Rural Utilities Service

Title: Telecommunications System Construction Policies and Procedures.

OMB Control Number: 0572-0059.

Summary of Collection: The Rural Electrification Act of 1936 (RE Act), 7 U.S.C. 901 *et seq.*, was amended in 2002 by Title IV, Rural Broadband Access, by Farm Security and rural Investment Act, which authorizes Rural Utilities Service (RUS) to provide loans and loan guarantees to fund the cost of construction, improvement, or acquisition for facilities and equipment for the provision of broadband service in eligible rural communities in the States and territories of the United States. Title VI of the RE Act requires that loans are granted only to borrowers who demonstrated that they will be able to repay in full within the time agreed. RUS has established certain standards and specification for materials, equipment and construction to assure that standards are maintained; loans are not adversely affected, and loans are used for intended purposes.

Need and Use of the Information: RUS has developed specific forms for borrowers to use when entering into contracts for goods or services. The information collected is used to implement certain provisions of loan documents about the borrower's purchase of materials and equipment and the construction of its broadband system and is provided on an as needed basis or when the individual borrower undertakes certain projects. The standardization of the forms has resulted in substantial savings to

borrowers by reducing preparation of the documentation and the costly review by the government.

Description of Respondents: Business or other for-profit; Not-for-profit institutions.

Number of Respondents: 1,432.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 6,609.
