Class E airspace area
designations for airspace extending
upward from the surface of the earth are
published in paragraph 6005 of FAA
Order 7400.9K, dated August 30, 2002,

and effective September 16, 2002, which
is incorporated by reference in 14 CFR
71.1. The Class E airspace designation
listed in this document will be
published in the Order.

The Rule

This amendment to part 71 of the
Federal Aviation Regulations (14 CFR
part 71) provides controlled Class E
airspace extending upward from 700
feet above the surface for aircraft
conducting IFR operations within a 6-
mile radius of Ridgely Airpark, Ridgely,
MD.

The FAA has determined that this
regulation only involves an established
body of technical regulations for which
frequent and routine amendments are
necessary to keep them operationally
current. Therefore, this regulation: (1) Is
not a "significant regulatory action"
under Executive Order 12866; (2) is not
a "significant rule" under DOT
Regulatory Policies and Procedures (44
FR 11034; February 26, 1979); and (3)
does not warrant preparation of a
Regulatory Evaluation as the anticipated
impact is so minimal. Since this is a
routine matter that will only affect air
traffic procedures and air navigation, it
is certified that this rule will not have
significant economic impact on a
substantial number of small entities
under the criteria of the Regulatory
Flexibility Act.

The Direct Final Rule Procedure

The FAA anticipates that this regulation will not result in adverse or negative comment and, therefore, is issuing it as a direct final rule. Unless a written adverse or negative comment, or a written notice of intent to submit an adverse or negative comment is received within the comment period, the regulation will become effective on the date specified above. After the close of the comment period, the FAA will publish a document in the **Federal Register** indicating that no adverse or negative comments were received and confirming the date on which the final rule will become effective. If the FAA does receive, within the comment period, an adverse or negative comment, or written notice of intent to submit such a comment, a document withdrawing the direct final rule will be published in the **Federal Register**, and a notice of proposed rulemaking may be published with a new comment period.

Agency Findings

The regulations adopted herein will not have a substantial direct effect on the States, on the relationship between the national Government and the States, or on the distribution of power and responsibilities among the various levels of government.
